THERMOGENE Medicated Wadding

as an external application in the treatment of rheumatism, lumbago, tonsillitis, bronchitis, etc., has consistently proved valuable over many years as a means of stimulating the sensory nerve-endings and promoting capillary circulation. It rarely fails to comfort and soothe the patient and in the relief of persistent pain its effect is most gratifying.

THERMOGENE Vapour Rub

applied to the chest in respiratory disorders produces local counter-irritation and warmth, and also releases volatile agents which act therapeutically on inhalation, easing the breathing and reducing surface congestion.

By neutralizing the cause you neutralize the effect.

Neutralization of the excess acid in the stomach without impairment of the normal digestive processes is the key to the satisfactory treatment of hyperacidity and peptic ulcer.

'ALUDROX,' a suspension of 5.6% colloidal aluminium hydroxide in gel form, rapidly controls this free acid without interfering with combined acid. A peptic ulcer quickly heals and pain is promptly relieved. The aluminium hydroxide is excreted later unchanged, thus avoiding all risk of alkalosis.

SAFE **Persomnia** TRADE MARK OR BARBITURATES?

The frequently reported losses of barbiturates announced by the B.B.C. are considered to be, more often than not, attempts by addicts to obtain additional supplies of the drug. The medical profession is therefore rightly reluctant to prescribe this drug frequently or for long periods.

The best means to stop such undesirable practice is to restrict prescriptions of barbiturates to cases which are not likely to respond to other sedatives or hypnotics.

Persomnia, a combination of two *open-chain* ureides*—bromisovalerylurea and carbromal—has been proved by long clinical practice to be as effective as barbiturates in practically all cases in which a sedative or mild hypnotic is indicated. The preparation discloses a marked synergistic enhancement of effect as compared with the therapeutic value of the two component drugs *individually* employed.

**Barbiturates are closed-chain ureides*

Some of the advantages of PERSOMNIA over barbiturates are the following:

- *Safety in use, even in doses largely in excess of therapeutic requirements*
- *Not habit-forming*
- *No after-effects*
- *No effect on the normal circulation*
- *Minimal risk of bromism*
- *No cumulative action*
- *Well tolerated*
- *Rapid absorption and excretion*
- *Induces quiet sleep without preliminary excitement*

NOTE:—Persomnia has no official B.P., B.P.C., or N.(W.)F. equivalent.

**CARNEGIE
PENICILLIN
PASTILLES**

It has been recognised, from the earliest experimental stages, that the ideal base for administering penicillin in oral infections is gelatin, as this gives the most effective spread of the drug in the mouth. Pastilles prepared by the usual methods, however, proved unsatisfactory, since the necessarily high water content caused a rapid loss of potency on storage. In addition, they dissolved far too quickly in the mouth. Carnegie Gelatin Base Penicillin Pastilles are produced by a new process evolved in our own Research Laboratories and entirely overcome these objections. Carnegie Gelatin Base Penicillin Pastilles will retain their potency for a year at room temperature and, if used correctly, will maintain an effective level of Penicillin in the mouth for a period of up to four hours. Each pastille is individually packed in an airtight pocket of laminated acetate foil, which should not be torn until ready for use.

OSTOMALT

As a reliable safeguard against infection, as a stimulus to appetite and as a nutrient:

tonic during all phases of rapid growth, Ostomalt is a most valuable aid in general practice. In addition to malt extract and concentrated orange juice, Ostomalt contains glycerophosphates and measured amounts of the therapeutically important vitamins A and D. There is no fishy oil in Ostomalt and no useless bulk; teaspoonful doses suffice. The 'completeness' of Ostomalt together with its pleasant orange flavour are decisive advantages when prescribing for children and convalescents. A regular daily dose is a material aid to the growth of healthy tissues and a firm defence against relapse.

Efficient Salicylate Medication

A LASIL' is an analgesic, antipyretic and sedative of established value. It provides the physician with an efficient form of salicylate medication which combines the advantages of high tolerability and greater freedom from the possibility of unpleasant gastro-intestinal sequelæ.

This tolerability is due to the fact that 'Alasil' is a combination of acetylsalicylic acid and Dibasic Calcium Phosphate together with 'Alocol' (Colloidal Aluminium Hydroxide), an effective gastric sedative and antacid.

For these reasons 'Alasil' can be administered with confidence—over prolonged periods if necessary—to children, adults, the aged, and patients with finely balanced digestive capacities.

CONTINUOUS PERFORMANCE

In Gelusil* Tablets the recognizedly prompt and effective antacid virtues of aluminium hydroxide are fortified by magnesium trisilicate to provide sustained neutralization in peptic ulcer and related hyperchlorhydric states.

