Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.

The same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

New Peptic Ulcer Treatment Comparable to Drip Therapy

Whole milk and alkaline constituents combine to produce increased buffering action

NULACIN TABLETS have been evolved to meet a very real need in the treatment of gastric and duodenal ulcers.

All the literature on the treatment of peptic ulcers emphasizes the proven value of diminishing the acidity of the gastric juice. Many large and otherwise intractable ulcers can be healed by a continuous, intragastric drip of milk or alkali.

Drip therapy is, however, not always available, nor is it practicable to use it in many instances. Nulacin offers a satisfactory alternative.

Continuous Neutralization

A NULACIN TABLET allowed to dissolve slowly in the mouth has been shown clinically to provide a continuous neutralization comparable with that of drip therapy.

NULACIN TABLETS contain nutrient in a most acceptable form to the peptic ulcer patient. Nulacin tablets obviate the necessity of taking frequent feeds, and so lessen the tendency to obesity which must inevitably occur in those who are following a dietary regime of food at frequent intervals.

During ulcer activity the suggested dosage is 3 tablets to be sucked each hour, and for follow-up treatment 2 tablets should be sucked between meals, beginning half an hour after a meal.

The tablet is of a suitable size, and of a consistency and hardness, so that, when it is sucked, the result is a constant and prolonged neutralization of the gastric juice.

NULACIN TABLETS are extremely palatable, and during extensive clinical tests their taste has proved to be particularly acceptable to patients.

The patient should be instructed to place the tablet between the gum of the upper jaw and the cheek. Here it will be comfortable, and slowly dissolve. The efficacy of the tablet is greatly diminished if it is chewed and swallowed.

NULACIN TABLETS are not advertised to the public. There is no B.P. equivalent to this tablet.

NULACIN TABLETS are prepared from whole milk combined with dextrins and maltose, and incorporate:

Magnesium Trisilicate 3.5 grs. Magnesium Oxide 2.0 grs. Calcium Carbonate 2.0 grs. Magnesium Carbonate 0.5 grs. Ol. Menth. Pip. q. s.

NULACIN TABLETS are at present packed in bottles of 100 and tubes of 12.

'PYREX'

Laboratory and Scientific | Glassware

A boro-silicate glass of low alkali content, 'PYREX' Brand Glassware resists attack from all-ordinary reagents.

Its low coefficient of expansion enables 'PYREX' Brand apparatus to be made with thicker, stronger walls, thus reducing risk of breakage, while retaining a very high resistance to the effects of sudden temperature changes.

A simple but very effective system ensures accurate calibration of 'PYREX' Brand Graduated Glassware, to NPL Class B or Class A Standards as required.

The above properties offer very sound reasons for using 'PYREX' Brand Laboratory and Scientific Glassware, on grounds both of efficiency and economy.

'PYREX' Brand PRECISION BORE GLASS TUBING

Made by a continuous stretching process which ensures highly accurate inside dimensions, 'PYREX' Precision Bore Glass Tubing is exceptionally suitable for hypodermic syringe barrels, pump cylinders, manometers, viscometers, moulds for rubber, etc. Normally supplied with a bore tolerance of 0.05 mm., but for special needs can be supplied to 0.02 mm. While we can make this tubing to any size, we carry stocks of a wide range of standard sizes. May we send you our full illustrated catalogue?

...A Complete Response in HYPERTENSION

THE BLOOD PRESSURE DROPS

Through reduction of peripheral resistance, Veriloid produces a significant drop in arterial tension. Not only is that large group of patients with moderate hypertension benefited, but also patients with severe essential and malignant hypertension. The usual daily requirement of Veriloid is from 9 to 15 mg., given in divided dosage three times a day, at intervals of from 6 to 8 hours, the first dose to be taken after breakfast. The evening dose should be one or two mg. larger than the other two doses of the day.

THE PATIENT IMPROVES SUBJECTIVELY

The gratifying feature of Veriloid therapy is the speed with which the distressing discomfort of hypertension is overcome. Headache disappears, easy fatigability lessens, vision has been reported to improve through absorption of retinal exudations and kidney function is increased. These beneficial changes, often experienced before the blood pressure has dropped significantly, are presumably related to the vaso-relaxation induced by Veriloid and the resulting improved tissue nutrition. Veriloid is available on prescription only through all pharmacies in 1 mg. and 2 mg. tablets in bottles of 100 and 500. Literature available on request.

