

HOUSING OF PATIENTS' HEALTH CARDS

Under the New National Health Plan

**Specially - Designed Cabinets
Available — in Steel and Wood**

Most medical men are in need of a means of housing the cards of their patients.

Cabinets are available which have been specially designed for this purpose—in steel or wood.

These are to take cards eight inches high and five inches wide. The steel type are in single units to hold 400 cards (with envelope) adaptable for bolting together in stacks. Stove-enamel green finished. The wood type are in units of four drawers in polished hardwood. Delivery is prompt.

Alphabetical guides are also available for sub-dividing cards so as to afford quick selection of individual cards.

Just write "Details of Health Cabinets" on your letter-heading and full details and prices will be sent you by return.

NOTE.—The well-known Shannon Visible Records, i.e., Account and Case-History records, are still available for private paying patients.

LIVER *at meal times*

In a Palatable, Readily Acceptable Form.

Proteolysed Liver A & H is prepared by a process which eliminates the nauseating flavour of raw liver. Its palatability has been further improved by its presentation in a paste form. It may be readily incorporated in the normal diet by its inclusion in soups or on toast, bread or dry biscuits.

In pernicious anæmia and other megalocytic anæmias, proteolysed liver has proved effective in cases which have failed to respond to extracts of liver in general use.

There's more than vitamins in SevenSeaS I

UNSATURATED FAT DEFICIENCY

Present day diets have an admitted quantitative fat deficiency. There is an equally serious qualitative deficiency in unsaturated fats which is frequently overlooked. Dry or unhealthy skin and membranes and prematurely falling hair which are common symptoms nowadays, even in quite young people, can arise from these combined fat deficiencies.

Cod Liver Oil is richer in metabolically important unsaturated fats than any other edible oil or fat.

In SevenSeaS Cod Liver Oil, arising from the method of extraction at sea from fresh livers, and by the care taken in processing, these delicate fats are present in an undamaged and easily digested form. One teaspoonful a day is equivalent to an extra ounce of dairy butter per week, in fats and calories, and supplies very much more unsaturated fats and vitamins A and D than this amount of butter contains.

As for the vitamin content, here are the figures:

STANDARD OIL	
Vitamin A	- 20,000 I.U.
Vitamin D	- 2,500 I.U. per oz.
CONCENTRATED OIL CAPSULES	
Vitamin A	- 60,000 I.U.
Vitamin D	- 6,000 I.U. per oz.

An important advance in Antisepsis

Streph is an important advance in antisepsis, being non-selective in action and effective against a wide range of pathogens.

Its activity is maintained in the presence of proteins and it is non-necrotic, non-toxic and non-staining.

It is miscible with water, normal saline and alcohol.

Streph is a powerful deodorant and approximately

three times as effective as Liq. Chloroxynolis or lysol.

These advantages make Streph the better antiseptic for medical, surgical and obstetrical use.

terms of TONIC value

The value of a tonic cannot be measured in simple numerical units. But the essential features of such a preparation can be placed under well-defined functional headings . . . *restoration, formation and protection*. Syrup Minadex is well equipped to fulfil these functions. Iron, calcium and other minerals comprise the stimulatory and formative elements of Minadex. The vitamins A & D of Minadex are valuable in a protective sense. *Combined in an orange-flavoured syrup enjoyable even to the most fastidious patient*, these factors restore lost appetite and hasten the return to full health.

Analgesia from a travelling case

The Minnitt Gas-Air Apparatus is ideally suited to the needs of visiting practitioners and midwives alike.

Now standard throughout Great Britain, it weighs only 15lbs, in its travelling case, measures 19" x 12½" x 5" and is specially designed for self-administration by the patient. The flow of gas-air is controlled by the patient's own respiration; complete unconsciousness never occurs, as on the verge of insensibility the pressure of the patient's finger relaxes, allowing additional air to enter and dilute the mixture. Muscular action remains unimpaired. A wheeled model for hospitals and nursing homes is also available.

Doctors today find that a large number of their patients complain of constant tiredness, of 'finding everything too much', of 'feeling generally run down'. Cases of debility and lassitude caused by present-day conditions are becoming increasingly prevalent. For these conditions 'Vibelan' is of particular value. It counteracts B vitamin deficiencies, containing as it does the principal members of the B group in the balanced proportions which are necessary for effective utilisation of proteins, fats and,

more especially, carbohydrates. Each tablet contains vitamin B₁ 0.5 mg., riboflavine 0.75 mg. and nicotinamide 7.5 mg., in a yeast extract base. Four tablets provide the normal daily requirement of these vitamins. 'Vibelan' is available in bottles of 50 tablets. Further details are available on request.

