Introducing a new highly-active

WELL-TOLERATED anti-histamine compound

FOR ALLERGIC CONDITIONS

SYNOPEN is distinguished by its extremely favourable therapeutic index. The usual side effects of the anti-histamines such as drowsiness, gastro-intestinal disturbances, dizziness and headache seldom complicate treatment with Synopen. The absence of drowsiness means that Synopen is particularly suitable for daytime administration in those patients who must necessarily continue with their normal occupations during treatment. It will be especially appreciated by motorists, etc.

Tablets of 25 mg. in containers of 20, 100 and 200.

A new and logical therapy for Rheumatic conditions

Water-soluble esters of salicylic, p-aminobenzoic and nicotinic acids, that readily pass the skin barrier

The local treatment of rheumatic conditions has hitherto presented certain difficulties; drugs which penetrated the skin often caused intense irritation and their use was of doubtful value.

Transvasin, a new preparation developed by Hamol, S.A., our Swiss associates, and now available for prescription in this country, contains esters of salicylic, p-aminobenzoic and nicotinic acid. These esters, being both water- and fat-soluble, readily pass the skin barrier in therapeutic quantities without causing irritation, and enable an adequate concentration of the drugs to be built up where they are needed. Transvasin not only induces vasodilatation of the skin with a superficial erythema but also brings about a deep hyperaemia of the underlying tissues.

Salicylic acid tetrahydrofurfuryl-ester	14%
Nicotinic acid ethyl-ester	2%
Nicotinic acid n-hexyl-ester	2%
p-Aminobenzoic acid ethyl-ester	2%
Water-miscible cream base ad	100%

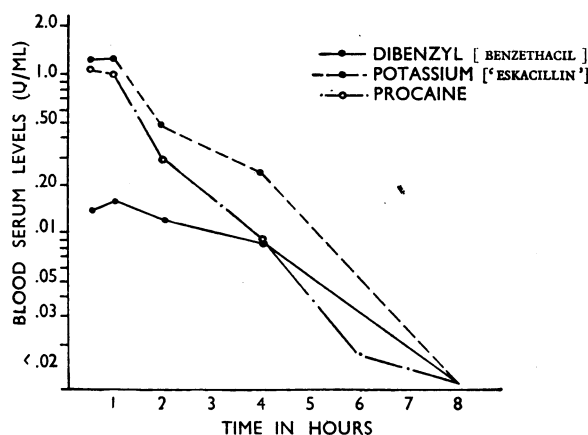

Transvasin is available in 1 oz. tubes at 4/6, which are obtainable on form E.C.10, and is not advertised to the public.

RESULTS OF REPEATED ORAL DOSES
300,000 U. PENICILLIN

In a comparative study of three liquid oral penicillin preparations, published in *Antibiotics and Chemotherapy* (June 1953, 3, 593-9), the authors concluded:

'It would, therefore, appear as a result of this comparative study that orally administered N,N'-dibenzyl-ethylenediamine dipenicillin G affords blood serum concentrations of no significantly longer duration or greater magnitude than are obtained with either potassium or procaine penicillins. The peak serum concentrations are significantly higher for procaine and potassium penicillin under the conditions of this study.'

The potassium penicillin preparation used was 'Eskacillin'.

'ESKACILLIN' 50-100

THE IDEAL ORAL PENICILLIN FOR ALL AGES

'ESKACILLIN' 50 and 'ESKACILLIN' 100 are available in 2 fl. oz. bottles. They contain 50,000 i.u. and 100,000 i.u. respectively, of crystalline potassium penicillin G per standard medical teaspoonful (1 fl. dram : 3.5 c.c.)

patients with tender skin

THE prevention and treatment of hæmorrhoids and allied complaints are often retarded by the use of coarse, crisp toilet paper. Andrex Two-ply Toilet Tissue offers close approximation to the softness of cotton wool, and is a source of comfort and an aid to treatment in such cases. This 'different' toilet tissue neither irritates nor chafes, is thoroughly absorbent and is so soluble that complete disposal on flushing is always ensured. Andrex is both inexpensive and economical.

NULACIN

**provides
drip therapy**

without a tube

Maintains a continuous

state of gastric anacidity

A maintained continuous state of gastric anacidity has heretofore been impossible without hospitalization and discomfort to the patient.

Now, NULACIN achieves this desirable state simply, effectively and without attendant disadvantages. A NULACIN tablet placed in the mouth between the cheek and the gum dissolves slowly and releases its contained medicaments at a rate which gives continuous neutralization of the acid gastric juice. NULACIN accomplishes this with considerably less antacid than is required by any other method of oral administration. The results are comparable with those of intragastric milk-alkali drip therapy.

INDICATIONS

NULACIN tablets are indicated whenever neutralization of the acid gastric contents is required: in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Dosage: Beginning half-an-hour after food a NULACIN tablet should be placed in the mouth between the cheek and the gum and allowed to dissolve.

