## NEW CORRECTIVE HEEL

*for Children*

Clarks have pleasure in announcing that they are making a new heel, suitable for attachment to an ordinary pair of Clarks Children's Shoes, which can successfully replace the use of T-irons or heavy surgical boots in the treatment of certain foot ailments and leg weaknesses.

## CLARKS CURATOR HEEL

has been clinically tested by an orthopaedic surgeon, who has employed it in a number of cases with most encouraging results. The heel, moulded in light-weight rubber, is shaped to give arch support to weak feet (valgus feet).

It is intended, as far as possible, to ensure that there shall not be indiscriminate use of this corrective device. Clarks prefer that it should be used only when specified by medical practitioners and that its fitting, etc. should be under expert supervision. Full details are available to members of the medical profession, children's clinics, etc. on application to Clarks.

## UNSATURATED FAT DEFICIENCY

Present day diets have an admitted quantitative fat deficiency. There is an equally serious qualitative deficiency in unsaturated fats which is frequently overlooked. Dry or unhealthy skin and membranes and prematurely falling hair which are common symptoms nowadays, even in quite young people, can arise from these combined fat deficiencies.

Cod Liver Oil is richer in metabolically important unsaturated fats than any other edible oil or fat. In SevenSeaS Cod Liver Oil, arising from the method of extraction at sea from fresh livers, and by the care taken in processing, these delicate fats are present in an undamaged and easily digested form. One teaspoonful a day is equivalent to an extra ounce of dairy butter per week, in fats and calories, and supplies very much more unsaturated fats and vitamins A and D than this amount of butter contains.

As for the vitamin content, here are the figures:

STANDARD OIL	
Vitamin A	- 20,000 I.U.
Vitamin D	- 2,500 I.U. per oz.
CONCENTRATED OIL CAPSULES	
Vitamin A	- 60,000 I.U.
Vitamin D	- 6,000 I.U. per oz.

## The Delicious Nourishing, Energising Vitamin Food for Infants, Children & Adults —at all Seasons

BY presenting valuable nutritive elements and important vitamins in a delicious form, 'Vimaltol' offers special advantages in everyday practice to the physician. With its delightfully sweet orange flavour 'Vimaltol' is readily acceptable to every patient.

'Vimaltol' is made from specially prepared malt extract of high protein content, yeast—one of the richest sources of Vitamin B<sub>1</sub>—and Halibut Liver Oil, an important source of Vitamins A and D. It is also fortified with additional vitamins and mineral salts, and is deliciously flavoured with orange juice.

'Vimaltol' is standardised to contain in each fluid ounce: 648 international units of vitamin A and 1390 of vitamin D; also 0.3 milligrammes of vitamin B<sub>1</sub>, 4 of Niacin (P.P. vitamin) and 4.8 of Iron, in a readily assimilated form.

'Vimaltol' has, therefore, an important therapeutic value where the deficiency of certain essential food elements in the dietary has resulted in abnormal conditions. Its regular use assists the development of the growing organism and the maintenance of correct metabolism while raising the general resistance against infection.

'Vimaltol' can be prescribed with advantage at all seasons, and for patients of all ages.

by the Spencer  
Certificated Surgical  
Supports Fitter

Spencer Fitters are given an intensive course of scientific training in Mechanical Support Therapy. A study is made of Anatomy and Physiology; the statics and dynamics of the spine; the conditions for which mechanical support is required; the correct method of applying control and support to the patient's body as a preliminary to taking measurements; the

method of measuring, and the correct adjustment of the completed support.

Complete efficiency must be demonstrated before the student is allowed to serve the Medical Profession.

Qualified Fitters will attend on the patient by appointment at the Surgery, the Hospital, or the patient's home.

After the support prescribed for a patient has been delivered and adjusted on the patient, the Spencer Fitter continues to service the patient regularly to ensure that the support is giving maximum benefit.

"Colds are like fires; the easiest and most certain time to put them out is at the earliest onset, but prompt action is essential."

British Medical Journal, June 30th, 1945, p. 926.

The use of 'Benzedrine' Inhaler at the first sign of a cold will often cut short the condition entirely. In the acute stages marked symptomatic relief can be obtained and the onset of serious complications prevented. The vapour diffuses throughout the nasal cavity, reaching and relieving congestion wherever it exists.

## 'ESTIGYN'

(Ethinyl Œstradiol B.D.H.)

*An Orally Active Derivative  
of the Natural Œstrogen, Œstradiol*

Ethinyl Œstradiol is unique in that it is a simple derivative of the natural ovarian hormone which is highly active when administered orally. It is now available for clinical use as 'Estigyn'.

