The anticipated effects of glucose as an energiser and restorer are to some extent lost if the patient shows a degree of unwillingness to accept it.

But the common aversion to the sickly, sometimes nauseating, taste of glucose in many of its ordinary forms is strikingly absent whenever LUCOZADE is offered.

LUCOZADE is so palatable, so refreshing, that neither children nor adults ever need urging to take it as prescribed.

Why 'Ribena' in Skin Disorders?

Because the beneficial role of vitamin C in maintaining the integrity of the skin has been evidenced by the good results obtained from its use in various skin disorders.

Notably because excellent results are reported with natural vitamin C, in the form of 'Ribena' blackcurrant syrup, in specific cases of skin disorder, for example acne rosacea, allergic skin manifestations, and even psoriasis. Cases of dry skin and flexual eczema, too, in a large group of school children cleared up rapidly when their dietary was supplemented with Ribena. More specific information will be gladly supplied on request.

Ribena is the pure undiluted juice of fresh ripe blackcurrants with sugar, in the form of a delicious syrup. Being freed from all cellular structure of the fruit, it cannot upset the most delicate stomach. It is particularly rich in natural vitamin C (not less than 20 mgm. per fluid ounce) and associated factors.

VITAMINS PLUS—WHAT?

There's more than vitamins in Seven Seas

The vitamin story is not the whole story—the vehicle which carries them and the manner in which they are carried are of great significance. Vitamins A and D, as well as pro-vitamin A, are fully efficient only when they are dissolved in oil. But what of the oil? And of the manner in which the vitamins are associated with it? Isolated or synthesized vitamins dissolved in oil are not the same thing as the natural combination of the vitamins with the oil that characterizes cod liver oil.

Cod liver oil is richer in metabolically important unsaturated and readily digestible fats than any other edible oil or fat. Unsaturated fats are important in themselves and are doubly so when, as in the case of cod liver oil, the vitamins are an integral part of them.

Seven Seas cod liver oil, extracted at sea from fresh livers, presents both the unsaturated fats and the fat soluble vitamins in their ideal combination for meeting nutritional needs and especially those of convalescents, mothers, and children.

A Delicious Vitamin Food For Infants, Children & Adults —at all Seasons

TO the physician requiring a product which incorporates important vitamins in a form entirely pleasant and acceptable to every patient, 'Vimaltol' presents special advantages.

'Vimaltol' is a concentrated and economical vitamin food. The vitamins are supplied from specially prepared malt extract of high protein content, yeast—one of the richest sources of vitamin B₁—and Halibut Liver Oil, an important source of vitamins A and D. It is also fortified with additional vitamins and mineral salts and is deliciously flavoured with orange juice.

'Vimaltol' is standardised to contain in each fluid ounce 648 international units of vitamin A and 1390 of vitamin D; also 0.3 milligrammes of vitamin B₁, 4 of Niacin (PP vitamin) and 4.8 of Iron, in a readily assimilated form.

'Vimaltol' is thus an important aid in the treatment of the many abnormal conditions resulting from the deficiency of one or more of the essential vitamins in the average every-day dietary.

The routine use of 'Vimaltol' helps normal development of the growing organism and the maintenance of correct metabolism, while raising the general resistance against infection.

The Portanaest pays a visit

It means much to the General Practitioner to know that the Portanaest is always at hand, equally ready for midwifery in the home or for use in the consulting room or factory. Completely portable the Portanaest is very compact—yet it leaves nothing to be desired in the completeness of its equipment or the facility of its use. A master knob controls the rate of flow and pressure; another controls the mixture which can be read from the dial at a glance. For dentistry, the Portanaest can best be described as a portable "Walton"—an indispensable part of a visiting practitioner's equipment. A demonstration will gladly be arranged; literature is available on request.

Those that are a cause of fear to many should themselves avoid crowds. In Rome, do as the Romans do. But in modern times crowds are as difficult to avoid as the virus of the common cold. 'Endrine' nasal compound provides a simple method of treating coryza and catarrh. Three or four months may yet pass before the chilblain season is at its height. But active anticipation of the wintry weather can make the future a great deal brighter for those inveterate chilblain cases. Started now, a daily routine of four Ostocalcium Tablets will make an essential contribution towards the healthy capillary circulation so vital in withstanding the cold. Ostocalcium exerts a controlling influence on the permeability of the capillaries, preventing the exudation of fluid into the tissues that causes the characteristic swelling and inflammation. And the Ostocalcium formula takes full account of the need for vitamin D in calcium therapy, each tablet containing 500 i.u. of the vitamin with 125 milligrams of calcium.

