

A combination of qualities

The claims of 'Dettol' do not rest on any single quality desirable in an antiseptic, but rather upon the combination of several essential properties. It can be used at fully effective strengths with safety; that is, without risk of poisoning, discomfort or damage to tissue. It retains a high bactericidal potency in the presence of blood, it is stable, and agreeable in use.

HIGHLY SATISFACTORY RESULTS follow the adoption of SALT'S PATENT COLOSTOMY BELT

Since we first introduced this Belt we have supplied many hundreds, and the results have been highly satisfactory. Outstanding advantages are: (1) Receiver is detachable and sterilizable by boiling; (2) Bag easily removed without removal of belt; (3) Bag easily emptied and washed; (4) No crevices or metal fittings to hold faeces; (5) Smell reduced to a minimum; (6) Less bulk than the old style. Bags are easily and economically replaced. Further details and Measure/Order forms available to professional people on request.

Queues . . . Shortages . . . Harassed nerves

Because of present-day conditions — so many worries, so many minor irritations, so many hours spent in queues — more and more people are feeling the need for a general tonic. Livogen, which is a highly-active preparation of extract of liver B.P., extract of yeast, vitamin B₁ and nicotinic acid, provides the factors necessary for the maintenance of normal metabolic processes, and is thus indicated in all cases of nervous depression, reduced vitality, and lassitude or debility attributable to dietary deficiencies. It is issued in bottles of 4 and 16 fluid ounces, also in bottles of 80 fluid ounces for dispensing.

Prevent Discomfort

IN HAY FEVER AND SUMMER COLDS

To the hay-fever victim the use of 'Benzedrine' Inhaler may make all the difference between weeks of acute misery and weeks of comparative comfort. Its vapour diffuses throughout the entire nasal cavity and is strikingly effective in reducing the intense congestion which makes allergic rhinitis so distressing.

Head colds are particularly annoying during the summer. 'Benzedrine' Inhaler helps to cut them short and provides welcome symptomatic relief.

Each tube is packed with Amphetamine (B.P.) 325 mgm.,
Oil of Lavender 97 mgm., Menthol 32 mgm.

ACKNOWLEDGED ANSWER

to IRON DEFICIENCY

Day-to-day evidence from the practitioner's surgery supports the finding made in field investigations that iron-deficiency anaemia is particularly common in this country.

Whatever the cause of the condition, the simple administration of Fersolate Tablets provides the successful treatment, iron by mouth supplying the *acknowledged* answer to iron-deficiency anaemias. Even the severest case normally responds to the recommended dose of three Fersolate Tablets daily. Haemoglobin regeneration occurs at the rate of 1 to 2 per cent daily and frequently the patient's *general* well-being is dramatically improved.

Dietary Deficiencies

Although there seems to be no evidence of severe malnutrition in this country at the present time, there are, in individual cases, manifestations such as lack of concentration, lassitude, chronic fatigue and nervous disorders, which appear to be caused by inadequate diets. Some of these symptoms may be signs of a deficiency of the B vitamins.

Marmite is a yeast extract containing naturally-occurring riboflavin (1.5 mg. per oz.) and niacin (16.5 mg. per oz.) as well as other factors of the B₂ group derived from yeast; these include pyridoxin, pantothenic acid, choline, biotin and folic acid.

The dietetic value of Marmite has long been recognised; it is prescribed extensively as a prophylactic measure in combating malnutrition.

A woman with an intimate problem . .

The question of whether or not to use internally worn sanitary protection is one which all women face sooner or later. In doing so, they naturally seek the guidance of one whose advice they completely trust—that of their Doctor. Tampax, which was invented by a gynaecologist and has already been accepted by thousands of members of the Medical Profession throughout the world, deserves your endorsement for its assurance of hygiene, physical comfort and alleviation of mental strain. If you are not acquainted with Tampax, descriptive literature and samples of both absorbency sizes will gladly be sent on request.

★ Tampax may be confidently recommended by Physicians for use by married women during normal menstruation. Its use by unmarried girls should not be advocated when the size of the hymenal aperture would cause difficulty in insertion and withdrawal.

The Dietary during *The Age of Growth*

At no time, throughout the span of life, is the proper and orderly balance of the important food factors more readily disturbed than during the period of active growth and development.

The food supply of every child should, therefore, contain an adequate proportion of essential nutritive elements if normal progress is to be maintained. The construction of an entirely correct dietary, to suit the varying requirements of each individual, is, however, beyond the possibility of realisation in ordinary practice.

Many physicians ensure that the ordinary dietary of the young patient is safe and adequate by advocating the daily addition of "Ovaltine," which is a natural food tonic prepared from milk, eggs, malt extract, cocoa and soya. The deliciousness of "Ovaltine" makes it most acceptable to every child, while it is readily assimilable even by digestions impaired with disease.

