# Ralgex

**ANALGESIC - RESOLVENT  
COUNTER-IRRITANT**

A solid embrocation without disagreeable odour. Will not stain clothing

## Indications

**RHEUMATIC AND  
MUSCULAR PAINS,  
NEURALGIA AND  
HEADACHES,  
BRONCHITIS,  
CATARRH,  
LARYNGITIS**

## Action

*The analgesic properties in Ralgex afford rapid relief of all rheumatic and other pains.*

*Ralgex acts as a counter-irritant in cases of Bronchitis, Catarrh, Laryngitis or Pharyngitis.*

Clinical samples and literature gladly sent upon request.

## NEW TEXTBOOKS for the HIGHER EXAMINATIONS

This new series of textbooks combines brevity with clarity and accuracy. No padding. No space wasted on inessentials. Specially written for candidates preparing for the higher examinations.

### Handbook of Medicine for Final Year Students Fourth Edition

By G. F. WALKER, M.D., M.R.C.P., D.C.H. Pp. 305. Price 25s. net. Previous editions have met with an enthusiastic reception. Valuable for M.R.C.P. candidates.

"Whatever hundreds of Medical books you have, get this one."  
—S.A. Medical Journal.

"To have covered such an enormous field in such a handy little volume is a feat of which Dr. Walker may feel proud."—Cambridge U. Med. Magazine.

### Handbook of Child Health Just Published

By AUSTIN FURNESS, L.R.C.S., L.R.C.P., D.P.H., L.D.S. Valuable for D.C.H. and D.P.H. candidates. Price 25s. net.

"The Handbook will prove a mine of information on the work for improving Child Health. Much industrious reading has gone into the compilation of this manual."—Birmingham Medical Review.

"The book is refreshing in its approach. Dr. Furness has written a useful little book."—British Medical Journal.

"A valuable addition to Paediatrics written by a school medical officer. The chapters on growth, nursery and open air schools are particularly recommended."—Manchester U. Medical School Gazette.

### Handbook of Ophthalmology

By J. H. AUSTIN, D.O. (Oxon.), D.O.M.S., R.C.S. Pp. 344. Price 30s. net. Specially written for candidates preparing for the D.O.

"Contains a wealth of information in short compass."—Guy's Hospital Gazette.

"An excellent book for the ophthalmic House Surgeon."—London Hospital Gazette.

### Handbook of Gynaecology Just Published. 1951

By TREVOR L. S. BAYNES, M.D., F.R.C.S., M.R.C.O.G. Pp. 163. Price 15s.

"The chief distinction of this book lies in its superb arrangement and tabulation. It is quite the best synopsis aid or handbook that we have ever read."—Manchester U. Medical School Gazette.

# *In the Service...*

## **Dietary**

Once surgery or drugs have effected the utmost improvement in a diseased part, one naturally turns to consideration of providing a regimen which will regenerate the patient's whole strength and renew his former vigour.

## **For Regeneration**

At the commencement of this second stage of treatment, especially after chronic, debilitating illnesses necessitating long periods in bed, patients seldom welcome a sudden return to their everyday solid meals; their digestive tracts require some time to be re-accustomed to cope with conventional diets.

## **In the Service of Convalescence**

For providing first-class nutriment in convalescence, in the acceptable and rapidly digestible form of a food beverage, your best choice is 'Ovaltine': its contents of malt, milk, cocoa, soya, eggs and added vitamins are recognized body-builders of richest quality; its meticulously controlled manufacture ensures the retention of all the naturally occurring accessory factors so essential for post-surgical and post-infectious recovery; your patients will welcome its delicious flavour and will benefit from its outstanding nutritional qualities.

\* Vitamin Standardization per oz.—  
Vitamin B<sub>1</sub>, 0.3 mg.; Vitamin D, 350 i.u.; Niacin, 2 mg.

# OVALTINE

A. WANDER LIMITED, LONDON W.1

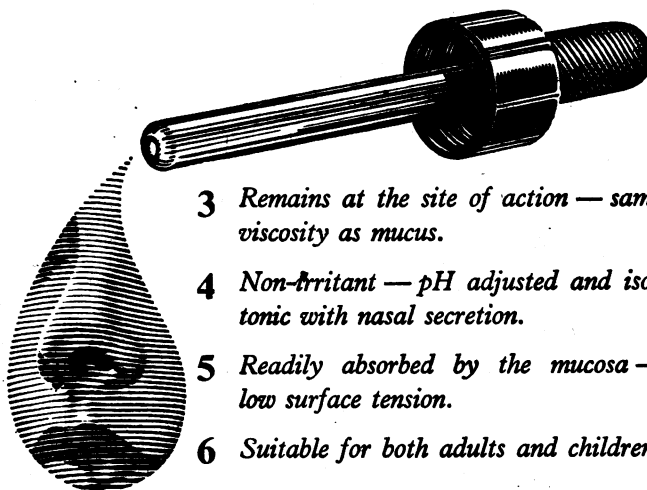

M.358

# NEW

**a nasal vasoconstrictor with  
all these advantages:**

- 1 *Two-stage vasoconstriction — immediate and prolonged without secondary vasodilatation.*
- 2 *Water miscible and non-oily — no interference with ciliary action and no danger of lipid pneumonia.*