Gelusil contains a specially processed, partially dehydrated alumina which is virtually incapable of reacting to produce soluble chloride; "alumina constipation" is thus practically eliminated. Gelusil provides prompt, uncomplicated and continuous antacid therapy.

PLAIN TALKS ON INFANT FEEDING

Can the infant cope with Whole Milk Protein?

Advanced opinion holds that it cannot unless that protein is reduced in quantity and character and so rendered acceptable to the child's digestion. This conversion of cow's milk into the nearest possible approximation to mother's milk, is what the makers of Trufood have achieved. Humanised Trufood is no rough and ready approximation to mother's milk. The cow's milk is broken down and reconstituted so that the nourishing factors are brought together again in the same percentages as they are found in human milk. Taking human milk as their guide, the makers of Trufood have, as it were, 'remodelled' cow's milk into breast milk. Fat, protein and carbohydrate content is practically the same in both; likewise the amino-acid composition of the proteins—a vital feature, as every doctor knows. The fat is finely emulsified as in mother's milk; and there is no hard, indigestible curd. Its calorific value is practically identical with that of mother's milk. One of the special features of Trufood is that there is no variation at any time in its character or content. Trufood costs more because more care and research must be given to its making. *Literature giving detailed information can be obtained by writing to Trufood Ltd. (Dept. BM 34), Bebington, Wirral, Cheshire.*

The EASIBINDER

The manufacturers of the "Easibinder" have great pleasure in informing their many friends in the Medical Profession that their Binder is again available for the "British Medical Journal," the "Lancet," and all other medical publications.

This outstanding self-binding device known to thousands of doctors before the war is once again offering its service. Do not wait until your valuable journals are soiled or lost. Order the Easibinders now for 1948 and 1949.

These are the main features of the Easibind system :

- (a) Note how flat the pages open.
- (b) The journals are easily inserted with steel rods (supplied with the binder) and single journals can be removed and replaced at will.
- (c) By means of a special patented device the binder is just as useful when only partly filled as it is when full, and therefore never loses its book effect.

Easibinders for the B.M.J. and Lancet hold a complete volume (2 binders per year). Price of each binder, inclusive gold-blocked title and year, is 12s. 6d. (postage and packing rates see below).

As mentioned above Easibinders can be supplied for all Medical Journals and the following are examples of some of the journals. Price as above.

AC EXTRA MILEAGE PLAN

saves you precious petrol

NEVER UNDERESTIMATE the humble - looking spark plug. A dirty or faulty plug is a traitor to the cause of petrol conservation, can waste as much as one gallon in every ten. This won't happen to you if you try the AC Extra Mileage Plan.

1 Consult the AC Plug Doctor. In just 10 minutes this sensitive device will test your plugs, clean the ones that are still good, indicate which should be replaced.

2 Change to the new AC Plug. Its aircraft insulator gives quicker starts, more sustained power, more miles to the gallon. No shorting, no cracking, and points last longer.

3 Use the AC Plug Service regularly. Drive into any official AC Plug Cleaning and Testing Station at regular intervals and have your AC plugs maintained at "factory - fresh" efficiency.

COUNTY BOROUGH OF GRIMSBY

Applications are invited for the undermentioned appointments, viz.:

ASSISTANT MEDICAL OFFICER OF HEALTH AND ASSISTANT SCHOOL MEDICAL OFFICER (woman)

Candidates must have held a resident obstetric post for at least six months and either held a resident post for a period of six months or been a clinical assistant for a period of not less than twelve months in a children's hospital. The possession of a D.P.H. or D.C.H. and/or experience of general practice will be deemed to be additional qualifications. The work will be mainly in connexion with the Maternity and Child Welfare Scheme, but candidates will be expected to assist in the work of the School Medical Service and such other duties as the Medical Officer of Health may from time to time delegate. Opportunity will be given for extra experience in obstetrics at the Maternity Hospital formerly run by the local authority.

ASSISTANT MEDICAL OFFICER OF HEALTH AND ASSISTANT SCHOOL MEDICAL OFFICER (male or female)

The successful applicant for this post will generally be required to perform duties equally divided between the Maternity and Child Welfare Scheme and the School Medical Service, but may also be required to carry out such other duties as the Medical Officer of Health may from time to time delegate. The possession of a D.P.H. or D.C.H. and/or experience of general practice will be deemed to be additional qualifications.

The salary for each appointment is £735 per annum rising by annual increments of £25 to £935 per annum, and the commencing salary will have regard to the previous experience of the person appointed. A car allowance in accordance with the agreed national scale for local authorities will be paid. Selected candidates will be required to pass a medical examination and these appointments will be subject to the Local Government Superannuation Act or to the National Health Service Superannuation Regulations.

