He sleeps soundly Doctor

Patients sleep naturally and well on Intalok mattresses. The heart of an Intalok mattress is composed of many hundreds of interlinked fine gauge springs—these offer gentle resistance to the 'local' pressure of hips, elbows and shoulders. But over larger areas their combined resilience is firm and even to ensure correct spinal support. The complete rest Intalok brings makes a real contribution to the patient's recovery.

Here are other good reasons why Intalok is the ideal hospital mattress:

- 1 All metal parts are rustless—can be sterilized repeatedly.
- 2 The spring centre gains by repeated stoving.
- 3 The special Intalok spring system makes the mattress unusually light and easy to handle.
- 4 Intalok mattresses can be made to special thicknesses or sizes, or in segments to suit special cases.
- 5 Existing hair mattresses can be converted to Intalok. This cuts costs.
- 6 Every Intalok springing unit is guaranteed for ten years.

Alike yet different

Alike, in being both hunting birds, yet so plainly different that not to know hawk from heron became proverbial for stupidity. The heron, or hearnshaw, once the falconer's popular quarry, was corrupted to 'handsaw' in the saying quoted by Hamlet:

'I know a hawk from a handsaw'.

'Iodex' and other non-staining iodine ointments are alike in being iodine ointments. In use they are different. In 'Iodex' there are no irritating and staining particles of dross. That is why 'Iodex' is so bland and penetrating.

ST. DUNSTAN'S CLOCK

On the wall of St. Dunstan-in-the-West in Fleet Street is the first clock showing minutes ever to be made. It was also the first clock to have two dials. It was made in 1671.

CLOCKWORK REGULARITY.

Normal bowel action is a fine thing to possess. It is, perhaps, the most sought after talisman against ill-health in the world. No wonder, then, if its temporary suspension leads from a mild despondency even to black despair. But in such a crisis panic measures are to be avoided—the taking of harsh purgatives eschewed.

Success in the restoration of the much-cherished habit lies in the regular persuasive stimulus of soft bulk—such as is provided by 'PETROLAGAR.' Gently and unobtrusively, 'PETROLAGAR' arranges for normal physiological evacuations and secures the return of 'clockwork regularity.'

Why MIXOGEN is prescribed for menopausal symptoms

Because it is now established that:—

- combined male and female hormone treatment is the most effective in this condition.
- the correct balance of the two hormones is essential both for efficacy and economy—determined by extensive clinical trial in the U.K. and unique to Mixogen.
- both the hormones in Mixogen are completely effective when swallowed—thus maximum, immediate relief is given in the simplest and most convenient way.

Analgesic therapy

aspirin?

or calcium aspirin?

or Solprin?

It is well known that both aspirin and calcium aspirin as generally prepared have physical and chemical defects which restrict their clinical use. Aspirin is acid and sparingly soluble: calcium aspirin is neutral, but unstable, and therefore unpredictable and unpalatable.

'Solprin' overcomes these defects, and combines the advantages of both these

valuable analgesics. In contrast with aspirin, 'Solprin' is soluble and substantially neutral: in contrast with calcium aspirin, 'Solprin' is stable and palatable.

Except in cases of extreme hypersensitivity, aspirin, in the form of 'Solprin' can be given in large doses over prolonged periods, without causing gastric or systemic disturbances.

CIDAL

THE TOILET SOAP

THAT CONTAINS

2% **HEXACHLOROPHENE**

Because CIDAL soap contains Hexachlorophene (G-11) it has remarkable germicidal properties which help it to purify the skin as no ordinary toilet soap can do.

CIDAL attacks bacteria that settle in pores and folds of skin, and forms an anti-bacteria barrier which gives protection between washes. By destroying the bacteria that ferment perspiration, CIDAL eliminates unpleasant body odours at source.

CIDAL is useful in treating all skin ailments where soap and water are part of the therapy. Regular use helps to reduce the incidence of cellulitis and folliculitis, and prevents secondary infections of minor cuts and abrasions.

CIDAL CREAM SHAMPOO also contains Hexachlorophene and shares CIDAL soap's germicidal powers. It protects hair follicles against infection by staphylococci and is helpful in treating dandruff.

Prescribing a Laxative

When the Physician is called upon to prescribe a laxative for prolonged or occasional use, Andrews merits special consideration. Andrews is pleasant tasting. Its effervescence has a refreshing quality that makes it an acceptable draught. Andrews causes no griping or discomfort. Its laxative action is due to the presence of magnesium sulphate and other salts in balanced proportion, which, acting by osmosis, induce easy, painless evacuation.

Andrews is particularly suitable for patients liable to digestive upsets. It allays gastric discomfort and nausea. It also improves the flow of bile, and helps to check biliousness and sick headaches. No costive reaction results when Andrews is discontinued.

Active constituents:

Tartaric Acid	..	24.600%
Sodium Bicarbonate	..	25.142%
Magnesium Sulphate	..	19.000%
(B.P.C. Exsicc.)

An "R" practitioner requires the special written permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C. to proceed to any further post.

The position of provisionally registered "R" practitioners has been made clear in a notice sent to them by the University Joint Recruiting Boards.

For IRON DEFICIENCY ANAEMIAS

Iron Without Irritation

In hypochromic anaemias of pregnancy 'Fergon'—a specially prepared tablet form of ferrous gluconate—is an advance on current iron therapy. Ordinary iron preparations produce digestive disturbances; the patient may 'skip' doses and so recovery is delayed. 'Fergon', on the other hand, does not interfere with gastro-intestinal function so that there is no vomiting, constipation, or diarrhoea. Maximum therapeutic effect is assured because absorption and haemoglobin response are not reduced by gastro-intestinal upsets. Apart from anaemia of pregnancy, 'Fergon' is well suited for the treatment of anaemia in children and other iron deficiency anaemias. The basic N.H.S. price of one week's treatment is 1/2d.

Packings: tablets, gr. 5, in bottles of 100 and 1,000.
