

Head Louse Infestation

SHOULD BE TREATED WITH **SULEO**

FORMULATED with D.D.T. plus Pyrethrins, SULEO HAIR EMULSION combines speed of action with a high residual effect which exceeds the incubation period of the nits by several days.

Extensive tests carried out in co-operation with the child-clinic doctor of an important Metropolitan Borough against very bad cases of pediculosis capitis have proved that SULEO renders head lice moribund only 5 minutes after application and destroys all lice present within 15 minutes.

SULEO also has great ovicidal value. Laboratory tests conclusively show that up to 94% of nits fail to hatch after its application. Those that do subsequently hatch are killed by the residual action.

Non-irritant—Non-toxic—Easily applied—Undetectable. Used by Medical Officers throughout the country.

Suleo
HAIR EMULSION

Obtainable from all chemists. Sample and literature upon request from—

JEYES LABORATORIES LIMITED, Millbrook, Chigwell, Essex.

From single-cell selection
to large-scale production
