

extra flexibility
for healthy
development

START-RITE SHOES have now been given all the flexibility that children's shoes should have if the little feet are to develop normally and healthily. Yet in introducing this extra flexibility no wearing qualities have been sacrificed. Start-rite extra flexible shoes are made on the New Last, evolved in 1946 after intensive research into the requirements for the healthy development of children's feet. They are not arch support shoes. The Medical Profession can confidently specify Start-rite shoes both for their own children and for their little patients.

The BUK'S head
means
business

Each of BUK'S five self-sharpening blades has 30 cutting edges, so with every move of the vibrator, 150 separate cutting edges get busy on your beard. BUK'S head gently presses down your skin, which is shielded by a wafer-thin metal guard from the cutters, thus ensuring a close, clean shave, without any pulling or 'burning'. Electric dry shaving, without the penalty of soap, brush and water is a wonderful saving of time and trouble, and we believe a trial with BUK will convince you for life. The BUK is recommended for disabled and bed-ridden patients. The BUK costs £4.17.8d. (incl. tax) from good stores, chemists and electrical shops.

Prevent Discomfort

IN HAY FEVER AND SUMMER COLDS

To the hay-fever victim the use of 'Benzedrine' Inhaler may make all the difference between weeks of acute misery and weeks of comparative comfort. Its vapour diffuses throughout the entire nasal cavity and is strikingly effective in reducing the intense congestion which makes allergic rhinitis so distressing.

Head colds are particularly annoying during the summer. 'Benzedrine' Inhaler helps to cut them short and provides welcome symptomatic relief.

Each tube is packed with Amphetamine (B.P.) 325 mgm.,
Oil of Lavender 97 mgm., Menthol 32 mgm

Rutin in Capillary fragility

Rutin is a crystalline glycoside obtained from the leaves and flowers of buckwheat. Recent reports attribute to Rutin the property of reducing capillary fragility when this is abnormally raised.

In our research laboratories a limited quantity has been isolated from buckwheat grown in this country and is available in the form of tablets.

Rutin A & H is suggested for administration in haemorrhagic conditions due to increased capillary fragility or permeability, especially when this condition is associated with hypertension, nutritional deficiency or toxic effects of drugs.

P.E.E.G

THE ANTI-PYOCYANEA COMPOUND

HERE is an important new bactericide and antiseptic. Phenoxytol (Nipa) is B-phenoxyethyl-alcohol, specially purified and standardised, for use in medical treatment and for pharmaceutical preparations.

Phenoxytol is effective against certain gram-negative organisms, including *Ps. pyocyanea*. It is used by local application in the treatment of infected wounds . . . abscesses . . . indolent ulcers . . . associated with *Ps. pyocyanea*. It should not be used for parenteral injections.

Phenoxytol is very effective in pyocyanea infections of burns or superficial wounds. It is especially useful in the preparations of surfaces for skin grafting associated with *Ps. pyocyanea*, and may also be used together with Penicillin in solutions and creams.

FIVE B-Complex vitamins in 'BECOSYM' VITAMIN B-COMPLEX

Each tablet contains:

- 1 mg. vitamin B₁ (aneurine, thiamin) 1,000 gammas
- 2 mg. vitamin B₂ (riboflavine) 2,000 gammas
- 20 mg. nicotinamide (P.P. factor) 20,000 gammas
- 2 mg. vitamin B₆ (pyridoxine) 2,000 gammas
- 3 mg. calcium pantothenate 3,000 gammas.

The treatment of disorders due to a deficiency of one or two factors often necessitates the administration of additional vitamins of the B-complex. Even when one deficiency symptom is predominant, calling for the administration of large doses of one vitamin, the use of 'Becosym' is advisable.

DOSES. For prophylactic use one to two 'Becosym' tablets daily may be sufficient, and therapeutically one to two tablets three times a day.

PACKINGS. 'Becosym' tablets are issued in bottles of 25, 100 and 500. A sample of a standard packing of 25 'Becosym' tablets is at the disposal of medical practitioners.

For providing quick and lasting relief from headache of whatever origin, Veganin* Tablets are especially useful because they do not prevent the patient from continuing his usual occupation. Veganin does not cause drowsiness; it merely obliterates the pain and quiets the nervous manifestation.

