PRIORITY DELIVERY for Doctors

Like the busy G.P. the AB Cooker is ready for all emergency calls. A light stoking with anthracite fuel *only twice every 24 hours*, keeps it always 'at the ready' to cope with any culinary situation and to provide a constant day and night hotwater supply for the entire household.

★ As a special concession to Doctors we have instituted a priority delivery list — which means that the period of waiting after ordering your AB will now be appreciably reduced.

Modern Salicylate Therapy

ALTHOUGH acetylsalicylic acid is one of the most popular and effective non-narcotic analgesics available, its use has frequently been discarded by the physician in view of the possibility of its irritating the gastro-intestinal tract.

'Alasil,' however, helps to overcome this objection by providing the beneficial therapeutic effects of acetylsalicylic acid in such a form that it is acceptable, even by delicate or disordered digestions. This tolerability is due to the fact that 'Alasil' combines acetylsalicylic acid with Dibasic Calcium Phosphate and 'Alocol,' an effective gastric sedative and antacid.

For these reasons, 'Alasil' is an analgesic, antipyretic, and anti-rheumatic which can be administered with complete confidence in all the conditions in which such an agent is indicated. It is so well tolerated that its use can be continued to the desired extent.

*penicillin
nonad tulle*

The efficacy of the local application of penicillin has been established by its use in the forms of powders, solutions, creams, and ointments. A new development is the introduction of Penicillin Nonad Tulle. This non-adherent sterilized gauze dressing of wide mesh is impregnated with an emulsifying base of soft paraffin and anhydrous lanoline, containing 1,000 units of penicillin per gram, equivalent to 160 units per square inch of Tulle.

Submitted for trial in hospital practice, including special branches of surgery, Penicillin Nonad Tulle has been welcomed as a dressing for infected wounds and burns and for operation wounds, including those of eyes, ears, and nose, and those of skin grafting.

SAFE SULPHONAMIDE THERAPY

with

‘SULPHAMEZATHINE’

During the past year a number of eminent authorities have expressed a preference for ‘Sulphamezathine’ and have drawn attention to its outstanding advantages in the treatment of bacterial infections.

The following special characteristics of ‘Sulphamezathine’ administration are of importance in medical practice.

- ‘Sulphamezathine’ is one of the least toxic of the sulphonamides. It is well tolerated and rarely produces unpleasant effects of any kind.
- Renal complications are almost unknown. Additional fluids and alkalis are unnecessary.
- Excretion of ‘Sulphamezathine’ is relatively slow, so that effective blood levels can be easily maintained.

‘Sulphamezathine’ is available in tablet form (0.5 gramme) for oral use and as the sodium salt in sterile solution for parenteral administration.

In normal health, an editor thinks of his 'circulation' in terms of net sales. In altered circumstances, he may be preoccupied with that other circulation which concerns the movement of his blood.

Circulatory and cardiac insufficiency are among the conditions for which Corvotone is eminently suitable. It is also recommended in cases of post-anæsthetic collapse, narcotic poisoning and asphyxia. Corvotone is administered orally in chronic and mild conditions. In more serious cases, it should be given by either subcutaneous or intravenous injection. Consisting of a 25 per cent. solution of Nikethamide, Corvotone is one of the most potent analeptics. It is non-toxic, and does not give rise to undesirable reactions. 'Digifortis'

Many authorities have recently expressed the opinion that in the great majority of cardiac patients oral administration of digitalis is to be preferred, and that, for this purpose, digitalis leaf has advantages over single glycosides or mixtures of glycosides.

In 'Digifortis' Capsules the powdered leaf, free from fat, is presented in an elegant form and in a convenient dose. The hermetically sealed capsule ensures that the contents remain air-tight and moisture-free.

Each capsule contains the equivalent of 1.25 grains of Powdered Digitalis B.P. and corresponds to 0.3 International unit of activity.

Supplied in bottles of 25 and 100.

A GREAT REPUTATION IS A GREAT RESPONSIBILITY

A reputation, once gained, can be retained only by unceasing watchfulness. The fame of 'Wellcome' brand Insulins is due, not to chance, but to the maintenance of untiring research and most rigid standards of manufacture. The discovery of Globin Insulin (with Zinc) and its introduction to the medical profession resulted from work carried out in The Wellcome Research Laboratories, Tuckahoe, New York.

