

For certain cases of
weak (valgus) feet

Clarks
curator heel
for children means
"ordinary shoes"

Certain foot ailments and leg weaknesses can be put right without T-irons or surgical boots. Wherever possible doctors use a lightweight corrective heel, knowing the immense difference such an "ordinary look" makes to a child's attitude towards its own physical handicaps. Full details of *Clarks Curator Heel* are available to the medical profession, children's clinics, etc., on application to Clarks.

STRUCTURAL INTEGRITY

The structural integrity of aluminium hydroxide preparations lies in their ability to withstand certain environmental stresses.

Exposed to physiological gastric pH an ordinary alumina gel soon disintegrates completely when, meeting with gastric HCl, it is reduced to soluble, astringent non-protective, aluminium chloride.

In the presence of hydrochloric acid at gastric pH the protective demulcent, acid resistant alumina gel of Gelusil* antacid adsorbent is not significantly altered. Gelusil assures rapid, prolonged symptomatic relief in the treatment of gastric hyperacidity and peptic ulcer.

FORMULA. Each tablet contains :—
Mag. Trisil. 7½ grs. Alum. Hydrox. gel 4 grs.