PAIN ENDS...

Pain is almost always accompanied by nervous manifestations and often, too, by fever. Hence, pain suppression is usually only a part of the therapeutic task. Pain must not only be stopped but the associated nervousness must be calmed and an existing high temperature reduced to normal.

Veganin* is an efficient means of achieving these objectives. Because of its synergistic combination of acetylsalicylic acid, phenacetin and codeine, the effect of Veganin is rapid and prolonged. The patient experiences almost instantaneous relief from pain; the nervous irritability and fever quickly subside, preparing the way for rest and recuperation. If no fever exists, Veganin does not lower the temperature.

Composition: Each tablet, 11.8 grns., contains w/w: Acid Acetylsal. 32.68%, Phenacet. 32.68%, Codeine 0.99%, excipient. ad 100.00%.

"I'm in luck! I've been picked for a job at this new Sighthill factory, in the country near Edinburgh. They say it's the most modern factory of its kind in the world. There's shadowless lighting everywhere. They've got air-conditioning too. But the most wonderful thing is the plant for making the sutures, and the way everything is kept absolutely spotless. It's important work, suture-making, and it's grand to be with the firm which has such a famous name for it."

May we go on from there? It isn't just a new factory—important though that is—it is also the occasion of the merging of two firms both well known names in the world of surgical sutures. The Suture Department of Johnson & Johnson is now merged with G. F. Merson Ltd. The name of the new Company is Mersons (Sutures) Ltd. The new factory is at Sighthill (about 3 miles outside Edinburgh). It is literally the most modern factory in the world for the making of surgical sutures. Raw material will be drawn from Johnson & Johnson's International Organ-

isation, which includes the catgut suture string factory in Australia. Another advantage is the linking of Johnson & Johnson's Research organisation with the long manufacturing experience of G. F. Merson Ltd.

The famous "Mersutures" (eyeless needled sutures for Plastic, Ophthalmic and General Surgery) will be made with Ethicon materials.

The Commonsense Psychiatry of Dr. Adolf Meyer

BY ALFRED LIEF

THIS is the first authentic source book of Dr. Adolf Meyer's teachings.

With Dr. Meyer's close collaboration, Alfred Lief has edited fifty-two reports, journal articles, and speeches, linking them together with a biographical account which illustrates the evolution of the doctor's thought. The development of his commonsense approach to the problem of psychiatry is traced from the time of his connexion in Kankakee, Ill., in 1893, through the years in Worcester, Mass., New York City and Baltimore, where for almost thirty years he was chief psychiatrist at the Johns Hopkins Medical School. It presents Dr. Meyer's teaching in his own words, not as a single dogmatic and definite

statement but as a developing point of view.

Nylon's low moisture pick-up and high wet-strength make it a natural choice wherever liquids and yarns come together. But nylon has other qualities even more important in industrial use: high strength, light weight, elasticity and resistance to abrasion. Clarks have pleasure in announcing that they are making a new heel, suitable for attachment to an ordinary pair of Clarks Children's Shoes, which can successfully replace the use of T-irons or heavy surgical boots in the treatment of certain foot ailments and leg weaknesses.

CLARKS CURATOR HEEL

was designed for, and clinically tested by an orthopaedic surgeon, who has employed it in a number of cases with most encouraging results. The heel, moulded in light-weight rubber, is shaped to give arch support to weak feet (valgus feet).

It is intended, as far as possible, to ensure that there shall not be indiscriminate use of this corrective device. Clarks prefer that it should be used only when specified by medical practitioners and that its fitting, etc. should be under expert supervision. Full details are available to members of the medical profession, children's clinics, etc. on application to Clarks.

GOOD NIGHT!

Nobody knows better than a busy doctor how elusive sleep can be to a tired brain and body. Happily there are well-proved ways of helping to ensure healthy, natural sleep — and many doctors recommend a measure they themselves have found most beneficial. It is — a cup of hot, soothing Bourn-vita just before bed. This delicious, easily digestible drink made of malt, milk, eggs, cocoa and sugar has proved invaluable as a help to sweet, restful sleep, a restorer of energy spent during working hours or lost during sickness.

APPOINTMENTS

ROYAL NEW ZEALAND SOCIETY FOR THE HEALTH OF WOMEN AND CHILDREN (Inc.) (Plunket Society)

ASSISTANT MEDICAL OFFICER

Applications for the above position are invited from duly registered medical practitioners, under thirty-five years of age, and with previous experience of paediatrics and child health. Commencing salary £1,000 (N.Z.) per annum. The appointees will be entitled to superannuation benefits, and the Society will pay the steamer fare from England to New Zealand, provided this does not exceed the sum of £150 sterling. Applications, which close on September 30, should be addressed to the High Commissioner for New Zealand, 415, The Strand, London, W.C.2. Conditions of appointment, duties, etc., may be obtained from the office of the High Commissioner. Recent testimonials and details of experience should accompany applications.

