## A Significant Advance in **AUDIOMETRIC** technique

Produced as the result of consultations with Medical Authorities, both in this country and abroad, the Belclere A.2.A. Audiometer incorporates all the improvements rendered desirable in the light of practical experience. Among other distinguishing features is the inclusion of dual calibration, with twin attenuators, for binaural recruitment tests. Provision is also made for gramophone recorded speech tests.

A PERFECT APPLIANCE  
FOR ITS PURPOSE:

## SALT'S *Sacro-iliac* Belt

Designed by an eminent orthopaedic specialist, this Belt is available in styles for men and women. Its perfect efficiency is accompanied with complete comfort. Rapidly restoring the normal relationship of the sacral and iliac bones, it also exerts a beneficial effect on the tone of the abdominal viscera. Not the least commendable thing about this Belt is the fact that it enables the patient to make early resumption of normal activities. Further details and Measure/Order forms available to medical people on request.
