

Invalid Bovril is a highly concentrated form of Bovril for use in the sick-room. Prepared without seasoning, it provides the maximum concentration in the most easily assimilated form. Many doctors recommend it in cases where the patient needs "building-up" after illness. Perhaps there is a patient of yours who would benefit from a course of Invalid Bovril?

PEROXIDE TOOTH PASTE

contains the  
essential  
requirements  
of a good  
tooth paste

Macleans fulfils all the functions of a good dentifrice efficiently and with complete safety to the teeth and gums. It polishes the teeth without scratching them, removes greasy film and enables a non-abrasive polishing medium to work quickly and efficiently. All the solid contents of the dentifrice are ultimately soluble in saliva, leaving no solid residues in the tissues.

Macleans Peroxide Tooth Paste is alkaline. It helps to neutralise acid plaques formed by fermenting food particles. It is mildly antiseptic but does not injure the normal oral flora which are the natural defence of the mouth against infection. Its flavour is refreshing.

## A Matter of Minutes...

THE common head louse, *Pediculus humanus capitis*, has proved completely vulnerable to SULEO HAIR EMULSION. One treatment with SULEO will clear the most heavily infested head in a matter of minutes. Formulated with D.D.T. plus Pyrethrum SULEO acts instantly and remains toxic for at least fourteen days, thus exceeding incubation period of nits by some days. An outstanding advantage is that the hair may be washed during this period without lessening the lethal effect.

SAFE TO USE—HARMLESS TO HAIR & SCALP—EASILY APPLIED—PLEASANTLY PERFUMED—UNDETECTABLE.

*Used by Medical Officers throughout the United Kingdom.*
