

A combination of qualities

The claims of 'Dettol' do not rest on any single quality desirable in an antiseptic, but rather upon the combination of several essential properties. It can be used at fully effective strengths with safety; that is, without risk of poisoning, discomfort or damage to tissue. It retains a high bactericidal potency in the presence of blood, it is stable, and agreeable in use.

'DETTOL' THE MODERN ANTISEPTIC

'Dettol' is available in 2 gallon and 5 gallon tins free of Purchase Tax for dispensing purposes only. Smaller sizes, including 1 gallon tins for public use are subject to Purchase Tax.