**WHY INTALOK ELIMINATES
 BED-FATIGUE**

*Multitudes of fine springs provide medically
 correct support without flattening
 the fleshy parts of the body*

The patient on the Intalok mattress in the radiograph below is a normal 11 stone man. The area shown is the lumbo-Sacral region.

The two radiographs reproduced on this page illustrate clearly the finely sprung 'area-of-support' of an Intalok hospital mattress and show why patients placed upon Intalok remain noticeably free from symptoms of bed fatigue *even when confined to bed for long periods*. Fig. 1 is a section of the mattress uncomressed. Note the *method* of the springing. Hundreds of fine gauge springs are linked together throughout their lengths to form a "squab", a finely sprung unit which combines to receive weight. What this scientific springing does under the *weight* of the patient is shown in Fig. 2. Note how every spring shares some part of the load. The compression of the springs vary exactly with the shape of the body. *There is no excess pressure or resistance at any point; no flattening of the fleshy parts of the body to cause soreness or irritation.* Yet support is firm, anatomically correct. The spine is held in its naturally straight position. The result is exceptional comfort and no fatigue. Doctors, matrons and other hospital authorities have noticed that patients relax as soon as they are placed on Intalok. Patients stay relaxed, enjoying more sleep and, when awake, a greater degree of restful quiet. There is a strong case for Intalok mattresses in hospitals.

BELLADENAL

**Antispasmodic .. Anticonvulsive
 Sedative**

B ELLADENAL combines the central sedative action of phenobarbitone with the peripheral antispasmodic action of the total levorotatory alkaloids (Bellafoline) of Belladonna leaves. Bellafoline is only half as toxic as atropine in doses which are therapeutically equivalent in their effect on the parasympathetic.

Each tablet of Belladental contains:

Bellafoline	0.25 mg.
Phenobarbitone	0.05 Gm.

The components of Belladental act synergistically with each other so that a powerful antispasmodic and sedative effect is obtained with comparatively small doses.

chilblains

IN CROOKES IODINE OIL the somewhat violent characteristics of iodine have been brought under control. Thus the oil is non-staining, rapidly penetrative and free from irritation.

Following its application the oily medium may be removed by the use of any dry material leaving a protective film which is harmless to clothing.

These characteristics are of particular value when Crookes Iodine Oil is used for the treatment of chilblains. Absorption of the iodine immediately follows the lightest movement of the oil over the affected part—an ease of application which greatly facilitates its use. It is indicated for both broken and unbroken chilblains.

IT IS AN IMPORTANT
FACTOR WHEN JUDGING
THE STRENGTH OF PURE
OSSEINE GELATINE POWDER

The test of a good gelatine is its "Bloom-Strength" . . . that is, the measurement of its "jelling-power" as given by the Bloom Jellometer. Lingfords Osseine Gelatine Powder is the highest quality gelatine and is made only from dried bone. Compared with most commercial gelatines, Lingfords Gelatine Powder has been found to provide upwards of 12 times the normal average "jelling-strength." It is this high concentration which makes Lingfords Osseine Gelatine so economical in use. A pint jelly can be made for less than 4d.

THIS GELATINE IS PURE PROTEIN

Lingfords Osseine Gelatine (made entirely from dried bone), is guaranteed to have a maximum protein content. It is entirely free from arsenic . . . and because of this high superior quality and purity Lingfords Osseine Gelatine Powder is restricted by the Ministry of Food for sale to Nursing and Clinical Establishments only, and for use in certain prepared foods.

TRIAL OFFER

This Gelatine is packed in 6lb. tins, price 8s 6d. per lb., carriage paid British Isles . . . a single trial tin will be sent to any Clinical or Nursing Establishment on sale or return, without obligation . . . and if, after use, it is not found, in every way, to be more satisfactory than others, the unused portion may be returned, carriage forward.

MULTITONE MONOSTAT HEARING AID WITH AUTOMATIC VOLUME CONTROL

The 'MONOSTAT' is a very small three-valve hearing aid which provides fully automatic regulation of volume.

This unique development eliminates the discomfort experienced with many older forms of aid due to unexpected changes of sound intensity. The 'MONOSTAT' user can move from quiet to noisy surroundings without readjusting the manual control; also any sudden loud noise is automatically reduced to a tolerable level.

A selector switch enables the user to cut out the automatic control when full volume variation is required such as when listening to music.

The 'MONOSTAT' measures only $4\frac{1}{2} \times 2\frac{1}{2} \times 1$ inches and weighs $6\frac{1}{2}$ ounces. It uses the new Vidor 'Kalium' low tension battery and costs approximately 4d. an hour to maintain.

