

ENERGEN DIETARY SERVICE

offers to the Medical Profession without charge the filing-box illustrated above, which contains standard diets for many common conditions requiring dietary treatment. In addition doctors are invited to apply for special dietaries to meet the requirements of individual patients.

SECRETARY, ENERGEN DIETARY SERVICE (Dept. A.17), WILLESDEN, N.W.10

PRE-NATAL DIET and the course of PREGNANCY

The normal functioning of the reproductive organs during pregnancy depends, among other things, upon the plentiful intake of vitamins and minerals.

Medical opinion is gaining ground that there is an increased need for Vitamin B in late pregnancy and the early puerperium. Its administration during the period before childbirth has resulted in less vomiting and nausea and in marked improvement in the nutritional value of the breast milk. In order to assure the building of the foetal bones *in utero*, and afterwards during breast-feeding, the importance of Vitamin D and of calcium and phosphorus is also established.

In Supavite Capsules the practitioner has at hand a combination of these and other essential vitamins and minerals in a scientifically balanced form of particular value in maternity cases.

Angier's
SUPAVITE
