

REDUCE TIME LOST ON ADMINISTRATIVE WORK

Today, Doctors are finding that too much time is wasted on the increased amount of administrative detail, form-filling, correspondence, accounts, etc. Time which is urgently required for healing.

Shannons have applied their extensive knowledge to this problem and now you can take advantage of a new system designed especially for medical men.

Briefly, this comprehensive system consists of the following items: Case History Records, Accounts Records, Shannograph Desk Top Unit.

The Records consist of specially designed cards suspended on steel hangers in neat cabinets or convenient books. There before you, at each visit, is the complete history of each case. In your Accounts Record is the up-to-date position on payments. These cards will last a year or two based on the average number of consultations, yet they cost only a matter of pence per card.

There is not room here to give the full story of Shannographic applications for Doctors, but with these unique folders you can see at a glance the day-by-day position of any urgent or outstanding case. Inside go all the related forms, etc.

Why not let us help you in your essential work? There is no need to write a letter, just write on your card or letter-heading "Doctors' System," and send it to The Shannon Ltd., 40 Shannon Corner, New Malden, Surrey, for free details without obligation.

INSTABILITY**

Spencer *Sacro-iliac* Support

The Spencer you prescribe for Sacro-iliac or Lumbo-sacral instability will be designed to: Provide co-operation of abdominal and back support to modify any abnormal tilt of pelvis. Thus body mechanics are improved.

Grip pelvic girdle so effectively, stabilization of pelvis will result.

Immobilize the lower back when it is desirable to inhibit movement of specific parts. (Immobilization of entire back is provided when prescribed.)

Each Spencer Support is individually designed, cut, and made for the one patient who is to wear it. This assures the doctor that each patient will receive the proper design to aid his treatment; that the support will improve body mechanics and will fit with the precision and comfort necessary.

BEWARE OF IMITATIONS. Spencer (Banbury) Ltd. regret the necessity of warning the medical profession that in a number of instances where doctors have specifically prescribed a Spencer Support, a belt or corset of another make has been substituted, and proved unsatisfactory. Every genuine Spencer Support bears the SPENCER label.

A Development in Salicylate Therapy

'ALASIL' presents the beneficial therapeutic effects of acetylsalicylic acid in such a form that it is readily acceptable even to patients with finely balanced digestive systems. This high tolerability is due to the fact that 'Alasil' combines acetylsalicylic acid with Dibasic Calcium Phosphate and 'Alocol' (Colloidal Aluminium Hydroxide), an effective gastric sedative and antacid.

For this reason 'Alasil' can be administered with confidence in all the conditions in which such an agent is indicated, while its use affords the advantage of greater freedom from the possibility of unpleasant gastro-intestinal sequelae.

'Alasil' is, therefore, an analgesic, antipyretic and antirheumatic which can be prescribed for patients of all ages. Moreover, it is so well tolerated that its use can be continued to the desired extent.

Safe, effective bacteriostasis with 'SULFEX' in nasal and sinus infections

The intranasal use of 'Sulfex' ensures prolonged local bacteriostasis and prompt vasoconstriction. The microcrystalline sulphathiazole forms a fine, even 'frosting' over the nasal mucosa, and makes possible the maintenance of high local concentrations with the minimum of systemic absorption. The shrinking action of 'Paredrinex' renders the tissues more accessible to the sulphathiazole and promotes ventilation and drainage. 'Sulfex' is indicated in nasal and sinus infections—particularly those secondary to the common cold—and in sore throat. It is equally suitable for children and adults.

'Sulfex' is an aqueous suspension of microcrystalline ('Mickraform') sulphathiazole, 5%, in an isotonic solution of 'Paredrinex', 1% (pH 5.5 to 6.5). Issued in 1-oz. and 8-oz. bottles.

eight minutes to go . . .

Doctors today find that a large number of their patients complain of constant tiredness, of 'finding everything too much', of 'feeling generally run down'. Cases of debility and lassitude caused by present-day conditions are becoming increasingly prevalent. For these conditions 'Vibelan' is of particular value. It counteracts B vitamin deficiencies, containing as it does the principal members of the B group in the balanced proportions which are necessary for effective utilisation of proteins, fats and,

more especially, carbohydrates. Each tablet contains vitamin B₁ 0.5 mg., riboflavine 0.75 mg. and nicotinamide 7.5 mg., in a yeast extract base. Four tablets provide the normal daily requirement of these vitamins. 'Vibelan' is available in bottles of 50 tablets. Further details are available on request.

Diarrhoeas

'Cremosuxidine' suspension is a palatable, chocolate-mint-flavoured suspension designed particularly for the control of diarrhoea.