Globin Insulin (with Zinc) fills the gap between the rapidly-acting unmodified insulin and the slower protamine zinc insulin. Together, these three cover the whole field of insulin therapy.

The ideal dressings for all burns and wounds

In the treatment of burns and wounds it is essential for the dressing to act as a barrier against reinfection. When treating infected burns and wounds it is essential to incorporate bacteriostatic or bactericidal substances in the dressing. It has been stated both conclusively and authoritatively that the danger period is during the "Change of Dressing".* CALGITEX ALGINATE GAUZE OR WOOL fulfils all the requirements of the ideal dressing. By being SOLUBLE in physiologically tolerated Alkaline media, they permit the change of dressing to take place without exposure of the raw surface to the potentially microbe-laden atmosphere. They provide the ideal dressing for both CLEAN and INFECTED accidental burns and wounds, also for OPERATION WOUNDS in all branches of Surgery.

Hastings Honeymoon

DOMESTIC BLISS was cheap in 1887. Matilda and Percival paid £8.15.0 for their 7-piece bedroom suite. It was a year of great expectancy. The full life of the gay nineties was just around the corner with its safety bicycle, bloomers, Gibson Girls and that amazing new invention the incandescent gas mantle. The mortality rate for children under five in London was 78.6 per thousand.

Into this world of stark contrasts M.O.F. made its first appearance, one of the earliest

attempts at adequate infant nutrition.

For 54 years M.O.F. was confined to Scotland. Then in 1941 Scott's of Edinburgh distributed their product on a national scale. In the 80's M.O.F. was as modern as the incandescent gas mantle. Today it belongs to the modern world of streptomycin and electronics.

Scott's of Edinburgh, baby food manufacturers since 1887, are not only keeping pace with the advance of nutritional science but helping to pioneer it.

There's more than vitamins in SevenSeaS.

UNSATURATED FAT DEFICIENCY

Present day diets have an admitted quantitative fat deficiency. There is an equally serious qualitative deficiency in unsaturated fats which is frequently overlooked. Dry or unhealthy skin and membranes and prematurely falling hair which are common symptoms nowadays, even in quite young people, can arise from these combined fat deficiencies.

Cod Liver Oil is richer in metabolically important unsaturated fats than any other edible oil or fat.

Unsaturated fats than any other edible oil. It is found in Seven Seas Cod Liver Oil, arising from the method of extraction at sea from fresh livers, and by the care taken in processing, these delicate fats are present in an undamaged and easily digested form. One teaspoonful a day is equivalent to an extra ounce of dairy butter per week, in fats and calories, and supplies very much more unsaturated fats and vitamins A and D than this amount of butter contains.

As for the vitamin content, here are the figures:

STANDARD OIL
Vitamin A - 20,000 I.U.
Vitamin D - 2,500 I.U. per oz.

CONCENTRATED OIL CAPSULES

CLINICAL TESTS APPROVE THIS NEW WAY OF
REDUCING HEAT RASH AND SKIN IRRITATIONS

Johnson's BABY LOTION

used after nappie changes

Johnson's Baby Lotion
spreads a discontinuous
film that allows the
skin to "breathe"
naturally

One of the chief causes of chafing and infant skin irritations is perspiration that cannot escape freely. Johnson's pure white antiseptic Baby Lotion leaves a soothing, discontinuous film on the skin that protects it against surface bacteria and at the same time allows it to "breathe" easily, because the oil-in-water emulsion is homogenized under pressure to provide extreme dispersion of the oil in micron-size globules. Thus perspira-

tion can readily escape and the chances of heat rash and irritations are reduced. Laboratory and clinical tests show that, used after nappie changes, Johnson's Baby Lotion is the perfect product for baby skin care—and a very important step forward.

NON-TOXIC NON-CUMULATIVE

A NEW NON-TOXIC SEDATIVE & HYPNOTIC

While both Carbromal and Bromisovalerylurea, because of their low toxicity, have—*separately*—for many years been used, the application of their *combination* is the result of recent research.

Extensive clinical experience has demonstrated that a remarkable synergistic enhancement of effect is attained when the two drugs are administered in combination, without affecting their inherent non-toxic properties.