RIKER LABORATORIES, LTD. 29 KIRKEWHITE STREET, NOTTINGHAM

VERILOID

Brand amorphous alkaloids of Veratrum viride

VERILOID—V.P. AND VERILOID INTRAVENOUS

Veriloid is also available as Veriloid-VP, containing Veriloid 2 mg, and Phenobarbitone B.P. 15 mg, for administration to patients who find it difficult to tolerate Veriloid alone.

For injection in cases of hypertensive crises, it may be obtained in ampoules containing Veriloid 0.4 mg, per c.c. in 0.25% acetic acid, under the style of Veriloid Intravenous Solution,

ULCER CHARACTERISTICS — Deep Naso-Labial Groove

Clinicians have repeatedly noted a similarity of facies in patients suffering from peptic ulcer, the outward signs of an inward worrying character part cause and part effect of the ulcer. The deep naso-labial groove or furrow is an example of one of the features commonly seen in these cases. While by itself of no diagnostic significance it is nevertheless an interesting little link in the chain of evidence that leads from suspicion to certainty. A more reliable characteristic of the ulcer patient is amenability to 'Aludrox' therapy.

'ALUDROX' FOR PEPTIC ULCER

For the treatment of peptic ulcer 'ALUDROX' has advantages now fully appreciated by the medical profession.

- * Buffers gastric acid.
- * Inactivates pepsin.
- * No acid rebound.
- * No fear of alkalosis.
- * Allows normal digestion to proceed.

A new Schistosomicide

causing only minimal discomfort

Two disadvantages have hitherto attended antimonial therapy in schistosomiasis. Treatment has needed to be lengthy; toxic reactions have been markedly severe. That 'Triostam', the new antimonial schistosomicide, has in certain cases proved effective in a course of only six daily injections, seldom causing even moderate side-reactions, represents a notable advance. Clinical trials with 'Triostam' have shown that it gives a satisfactory rate of cure in both S. hæmatobium and S. mansoni infestations. Less than one-third as toxic as tartar emetic, it occasions no discomfort to most patients; coughing and nausea, when experienced, are minimal. 'Triostam' is issued as a sterile powder in dry-filled ampoules of 225 mgm. (an average adult dose) in boxes of 6 ampoules. Injections are prepared by dissolving the powder in cold, sterile, distilled water immediately before use.

BURROUGHS WELLCOME & CO. (The Wellcome Foundation Ltd.) LONDON

PAIRED FOR EFFECTIVENESS

The association of methyltestosterone and ethinylœstradiol in 'Mepilin' enables a reduction to be made in the effective dose of œstrogen for the relief of menopausal symptoms. Undesirable side-effects such as breast turgidity and pelvic congestion are avoided and the risk of withdrawal bleeding is reduced. The anabolic properties of the combination provide an increased feeling of confidence and well-being.

In ageing people of both sexes Mepilin, through improvement in the general nutritional condition, retards both mental and physical decline.

'MEPILIN'

ETHINYLŒSTRADIOL O.OI mg. METHYLTESTOSTERONE 3 mg

Dosage: Menopause — 2 to 6 tablets daily. Premenstrual tension and dysmenorrhea — 2 tablets daily from 10th to 22nd day of menstrual cycle. Geriatric conditions — 3 to 6 tablets daily.

Bottle of 25 at 7/5 and 100 at 23/8 to the Medical Profession Literature and specimen packings are available on request

THE BRITISH DRUG HOUSES LTD. (Medical Department) LONDON N.I

MEP/E/3

Sprains and reduced dislocations of the fingers, and STABLE fractures of the phalanges and metacarpals, may be treated by the following method:—

The injured finger is strapped to an adjacent uninjured finger by two strips cut from a 1" wide Elastoplast Plaster. The strapping is applied transversely around the two fully extended fingers

so that the interphalangeal joints are not covered.

The above method of strapping prevents lateral movements of the injured joints; allows the fingers to be fully flexed and extended, and prevents stiffness of the joints and permanent limitation of movement often associated with other means of immobilization.

