Speed your patients' convalescence with Elixir 'VIRVINA'

The role of Vitamins in the maintenance of health and the prevention of disease finds no better illustration than in the Vitamin B-complex. New indications are constantly being found and factors, hitherto unidentified, are rapidly being isolated and their specific indications determined.

Clinical and laboratory reports indicate that a combination of the Vitamin B-complex factors is superior therapeutically to any single fraction and that for optimum utilisation of these factors, proper mineral intake is important, especially Manganese.

This mineral and others are incorporated in Elixir 'Virvina', which will be found especially effective in functional gastro-intestinal disturbances, in faulty nutrition, in B-complex deficiencies and in convalescence, pregnancy and old age.

Elixir 'Virvina' is unusually palatable and may be administered regularly as a dietary supplement.

Each fluid ounce of Elixir 'Virvina' contains:

Thiamine hydrochloride (Vitamin B ₁).....	4.0 mg. (1332 I.U.)
Riboflavin (Vitamin B ₂ or G)	2.0 mg.
Pyridoxine hydrochloride (Vitamin B ₆)	0.1 mg.
Nicotinic Acid Amide	30.0 mg.
Calcium, Sodium, Potassium and Manganese glycerophosphates (total).....	6.625 grains

Elixir 'Virvina' is supplied in 4 oz., 16 oz. and 80 oz. bottles.

WRIGHT'S LIQUOR CARBONIS DETERGENS

The antiseptic and antipruritic constituents in Coal Tar were isolated for the first time when Wright's introduced their active extract Liquor Carbonis Detergens over 80 years ago. This distinctive preparation has secured a prominent place as a medicament in treatment of skin diseases. It is specified repeatedly by leading dermatologists and is today, through constant research and the application of modern methods of manufacture, a better product than ever before, both in appearance and antiseptic value.

Wright's Coal Tar Soap, soothing to the tenderest skin, derives its health-protecting powers from this preparation.

IT IS A FORTUNATE HEAD THAT NEVER ACHED

For providing quick and lasting relief from headache of whatever origin, Veganin* Tablets are especially useful because they do not prevent the patient from continuing his usual occupation. Veganin does not cause drowsiness; it merely obliterates the pain and quiets the nervous manifestation.

Veganin is a compound of minimal doses of codeine, phenacetin and acetylsalicylic acid. The synergistic effect of these drugs of related action provides safe analgesic, antipyretic and antispasmodic medication, because the full force of the individual drug is obtained without its accessory manifestations. There is no likelihood of after-effects or habit formation.

Composition: Each tablet, 11.8 grns., contains w/w: Acia Acetylsal. 32.68%, Phenacet. 32.68%, Codeine 0.99%, excipient, ad 100.00%.

An effective and non-irritating DIURETIC

MERSALYL, a highly complex and non-irritating compound of mercury, is one of the most effective and least toxic of the mercurial diuretics for the treatment of ascites and oedema of cardiac origin. In such cases, Mersalyl frequently succeeds when digitalis and other diuretics fail.

Mersalyl-Boots is supplied as a solution containing 10 per cent. Mersalyl with 5 per cent. Theophylline for injection. As a supplement, Mersalyl Compound Tablets-Boots may be given. The tablets are well tolerated, and

are of value in mild cases and those where injections are undesirable.

AMPOULES: 1 c.c. and 2 c.c., each available in boxes of 6 and 100. COMPOUND TABLETS: in bottles of 25 and 100.

SUPPLY AND DEMAND

Today, the demand for London Hospital Catgut is greater than ever before as more and more Hospitals and Surgeons are insisting on sutures made by London Hospital Catgut. Supply, in fact, due entirely to circumstances beyond our control, cannot keep pace with demand. Additional skilled labour is difficult to obtain: moreover laboratory equipment, chemicals and packing material are still in short supply.

We are, however, doing all

within our power to remedy the position. Labour is being trained, laboratories extended and production increased as rapidly as is humanly possible, and this without the

slightest relaxation of our stringent and self-imposed standards of quality.

Should you find difficulty in obtaining supplies, please remember that we are doing our best, and requesting our agents to share out all available supplies as fairly as possible.

'LOREXANE' CONCENTRATE

The New Parasiticide for Pediculosis Capitis

'Lorexane' Concentrate contains in solution 1% of the pure gamma isomer of benzene hexachloride (the active constituent of 'Gammexane' products), a powerful parasiticide.

Diluted with four parts water, it produces a fine suspension which is highly effective against pediculosis capitis, and does not irritate or harm the scalp.

A single application is sufficient to eradicate head-lice. One teaspoonful of 'Lorexane' to a tablespoonful of water is usually enough to cover the scalp.

'Lorexane' Concentrate is odourless, clean, pleasant to handle and easily prepared for use.

The
HECSON
SUPER ELASTIC TRUSS
for the Treatment of Hernia

Strap is fixed to Pad at A. Therefore greater pressure is exerted at B, when the strap is pulled tightly.

