

# LAXATIVES

## for CHILDREN

To aid the Physician in choosing a laxative for children, we give the chief characteristics of Andrews. The dosage is easily adjusted according to age. Andrews is pleasant-tasting, and children accept it readily. Its laxative action is mild, and is due to the presence of magnesium sulphate and other salts in balanced proportion which increase the fluid content of the bowel by osmotic action and so lead to easy non-gripping evacuation. Andrews has a soothing effect on the stomach, stimulates the bile-flow and generally aids digestive processes. It is also useful as a gastric sedative in bilious attacks. Andrews has no costive reaction when discontinued.

#### APPROX. ACTIVE CONSTITUENTS:

Tartaric Acid	...	26.33%
Citric Acid	...	2.40%
Sodium Bicarbonate	...	30.86%
Magnesium Sulphate	...	19.00%

A Medical Sample is again available free on request.

**DOSAGE FOR CHILDREN:** For two years of age, it is safe to start with  $\frac{1}{2}$  teaspoonful and to increase the dose as necessary for older children.

## For the Disabled and the Infirm

**T**HE ability to get about, to maintain daily interests and social contacts, plays an important part in the continued health and happiness of the disabled and the infirm.

For this purpose the NELCO "SOLOCAR" is ideal. Electrically driven; silent, vibrationless and free from fumes; operated with one hand—effortlessly and without strain—it climbs any hill, travels forty miles without re-charging, passes through most doorways, turns in its own length.

Enquiries for the new post-war models can now be received. A fully detailed and illustrated brochure will shortly be issued.