Veganin is a compound of minimal doses of codeine, phenacetin and acetylsalicylic acid. The synergistic effect of these drugs of related action provides safe analgesic, antipyretic and antispasmodic medication, because the full force of the individual drug is obtained without its accessory manifestations. There is no likelihood of after-effects or habit formation.

The Choice of an Antacid

THE serious disadvantages attending the administration of alkalis in the treatment of the dyspepsias are now well recognized. Recent reports, however, have again confirmed that the use of aluminium hydroxide obviates the secondary rise of acidity and the danger of 'alkalosis' which are associated with alkali treatment.

'Alocol' (a specially prepared colloidal aluminium hydroxide) is rapidly replacing alkaline medicaments as a routine in the treatment of peptic ulcer and conditions associated with hyperchlorhydria.

'Alocol' neutralizes excess gastric acidity to the most favourable degree without provoking the danger of 'alkalosis,' thus producing a markedly soothing effect on the gastric mucosa, with the prompt relief of pain and discomfort.

'Alocol' is available in the form of Powder, Tablet and Cream.

Powder—The normal dose is 1 gramme before and after meals.

Tablets—Each tablet contains Alocol, 0.5 gm.; P. Sacch. Alb., 0.4 gm.; Cocoa Powder, 0.035 gm.; Excipient, q.s. The normal dose is 2 tablets before and after meals.

Cream—Formula: Alocol 6.0 parts approx.; Glycerin 5.0 parts; Ol. Menth. Pip. 0.005 parts; Aq. Chlorof. 4.0 parts; Aq. Dest. to 100.0 parts. The normal dose is 1 to 3 teaspoonfuls between meals and at bed-time.

A Healthy Community

It is a matter of universal concern, now more than ever, to ensure that the health of the nation should be maintained. Considerable importance is therefore attached to the welfare of the rising generation and, for this reason, expectant and nursing mothers and children are recognised as priority groups, especially where their nutritional needs are concerned.

Marmite supplies essential vitamins of the B₂ complex, and in addition it contains a useful anti-anaemic factor of particular value in nutritional macrocytic anaemia. It is prescribed extensively in maternity and child welfare work and in private and hospital practice.

A Chain of 'Listeners'

To the Editor

Sir,

Violet Markham writes: 'In the capitalist countries the various organs of the press cancel each other out . . .'. Do they? Various organs exist, of course; but they would only cancel out, surely, if we all read them all. If I read one one-sided paper every day, and you read its opposite, you and I may cancel out—so far as our votes are concerned—but neither of us is going to be particularly well informed. Both our minds are going to suffer from a degree of dictatorship.

The main viewpoints expressed in the various organs should be available in one organ. We need a chain of morning and evening Listeners.

Yours, etc.,

Batley

CALGITEX

NON-ANTIGENIC : HAEMOSTATIC
SOLUBLE : ABSORBABLE

Surgical ALGINATES

A new multi-purpose
biological agent in therapy

Calgitex Alginate in its various prepared forms is a biological product derived from the brown seaweeds *Laminaria digitata* and *Cloustoni*. Presented in the form of gauze, wool and solution, it can be used effectively in all surgical procedures where the control of haemorrhage requires a material which is absorbable in tissue.

It is equally effective in the dressing of external wounds, since both Sodium and Calcium Salts of Alginates are compatible with Penicillin and other antibiotics and antiseptics. Becoming absorbed, they do away with the painful and damaging effect of removal. If required the dressings can be removed without damage to the healing tissues, by the application of Sodium Citrate solution in which the Calgitex Alginates are freely soluble.

Sterilization — The products are supplied sterilized, and can be re-sterilized if necessary by autoclaving or dry heating.

INDICATIONS :

Internally — Arresting troublesome capillary, venous, and osseous haemorrhage; bleeding from denuded visceral surfaces; haemorrhage in course of genito-urinary operations, post partum haemorrhage, etc.

Externally — Wounds, burns and scalds, abrasions and lacerations, skin loss, dressing of surgical wounds, varicose and trophic ulcers.