Safe, effective bacteriostasis with 'SULFEX' in nasal and sinus infections

The intranasal use of 'Sulfex' ensures prolonged local bacteriostasis and prompt vasoconstriction. The microcrystalline ('Mickraform') sulphathiazole forms a fine, even 'frosting' over the nasal mucosa, and makes possible the maintenance of high local concentrations with the minimum of systemic absorption. The shrinking action of 'Paredrinex' renders the tissues more accessible to the sulphathiazole and promotes ventilation and drainage. 'Sulfex' is indicated in nasal and sinus infections—particularly those secondary to the common cold—and in sore throat. It is equally suitable for children and adults.

'Sulfex' is an aqueous suspension of microcrystalline ('Mickraform') sulphathiazole, 5%, in an isotonic solution of 'Paredrinex', 1% (pH 5.5 to 6.5). Issued in 1-oz. and 8-oz. bottles.

THE protection afforded by the use of PYREX Brand Scientific Glassware in all works routine tests, and in all chemical research work and manufacturing processes is truly remarkable.

The innumerable PYREX Brand Glass vessels, tubes and fittings are not only almost completely immune from the effects of sudden thermal changes, but are highly resistant to all acids (except hydrofluoric and glacial phosphoric.)

By virtue of the amazingly low co-efficient of expansion of 3.2×10^{-6} per degree centigrade, the structure of PYREX Brand Scientific Glassware can be made robust than that of ordinary glass. This gives it additional mechanical strength, which enables it to resist the physical shocks of everyday usage... thereby saving much of the cost of glassware replacements.

ANTISEPSIS

The Time Factor

In estimating the true nature of an antiseptic, Time is a dimension. An antiseptic may be entirely efficient in that, over a given area, it destroys all pathogenic organisms. But there remains to be considered the risk of fresh contamination. The protection given by 'Dettol' is prolonged. Unless washed off or grossly contaminated, 30% 'Dettol' painted on the unbroken skin and allowed to dry will remain bactericidal against *streptococcus pyogenes* for at least two hours.*

* This experimental finding (*J. Obstet. Gynaec. Brit. Emp. Vol. 40 No.6*) has been confirmed in obstetric practice extending well over a decade.

GOOD NIGHT!

Nobody knows better than a busy doctor how elusive sleep can be to a tired brain and body. Happily there are well-proved ways of helping to ensure healthy, natural sleep — and many doctors recommend a measure they themselves have found most beneficial. It is — a cup of hot, soothing Bourn-vita just before bed. This delicious, easily digestible drink made of malt, milk, eggs, cocoa and sugar has proved invaluable as a help to sweet, restful sleep, a restorer of energy spent during working hours or lost during sickness.

APPOINTMENTS

HIS MAJESTY'S COLONIAL SERVICE COLONIAL MEDICAL SERVICE

The Colonial Medical Service offers an interesting career and provides unique opportunities for applying medical science in all its branches in territories which are undergoing rapid development. There are immediate openings in many parts of the Colonial Empire, and applications are invited from both men and women doctors who are British subjects and who possess qualifications registrable in the United Kingdom. Medical Officers are usually appointed in the first instance for general duties which require all-round ability and a balanced outlook on both preventive and curative medicine. Doctors who hold the Diploma of Public Health or who have had previous experience in health work are also required for specific public health posts. In addition, ample scope exists for research and field investigation, and officers who possess special interests and aptitude are encouraged to obtain such higher qualifications as will enhance their value to the service. Appointments to the super scale posts in the administrative and specialist grades are invariably made by promotion of officers in the service who possess the necessary qualifications and experience. Full details regarding conditions and terms of service may be obtained on application to the Director of Recruitment (Colonial Service), Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1.

INVERNESS MENTAL HOSPITAL, Inverness SECOND ASSISTANT MEDICAL OFFICER (B1)

Applications are invited from registered medical practitioners for the appointment as Second Assistant Medical Officer (B1). Salary at the rate of £590 per annum (subject to amendment), with board, lodging and laundry. Suitably qualified R practitioners holding B2 appointments or, if ineligible for H.M. Forces, those holding B1 appointments are invited to apply. Applications to be sent to the Medical Superintendent.