- 3 *Remains at the site of action — same viscosity as mucus.*
- 4 *Non-irritant — pH adjusted and isotonic with nasal secretion.*
- 5 *Readily absorbed by the mucosa — low surface tension.*
- 6 *Suitable for both adults and children.*

FENOX is indicated in the local treatment of the common cold, hay-fever, vasomotor rhinitis, sinusitis and other catarrhal conditions of the upper respiratory tract. It shrinks the swollen

mucosa, maintains adequate drainage, and shortens the attack by diminishing the initial injury to the mucous membrane caused by intense congestion. *Supplied in ½ fl. oz. dropper bottles.*

# FENOX

*Compound Isotonic Nasal Drops  
of Phenylephrine and Naphazoline.*

Samples and descriptive literature available on request from The Medical Department  
BOOTS PURE DRUG COMPANY LIMITED, NOTTINGHAM.

# An advance in Oral Iron Therapy

ELIXIR CEREVON provides for the first time in this country, FERROUS GLUCONATE, the ferrous salt of d-Gluconic acid containing 11.5% Iron, 95% of which is in the ferrous state. Ferrous gluconate is more readily assimilated and utilised for haemopoiesis than ferrous sulphate and is well tolerated, even in patients who experience nausea and gastric upset after taking ferrous sulphate.

CASE 11. Chronic Microcytic Anaemia				ELIXIR CEREVON 3.6 mls. t.d.s. ac.			
R.B.C's Mill/cu m.m.	Hb.% Haldane	GMS/ 100 mls.	Mean Cell Diameter	Colour Index	Reticulocytes Number		
Before Treatment.			7.1	6.4 mu.	0.8	1.3	42,250
3.25	52	After 5 days Treatment.		8.0	6.4 mu.	0.79	7.1 262,700
3.70	58	After 11 days Treatment.		9.8	7.0 mu.	0.79	8.0 344,000
4.30	68	After 14 days Treatment.		10.1	7.0 mu.	0.79	6.2 285,000
4.60	73	TOTAL ACTUAL DOSES TAKEN BY PATIENT = 39					

The above case report indicates that ELIXIR CEREVON produces a sharp reticulocytic response and rapidly restores the erythrocytic blood picture to normal.

ELIXIR CEREVON also contains Aneurine Hydrochloride, Riboflavin and Nicotinamide for the treatment of microcytic hypochromic anaemias accompanied by Vitamin B deficiencies.

## ELIXIR CEREVON

IS PRESCRIBED ON FORM E.C.10.

## ***The Postural Reflexes Remain Intact***

# **VERILOID**

Trade Mark

## *In Hypertension*

A highly valuable feature of the hypotensive action of Veriloid is the continued functioning of the postural reflexes so important to normal living. Even when the blood pressure is lowered to normal or near-normal limits, exertion and sudden changes in posture lead to the physiological adjustments in cardiovascular dynamics which are needed to prevent acute hypotensive episodes or collapse.

Veriloid, a distinct, biologically assayed hypotensive fraction of *Veratrum viride*, finds great usefulness even in the more severe and resistant forms of hypertension. For most patients the average daily requirement of 9 to 15 mg. given in divided dosage three times daily is adequate, although individualization of dosage is essential for maximum therapeutic efficacy and prevention of reactions.

Veriloid is available on prescription through all pharmacies in 1 mg. tablets. It may be prescribed on Form E.C.10 without restriction. Literature available on request.

## Treatment of the Streptococcal Throat

'PONDETS' Penicillin are a new and ingenious vehicle for local oral penicillin therapy that combine the striking advantages of extreme palatability with prolonged action. Each 'Pondet' contains 5,000 international units of crystalline potassium penicillin-G in a delicious hard, fruit, toffee-like base that completely masks the bitter taste of penicillin.

Because of the nature of their hard base, 'Pondets' dissolve slowly and uniformly, supplying an uninterrupted high concentration of penicillin to infected areas of the oro-pharyngeal mucosa.

INDICATED in minor superficial oral infections due to penicillin sensitive organisms ranging from the 'Streptococcal Throat' to the less common Vincent's infection and recommended for routine prophylactic use following Tonsillectomy.

*Individually wrapped in bottles of 20.*

Children accept 'Pondets' as readily as a sweet, and they are particularly useful in controlling throat infections in juvenile communities.

*For Safe  
and acceptable  
Sulphonamide  
Therapy!*

'Cremotresamide' reduces the incidence of crystalluria — the primary factor causing renal complications in patients undergoing sulphonamide therapy.

'Cremotresamide' produces and maintains highly effective blood levels.

'Cremotresamide' combines low toxicity, excellent tissue distribution and good therapeutic efficiency.

'Cremotresamide' is particularly acceptable to children, but will be found useful in all age groups.

*Descriptive literature, clinical package and practical dosage card gladly forwarded on request.*
