

"Most people know..."

says OLD HETHERS

Most people know that barley water is a very good drink when folks are feverish, though some still think it means a lot of trouble, stewing and straining pearl barley. But, bless you, with Robinson's 'patent' Barley it's no trouble at all —just as easy as making cocoa. And cheap too— a 1/7½d. tin makes forty-eight pints.

TABILLIN in the new 'Foil-Pac'

This new method of packing protects each tablet until used — a most important consideration in oral penicillin therapy, which is now established as a satisfactory method of systemic administration.

Tabillin offers these advantages:

- 1 Tabillins, being individually sealed, are protected against contamination and loss of potency.
- 2 Each dose of Tabillin is protected until required — therefore superior to liquid preparations.
- 3 Any quantity of Tabillin can be prescribed and dispensed without losing the advantages of individually-sealed protection. Wastage is eliminated.
- 4 Tabillins are supplied in four strengths to facilitate convenient dosage schedules.
- 5 'Foil-Pac' Tabillins are economical. Available at no greater cost than unwrapped tablets.

*individually

— detached
as required*

Whenever Oral Penicillin Therapy is indicated, Tabillin is the preparation of choice.

AN EXTREME IRRITATION...

PRURITUS

The low mental state which frequently accompanies the extreme irritation of pruritus presents a difficult problem for the physician. In the majority of cases the condition is relieved by regular application of EURAX, an odourless, non-greasy cream containing 10% crotonyl-N-ethyl-o-toluidide. EURAX possesses an extremely low sensitizing index and its activity is not diminished even after prolonged use. EURAX is available in 1 and 4 oz. tubes and in 1 lb. jars.

'Pragmatar'

— the outstanding tar-sulphur-salicylic-acid ointment — is effective in many common skin disorders. The cetyl-alcohol-coal-tar distillate retains the therapeutic activity of crude coal-tar but is less likely to irritate and does not stain.

The effectiveness of all the active components is enhanced by the special oil-in-water emulsion base. 'Pragmatar' is convenient to use on both glabrous and hairy surfaces, and is therefore particularly useful in the general care and hygiene of the seborrhoeic scalp.

Assisting THE MOVEMENT

In cases where colonic stimulation is indicated, 'PETROLAGAR' assists the movement surely but subtly. By supplying an unabsorbable emulsion that augments the intestinal fluid content, it provides a soft ductile faecal mass that promotes a comfortable, natural bowel action, and encourages the return of normal habit. Agreeable to take, 'PETROLAGAR' is issued in two varieties: Plain and with Phenolphthalein.

AUREOMYCIN

It is now generally recognised that one of the principal virtues of Aureomycin is the material reduction in the period of hospitalisation, disability and convalescence which results from its use. This means a substantial saving in time and cost of treatment and enables the patient to return to a normal routine all the sooner. True economy can be effected with Aureomycin whenever antibiotic therapy is called for.

THEODROX

A DEPENDABLE METHOD of administering— AMINOPHYLLINE

ORALLY

THEODROX provides a dependable method of oral administration of aminophylline in doses large enough to produce the same high blood levels obtainable with parenteral administration.

Previous investigations have shown that good response is obtained from aminophylline only if a certain concentration of the active component, theophylline, is attained in the blood. Because gastric irritation prevents giving oral doses large enough to produce this necessary blood level, the only dependable way of obtaining this end has been to resort to parenteral aminophylline.

Now there is clinical proof that when aminophylline is combined with a specially prepared, aluminium hydroxide, the stumbling block of gastric irritation can be virtually eliminated, and massive oral doses can be tolerated to produce consistent blood levels comparable to those obtained by parenteral administration. *(1) *(2).

Theodrox is supplied in containers of 25, 100 and 1,000 tablets, each tablet containing Aminophylline B.P., 3 gr. and Aluminium Hydroxide Gel, Dried, B.P.C., 4 gr. *

Theodrox is also available as Theodrox with Phenobarbitone, each tablet containing in addition $\frac{1}{8}$ gr. of Phenobarbitone B.P.

Emphasis has been given recently to the use of combined chemotherapy in infections and the merit of the judicious combination of antibiotics and sulphonamides in the prevention of bacterial resistance.

In the treatment of many infections of the gastro-intestinal tract, combined therapy with streptomycin and sulphaguanidine is a distinct advance on previous forms of treatment.