ROYAL PRINCE ALFRED HOSPITAL, Sydney OFFICER IN CHARGE OF CLINICAL RESEARCH UNIT

Applications are invited on the prescribed forms for the above position from qualified medical practitioners. This appointment provides excellent facilities for a Clinical Research worker, in a newly created Clinical Research Unit, which comprises a Ward Unit of 14 beds, with necessary laboratory facilities. Terms of appointment are for seven years, commencing salary £1,750 per annum (Australian currency). Applications close on October 2, 1948. The officer appointed will be expected to commence duties on February 1, 1949, approximately. The necessary application forms and any further particulars required will be furnished upon application to the undersigned. Application forms may also be secured from the office of the Agent-General for N.S.W., N.S.W. Government Offices, 56-57, Strand, London, W.C.2.—Dr. H. Selle, General Superintendent, Royal Prince Alfred Hospital, Camperdown, Sydney, Australia.

MINISTRY OF FUEL AND POWER MINES MEDICAL OFFICER

Applications are invited from registered medical practitioners (male) for a temporary appointment as Mines Medical Officer, West Midland and Southern Division, with headquarters at Birmingham. The London scale of salary is £1,150 by £30 to £1,300 by £50 to £1,500, subject to deductions varying from £30 to £40 for employment in Birmingham. Starting pay linked to age 38: £30 deducted for each year of age below 38, and added for each year of age above 38 up to age 40. Candidates should have considerable postgraduate experience, preferably including professional work among coal miners. Possession of a higher medical qualification would be an advantage. The duties of Mines Medical Officers include (a) research into questions of industrial hygiene and investigations of occupational diseases and conditions of work at mines and quarries in so far as they affect the health of the worker, (b) general supervision of the provision made at mines and quarries for the treatment of sick and injured workers, involving work underground, (c) work in connexion with the medical examination of new entrants to coal mines and (d) co-ordinating and promoting the improvement and fuller use by workmen of medical (including hospital and rehabilitation) services. The tenure of this appointment will be subject to review at the end of five years. Full particulars and application forms from Establishments Directorate, Ministry of Fuel and Power, 7, Millbank, London, S.W.1. Completed applications should be received at this address not later than August 28, 1948.

BERKSHIRE EDUCATION COMMITTEE ASSISTANT SCHOOL DENTAL OFFICERS

Applications are invited from qualified and registered dental surgeons for posts as Assistant School Dental Officers. The persons appointed will be required to devote their whole time to the duties and to act under the direction of the School Medical Officer and the Senior School Dental Officer. The salary scale is £585, rising by annual increments of £25 plus one final increment of £15, to £750, plus cost-of-living bonus. Further particulars and forms of application may be obtained from the School Medical Officer, 11, Abbot's Walk, Reading, and should be returned to him within fourteen days of the appearance of this notice, together with copies of three recent testimonials. Applicants must disclose in their applications whether, to their knowledge, they are related to any member of, or the holder of any senior office under, the Council. Canvassing, either directly or indirectly, will be a disqualification.—H. J. C. Neobard, Clerk of the County Council, Shire Hall, Reading.

UNIVERSITY OF QUEENSLAND PROFESSOR OF PHYSIOLOGY

Applications are invited for the above mentioned position and must be forwarded to reach the Registrar, University of Queensland, Brisbane, not later than Thursday, September 30, 1948. The normal salary range attached to the position is £A1,260/£A1,510 per annum, but this range is subject to cost of living fluctuations. It is at present subject to the addition of a cost of living allowance at the rate of £A76 per annum. The rate of commencing salary within the above mentioned range will depend upon the qualifications and experience of the appointee. Conditions of appointment and application forms may be obtained from the Agent-General for Queensland, London, and the Secretary, Universities Bureau of the British Empire, London.—C. Page Hanify, Registrar.

COUNTY BOROUGH OF DERBY EDUCATION COMMITTEE ASSISTANT SCHOOL MEDICAL OFFICER (Female)

Applications are invited for the post of Assistant School Medical Officer (female) in the Public Health and School Medical Department. Salary £735 per annum, rising by increments of £25 to £935 per annum. Applicants must be duly qualified registered medical practitioners and the possession of the D.P.H. or D.C.H. is desirable though not essential. The duties of the post are the medical inspection of school children, the carrying out of duties under the maternity and child welfare scheme, and such other duties as may be required by the Council. The officer appointed will be required to devote her whole time to the duties of the post, to act under the supervision and control of the Medical Officer of Health and to reside within the borough. The appointment is subject to the Local Government Superannuation Act, 1937, and the selected candidate will be required to pass a medical examination. Age of applicant must not exceed 40 years. The appointment is terminable by two months' notice on either side. Applications, on forms to be obtained from this office, should be completed and returned at once to the undersigned.—C. Middleton, Director of Education, Education Department, The Council House, Corporation Street, Derby.