This new therapeutic preparation, a development of the Medical Research Division of Sharp & Dohme, contains 'Sulfasuxidine' succinylsulphathiazole, exceptional enteric bacteriostatic agent, with pectin, a naturally occurring detoxifying substance, and kaolin, a material with protective and adsorbent properties. The active ingredient, 'Sulfasuxidine' has been reduced to a fine state of sub-division to ensure maximal contact with the intestinal mucosa. In the treatment of diarrhoeal conditions, 'Cremosuxidine' suspension exerts a marked enteric bacteriostatic action... consolidates fluid stools... adsorbs and eliminates products of putrefaction... provides a soothing effect on inflamed intestinal mucosa.

'Cremosuxidine' suspension is indicated in treatment of specific and non-specific diarrhoeas including bacillary dysentery, paratyphoid, salmonellosis, diarrhoea of the newborn and "summer diarrhoea."

'Cremosuxidine' suspension contains 'Sulfasuxidine' succinylsulphathiazole 10%, pectin 1%, and kaolin 10%. Each 30 cc. (1 fl. oz.) contains 3.0 Gm. of 'Sulfasuxidine.' Supplied in 4 oz. and 16 oz. bottles. Informative literature will be supplied on request.

Vitamin Therapy - its uses and limitations

In pursuit of protein

So accustomed have we become to thinking of Bemax mainly as a rich natural source of the vitamin B complex that its high protein content is not always fully appreciated.

Compare, for example, the *protein* content of bacon and Bemax. The 2-oz. bacon ration should provide, in a week, about 6.2 grammes of first-class protein. One daily tablespoonful of Bemax will provide, in the same period, more than 30 grammes of first-class protein.

The protein value of Bemax in terms of essential amino acids is well demonstrated in this table of assay figures (copyright).

arginine	2.5%	phenylalanine	0.9%	leucine	2.1%
histidine	0.9%	cystine	0.3%	isoleucine	1.3%
lysine	1.8%	methionine	0.5%	valine	1.6%
tryptophane	0.3%	threonine	1.2%		

Bemax Stabilised cereal embryo

1 oz. of Bemax provides approximately:—

vitamin B ₁	0.45 mg.	iron	2.7 mg.
vitamin B ₂		copper	0.45 mg.
(riboflavine)	0.3 mg.	protein	30%
nicotinic acid	1.7 mg.	available	
vitamin B ₆	0.45 mg.	carbohydrate	39%
vitamin E	8.0 mg.	fibre	2%

The antiseptic and antipruritic principle in WRIGHT'S COAL TAR SOAP

The unique preparation, Liquor Carbonis Detergens, was first introduced by Wright's in 1862. It isolates, from the inert non-therapeutic substances, the valuable antiseptic and antipruritic agents known to be in Coal Tar. Since its introduction Liquor Carbonis Detergens has achieved a high place in dermatological practice, and is repeatedly chosen as the foremost medicament for skin diseases.

The continuous application of new methods in research and manufacture makes Wright's Liquor Carbonis Detergens today a product improved both in appearance and antiseptic value.

This preparation gives Wright's Coal Tar Soap its renowned health-giving qualities. Soothing to the tenderest skin, and thorough in its cleansing, Wright's is in every way the safest toilet and nursery soap for daily use.

By using Johnson's Baby Lotion, particularly after nappie changes, you leave a soothing, discontinuous film over a baby's skin and the antiseptic in the Lotion protects against surface bacteria and so reduces the risk of urine rash and nappie rash. Johnson's Baby Lotion is a snow white lotion—an oil-in-water emulsion, homogenised under pressure to give extensive dispersion of the globules. It enables the pores to 'breathe' naturally and normally, allows perspiration to escape easily and so helps prevent irritation. Clinical and laboratory tests show that Baby Lotion is a big step forward in baby skin care.

"Jumping nylons!"

Nylon yarn is a yarn with spring: stretch it up to 8% and it snaps back like elastic. Combine tensile strength with elasticity, and you have a shock-resistant thread. Add other useful qualities—lightness, flexibility, abrasion-resistance, low moisture pick-up—and you have a yarn with endless possibilities in industry. For ropes, for car hoods, for tarpaulins, for yacht sails—for all the things that nylon is making—and for those it's ready to make when you've thought of them. Your textile supplier and B.N.S. are ready to help your ideas along.

High strength—light weight
Toughness—durability
Elasticity—flexibility
Low moisture absorption
and high wet strength
Quick drying—easy cleaning
Resistance to deterioration by mildew, petroleum oils, alkalis and soil rot
Resistance to attack by moths and other insects
Flame proof, i.e. does not propagate combustion

MENOPAUSAL SYMPTOMS?

MENOPAX
indicated!

'LOW' STILBÆSTROL THERAPY PLUS SEDATION

MENOPAX TABLETS provide a CAUSAL and SYMPTOMATIC treatment of the Menopausal Syndrome, more particularly of its nervous and vasomotor manifestations such as "*hot flushes*" of the face and neck, "*nerves*," giddiness, palpitation, "*pins and needles*," insomnia, etc.

CAUSAL treatment is provided by stilbæstrol, i.e., oestrogen replacement therapy. Stilbæstrol acts similarly to natural oestrogens but its action *per os* is superior and more prolonged than that of natural oestrogens.