Guanimycin, in which oral streptomycin sulphate is combined with sulphaguanidine, is indicated in the treatment of gastro-enteritis, bacillary dysentery, summer diarrhoea, salmonella food poisoning and other mixed infections of the gastro-intestinal tract in infants, children and adults.

Guanimycin is issued as a free-flowing powder from which a smooth, palatable, homogeneous suspension may be made by simple mixture with water.

SPOONFOODS

Strained and Homogenised Meats, Fruits and Vegetables—in GLASS JARS

Weaning is always a perplexing process for the mother. *What* to give is comparatively simple. *How* to give it—or more important still, how to prepare it—is more difficult because of the small quantities involved and the need for strict hygiene. Spoonfoods are the solution to this problem.

Twelve varieties are available and they are packed in convenient quantities in glass jars. The foods are sterilised in the jars and vacuum sealed, so ensuring very high protection from bacterial infection. Because the foods are packed in glass jars, they are likely to overcome the objections which so many mothers have to "tinned foods" for babies.

Nutrition in Convalescence

It has been suggested that special attention should be paid to pre- and post-operative nutrition. During convalescence there may be an increased need for the essential nutrients and particular care should be taken to ensure that the patient receives an adequate supply of these.

In planning meals for the convalescent the protective foods are therefore important. Marmite yeast extract supplies essential B₂ vitamins and is especially useful in the convalescent diet, as it adds an appetising flavour to many dishes and can also be served as a drink.

NOW AN ACCEPTED TREATMENT . . .

Transvasin

Contains skin-penetrating esters of salicylic, nicotinic, and p-aminobenzoic acids. It brings real relief to deep-seated muscular rheumatism by simple inunction.

TRANSVASIN, a new preparation developed by Hamol S.A., our Swiss associates, and now available for prescription in this country, contains polar esters of salicylic, p-aminobenzoic and nicotinic acids. These esters readily pass the skin barrier in therapeutic quantities and enable an effective concentration of the drugs to be built up where they are needed. Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant, and can be safely used on the skin.

It is now being widely prescribed, with highly successful results. There is evidence, also, that since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Salicylic acid tetrahydrofurfuryl-ester	14%
Nicotinic acid ethyl-ester	2%
Nicotinic acid n-hexyl-ester	2%
p-Aminobenzoic acid ethyl-ester	2%

Transvasin is available in 1 oz. tubes at 3/4½ plus 7½d P.T., which are obtainable on form E.C.10, and is not advertised to the public.

New conditions and terms of service

Regular and Short Service Commissions

New and improved conditions of service in the R.A.M.C. are now offered to doctors. These include:—

- ★ *permanent commissions direct from civil life.*
- ★ *after one year's satisfactory service, grant of £1,500 (taxable) to officers appointed to a regular commission after 1st October, 1953.*
- ★ *antedates (which count towards pay and promotion) of up to 7 years for civilian experience, and credit for former commissioned service other than as a doctor.*
- ★ *3 year short service commissions for those having liability for National Service.*
- ★ *increases in pay for majors and above.*
- ★ *increased rates of specialist pay.*

For full details, application should be made to the War Office (AMD 1A), Room 130, Lansdowne House, Berkeley Square, London, W.1. (Telephone: GROsvenor 8040 Ext. 548).

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Some advertisements in this issue, submitted before the revised salary scales were communicated to hospital authorities by the Ministry of Health, may quote the old scales, but the scales set out below nevertheless apply throughout the N.H.S. Hospital Service, as from 1st April, 1954.

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR:** Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners:* £425 per annum for the first post held; £475 per annum for the second and any subsequent post held.

(ii) *Fully registered practitioners:* £425 per annum for the first post held; £475 per annum for the second post held; £525 per annum for the third and any subsequent post held.

provided that a medical practitioner who has held house posts under (i) above whilst provisionally registered shall be remunerated at the rate of £525 per annum for each post held after obtaining full registration; and provided that in exceptional circumstances, subject to the consent of the Minister (in Scotland of the Secretary of State), the rates under (ii) may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

A deduction at the rate of £125 per annum shall be made from the remuneration of House Officers in respect of board and lodging and other services provided. Each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER:** Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

ST. ANDREW'S HOSPITAL, NORTHAMPTON For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent, M.D. F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.