During the stage of ulcer activity up to three tablets an hour may be required. During quiescent periods, for prophylaxis in peptic ulcer and for the relief of discomfort due to gastric hyperacidity, the dose of NULACIN is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. May be prescribed on E.C.10. The dispensing unit of 25 tablets is free of purchase tax. (Price to pharmacists ... 2/-). Also available in tubes of 12.

Superimposed Gruet fractional test-meal curves of five cases of duodenal ulcer.

Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

HEALTH AND CLEANLINESS

Im-Hotep, the Egyptian god of healing, became known as Asklepios by the Greeks and as Aesculapius by the Romans. The symbol of the healing serpent and knotted staff may be seen at the Roman Baths, at Bath in Somerset. It was here that the warm sulphurous water was used by the Romans for its healing and cleansing effects. These waters are now known to be radio-active, and are still taken for their health-giving properties.

Today, in modern medicine, far more potent radio-active substances are known, and these play a vitally important part in both the diagnosis and treatment of disease.

CENTENARY OF THE BIRTH OF
SIR HENRY S. WELLCOME

1853—1936

On this day one hundred years ago—21st August, 1853—was born in Almond, Wisconsin, U.S.A., the boy whose vision and self-dedication to the cause of healing led him to create, in a lifetime of endeavour, the world-wide organisation of The Wellcome Foundation Ltd. The words he wrote as a young man, *I have no interest to serve but that of humanity*, continue as a living

inspiration to the Company in its fourfold work of medical research... production... distribution... and the advancement of medical knowledge.

A Centenary Exhibition, illustrating Sir Henry Wellcome's life and work, is now open (Mondays to Fridays, 10 a.m. to 5 p.m.) at The Wellcome Research Institution, 183-193, Euston Road, London, N.W.1.

For the 'bilious' or 'liverish' patient

DEHYDROCHOLIN B.D.H. is the most active and least toxic of the bile acids. Since it is highly effective in promoting the secretion of bile and therefore aids the digestion and absorption of foodstuffs, particularly fats, it is indicated particularly for the treatment of 'bilious' or 'liverish' conditions.

Dehydrocholin B.D.H. is also useful in establishing normal bowel action in patients with a deficiency of bile and in patients needing mild peristaltic stimulation. Dosage of three tablets three times a day is recommended.

'DORMUPAX', a strong hypnotic agent whose high efficacy derives primarily from its inclusion of *calcium n-butyl-allyl-barbiturate*, provides per tablet—

Calcium *n-butyl-allyl-barbiturate*. . . . 3.75 grains
Carbromalum B.P.C. 1.5 grains

Advantages:

The therapeutic index of *n-butyl-allyl-barbituric acid* is superior to that of the majority of commonly used barbituric acid derivatives. It has also been shown that the quotient DE/DL is even more favourable for the calcium salt than for the acid. The molecule of *n-butyl-allyl-barbituric acid* reaches the sleep centre unchanged. After an average sleep duration of 8 hours, it is completely degraded to an indifferent form.

The efficacy of 'Dormupax' is reinforced by carbromalum, a safe, prompt, medium-strength hypnotic which is free from after-effects. 'DORMUPAX' has been thoroughly investigated in several mental hospitals, with satisfactory results. In senile, motor-restless patients efficacy is good on dosage of half a tablet in the afternoon and one tablet in the evening. After-effects are not observed.

Excited insane patients tolerate 4 tablets daily in a course of 2 to 4 days without deleterious after-effects.

Indications:

Insomnia due to psychic cause or pain—Insomnia, including in circulatory diseases or arteriosclerosis—Spastic vascular states.

Dosage:

Maximum daily single dose: 2 Tablets; maximum daily dose: 5 Tablets. Further information on dosage supplied in literature on request.

Packs:

Standard Tube, 12 Tablets; bottles of 250 (Dispensing). Samples of 'Dormupax' available on personally signed request of physicians only (Sch. IV) from the Medical Dept.

when these are his toys...

How often you hear the troubled parent complaining: "He doesn't eat a thing . . . just toys with his food." And how often the mother's anxiety is justified by the child's thin little frame. True, most physically backward children benefit from one tonic or another, but there are those who show little or no response at all. For *them*, the answer might well be vitamin B₁₂. Sharpened appetite, improvement in well-being and notable weight gains have all been observed following *oral* doses of B₁₂. Glaxo present oral vitamin B₁₂ as Cytaccon. When side effects are an obstacle to treatment...

... the administration of a combination of Veriloid with phenobarbitone enables Veratrum therapy to be continued successfully in a majority of those patients who cannot tolerate Veriloid alone because of frequent nausea.

The two substances are now available together as Veriloid-VP, each tablet of which contains 2 mg. of Veriloid with 15 mg. of Phenobarbitone B.P.

VERILOID-VP

VERILOID WITH PHENOBARBITONE

IN ALL DEGREES OF HYPERTENSION

Given concomitantly, phenobarbitone raises the threshold of tolerance of the Veratrum alkaloids and relieves the emotional tension which is so often present in the hypertensive patient. Therapeutically effective doses can thus be given with little or no side-effects.