SYMPTOMATIC SEDATION is provided by bromisovalerylurea and carbromal. Both substances are physiologically harmless "open chain" ureides, less drastic than barbiturates but more effective than bromides or valerian.

NO SIDE EFFECTS NO NAUSEA

Toxic effects of stilbæstrol, as has been clinically proved, are usually due to over-dosage, but as Menopax complies with the requirements of modern "low dosage Stilbæstrol therapy," the risk of toxic manifestations is minimal and may in practice be ignored. In most average cases of menopausal disturbances, in which the decrease in ovarian function is a GRADUAL process, Menopax will promptly produce satisfactory results, enhanced by "symptomatic sedation."

ACTIVE INGREDIENTS

Stilbæstrol 0.05mg. Carbromal 48.75mg.
Bromisovalerylurea 16.25mg.

APPOINTMENTS

NATIONAL HEALTH SERVICE ACT, 1946 Merthyr Tydfil, Aberdare and Mountain Ash Hospital Management Committee

SECRETARY AND FINANCE OFFICER.
Applications are invited for the whole-time combined appointment of Secretary and Finance Officer on the Headquarters staff of the above Management Committee at Merthyr Tydfil. The person appointed will be generally responsible for the administration of the hospitals comprising the group and for the work of the Committee, and for the management of the day-to-day finances of the hospitals including the preparation of final accounts and the Committee's budget. The officer will also be directly responsible with the help of any necessary junior staff, for carrying out the appropriate duties in relation to the hospital or hospitals constituting the major element in the group. Candidates should have secretarial and accountancy qualifications and a wide practical knowledge of administration, and it will be an advantage if they are experienced in hospital or similar work. Direct or indirect canvassing will disqualify. The salary will be £930 by £30 to £1,230, but officers transferable within the meaning of Section 68 (1) (a) of the Act may, subject to certain conditions, elect to retain their existing salaries and conditions of service. The appointment will be subject to the National Health Service (Superannuation) Regulations, 1948, and to two months' notice on either side. The person appointed may be required to pass a medical examination. Applications giving age, qualifications and experience and details of past and present appointments with salaries and dates, together with names of three referees, should be sent to W. J. Canton, Esq., D.L., LL.B. (Chairman), 36, Union Street, Downais, not later than fourteen days after the publication of this advertisement.

LANCASHIRE COUNTY COUNCIL

Divisional Health Services

ASSISTANT DIVISIONAL MEDICAL OFFICERS

Applications are invited for the posts of Assistant Divisional Medical Officers. The appointments, which will be made by the appropriate Divisional Health Committees, will be whole-time and will be subject to the Standing Orders of the County Council. There are vacancies in 15 of the Health Divisions within the Administrative County, the populations of the Divisions varying from 40,000 to 153,000. The duties of the office will include the medical inspection of school children, maternity and child welfare work, and such other duties, including matters of administration in connection with the services, as the County Council or the Divisional Health Committee may direct. The officers appointed may be required to carry out clinical work in hospitals and out-patient departments under arrangements which may be made with the new Regional Hospital Boards and to take refresher or other prescribed courses of instruction. Preference will be given to candidates who have held previous hospital appointments and have had special experience in children's diseases. The possession of a Diploma in Public Health is desirable and will be an essential qualification for promotion to senior administrative posts. Salary will be at the rate of £860 per annum, rising by annual increments of £50 to £1,060 per annum. Appointment will be subject to passing a medical examination and the successful candidates will be required to contribute to the County Council's Superannuation Fund. Forms of application and further particulars may be obtained from the County Medical Officer of Health, Public Health Department, County Offices, Preston, to whom applications should be forwarded not later than Saturday, July 10, 1948. All communications must be endorsed "Assistant Divisional Medical Officer."—R. H. Adcock, Clerk of the County Council, County Offices, Preston.

President: The Most Hon. the MARQUESS of EXETER, K.G., C.M.G., A.D.C. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided. **WANTAGE HOUSE.**—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath. Vichy Douche, Scotch Douche, Electrical Baths. Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated. **MOULTON PARK.**—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone Nos.: 2356 and 2357 Northampton), who can be seen in London by appointment.

THE PRACTITIONER'S CARD-INDEX GUIDE TO TREATMENT

This system of treatment is unique in that the rapid advances in medical knowledge will never render it out of date.

The wide range of modern medical treatment is covered in a card-index eminently suitable for the physician's desk.

The subject matter is revised every three months, under the supervision of a Board of medical specialists, in the light of the latest world's medical literature, and practical experience.

These quarterly revisions can be incorporated in the Index in a few moments.

One complete Index, with an addendum comprising a useful list of modern Pharmaceutical specialities, is supplied in a handsome plastic cabinet. The initial cost of £5 5s. includes the first four quarterly replacements. Subsequently the cost of the replacement service is £2 2s. per annum.
