Tropical Storm in Essex

Here is the Weatherometer used in the Ford laboratory to produce a tropical storm at will! Ford body enamels have to stand heavy punishment in many climates; so they must be rigorously tested for resistance to sun and rain. Enamel-coated panels are placed in the cylinder, revolved slowly under the ultra-violet rays of a powerful

arc lamp and soaked with a sudden jet of soft water after each circuit. The enamel must endure this series of shocks for a period of 500 light hours! Any sample that fails to pass these stringent tests is ruthlessly rejected.

For the Disabled and the Infirm

THE ability to get about, to maintain daily interests and social contacts, plays an important part in the continued health and happiness of the disabled and the infirm.

For this purpose the NELCO "SOLOCAR" is ideal. Electrically driven; silent, vibrationless and free from fumes; operated with one hand—effortlessly and without strain—it climbs any hill, travels forty miles without re-charging, passes through most doorways, turns in its own length.

*Enquiries for the new post-war models can now be received.
A fully detailed and illustrated brochure will shortly be issued.*

EFFUGERE NON POTES NECESSITATES (SENECA)

You cannot ignore necessities

In the treatment of hypochromic anaemia it is generally recognised that iron should be presented in the most easily assimilable form.

This is achieved in 'PLASTULES' by enclosing ferrous iron in semi-fluid form in gelatin capsules. The small dosage of three a day is easy to take and the iron is readily absorbed. Digestive upset is avoided and a rapid response is achieved.

PLASTULES

Each Plastule Plain contains Ferrous Sulph. Essicc. B.P. 5 grs. dried yeast ½ grs. They are also available with hog stomach, with liver extract, and with folic acid.

Aci-jel
FOR VAGINITIS

Investigators^{1, 2, 3} characterize a buffered acid jelly as one of the simplest and most direct forms of effective therapy in vaginitis and cervicitis.

Clinically, the re-establishment of a normal vaginal pH (4 to 4.5) proves "extremely useful,"⁴ because it encourages "the elimination of pathologic organisms and the

growth of normal vaginal flora consistent with the healthy vagina."⁵

Aci-jel affords the physician a water-miscible, buffered acid jelly which is entirely non-irritant and may be used with safety over prolonged periods. It is available in 3½ oz. tubes, with or without measured applicator, for professional use or prescription.

The value of a tonic cannot be measured in simple numerical units. But the functions required of such a preparation can be placed under well-defined headings . . . *restoration, formation and protection.* Syrup Minalex is well equipped to fulfil these functions. Iron, calcium and other minerals comprise the restorative and formative elements of Minalex. The vitamins A and D of Minalex are of first importance in a protective sense. Combined in an enjoyable orange syrup, these factors restore lost appetite and hasten the return to full health.

'MIL-PAR'

REGD.

ANTACID LUBRICANT

A pleasant and effective combination of *'MILK OF MAGNESIA' with a specially selected grade of MEDICINAL PARAFFIN. Particularly indicated in the treatment of chronic constipation and hyperacidity of the stomach due to disorder of the alimentary tract.

'MIL-PAR' neutralizes excess gastric acidity and checks the development of acid conditions in the food waste. Mixing freely with the faecal mass it renders it soft and pliable and lubricates

the intestinal tract without formation of oily pools and subsequent rectal leakage.

May freely be employed during convalescence from operation or protracted illness, for infants and children, expectant and nursing mothers.

Mil-Par' contains approximately 25% medicinal paraffin and 6% magnesium hydroxide.

Rutin in Capillary fragility

Rutin is a crystalline glycoside obtained from the leaves and flowers of buckwheat. Recent reports attribute to Rutin the property of reducing capillary fragility when this is abnormally raised.

In our research laboratories a limited quantity has been isolated from buckwheat grown in this country and is available in the form of tablets.

Rutin A & H is suggested for administration in haemorrhagic conditions due to increased capillary fragility or permeability, especially when this condition is associated with hypertension, nutritional deficiency or toxic effects of drugs.

To help vanquish depression masquerading as bodily ailments

Depressions manifesting themselves as apparently unrelated somatic complaints seldom yield to treatment until the patient's underlying emotional conflicts have been, in some measure, exposed and ventilated. Thereafter, 'Benzedrine' Tablets may give significant help in speeding the patient's recovery from depression masquerading as a bodily ailment. As his depression diminishes, the patient's preoccupation with his symptoms should decrease, thus doing much to relieve his psychosomatic distress.

The time, the place —and the Portanaest

It means much to the General Practitioner to know that the Portanaest is always at hand, equally ready for midwifery in the home and minor surgery in the consulting room or factory. Completely portable, it is very compact yet leaves nothing to be desired in the completeness of its equipment or the easy facility of its use. A master knob controls the rate of flow and pressure; another controls the mixture which can be read from the dial at a glance. For dentistry, the Portanaest can best be described as a portable "Walton"—an indispensable part of a visiting practitioner's equipment. There are many cases where infants exhibit allergy associated with milk. However, the antigenicity of milk can be decreased.

In ALLERGILAC, by the controlled use of heat, the greater part of the lactalbumen has been removed and the casein denatured. The milk is acidified with lactic acid and has a pH value of .6.

PEPTALAC is a milk food in which the quantity of fat has been decreased and the protein treated with a pancreatic enzyme, ensuring that a definite proportion has been predigested to form peptone and amino acids. This food finds its greatest use in the later age group.

G. F. WALKER, M.D., M.R.C.P.

EXTRACTS FROM REVIEWS OF PREVIOUS EDITIONS

"Originality and sound perspective have raised this book out of the ranks of the synopses, while a grasp of the essential has enabled the writer to cover the wide range of medicine in a remarkably short space. We enjoyed the break-away from the classical text-book style, the approach to the subject from the clinical aspect."—*Charing Cross Hospital Gazette*.

"To have covered such an enormous field and yet to have brought all this material within the bounds of such a handy little volume, scarcely greater than pocket-book size, is a feat of which Dr. Walker may well feel proud."—*Cambridge University Medical Society Magazine*.

"We are so enthusiastic about the book that we cannot but say to our colleagues—'Whatever hundreds of medical books you have, get this one.'"—*South African Medical Journal*.

"Few will quarrel with Dr. Walker's choice of material; the vast majority of common and important diseases are included, and no space is wasted on clinical rarities."—*St. Bartholomew's Hospital Journal*.

THE cost of litigation and the damages awarded to successful litigants are steadily rising. The Union's subscription remains at its pre-war figure. Can you afford to remain outside ?

SEVERAL MEMBERS have applied for assistance only to find to their discomfiture that the current subscription is unpaid; the completion of a "Banker's Order" avoids this oversight.

IMMUNITY from medico-legal actions, from slander or the receipt of accusatory letters does not exist; the Union proffers financial assistance, legal advice and defensive measures at a minimal annual cost.

EVERY active practitioner is vulnerable in a legal sense. No one can tell from what quarter an accusation may emanate calling for the skilled help, legal advice and financial protection of The Union

Protection is also provided on special terms to Medical and Dental practitioners resident and practising overseas.

Relief from an onerous duty

When asked to act as executor or trustee friends do not like to refuse and as a result are committed to undertake duties which often require considerable technical knowledge and prove to be more onerous than expected. The appointment of Lloyds Bank avoids this burden and secures, at a moderate cost, the services of experts without losing the human understanding expected from friends. Before making a will or creating a trust ask the Manager of any Branch of Lloyds Bank for particulars of the services of the Executor and Trustee Department.
