

# Against exhaustion

The energising and therapeutic effect of glucose is available in a most acceptable form in LUCOZADE.

Whereas ordinary glucose preparations may have a sickly and even nauseating effect on the palate, LUCOZADE is remarkably refreshing. Once tasted—it is never refused.

An  
improved  
form of  
glucose therapy

This pleasing characteristic is of the greatest value in treating cases of shock, physical exhaustion and other conditions requiring glucose ingestion.

(Containing Dextrose, Maltose, and Dextrin in solution equivalent to 23% w/v Liquid Glucose B.P.).