LAXATIVES for CHILDREN

To aid the Physician in choosing a laxative for children, we give the chief characteristics of Andrews. The dosage is easily adjusted according to age. Andrews is pleasant-tasting, and children accept it readily. Its laxative action is mild, and is due to the presence of magnesium sulphate and other salts in balanced proportion which increase the fluid content of the bowel by osmotic action and so lead to easy non-gripping evacuation. Andrews has a soothing effect on the stomach, stimulates the bile-flow and generally aids digestive processes. It is also useful as a gastric sedative in bilious attacks. Andrews has no constive reaction when discontinued.

The WHY and WHEREFORE of CEREAL FORTIFICATION

* Number Two : Iron

Iron used to be given in the form of those complex organic compounds which occur in nature such as haemoglobin. This seemed sound common sense until it was found that in order to use the iron the body had first to break these compounds down, and that simple forms of iron were more readily assimilated.

Various forms are, of course, used in food fortification. One of these is reduced iron—the ferrum redactum of the British Pharmacopoeia; this can be defined as "metallic iron reduced to a fine impalpable powder, associated with oxides of iron in small amounts, the whole being readily soluble in gastric juice".

Both in this country and the United States reduced iron has been proved to be admirably suitable for the fortification of cereal products. Incidentally, no discolouration of the cereal takes place when milk is added and the mixture brought to the boil.

Robinson's 'Patent' Groats consists of finely ground oat flour with the addition of ferrum redactum, creta preparata and calciferol (vitamin D). The iron content is 7 mg. per oz. of Groats.

For the Disabled and the Infirm

THE ability to get about, to maintain daily interests and social contacts, plays an important part in the continued health and happiness of the disabled and the infirm.

For this purpose the NELCO "SOLOCAR" is ideal. Electrically driven; silent, vibrationless and free from fumes; operated with one hand—effortlessly and without strain—it climbs any hill, travels forty miles without re-charging, passes through most doorways, turns in its own length.

Enquiries for the new post-war models can now be received. A fully detailed and illustrated brochure will shortly be issued.

EXTRACTS FROM REVIEWS OF PREVIOUS EDITIONS

"It lays especial stress upon the more important common conditions and upon various clinical matters almost disregarded by the average student. It shows him what will be important to him as a qualified man and wastes no time in perpetuating clinical myths."—*St. Mary's Hospital Gazette*.

"It will be found both of value and interest to the recently qualified practitioner."—*London Hospital Gazette*.

"Original and stimulating."—*Newcastle Medical Journal*.

"The book is well written and its tabulated form makes it attractive and easy to read."—*Queen's Medical Magazine* (Birmingham).

"Originality and sound perspective have raised this book out of the ranks of the synopses, while a grasp of the essential has enabled the writer to cover the wide range of medicine in a remarkably short space. We enjoyed the break-away from the classical text-book style, the approach to the subject from the clinical aspect."—*Charing Cross Hospital Gazette*.

"We strongly recommend this book to all Final Year Students."—*University of Durham College of Medicine Gazette*.

"To have covered such an enormous field and yet to have brought all this material within the bounds of such a handy little volume, scarcely greater than pocket-book size, is a feat of which Dr. Walker may well feel proud."—*Cambridge University Medical Society Magazine*.

GREEN CORN AT HARVEST TIME

EVERY practising physician has observed the increase in what may be termed "the cult of sub-normal health"—particularly among young girls.

Usually the positive signs are few. They may well be psychogenic.

If the presenting symptoms are debility, with lethargy, constipation, lustreless hair, adenoids and catarrhal disorders an iodine-deficient thyroid should come high on the list of differential diagnoses.

Adequate iodine intake even in known goitre areas would be assured by the addition of iodine to table salt, as recommended by a subcommittee of the Medical Research Council. Medical men are invited to write for WORLD GOITRE SURVEY, which presents a summary of world knowledge on the use of iodine in the treatment of goitre and its allied conditions. WORLD GOITRE SURVEY will be sent free of charge to any interested medical practitioner.

B1—Whole-time appointments, usually resident within the senior establishment—e.g., Registrar, R.S.O., etc.

B2—Whole-time house appointments not within the senior establishment, usually resident, and usually held by practitioners with six months' experience.
R—Male, liable to military service under the National Service Acts.

