

Libby's

HOMOGENIZED FOODS

Easy to digest SOUPS & VEGETABLES

for Babies . . . and for special diets

By Libby's patented process of Homogenization ★ the cells containing the valuable food elements of Vegetables, Soups and Fruits are broken open making the nutriment readily assimilable by the most delicate digestive system. Also, tough irritating fibres are eliminated and the bulk evenly spread throughout the product. Thus it is possible to give all the goodness of these foods at a very early age — without the digestive strain which would normally ensue. Excellent, too, for adults requiring a smooth diet.

★ Homogenized Foods have been forced through tiny valves under high pressure — a much more effective process than the usual 'straining' process than reports. Clinical data and laboratory tests to Libby, McNeill & Libby Ltd., Forum House, 15/16 Lime Street, London, E.C.3.

IN SOLID STAINLESS STEEL

These Bedpans and Kidney Bowls in mirror-polished solid stainless steel fulfil the most exacting demands of hospital authorities and staff. They provide comfort for the patient, are perfectly hygienic, extremely serviceable and light in weight.

The Bedpans are seamless, and have drainage holes in open half-roll lip.

The Kidney Bowls have open half-roll edge and are designed to nest, thus saving storage space. In 3 sizes—8" x 1½" deep, 10" x 2" deep and 12" x 2½" deep.

These are but two items from the extensive range of "Atec" Surgical and Medical Equipment in Solid Stainless Steel — the modern material for modern hospitals.

*penicillin
nonad tulle*

The efficacy of the local application of penicillin has been established by its use in the forms of powders, solutions, creams, and ointments. A new development is the introduction of Penicillin Nonad Tulle. This non-adherent sterilized gauze dressing of wide mesh is impregnated with an emulsifying base of soft paraffin and anhydrous lanoline, containing 1,000 units of penicillin per gram, equivalent to 160 units per square inch of Tulle.

Submitted for trial in hospital practice, including special branches of surgery, Penicillin Nonad Tulle has been welcomed as a dressing for infected wounds and burns and for operation wounds, including those of eyes, ears, and nose, and those of skin grafting.

The HECSON^{REGD.} SUPER ELASTIC TRUSS for the Treatment of Hernia

Strap is fixed to Pad at A.
Therefore greater pressure
is exerted at B, when the
strap is pulled tightly.

Where treatment of Hernia by surgical methods is undesirable for any reasons, the HECSON super elastic truss can be confidently recommended. The Special Feature of the HECSON Truss is that the perineal or under strap is attached to the top of the pad instead of the lower margin as in the ordinary elastic or old spring truss. Thus it becomes part of the leverage mechanism for increasing the pressure of the pad at its base.

A GREAT REPUTATION IS A GREAT RESPONSIBILITY

A reputation, once gained, can be retained only by unceasing watchfulness. The fame of 'Wellcome' brand Insulins is due, not to chance, but to the maintenance of untiring research and most rigid standards of manufacture. The discovery of Globin Insulin (with Zinc) and its introduction to the medical profession resulted from work carried out in The Wellcome Research Laboratories, Tuckahoe, New York.

Globin Insulin (with Zinc) fills the gap between the rapidly-acting unmodified insulin and the slower protamine zinc insulin. Together, these three cover the whole field of insulin therapy.

TEMPORIS ARS MEDICINA FERE EST (OVID)

The art of medicine is generally a question of time. With the peptic ulcer patient, as is well known, the rate of healing is determined by the ulcer's freedom from irritation. By rapidly buffering excess acid and at the same time avoiding acid rebound, 'ALUDROX,' a suspension of 5.6% colloidal aluminium hydroxide in gel form, ensures rest for the ulcer. Pain is relieved and time taken for healing reduced to a minimum.

A SERVICE FOR THOSE WHO SERVE THE DEAF

In the selection of a Hearing Aid no one is more concerned to ensure that accurate diagnosis shall be followed by the prescription of the correct instrument than the patient's medical advisor. That is why so many Doctors and Specialists send their patients to Amplivox to make sure that they get a high fidelity instrument suited to their particular type of deafness. Experienced Amplivox consultants give every patient a thorough test by Audiometers as installed at London hospitals and used by leading specialists. From this a permanent, dated record, showing the exact degree of hearing loss throughout the tonal scale is compiled and filed for reference at any time. Thus Amplivox are able to offer a service of lasting value to the deaf and their advisors. A fully descriptive brochure will gladly be sent on request.