Application to be made on forms, which can be obtained from the Medical Officer of Health, 1, Bargate, Grimsby, and returned to me not later than fourteen days from the date of this advertisement.—L. W. Heeler, Town Clerk, Municipal Offices, Grimsby.

COUNTY BOROUGH OF WIGAN MEDICAL OFFICER OF HEALTH

Applications are invited for the appointment of Medical Officer of Health at a salary of £1,360 per annum. Statement of duties (which include responsibility for the Welfare Services Section of the Health Department) and general conditions of appointment may be obtained on application to the undersigned. Applications must be delivered to me on or before Saturday, December 11, 1948.—Alan Royce, Town Clerk, Municipal Buildings, Library Street, Wigan.

COUNTY OF EAST SUSSEX RURAL DISTRICT OF BATTLE BOROUGH OF RYE

MEDICAL OFFICER OF HEALTH AND ASSISTANT SCHOOL MEDICAL OFFICER

Applications are invited for the combined post of Medical Officer of Health for the Rural District of Battle (population 29,000 approx.) and for the Borough of Rye (population 4,000 approx.) and Assistant County Medical Officer for the Battle and Rye areas of East Sussex. The latter appointment consists of work for the County Council as Health Authority in the conduct of a scheme of vaccination against smallpox and immunization against diphtheria, and also supervision of ambulance services, the total proportion of time to be devoted to this work being approximately one ninth. The holder of the post will act in addition as Assistant School Medical Officer (2½ days a week) under the direction of the County Medical Officer of Health, but primarily he will be engaged by the Rural District Council, which will pay him the combined and consolidated salary, viz., £1,100 per annum, rising by two increments of £50 and one of £40, to £1,240 per annum, with an allowance of £165 for travelling expenses and maintenance of a car, which he must provide. The appointment is superannuable; it is subject to the approval of the Ministries of Health and Education, to Section 110 of the Local Government Act, 1933, the Sanitary Officers' (Outside London) Regulations, 1935, and is terminable by three months' notice. An applicant to be successful must pass a medical examination, he must reside in the Rural District within five miles of Battle, and must not engage in private practice. Applications, stating full qualifications, must reach me not later than December 11, 1948, together with copies of three recent testimonials. Canvassing will disqualify. Relationship to members or senior officers of any of the three Councils must be disclosed. C. T. Chevallier, Clerk to the Rural District Council of Battle, The Watch Oak, Battle, Sussex.

COUNTY BOROUGH OF ST. HELENS

ASSISTANT MEDICAL OFFICER OF HEALTH (Male)

Applications are invited for the post of Assistant Medical Officer of Health (male). The duties will be mainly in connexion with the School Health Services, but may include duties in connexion with the other Health Services or General Sanitary work, at the discretion of the Medical Officer of Health. Candidates should have special experience in the diseases of children, or experience in School Medical Inspection, and the possession of D.P.H. or D.C.H. is desirable, but not essential. The salary will be at the rate of £675 per annum, rising by annual increments of £25 to a maximum of £875 per annum, plus current temporary cost-of-living bonus. Motor-car allowance in accordance with the Council's scale will also be payable. Where a candidate is at present in the service of another authority on a rising scale, recognition may be given to past service with such authority in fixing the commencing salary. The appointment will be subject to the provisions of the National Health Service (Superannuation) Regulations and/or the Local Government Superannuation Act, 1937. Consideration for housing accommodation will be given according to the circumstances of the successful applicant. Forms of application may be obtained from the Medical Officer of Health, Town Hall, St. Helens, and completed applications accompanied by copies of not more than three recent testimonials should reach me not later than December 13, 1948. Candidates must, when making application, disclose in writing whether to their knowledge they are related to any member of the Council or to a holder of any senior office under the Council. Canvassing members of the Council or Committee of the Corporation will be a disqualification.—Frank Hauxwell, Medical Officer of Health, Town Hall, St. Helens.

Compensation FOR THE SERIOUS LACK of FAT

World-wide rationing has reduced our fats and in consequence our fat-soluble vitamins. Angier's Halibut Liver Oil Capsules solve the problem of how the physician can prescribe the essential fat-soluble vitamins A & D, because Halibut Liver Oil is so rich in these *natural* vitamins that Angier's are able to put enough into two or three small, tasteless and easily swallowed capsules to provide the body's entire requirements for the whole day. Thus Angier's Halibut Liver Oil Capsules enable the physician to prescribe a preparation which can justly be expected to help in countering some of the more serious results of our dietary lack of fat.

FORMULA

Vitamin A: 32,000 International Units per gramme
Vitamin D: 2,500 International Units per gramme
Which represents per capsule:
Vitamin A: 4,500 International Units
Vitamin D: 420 International Units