APPOINTMENTS

HIS MAJESTY'S COLONIAL SERVICE COLONIAL MEDICAL SERVICE

The Colonial Medical Service offers an interesting career and provides unique opportunities for applying medical science in all its branches in territories which are undergoing rapid development. There are immediate openings in many parts of the Colonial Empire, and applications are invited from both men and women doctors who are British subjects and who possess qualifications registrable in the United Kingdom. Medical Officers are usually appointed in the first instance for general duties which require all-round ability and a balanced outlook on both preventive and curative medicine. Doctors who hold the Diploma of Public Health or who have had previous experience in health work are also required for specific public health posts. In addition, ample scope exists for research and field investigation, and officers who possess special interests and aptitude are encouraged to obtain such higher qualifications as will enhance their value to the service. Appointments to the super scale posts in the administrative and specialist grades are invariably made by promotion of officers in the service who possess the necessary qualifications and experience. Full details regarding conditions and terms of service may be obtained on application to the Director of Recruitment (Colonial Service), Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1.

MINISTRY OF NATIONAL INSURANCE

Applications are invited from registered medical practitioners, men and women, for the following pensionable appointments:

ONE SENIOR MEDICAL OFFICER on the inclusive salary scale of £1,500 by £50 to £1,700 (London).

SIX MEDICAL OFFICERS on the inclusive salary scale of £1,150 by £50 to £1,300 by £50 to £1,500 (London). For posts outside London the salary is somewhat lower.

The minimum of the Medical Officers scale will be linked to the age of 38 with deductions of £30 per annum for each year below that age and additions of £30 per annum up to the age of 40. For the post of Senior Medical Officer, which will ordinarily be at London Headquarters, candidates must be aged not less than 40 years on October 1, 1948, and should have special knowledge of medical boarding. Considerable administrative experience is also required. A higher qualification will be an advantage. The Medical Officers are required for service as members of Pneumoconiosis Medical Panels, which at present are located in London, Cardiff, Edinburgh, Manchester, Sheffield, Stoke-on-Trent and Swansea. Candidates must be aged not less than 30 years on October 1, 1948, and should have a special interest and experience in chest work. Candidates must be British subjects. It is one of the conditions of appointment that an officer must be prepared to serve in any part of the United Kingdom if required to do so from time to time. All the above posts will be filled by competitive interview of suitable candidates by a Selection Board set up by the Civil Service Commissioners on which the Ministry of National Insurance will be represented.

Further particulars and forms of application may be obtained from the Secretary, Civil Service Commission, 6, Burlington Gardens, London, W.1, quoting No. 2323. Completed application forms must be returned in time to reach him not later than December 2, 1948.

COUNTY BOROUGH OF GRIMSBY

Applications are invited for the undermentioned appointments, viz.:

**ASSISTANT MEDICAL OFFICER OF HEALTH
AND ASSISTANT SCHOOL MEDICAL OFFICER
(woman)**

Candidates must have held a resident obstetric post for at least six months and either held a resident post for a period of six months or been a clinical assistant for a period of not less than twelve months in a children's hospital. The possession of a D.P.H. or D.C.H. and/or experience of general practice will be deemed to be additional qualifications. The work will be mainly in connexion with the Maternity and Child Welfare Scheme, but candidates will be expected to assist in the work of the School Medical Service and such other duties as the Medical Officer of Health may from time to time delegate. Opportunity will be given for extra experience in obstetrics at the Maternity Hospital formerly run by the local authority.

**ASSISTANT MEDICAL OFFICER OF HEALTH
AND ASSISTANT SCHOOL MEDICAL OFFICER
(male or female)**

The successful applicant for this post will generally be required to perform duties equally divided between the Maternity and Child Welfare Scheme and the School Medical Service, but may also be required to carry out such other duties as the Medical Officer of Health may from time to time delegate. The possession of a D.P.H. or D.C.H. and/or experience of general practice will be deemed to be additional qualifications.

The salary for each appointment is £735 per annum rising by annual increments of £25 to £935 per annum, and the commencing salary will have regard to the previous experience of the person appointed. A car allowance in accordance with the agreed national scale for local authorities will be paid. Selected candidates will be required to pass a medical examination and these appointments will be subject to the Local Government Superannuation Act or to the National Health Service Superannuation Regulations.

Application to be made on forms, which can be obtained from the Medical Officer of Health, 1, Bargate, Grimsby, and returned to me not later than fourteen days from the date of this advertisement.—L. W. Heeler, Town Clerk, Municipal Offices, Grimsby.