'Estigyn' may be prescribed in all cases in which an oral Œstrogen is indicated, especially those in which the physician hesitates to prescribe one of the synthetic, non-steroid Œstrogens.

Toxic reactions, such as headache, nausea and vomiting, are rare following the administration of 'Estigyn' and are most unlikely after the usual therapeutic doses. 'Estigyn' is issued in tablets containing 0.05 mg., each tablet scored for convenience in giving doses of 0.025 mg. when these are required.

## PENICILLIN LOZENGE B.P.

Designed for slow disintegration when placed in the mouth, 'Avlon' Penicillin Lozenges provide a convenient, pleasant and effective means of maintaining bacteriostatic concentrations of Penicillin in the saliva. They are, thus, of value in the prophylaxis and treatment of infections of the mouth due to penicillin-susceptible organisms. The lozenges have proved highly effective in the treatment of post-operative dental infections and infective conditions of the oral mucous membranes, e.g. Vincent's angina.

### Dosage:

The lozenges are given at intervals of 1 or 2 hours and should be allowed to dissolve slowly in the mouth without sucking or chewing, treatment being continued for several days according to the condition of the patient.

### Packings:

'Avlon' Penicillin Lozenges each containing 500 units of penicillin calcium salt are issued in air-tight containers of 25.

## *In a Palatable, Readily Acceptable Form.*

Proteolysed Liver A & H is prepared by a process which eliminates the nauseating flavour of raw liver. Its palatability has been further improved by its presentation in a paste form. It may be readily incorporated in the normal diet by its inclusion in soups or on toast, bread or dry biscuits.

In pernicious anæmia and other megalocytic anæmias, proteolysed liver has proved effective in cases which have failed to respond to extracts of liver in general use.

The diagram summarizes the local and central actions of the drugs contained in 'Franol'. Clinical experience indicates that the combination gives more effective control than ephedrine and theophylline prescribed singly.

A noteworthy function of the 'Luminal' content is to allay anxiety: it keeps the patient physically and mentally at ease, inhibiting the sudden panic which sometimes precipitates an emergency call.

'FRANOL' (ephedrine + theophylline + 'Luminal') is supplied in packings of 20, 100, 500 tablets. The average adult dose is 1 tablet t.d.s., or 1-2 at the first warning of an attack.

## Analgesia from a travelling case

The Minnitt Gas-Air Apparatus is ideally suited to the needs of visiting practitioners and midwives alike.

Now standard throughout Great Britain, it weighs only 15lbs, in its travelling case, measures 19" x 12½" x 5" and is specially designed for self-administration by the patient. The flow of gas-air is controlled by the patient's own respiration; complete unconsciousness never occurs, as on the verge of insensibility the pressure of the patient's finger relaxes, allowing additional air to enter and dilute the mixture. Muscular action remains unimpaired. A wheeled model for hospitals and nursing homes is also available.

It is now widely recognised that a good diet is of paramount importance for the maintenance of health. But, while it is well known that proteins, fats, carbohydrates, vitamins and mineral salts are essential nutrients, it seems desirable that more information should be made available concerning the composition of the different foods, in order to encourage an intelligent planning of the diet and thus improve the general standard of nutrition.

## New one-minute tablet test for detecting urine-sugar CLINITEST

CLINITEST has been approved by the Medical Advisory Committee of the Diabetic Association. This unique tablet method for urine-sugar analysis is a copper reduction test with all reagents compressed in a single tablet. It is based on the same chemical principles involved in the Benedict Test, but it requires no external heating. The tablet generates its own heat. It provides a one-minute test equal in sensitivity and reliability to the other standard qualitative copper reduction tests. Simply drop one CLINITEST Tablet into the test tube containing the proper amount of diluted urine. Allow time for reaction and compare with the colour chart.

### CLINITEST offers these advantages:

- CONVENIENT** No external heating—no measuring of reagents.
- COMPACT** All essentials are contained in a hygienic pocket-size case.
- SIMPLE** Only three simple steps involved—ensuring full co-operation of diabetic patients.
- SPEEDY** Complete test takes less than one minute.

### APPOINTMENTS

#### SUDAN GOVERNMENT MEDICAL OFFICERS (Male)

Sudan Medical Service requires the services of male Medical Officers, aged preferably under 38, for work in the Southern Sudan. The salary offered will depend on the form on contract desired, age, qualifications and experience and will be in one of three scales having minima of £E.720, £E.840 and £E.900, and maxima of £E.1,200, £E.1,400, £E.1,500 respectively. In addition a cost-of-living allowance of from £E.180 to £E.390 per annum according to the number of dependants is at present payable (£E.1 equals £1 0s. 6d.). Free passage on appointment. Strict medical examination. There is at present no income tax in the Sudan. Further information and application forms may be obtained from Sudan Agent in London, Wellington House, Buckingham Gate, London, S.W.1. Please mark envelope "Medical Officer."

