Invalid Bovril is a highly concentrated form of Bovril for use in the sick-room. Prepared without seasoning, it provides the maximum concentration in the most easily assimilated form. Many doctors recommend it in cases where the patient needs "building-up" after illness. Perhaps there is a patient of yours who would benefit from a course of Invalid Bovril?

d-TUBOCURARINE CHLORIDE
(DUNCAN)

The value of *d*-Tubocurarine Chloride (Duncan) as a muscle relaxant in anaesthesia is now firmly established and its extensive use confirms that it reaches the same high standard of the other Duncan anaesthetic products.

Hypules No. 107 each contain 15 mg. of *d*-Tubocurarine Chloride (Duncan) in 1.5 ml., presenting a sterile, stable solution which is compatible with Soluble Thiopentone B.P. in all proportions normally employed in anaesthesia.

Issued in boxes of 6 and 50 Hypules and in rubber-capped bottles containing 50 mg. in 5 ml.