**COUNTY BOROUGH OF BIRKENHEAD
ASSISTANT MEDICAL OFFICER AND
ASSISTANT SCHOOL MEDICAL OFFICER (Male)**

Applications are invited from registered medical practitioners for the position of Assistant Medical Officer and Assistant School Medical Officer at a salary of £735 per annum, rising by annual increments of £25 to £935 per annum. The Council would be prepared to adjust the initial salary, within the scale, according to the experience of the appointed candidate with a Local Authority. The person appointed will be required to carry out, under the direction of the Medical Officer of Health, duties in connexion with the Maternity and Child Welfare and School Health Services, together with such other duties as may from time to time be prescribed. Possession of the D.P.H. or D.C.H. and/or experience in the mental testing of school children will be considered an advantage. Applications, on forms to be obtained from the Medical Officer of Health, 9, Hamilton Square, Birkenhead, and accompanied by copies of three recent testimonials, must be delivered to the undersigned not later than fourteen days after the date of this advertisement.—E. W. Tame, Town Clerk, Town Hall, Birkenhead.

**COUNTY OF EAST SUSSEX
RURAL DISTRICT OF BATTLE
BOROUGH OF RYE**

**MEDICAL OFFICER OF HEALTH AND
ASSISTANT SCHOOL MEDICAL OFFICER**

Applications are invited for the combined post of Medical Officer of Health for the Rural District of Battle (population 29,000 approx.) and for the Borough of Rye (population 4,000 approx.) and Assistant County Medical Officer for the Battle and Rye areas of East Sussex. The latter appointment consists of work for the County Council as Health Authority in the conduct of a scheme of vaccination against smallpox and immunization against diphtheria, and also supervision of ambulance services, the total proportion of time to be devoted to this work being approximately one ninth. The holder of the post will act in addition as Assistant School Medical Officer (24 days a week) under the direction of the County Medical Officer of Health, but primarily he will be engaged by the Rural District Council, which will pay him the combined and consolidated salary, viz., £1,100 per annum, rising, by two increments of £50 and one of £40, to £1,240 per annum, with an allowance of £165 for travelling expenses and maintenance of a car, which he must provide. The appointment is superannuable; it is subject to the approval of the Ministries of Health and Education, to Section 110 of the Local Government Act, 1933, the Sanitary Officers' (Outside London) Regulations, 1935, and is terminable by three months' notice. INSTITUTE OF

OBSTETRICS AND GYNAECOLOGY

Queen Charlotte's Maternity Hospital and the Chelsea Hospital for Women have combined with the Postgraduate Medical School of London to form an Institute of Obstetrics and Gynaecology.

Applications are invited from postgraduates holding a registrable medical qualification, who wish to **SPECIALIZE** in these subjects. The **SPRING TERM**, lasting nine weeks, commences on January 12, 1949. On enrolment postgraduates will be posted to one of the constituent hospitals and will also attend combined classes at the other two hospitals on two days a week. This provides a wide variety of teaching and clinical material. An enrolment fee of £3 is charged, and a fee of £20 a term, or £35 for two terms.

General practitioners wishing to obtain further experience of Obstetrics may be accepted at Queen Charlotte's Hospital to attend the practice of the hospital, for periods of two or four weeks, during which time they will have opportunities for delivering normal cases. In addition, they will attend the combined classes of the other two hospitals. A fee of £3 per week is charged, during term time, for attending the practice of the hospital.

Postgraduates may attend the practice of the hospital at the Postgraduate Medical School and Queen Charlotte's Hospital during the vacation, when a charge of £1 a week is made. A Refresher Course, suitable for general practitioners, will be held at the end of the Spring Term. Hostel accommodation is available at the Postgraduate Medical School and at a short distance from Queen Charlotte's Hospital.

Applications should be made to the Secretary of the Institute of Obstetrics and Gynaecology, Postgraduate Medical School, Ducane Road, W.12, who will send enrolment forms and further particulars.

MICHELIN

TYRE Co. Ltd., Stoke-on-Trent

supplementing the diet

With winter approaching, the necessity for a sound diet containing a good supply of vitamins cannot be over-emphasised. Although there is some diversity of opinion as to the usefulness of administering synthetic vitamin supplements, it is generally agreed that the inclusion in the diet of natural foods of high vitamin content is most desirable.

Marmite, which is a yeast extract, contains naturally-occurring essential vitamins of the B₂ complex. One of the chief advantages of using Marmite is that, while it provides a useful source of B₂ vitamins, it also adds a delicious flavour to soups, stews, savoury dishes and sandwich-spreads. An appetising drink can be made by mixing Marmite with hot water or milk.

The
principle
behind
Wright's
Coal Tar
Soap

For over 80 years Liquor Carbonis Detergens has been used and recommended by specialists in skin diseases because of its antiseptic and antipruritic powers. Today those powers are more effective than ever before, thanks to continuous laboratory research and much-improved methods of manufacture. Based on this therapeutic principle, Wright's Coal Tar Soap, mild and soothing in action, gives health protection to the skin.