Both substances are physiologically harmless, open-chain ureides, and bear only a remote chemical relationship to the barbiturates (cyclic ureides) and are entirely without the habit-forming and other clinically undesirable side effects characteristic of the barbiturate group.

ADVANTAGES:

- Safety in use
- Not habit-forming
- No after-effects or secondary reactions
- No bromism
- No cumulative action
- Rapid absorption
- No effect upon the normal circulation
- The sedative of choice for children

PERSOMNIA induces quiet sleep without preliminary excitement, in less than half an hour of ingestion. The effect lasts from 4-5 hours and is usually followed by natural sleep.

INDICATIONS:

Insomnia caused by functional nervous disorders, mental stress, fatigue, worry (less effective in insomnia due to pain), neurosis, neurasthenia, anxiety states both in children and adults.

ACTIVE INGREDIENTS

Bromisovalerylurea 65 mg. Carbromal 195 mg.

In cases of whooping cough in children, Persomnia has proved very useful when administered in conjunction with an antispasmodic.

SOUTH WESTERN REGIONAL HOSPITAL BOARD
MENTAL DEFICIENCY SERVICE
DEPUTY MEDICAL SUPERINTENDENT
 Applications are invited from registered medical practitioners, male or female, for the above appointment. The work is almost entirely concerned with the institutional care and training of mental defectives. The central institution is situated at Sandhill Park, Bishops Lydeard, near Taunton, but branch premises are established at Yatton, Flax Bourton, Shepton Mallet and Frome, and the total bed complement is about 650. Applicants should have considerable experience in modern methods as applied to the institutional training and licence of defectives. The successful applicant will devote his whole time to his duties under the Board, and will work under the general direction of the Medical Superintendent. The appointment is subject to regulations made now and hereafter under the National Health Service Act, 1946, and may be terminated by three months' notice on either side. The salary is £800 per annum, rising by annual increments of £50 to £1,050. For candidates with D.P.M. the salary will be £850, rising by annual increments of £50 to £1,100. If residence is not provided an additional £100 per annum will be added. Applications, stating age, qualifications and experience, together with the names of three referees, should be sent to the Secretary of the Regional Hospital Board, 6, Elton Road, Bristol, 8, so as to reach him not later than August 28. The canvassing of members of the Board of Advisory Appointments Committee will lead to disqualification.

SOUTH WESTERN REGIONAL HOSPITAL BOARD
GERIATRICIANS
 Applications are invited from registered medical practitioners who have special experience in Geriatrics for non-resident appointments in the Board's specialist services. It is proposed to make two appointments—one in the Bristol area and one in the Exeter area. The duties will be clinical and charge of beds will be given in appropriate hospitals or institutions, the medical officers appointed will also be required to give advice on the organization of the Geriatric services. At present it is proposed that the medical officers appointed shall devote their whole time to the duties of their offices. The salary will be at the rate of £1,000 a year, rising by one biennial increments of £50 and one of £37 10s. to £1,087 10s., together with a cost-of-living bonus, but the terms of service will be reviewed when the final decisions on the Spens report are issued. The appointments are subject to regulations made now and hereafter under the National Health Service Act, 1946, and may be terminated by three months' notice on either side. Applications, stating age, qualifications and experience, together with the names of three referees, should reach the Secretary, South Western Regional Hospital Board, 6, Elton Road, Bristol, 8, not later than August 28, 1948. ST. ANDREW'S HOSPITAL, NORTHAMPTON For Nervous and Mental Disorders

President: The Most Hon. the MARQUESS of EXETER, K.G., C.M.G., A.D.C. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath. Vichy Douche, Scotch Douche, Electrical baths. Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone Nos.: 2356 and 2357 Northampton), who can be seen in London by appointment.

The
HECSO^{REGD.}
SUPER ELASTIC TRUSS
for the Treatment of Hernia

Strap is fixed to Pad at A. Therefore greater pressure is exerted at B, when the strap is pulled tightly.

Where treatment of Hernia by surgical methods is undesirable for any reasons, the HECSON super elastic truss can be confidently recommended. The Special Feature of the HECSON Truss is that the perineal or under strap is attached to the top of the pad instead of the lower margin as in the ordinary elastic or old spring truss. Thus it becomes part of the leverage mechanism for increasing the pressure of the pad at its base.

Price : Single £2 12s. 6d.
Double £3 13s. 6d.