The salaries, living out, shall be at the commencing rate of £N.Z.1,200. per annum, rising by two annual increments of £N.Z.75 to £N.Z.1,350 per annum. Conditions of appointment and form of application may be obtained from the office of the High Commissioner for New Zealand, 415, The Strand, London, W.C.2. Applications close with the undersigned at the office of the Board, Kitchener Street, Auckland, New Zealand, at noon on Wednesday, August 4, 1948.—R. F. Galbraith, Secretary.

CITY OF BULAWAYO Southern Rhodesia MEDICAL OFFICER OF HEALTH

Applications, in sealed envelopes marked as above, are hereby invited and will be received by the undersigned up to noon on Friday, August 20, 1948, for the vacant position of Medical Officer of Health on the grade £1,100 by £50 to £1,650 per annum. In addition to the above salary a cost-of-living allowance is at present payable and at the moment this is fixed at the rate of £116 per annum on the minimum of the above grade decreasing with annual increments, to £68 per annum on the maximum of the grade together with children's allowances (if applicable) at the rate of £30 per annum for the first child and £24 per annum for each of the second and third children. A transport allowance is also payable for use by the Medical Officer of Health of his private motor car on his official duties and at the moment this is fixed at a rate of £8.5s. per mensem. The duties of the person appointed will be to administer public health matters in Bulawayo and the medical and health services undertaken by the municipality which include an European Infectious Diseases Hospital, Native V.D. and Infectious Diseases Hospital, Clinics for Europeans, natives and coloureds, and such other health services as may be undertaken by the Council from time to time. Applicants should give full particulars of medical degrees and the possession of the Diploma of Public Health is essential; they should possess organizing and administrative ability and be capable of controlling a Municipal Public Health Department. Applications should contain details of whether married or single and the earliest date on which duties could be commenced. A summary of training and previous experience should also be furnished together with copies of not more than three recent testimonials and a medical certificate of fitness. The successful applicant will be required to serve a probationary period of one year before being appointed to the fixed establishment. If appointed to the fixed establishment he will be required to join either the present Municipal Pension Fund or any other Municipal Pension Fund which may be in existence at the time. A house, owned by the Council, is available for occupation by the person appointed to the position at a rental laid down by the Council from time to time, this being £12.10s. per mensem at the moment. If the person appointed is from the United Kingdom he will be required to enter into a three years' contract with the Council and this will provide *inter alia* for the following matters: (a) A medical examination at the Council's expense before leaving the United Kingdom, the engagement to be subject to this being satisfactory. (b) The Municipality to pay a sum of £75 to the successful applicant upon arrival in Bulawayo to cover all costs incurred in taking up the appointment, and his salary from the time of sailing from England. (c) If, on arrival, the successful applicant was not considered suitable the Council would not be bound to enter into a contract of service with him but would pay his boat and rail fares in order that he could return to Britain. (d) The successful applicant would be required to enter into a contract of service for a period of three years on the understanding that if this term of service was satisfactorily completed, he would not be liable to refund the amount of £75 referred to above. Should he, however, break the contract of service or this contract be terminated for unsatisfactory service before the expiration of the three years he would be liable to refund to the Council the above amount of £75. Candidates canvassing members of the Council, directly or indirectly, will be a disqualification.—H. J. Cook, Town Clerk.

SOLUBLE THIOPENTONE

SOLUBLE THIOPENTONE-BOOTS is an intravenous anaesthetic of proved value. As a basal anaesthetic prior to general anaesthesia, it has been used extensively and has given uniformly good results over a considerable period under widely varying conditions and dosage.

Soluble Thiopentone has been used successfully and is recommended as a total anaesthetic for short minor operations, and also for long operations which do not demand considerable muscular relaxation.

Soluble Thiopentone is a mixture of 100 parts by weight of the mono-sodium derivative of 5-ethyl-5-(1-methylbutyl)-thio-barbituric acid, and 6 parts by weight of exsiccated sodium carbonate as laid down in the B.P. Addendum VII. Available in Boxes of 6 and 25 ampoules of 0.5 gm. and 1.0 gm.