The following developments are now available :

Calgitex Alginate Gauze

Calgitex Alginate Ribbon Gauze

Calgitex Alginate Wool

Sodium Alginate Solution

Calcium Chloride Clotting Solution

(for use with Sodium Alginate Solution)

APPOINTMENTS

CITY OF BULAWAYO

Southern Rhodesia

MEDICAL OFFICER OF HEALTH

Applications, in sealed envelopes marked as above, are hereby invited and will be received by the undersigned up to noon on Friday, August 20, 1948, for the vacant position of Medical Officer of Health on the grade £1,100 by £50 to £1,650 per annum. In addition to the above salary a cost-of-living allowance is at present payable and at the moment this is fixed at the rate of £116 per annum on the minimum of the above grade decreasing, with annual increments, to £68 per annum on the maximum of the grade together with children's allowances (if applicable) at the rate of £30 per annum for the first child and £24 per annum for each of the second and third children. A transport allowance is also payable for use by the Medical Officer of Health of his private motor car on his official duties and at the moment this is fixed at a rate of £8 5s. per mensem. The duties of the person appointed will be to administer public health matters in Bulawayo and the medical and health services undertaken by the municipality which include an European Infectious Diseases Hospital, Native V.D. and Infectious Diseases Hospital, Clinics for Europeans, natives and coloureds, and such other health services as may be undertaken by the Council from time to time. Applicants should give full particulars of medical degrees and the possession of the Diploma of Public Health is essential; they should possess organizing and administrative ability and be capable of controlling a Municipal Public Health Department. Applications should contain details of whether married or single and the earliest date on which duties could be commenced. A summary of training and previous experience should also be furnished together with copies of not more than three recent testimonials and a medical certificate of fitness. The successful applicant will be required to serve a probationary period of one year before being appointed to the fixed establishment. If appointed to the fixed establishment he will be required to join either the present Municipal Pension Fund or any other Municipal Pension Fund which may be in existence at the time. A house, owned by the Council, is available for occupation by the person appointed to the position at a rental laid down by the Council from time to time, this being £12 10s. per mensem at the moment. If the person appointed is from the United Kingdom he will be required to enter into a three years' contract with the Council and this will provide *inter alia* for the following matters: (a) A medical examination at the Council's expense before leaving the United Kingdom, the engagement to be subject to this being satisfactory. (b) The Municipality to pay a sum of £75 to the successful applicant upon arrival in Bulawayo to cover all costs incurred in taking up the appointment, and his salary from the time of sailing from England. (c) If, on arrival, the successful applicant was not considered suitable, the Council would not be bound to enter into a contract of service with him but would pay his boat and rail fares in order that he could return to Britain. (d) The successful applicant would be required to enter into a contract of service for a period of three years on the understanding that if this term of service was satisfactorily completed, he would not be liable to refund the amount of £75 referred to above. Should he, however, break the contract of service or this contract be terminated for unsatisfactory service before the expiration of the three years he would be liable to refund to the Council the above amount of £75. Candidates canvassing members of the Council, directly or indirectly, will be a disqualification.—H. J. Cook, Town Clerk.

THE cost of litigation and the damages awarded to successful litigants are steadily rising. The Union's subscription remains at its pre-war figure. Can you afford to remain outside ?

SEVERAL MEMBERS have applied for assistance only to find to their discomfiture that the current subscription is unpaid; the completion of a "Banker's Order" avoids this oversight.

IMMUNITY from medico-legal actions, from slander or the receipt of accusatory letters does not exist; the Union proffers financial assistance, legal advice and defensive measures at a minimal annual cost.

EVERY active practitioner is vulnerable in a legal sense. No one can tell from what quarter an accusation may emanate calling for the skilled help, legal advice and financial protection of The Union

Protection is also provided on special terms to Medical and Dental practitioners resident and practising overseas

UNIVERSITY APPOINTMENTS

INCORPORATED LIVERPOOL SCHOOL OF TROPICAL MEDICINE (University of Liverpool). LECTURER IN TROPICAL HYGIENE.—The Council invites applications for the Lectureship in Tropical Hygiene. The Lecturer will be required to devote his whole time to teaching for the Diploma in Tropical Medicine and Hygiene, and to research under the general direction of the Professor in charge of the Department. The scope of the lectures will cover the organization and practice of preventive medicine in the tropics in urban and rural areas, including nutrition, methods of disease control and the hygiene of food and water. Candidates should possess a medical qualification and preference will be given to men who have had considerable and varied experience in the tropics, and who have a Diploma in Public Health. The salary will be not less than £800 per annum, according to qualifications and experience. The Lecturer will be required to join the Federated Superannuation Scheme for Universities. Applications, giving particulars of age, qualifications, previous experience and the names of three persons to whom reference may be made, should reach the Dean, Liverpool School of Tropical Medicine, Pembroke Place, Liverpool, 3, not later than October 31, 1948. Envelopes should be marked "Lectureship in Tropical Hygiene."