#### ROYAL AUSTRALIAN NAVY SURGEON LIEUTENANTS

Applications are invited from legally qualified medical practitioners for appointment as Surgeon Lieutenants in the Royal Australian Navy. Daily rate of pay for single Officers is 41s. and 48s. for married officers, plus certain allowances in both cases. First appointment is for short term service with prospect, if desired, of appointment to Permanent Naval Forces. Full details may be obtained from R.A.N. Liaison Officer, Canberra House, 87, Jermyn Street, London, S.W.1.

#### MINISTRY OF HEALTH MEDICAL STAFF MEDICAL OFFICERS

Applications are invited from registered medical practitioners, men and women, for 13 pensionable appointments as Medical Officers on the Insurance Regional Medical Staff of the Ministry of Health. Inclusive salary scale £1.150 (at age 38) by £30 to £1,300 by £50 to £1,500 (London; rather less in the provinces). The minimum of the scale will be linked to the age of 38 with deductions below that age of £30 per annum and additions of £30 per annum up to the age of 40. 13 vacancies will be filled, of which one will be on the staff of the Welsh Board of Health. Candidates must have been qualified for at least ten years and have a wide experience of general practice. If appointed they may be required to live anywhere in England or Wales. For one post in Wales a knowledge of Welsh is desirable. The duties include (1) acting as medical referee in examining insured persons referred for an opinion on questions of incapacity for work; (2) the examination of persons referred by the Ministry of Labour and National Service under the Disabled Persons (Employment) Act, 1944, and (3) such other duties, not of a clinical nature, as may be required of a Medical Officer in the Ministry or Welsh Board of Health. Further particulars and forms of application from the Secretary, Civil Service Commission, Burlington Gardens, London, W.1, quoting No. 2291, by whom completed applications must be received by November 6, 1948.

### ROYAL FACULTY OF PHYSICIANS AND SURGEONS OF GLASGOW

—The Royal Faculty of Physicians and Surgeons of Glasgow intimates that the Regulations respecting the Fellowship have been revised, that the revised Regulations will come into operation in June, 1949, and on that date the existing Regulations will lapse. The last examination to be held under the old Regulations will take place in May, 1949, to which examination only candidates who have previously appeared for examination will be admitted. The new Regulations provide that candidates for admission to the Fellowship *qua* Physician must produce evidence of having been engaged in hospital practice and the study of medicine for a period of at least three years after they have obtained an original medical qualification. For admission to the Fellowship *qua* Surgeon candidates, after having obtained a medical qualification, are required to pass a Primary Examination and a Final Examination. Prior to admission to the Final Examination candidates are required to produce evidence of having completed one year of full time clinical work in a recognized hospital and two further years in the study of surgery. Copies of the Regulations may be obtained on application to the undersigned.—David Willox, Secretary, 242, St. Vincent Street, Glasgow, C.2.

### ST. ANDREW'S HOSPITAL, NORTHAMPTON

#### For Nervous and Mental Disorders

**President:** The Most Hon. the MARQUESS of EXETER, K.G., C.M.G., A.D.C. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

**WANTAGE HOUSE.**—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath. Vichy Douche, Scotch Douche, Electrical baths. Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

**MOULTON PARK.**—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

**BRYN-Y-NEUADD HALL.**—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone Nos.: 2356 and 2357 Northampton), who can be seen in London by appointment.

## MAGNA EST VIS CONSUETUDINIS (CICERO)

The power of habit is great—and is undoubtedly the basis for satisfactory bowel movement in the normal individual. During illness and convalescence or due to the tempo of civilisation habit - time of bowel movement is often lost and constipation follows.

Once lost, this habit-time is not easy to regain, but 'PETROLAGAR' will do much to help in its recovery. 'PETROLAGAR' impregnates the faeces, softens hard, dry stools and achieves a comfortable bowel movement without gripping.

## A woman with an intimate problem . .

The question of whether or not to use internally worn sanitary protection is one which all women face sooner or later. In doing so, they naturally seek the guidance of one whose advice they completely trust—that of their Doctor. Tampax, which was invented by a gynaecologist and has already been accepted by thousands of members of the Medical Profession throughout the world, deserves your endorsement for its assurance of hygiene, physical comfort and alleviation of mental strain. If you are not acquainted with Tampax, descriptive literature and samples of both absorbency sizes will gladly be sent on request.

★ Tampax may be confidently recommended by Physicians for use by married women during normal menstruation. Its use by unmarried girls should not be advocated when the size of the hymenal aperture would cause difficulty in insertion and withdrawal.