Produced by T. J. Smith & Nephew Ltd., Hull. Outside the British Commonwealth, Elastoplast is known as Tensoplast

What's so different

Humanised Trufood is different. It is not an ordinary dried cow's milk. Cow's milk is certainly the raw material used but the finished product is much more than dried cow's milk: it is a special food, specifically designed to meet the nutritional needs of the growing infant. Moreover Trufood is dried by the spray process, keeping the fat as a fine, well diffused emulsion and ensuring greater solubility.

REGD.

If you would like to know more about Trufood—how it is made, and why we think that it is the most satisfactory substitute for breast milk—write to Trufood Ltd., Professional Information Service, Green Bank, London, E.1.

NATURAL

OR

SYNTHETIC

Although vitamin supplements are frequently prescribed, some doubts have been expressed as to the usefulness of administering water-soluble synthetic vitamins in large quantities. Moreover, large doses of single synthetic vitamins may result in vitamin imbalance.

Many authorities prefer a dietary source of naturally occurring vitamins. In cases of a suspected shortage of the B_2 vitamins, the daily inclusion of Marmite in the diet is often recommended. Marmite contains riboflavin (1.5 mg. per oz.) and nicotinic acid (16.5 mg. per oz.) as well as the less well-known B_2 factors.

pure soap no perfume no colouring no fillings that's

The definition of "Purity" is:-

"Complete freedom from mixture of any kind". This faithfully describes "Simple" Soap which is of natural colour, and guaranteed to contain no Aniline Dyes, Perfumes, or Fillings such as Titanium—not even animal tat—as these, Dermatologists and scientists have established, are often the causes of bad skins, setting up or aggravating Dermatitis. Many Dermatologists and doctors are recommending "Simple" Soap to patients whose skins are allergic to ordinary soaps, and as a non-medicated cleansing agent for trouble-some skin conditions.

"Simple" Soap makes no claims to medication—its purity is its only claim to distinction.

The Lilu-the sumbol of Purity

SMELL ADSORPTION

IMPORTANT NEW AIDS FOR PATIENT AND MEDICAL STAFF Here are three new and important products that should become part of the normal equipment of every ward and surgery. Each solves a serious problem. Their common function is the adsorption of foul smells associated with such conditions as osteo-myelitis, carcinoma of the rectum, senility, gas gangrene, etc. The adsorption is effected by granules of activated carbon, sandwiched in the layers forming Denidor Blankets, Pads and Masks. The materials enclosing the carbon allow free passage of air, but any smell carried in the air is adsorbed by the carbon

Denidor Blankets, Pads and Masks serve a threefold purpose. The blankets help the bed-patient suffering from a noxious complaint, and those who visit him or are near him. The masks make nursing him less unpleasant; and the pads free those mobile patients whose social and personal activities are restricted by, say, a colostomy

Denidor Blankets and Pads are available now: the Nursing Masks will be obtainable shortly

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of call-up for "R" practitioners (i.e., practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow an "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that he obtains it without delay. Under present arrangements the Committees also normally allow an "R" practitioner to hold a Second House Officer post (£400) and a Senior House Officer post (£670), provided in each case that the higher appointment is secured before the termination of the practitioner's current appointment. the termination of the practitioner's current appointment.

"R" practitioners may not accept Third House Officer posts (£450 per annum) unless they have obtained the special permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whele-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICER: £350 per annum for the first post held, £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

per annum higher than the standard rates specified above where a post cannot be filled otherwise. (b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registra: grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelope "Vacancy."

ST. PANCRAS

List at present approximately 2,100. Premises are not available. Apply on Form E.C.16A, before July 29, 1952, to C. H. Lyon, London Executive Council, Insurance House, Insurance Street, W.C.1.

STOKE NEWINGTON

List at present approximately 1.750. Premises are not available. Apply, on Form E.C.16A. before July 29, 1952, to C. H. Lyon, London Executive Council, Insurance House, Insurance Street.

BIRKENHEAD

Applications invited to start new practice on new housing estate. Urban. Residence/surgery available, on rent Apply, on Form E.C.16A, by July 31, 1952.—W. J. Nugent. A.C.I.I. Birkenhead Executive Council, 39. Hamilton Square, Birkenhead

CROSSXEYS AND WATTSVILLE, Mon.