READING EDUCATION COMMITTEE TWO SCHOOL DENTAL OFFICERS

Applications are invited from qualified dental surgeons, men or women, for two posts of full-time School Dental Officer. Salary scale £650 by £25 increments to £800, plus cost-of-living bonus, at present £59 16s. One of the appointments is additional in view of the Authority's duties under the National Health Service Act, and the other is to fill a vacant post. The candidates appointed will work under the administrative direction of the School Medical Officer and the Senior Dental Officer and will be required to give their whole time to the duties of the posts. The appointments will be subject to the provisions of the Local Government Superannuation Act, 1937, and the successful candidates will be required to pass a medical examination. Applications, giving full details of age, training, qualifications and experience, and accompanied by copies of testimonials, should reach me not later than fourteen days after the appearance of this advertisement.—P. S. Taylor, Chief Education Officer, Education Office, Blagrove Street, Reading.

CHANNEL ISLANDS, STATES OF JERSEY GENERAL HOSPITAL HOUSE PHYSICIAN (Male)

Applications are invited for the post of House Physician (male) in the hospital. Appointment will be made for six months at a salary of £250 per annum, but is renewable, full board, lodgings and laundry. Apply to the President, Public Health Committee, General Hospital, Jersey, C.I.

ADMINISTRATIVE COUNTY OF LONDON PSYCHIATRISTS

The London County Council is about to appoint either (a) a who-e-time Psychiatrist at a salary of £1,500 a year, rising by annual increments of £100 to £1,800 a year; the post is a pensionable one; or (b) two part-time Psychiatrists (half-time) at a salary of £900 a year. Applications are invited from registered medical practitioners with at least five years' professional standing and with appropriate qualifications and experience for appointment to either of the above positions. The duties of the person(s) appointed will be concerned with the Council's scheme for child psychiatry in the school health service, including work in the Council's residential schools for deprived children. Forms of application containing further details can be obtained from the Clerk of the Council (G), the County Hall, Westminster Bridge, S.E.1, and should be returned by November 13, 1948. Cancellation of qualifications. (2093).

SOUTH-EASTERN REGIONAL HOSPITAL BOARD, Scotland EDINBURGH CENTRAL HOSPITALS BOARD OF MANAGEMENT MEDICAL SUPERINTENDENT

Applications are invited for the post of Medical Superintendent of the Edinburgh Central Group of Hospitals. This Group consists of the Royal Hospital for Sick Children (208 beds), the Princess Margaret Rose Hospital for Crippled Children (170 beds), Chalmers Hospital (a general hospital of 52 beds), the Hospital for Diseases of Women (34 beds) all of which are situated in Edinburgh, and Muirfield Convalescent Home, Gullane (at present operated in conjunction with the Royal Hospital for Sick Children and accommodating 32 children). The Edinburgh Orthopaedic Clinic and the Edinburgh Foot Clinic and School of Chiropractic are also administered by this Board of Management. Candidates should have had considerable experience in medical administration and experience of orthopaedic and children's hospitals will be considered an advantage. The person appointed will be responsible to the Board of Management for the administration of the hospital and the development of the specialist services. Salary will be at the rate of £1,200 per annum, subject to review in the light of any nationally agreed scales. Applications, giving full particulars of age, qualifications and experience, together with the names of three referees should be sent to the Secretary, South-Eastern Regional Hospital Board, 11, Drumsheugh Gardens, Edinburgh, to reach him not later than November 30, 1948.

It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone Nos.: 2356 and 2357 Northampton), who can be seen in London by appointment.

Prescription MILK FOODS

Most Infants thrive on standard HALF CREAM or FULL CREAM FOOD but there are some babies who require specially adjusted diets.

These varied nutritional needs can be met by the prescription of one of a suitable range of prepared foods.

The COW & GATE FOODS constitute a range from which a suitable food for every child can be selected. Variations in composition of some of these foods are shown diagrammatically.

Full particulars of these and other foods available on application.

*An antibiotic and
nasal decongestant*

GLUCO-THRICIL

This stable combination of ephedrine and the antibiotic, tyrothricin, in an isotonic dextrose solution, has been made possible by the use of a solubilizing and stabilizing agent.

'Gluco-Thricil' is indicated for the relief of nasal congestion accompanying the 'common cold,' catarrhal rhinitis and other infections of the upper respiratory tract. The product admirably meets modern requirements for rational and conservative intranasal medication; it produces a prompt and efficient shrinking of engorged tissues. Tyrothricin confers on it a high bactericidal activity associated with low tissue-toxicity.

'Gluco-Thricil' is miscible with nasal secretions and compatible with ciliary action. Low surface-tension gives it a high penetrating power.

In 1-oz. bottles, each with a dropper.