GUY'S HOSPITAL MEDICAL SCHOOL, S.E.1. Applications are invited for the appointment of ASSISTANT to the Director of the Department of Paediatrics, as from October 1, 1948. Appointment for two years in the first instance. Salary £750-£1,000 per annum, with superannuation and family allowance. Applicants should hold the M.D. or M.R.C.P. Copies of Standing Orders for the appointment are obtainable from the Dean, to whom ten copies of application, with the names of three referees, should be forwarded not later than August 25, 1948.

THE BERKELEY FELLOWSHIP. (Founded in memory of the late Sir G. H. A. Comyns Berkeley and his wife, Ethel Rose Berkeley). Applicants from graduates in medicine of the Middlesex Hospital Medical School are invited for the **BERKELEY FELLOWSHIP**. Candidates should be under 35 years of age. The salary is £600 per annum, with certain extra allowances for travelling and research. The Fellowship is tenable normally for one year, but applications for renewal will be considered. Applications should reach the Dean of The Middlesex Hospital Medical School by September 15, 1948. Broad outline of the programme of work or proposed itinerary, together with an estimate of cost, should be submitted with the application. The Berkeley Fellowship was founded under the will of the late Sir G. H. A. Comyns Berkeley to provide research and travel facilities to a person elected jointly by the Master and Fellows of Gonville and Caius College, Cambridge, and the Council of The Middlesex Hospital Medical School. Under the terms of the bequest, medical centres in any part of the world may be visited with the exception of Oxford or Cambridge.

UNIVERSITY OF LIVERPOOL.—The Council invites applications for the post of **LECTURER AND ASSISTANT to the PROFESSOR OF SURGERY**. The appointment is a whole-time one at an interim salary of £1,000 per annum. Applicants must hold a higher qualification in Surgery. The successful candidate will be required to undertake research, and systematic and clinical teaching of both undergraduates and postgraduates. It is hoped to arrange, as in the past, clinical responsibilities in hospital for the holder of the post. Applications (in duplicate), which should include particulars as to age, education, experience, details of previous appointments together with names of three referees, should be received not later than August 14, 1948, by the undersigned, from whom further particulars may be obtained.—Stanley Dumbell, Registrar.

THE RETREAT, YORK

The Pioneer Hospital, opened 1796, for the humane treatment of those suffering from Nervous and Mental Disorder.

This Hospital of 230 beds, administered by a Committee of the Society of Friends, combines what is best in the investigation and treatment of nervous illness with a sympathetic and friendly atmosphere. During 1947 346 patients were admitted, of whom no fewer than 289 were voluntary cases. Much curative work is accomplished in our mental hospitals to-day, and the recovery rate compares very favourably with that of our general hospitals.

For information and terms of admission apply to the Physician-Superintendent, Arthur Pool, M.R.C.P., D.P.M. (Tel.: York 54551.)

**ST. ANDREW'S HOSPITAL, NORTHAMPTON
For Nervous and Mental Disorders**

President: The Most Hon. the MARQUESS of EXETER, K.G., C.M.G., A.D.C. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Vichy Douche, Scotch Douche, Electrical baths, Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone Nos.: 2356 and 2357 Northampton), who can be seen in London by appointment.

A woman with an intimate problem . .

The question of whether or not to use internally
worn sanitary protection is one which all women
face sooner or later. In doing so, they naturally seek
the guidance of one whose advice they completely
trust—that of their Doctor. Tampax, which was
invented by a gynaecologist and has already been
accepted by thousands of members of the Medical
Profession throughout the world, deserves your
endorsement for its assurance of hygiene, physical
comfort and alleviation of mental strain. If you are
not acquainted with Tampax, descriptive literature
and samples of both absorbency sizes will gladly be
sent on request.

★ Tampax may be confidently recommended by Physicians for use by married
women during normal menstruation. Its use by unmarried girls should not be
advocated when the size of the hymeneal aperture would cause difficulty in
insertion and withdrawal.