CROSSEEYS AND WATTSVILLE, Mon. Applications are invited from practitioners to fill a vacancy caused by the resignations of three doctors in partnership. Number on lists approximately 5,550. House and surgery available for purchase and branch surgery for rental. Further details and form of application, which must be returned by August 1, obtainable from the Clerk, Monmouthshire and Newport Executive Council, 58, Caerau Road, Newport, Mon.

LEEDS (NORTH-EAST)

Applications invited for vacancy. Lady doctor practice Residential List 1,388. Residence and surgery available by purchase. Apply, on Form E.C.16A, to the undersigned by August 11, 1952.—A. J. G. Miles. Clerk of the Leeds Executive Council, Trevelyan Chambers, 7, Boar Lane, Leeds, 1.

CLYDEBANK, Dunbartonshire

Applications are invited from registered medical practitioners to fill a vacancy on the medical list of the Council arising out of a resignation with effect from September 30, 1952. The practice is mainly uroan in the Clydebank district and at July 1, 1952, there were 1.506 persons on the list. A house may be available. Further information, together with a form of application, may be obtained from the undersigned, with whom applications should be lodged within fourteen days of this advertisement.—T. H. Souter, Clerk and Finance Officer, Dunbartonshire Executive Council, Rockville, Glasgow Road, Dumbarton.

TOMINTOUL

TOMINTOUL

Applications are invited from registered medical practitioners to fill a vacancy which will arise in the medical list at October 1, 1952. The successful applicant will succeed to the practice at present carried on at Tomintoul, Banffshire. The district to be served is rural and the total number of persons on the list at July 1, 1952, was 624. In the past an inducement payment has been granted. The doctor appointed will be required to undertake dispensing for all the patients on the list. The outgoing doctor has a fairly large stock of drugs, for the sale of which he is willing to negotiate. A house owned by the Council is available at a moderate rent. Further details about the practice may be obtained from the subscriber. Where treatment at depth is desired in addition to superficial asepsis, the powerful bactericidal compound PENOTRANE is recognised as an ideal local medicament in many skin infections. Highly active against Gram-positive and Gram-negative organisms and a valuable fungicide it possesses unique powers of penetration through the living epidermis. PENOTRANE also has the dual advantage of retaining its activity in the presence of blood, pus and serum and of promoting healing.

PENOTRANE JELLY

Prepared in a soothing, lubricant medium for ease of application, Penotrane Jelly (a 0.1% concentration) affords the full therapeutic effects of the compound. Colourless, non-staining and pleasant in use, it is indicated in many skin diseases, especially those of fungal origin, including ringworm. An excellent first-aid measure in minor injuries, it is also a reliable antiseptic lubricant in obstetrics.

In 1 oz. tubes

PENOTRANE DUSTING POWDER

Containing a 0.4% concentration of the compound adsorbed on a bland base, Penotrane Dusting Powder affords maximum effective contact to the skin areas treated. It arrests secretions, absorbs excessive exudation, speeds the healing of wounds and is of particular value in the treatment of weeping eczema, otitis externa, irritant skin conditions and athlete's foot.

In Polythene containers with insufflating nozzle

Alocol 6.0 parts approx.; Glycerin 5.0 parts; Ol. Menth. Pip. 0,005 parts; Aq. Chlorof. 4.0 parts; Aq. Dest. to 100.0

parts. The normal dose is 1 to 3 tea-spoonfuls between

neals and at bedtime

An Effective Antacid-ALOCOL Cream Now making Alocol available in 3 convenient forms

LOCOL, the well-known brand of Colloidal Aluminium Hydroxide, is now obtainable as a stable and palatable cream, thus presenting, with Alocol Powder and Alocol Tablets, three convenient ways of administering Alocol to meet every condition and preference.

Alocol Cream—equally with Alocol Powder and Tablets—is a most effective antacid for the neutralization of hyperacidity in the treatment of dyspepsia, peptic ulcer and other conditions which irritate the alimentary tract.

Alocol Cream—like Alocol Powder and Tabletshas these Advantages:

Owing to its high reactivity it quickly neutralizes excess acidity.

- It has a reserve of neutralizing power and can thus control for a prolonged period the gastric acidity at the level most conducive to healing.
- It does not produce alkalization nor a condition of alkalosis.

ALOCOL CREAM is supplied in bottles of 9 fl. oz.

Literature and clinical samples available on physician's request.

A. WANDER LIMITED