Where treatment of Hernia by surgical methods is undesirable for any reasons, the HECSON super elastic truss can be confidently recommended. The Special Feature of the HECSON Truss is that the perineal or under strap is attached to the top of the pad instead of the lower margin as in the ordinary elastic or old spring truss. Thus it becomes part of the leverage mechanism for increasing the pressure of the pad at its base.

Why Ribena in Blood Dyscrasias?

Because it is established that vitamin C is an important factor in the proper utilisation of iron by the body, and that, in the treatment of iron-deficiency anæmias, an optimal intake of vitamin C is important. Because, too, clinical experience has proved its value as an adjunct in nutritional anæmias, as also in hæmorrhagic states. More specific information will be gladly supplied on request.

Ribena is the pure undiluted juice of fresh ripe blackcurrants with sugar, in the form of a delicious syrup. Being freed from all cellular structure of the fruit, it cannot upset the most delicate stomach. It is particularly rich in natural vitamin C (not less than 20 mgm. per fluid ounce) and associated factors.

DE GUSTIBUS NON DISPUTANDUM EST (Pr.)

Taste cannot be disputed

The need for iron in cases of pregnancy and post-partum anaemia is generally recognised, yet the form in which it is given must depend on the individual needs of the patient.

Taste cannot be disputed—but a prescription for only three 'Plastules' daily will be found readily acceptable to the patient. They are easy to take and contain ferrous iron in semi-fluid form, sealed fresh in a gelatin capsule. Thus a rapid response without causing digestive upset is achieved.

PLASTULES

Each Plastule: Plain contains Ferrous Sulph. Essicc. B.P. 5 grs. dried yeast ¼ grs. They are also available with hog stomach, with liver extract, and with folic acid.

IN SOLID STAINLESS STEEL

These Bedpans and Kidney Bowls in mirror-polished solid stainless steel fulfil the most exacting demands of hospital authorities and staff. They provide comfort for the patient, are perfectly hygienic, extremely serviceable and light in weight.

The Bedpans are seamless, and have drainage holes in open half-roll lip.

The Kidney Bowls have open half-roll edge and are designed to nest, thus saving storage space. In 3 sizes—8" x 1½" deep, 10" x 2" deep and 12" x 2½" deep.

These are but two items from the extensive range of "Atec" Surgical and Medical Equipment in Solid Stainless Steel—the modern material for modern hospitals.

ANTISEPTIC

LEAVES A
DISCONTINUOUS FILM...

By using Johnson's Baby Lotion, particularly after nappie changes, you leave a soothing, discontinuous film over a baby's skin and the antiseptic in the Lotion protects against surface bacteria and so reduces the risk of urine rash and nappie rash. Johnson's Baby Lotion is a snow white lotion—an oil-in-water emulsion, homogenised under pressure to give extensive dispersion of the globules. It enables the pores to 'breathe' naturally and normally, allows perspiration to escape easily and so helps prevent irritation. Clinical and laboratory tests show that Baby Lotion is a big step forward in baby skin care.

MULTITONE ELECTRONIC PHYSIOTHERAPY APPARATUS

The MULTISURGER is a two-valve portable Faradic unit generating unidirectional pulses which are automatically de-ionised.

The output can be continuous or surged at five predetermined rates selected by a switch, the output voltage is controlled by a potentiometer.

The absence of skin sensation, lack of moving parts, small size, light weight and robust construction make this the ideal instrument for use in Departments of Physical Medicine.

The output of this apparatus has a degree of comfort which is believed to be unobtainable except by electronic means.

The ratio of surge to rest period remains constant at all rates of surge and the relaxation period is of sufficient duration to reduce muscle fatigue to a minimum.

September

September is the month when schools reopen. Entering a new school, moving into a fresh form, embarking upon a different course of studies—these are important occasions in the lives of young people. For all parents and guardians, provision for the future is an ever present obligation, and it is good sense to ensure that plans for the coming generation will be faithfully observed. In particular you must be able to rely on the availability of your trustees just at the moment when your children have need of them. A SERVICE FOR THOSE WHO SERVE THE DEAF

In the selection of a Hearing Aid no one is more concerned to ensure that accurate diagnosis shall be followed by the prescription of the correct instrument than the patient's medical advisor. That is why so many Doctors and Specialists send their patients to Amplivox to make sure that they get a high fidelity instrument suited to their particular type of deafness. Experienced Amplivox consultants give every patient a thorough test by Audiometers as installed at London hospitals and used by leading specialists. From this a permanent, dated record, showing the exact degree of hearing loss throughout the tonal scale is compiled and filed for reference at any time. Thus Amplivox are able to offer a service of lasting value to the deaf and their advisors. A fully descriptive brochure will gladly be sent on request.

APPOINTMENTS

HIS MAJESTY'S COLONIAL SERVICE COLONIAL MEDICAL SERVICE

The Colonial Medical Service offers an interesting career and provides unique opportunities for applying medical science in all its branches in territories which are undergoing rapid development. There are immediate openings in many parts of the Colonial Empire, and applications are invited from both men and women doctors who are British subjects and who possess qualifications registrable in the United Kingdom. Medical Officers are usually appointed in the first instance for general duties which require all-round ability and a balanced outlook on both preventive and curative medicine. Doctors who hold the Diploma of Public Health or who have had previous experience in health work are also required for specific public health posts. In addition, ample scope exists for research and field investigation, and officers who possess special interests and aptitude are encouraged to obtain such higher qualifications as will enhance their value to the service. Appointments to the super scale posts in the administrative and specialist grades are invariably made by promotion of officers in the service who possess the necessary qualifications and experience. Full details regarding conditions and terms of service may be obtained on application to the Director of Recruitment (Colonial Service), Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1.