KENT EDUCATION COMMITTEE (School Health Service)

ASSISTANT COUNTY MEDICAL OFFICERS

Applications are invited from male and female practitioners, including those in H.M. Forces, for the above appointments, primarily for work in the East Kent and Mid Kent Areas. The salary scale is £735 a year, with annual increments of £25 to £935 a year. The commencing salary will be fixed at a point of the scale according to the experience and qualifications of the successful candidate. The appointments are superannuable, and the successful candidates will be required to pass a medical examination. The duties are mainly those in connexion with the School Health Service, but the person appointed may be required to undertake other duties (including work in maternity and child welfare clinics). Preference will be given to those candidates who have had special experience in the diseases of children. The officers appointed will be required to provide a car, for which a travelling allowance will be paid in accordance with the County Council's scale. Applications, stating age, qualifications and experience, accompanied by the names and addresses of two persons to whom reference may be made as to professional ability and character, should be addressed to the undersigned not later than August 19.—A. Elliott, M.D., School Medical Officer, County Hall, Maidstone.

CAPE HOSPITAL BOARD DIETITIAN GRADE A

Applications are invited from qualified dietitians for the post of Dietitian (Grade A) at the Groote Schuur Hospital, Cape Town, South Africa. The salary attaching to the post is on the scale £260 by £20 to £340 per annum, plus board, quarters, uniform, laundry and a temporary cost-of-living allowance, the present rate of which is £44 per annum. Applicants must be in possession of a University Degree or other recognized diploma or qualification in hospital dietetics. This appointment is governed by the Hospital Board Service Ordinance No. 19 of 1941, as amended from time to time and by the regulations framed thereunder. Passage out paid. Three years' agreement. Applications, stating age, training and experience, and accompanied by copies of not more than three testimonials, must be in the hands of the undersigned by August 31, 1948.—Davis and Soper, Ltd., Agents of the Cape Hospital Board, 52 and 54, St. Mary Ave, London, E.C.3.

LIVERPOOL COUNTY BOROUGH LOCAL EDUCATION AUTHORITY ASSISTANT SCHOOL MEDICAL OFFICERS

Applications are invited for the above appointments in the School Health Service at the scale salary of £735 per annum, rising by annual increments of £25 to £935 per annum. Candidates must be registered medical practitioners and must have had at least three years experience. Where a successful candidate holds a similar appointment under another Authority, such previous experience will be taken into consideration in fixing the commencing salary. The officers appointed will be required to reside within the city and devote whole-time service to the Local Education Authority under the direction of the School Medical Officer, and will not be allowed to undertake any private practice. The appointments will be superannuable and will be subject to the Standing Orders of the City Council and the successful candidates will be required to pass a medical examination. Application forms may be obtained from the School Medical Officer, Municipal Annex, Dale Street, Liverpool, 2, and should be returned, together with copies of three recent testimonials, not later than August 31, 1948, addressed to the Town Clerk, Municipal Buildings, Liverpool, 2, and endorsed "Assistant School Medical Officer Canvassing will disqualify." Thomas Alker, Town Clerk, and Clerk to the Local Education Authority.

All you have to do is to sign a Banker's Order form, either for a single block of National Savings Certificates, or for a steady month-by-month amount. Your Bank will do the rest without trouble to you, and without charging for their services.

Remember, that with Income Tax at 9/-, the new National Savings 10/- Certificates, when held for 10 years, are the equivalent of a taxable investment yielding £4 16s. 8d. per cent. If you are paying more than 9/- in the £ they are even more attractive. Savings Certificates are a profitable gilt-edged investment and you can now hold 1,000 units of the new issue in addition to permitted existing holdings of Certificates of earlier issues. See your Bank Manager about it today.

**The active principle in
Wright's Coal Tar Soap**

Wright's full, rich lather contains an antiseptic which leaves the skin in a fresh, soothed and health-protected condition. This safeguard is Liquor Carbonis Detergens—a distinctive preparation acknowledged by eminent dermatologists as the foremost antiseptic, antipruritic for skin diseases. The incomparable antiseptic efficiency and the fine clear appearance of Wright's Liquor Carbonis Detergens today are the result of unremitting research and continually improving methods of manufacture.