Dosage of Veriloid-VP is adjusted to individual requirement, an average dose being one to one and one-half tablets four times daily, after meals and at bedtime.

Reference: *Lancet*, 261:1002 (Dec.) 1951.

Veriloid-VP is available in bottles of 100 and 500 scored tablets.

NOTE

Veriloid, plain, remains available as before in tablets of 1 mg. and 2 mg. Veriloid is a unique, biologically standardised fraction of Veratrum viride and has been used with marked success in all forms of hypertension. Blood pressure is significantly lowered, without loss of the postural reflexes essential to normal living. Great relief of subjective symptoms is a common feature of therapy.

A CODIS tablet placed in water

provides in a few seconds a SOLUTION of calcium aspirin and codeine phosphate, with phenacetin in fine suspension.

For all those conditions for which, hitherto, Tab. Codein. Co. B.P. would have been prescribed, Codis may for preference, be recommended. It is easier to *administer*. There is far less likelihood of aspirin intolerance ; the absorption of aspirin, in solution, is accelerated.

The reason for these marked advantages is that in this familiar grouping of analgesic drugs the aspirin has been made soluble as in 'Solprin' which, in a matter of seconds, produces a palatable solution of calcium aspirin. The possibility of irritation of the gastric mucosa is minimised by the absence of undissolved particles of aspirin

SAVE YOUR SIGHT — BY BETTER LIGHT

Doctors, of all people, should have perfect eyesight, and should therefore avoid all types of artificial lighting which may cause eyestrain, especially those involving glare and shadows.

The accompanying illustration of a Harley Street surgeon's consulting room shows how perfectly a room can be lighted with glareless, shadowless and evenly diffused light, and how economically this can be done, there being only one fitting and only one lamp in it.

Whenever you wish for really good lighting, remember that is what G.V.D. stands for and therefore call us in to advise you.

Whatever type of lighting is wanted, whether it be laylights, cornice lighting, wall brackets, pendants, standards, pelmet or niche lights, G.V.D. can carry it out in the most efficient, effective and economical manner.

We never use fluorescent tubes, but only the ordinary tungsten filament lamp, and as all artificial light is more or less harmful, we never recommend higher intensities than are absolutely necessary, nor do we try to turn your room into an electricity fittings showroom.

The G.V.D. SYSTEM is applicable to every type and size of room and building and is eminently suitable for surgeries, consulting rooms, waiting rooms, offices, hospitals, lecture halls, libraries, or the home, in fact wherever good yet economical lighting is required.

BASIC PATHOLOGY AND MORBID HISTOLOGY

By D. B. CATER, M.A., M.D., F.R.C.S.

6½ × 9½ in. 338 pp. 264 illustrations, including 20 fully coloured plates.
42s., post 1s. 2d.

This book is designed to help the student who has just begun the study of Pathology and finds the subject difficult. Based upon the first-year course in Pathology, it is intended to help the student through the initial difficulties and strives to graft on to the student's knowledge of Physiology sufficient clinical information to make Pathology live.

The book is illustrated with camera lucida drawings in colour and in black and white and in many cases the drawings have been grouped together for ease of comparison and to facilitate correlation of clinical and pathological data. All drawings are annotated. Diagrams have been introduced to shorten and simplify the text and to provide condensed information to which the student can refer when revising for the final examination.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of recruitment for fully registered "R" practitioners (i.e., fully registered practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow a fully registered "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that it commences within three months of the end of his deferment by the Ministry of Labour and National Service as a whole-time medical student; and a Second House Officer post (N.H.S. salary £400 per annum) provided that it is secured before the end of his First House Officer post and commences within one month thereafter.

An "R" practitioner requires the special written permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C. to proceed to any further post.

The position of provisionally registered "R" practitioners has been made clear in a notice sent to them by the University Joint Recruiting Boards.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR:** Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) **HOUSE OFFICER:** £350 per annum for the first post held; £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) **SENIOR HOUSE OFFICER:** Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

ST. ANDREW'S HOSPITAL, NORTHAMPTON
For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

How much is a cheque book?

Lloyds Bank makes no specific charge for a cheque book, but the Bank has to recover from its customers the stamp duty which it paid to the Inland Revenue when the stamps were impressed on the cheques. Look closely at a cheque stamp and you will see figures showing the date when the Bank made this payment.

How to use a cheque book is explained fully in the booklet "Banking for Beginners". You can obtain a copy at any branch of the Bank.

Adequate Supplies of the B Vitamins

As a dietary source of naturally occurring essential B vitamins Marmite yeast extract is particularly useful, as it supplies these vitamins in a palatable form that can be included regularly in the diet in many different ways.

Many authorities prefer to give a natural source of B vitamins, supplying all the different factors together, and for this reason Marmite is often ordered in cases where additional B vitamins are required or where there is a suspected vitamin B deficiency.

MARMITE

yeast extract

contains

Riboflavin (vitamin B₂) 1.5 mg. per oz.

Niacin (nicotinic acid) 16.5 mg. per oz.

Obtainable from chemists and grocers

Special terms for packs for hospitals, welfare centres and schools