LANCASHIRE COUNTY COUNCIL Divisional Health Services

ASSISTANT DIVISIONAL MEDICAL OFFICERS

Applications are invited for the posts of Assistant Divisional Medical Officers. The appointments, which will be made by the appropriate Divisional Health Committees, will be whole-time and will be subject to the Standing Orders of the County Council. There are vacancies in a number of the Health Divisions within the Administrative County, the populations of the Divisions varying from 40,000 to 153,000. The duties of the office will include the medical inspection of school children, maternity and child welfare work, and such other duties, including matters of administration in connexion with the services, as the County Council or the Divisional Health Committee may direct. The officers appointed may be required to carry out clinical work in hospitals and out-patient departments under arrangements which may be made with the new Regional Hospital Boards and to take refresher or other prescribed courses of instruction. Preference will be given to candidates who have held previous hospital appointments and have had special experience in children's diseases. The possession of a Diploma in Public Health is desirable and will be an essential qualification for promotion to senior administrative posts. Salary will be at the rate of £860 per annum, rising by annual increments of £50 to £1,060 per annum. Appointment will be subject to passing a medical examination and the successful candidates will be required to contribute to the County Council's Superannuation Fund. Forms of application and further particulars may be obtained from the County Medical Officer of Health, Public Health Department, County Offices, Preston, to whom applications should be forwarded not later than Saturday, October 2, 1948. All communications must be endorsed "Assistant Divisional Medical Officer."—R. H. Adcock, Clerk of the County Council, County Offices, Preston.

NORTHAMPTONSHIRE COUNTY COUNCIL ASSISTANT MEDICAL OFFICER FOR MATERNITY AND CHILD WELFARE AND SCHOOL MEDICAL INSPECTION (Woman)

Applications are invited from suitably qualified medical women for the above whole-time appointment at an inclusive salary at the rate of £735 by £25 to £935 per annum, subject to deduction for superannuation plus travelling and subsistence allowances in accordance with the scale from time to time approved by the Council. Candidates should possess special knowledge and experience in maternity and child welfare work and preference will be given to applicants who hold the Diploma in Child Health and have been approved by the Minister of Education for the examination and ascertainment of handicapped pupils. The officer appointed will work under the direction and control of the County Medical Officer of Health. The appointment will be determinable by three months' notice on either side. Applications, stating age, qualifications and experience, together with a copy of one recent testimonial and the names of two referees, should reach the undersigned not later than October 8, 1948. Canvassing will disqualify.—J. Alan Turner, Clerk of the County Council, County Hall, Northampton.

STAFFORDSHIRE COUNTY COUNCIL ASSISTANT COUNTY MEDICAL OFFICER

Applications are invited from fully qualified medical practitioners possessing the Diploma in Public Health for the above-mentioned appointment, the duties of which will include school and maternity and child welfare work, and probably some of a public health nature. The salary scale will be £675 per annum, rising by annual increments of £25 to a maximum of £875 per annum, and in addition a cost-of-living bonus will be paid. The candidate appointed will act under the direction of the County Medical Officer of Health and will be required to perform such duties as may from time to time be prescribed. The appointment, which will be terminable by one month's notice in writing on either side, will also be subject to the provisions of the Local Government Superannuation Act, 1937, in which connexion the selected candidate will be required to pass a medical examination and produce his or her birth certificate. Forms of application may be obtained from the undersigned and should be returned to reach him by first post on October 4, 1948, accompanied by copies of not more than three recent testimonials.—T. H. Evans, Clerk of the County Council, County Buildings, Stafford.

THE RETREAT, YORKS

The Pioneer Hospital, opened 1796, for the humane treatment of those suffering from Nervous and Mental Disorder.

This Hospital of 230 beds, administered by a Committee of the Society of Friends, combines what is best in the investigation and treatment of nervous illness with a sympathetic and friendly atmosphere. During 1947 346 patients were admitted of whom no fewer than 289 were voluntary cases. Much curative work is accomplished in our mental hospitals to-day, and the recovery rate compares very favourably with that of our general hospitals. For information and terms of admission apply to the Physician-Superintendent, Arthur Pool, M.R.C.P., D.P.M. (Tel.: York 54551.)

K-Y LUBRICATING JELLY

FOR SURGICAL INSTRUMENTS
FOR DIGITAL EXAMINATIONS
FOR ELECTROTHERAPY APPARATUS

This jelly is non-greasy, water soluble. It does not stain clothing or hands, nor does it irritate the most sensitive surfaces. Surgeons find it most useful for lubricating catheters and cystoscopes. In electrotherapy K-Y, being non-greasy, does not interfere with the current when applied to glass and metal electrodes. *Send for sample and prices.*
