ADVANCES IN TREATMENT 1954

The "Advances in Treatment" special number, which is published in October each year, has come to be recognized as one of the practitioner's most reliable guides to current

therapy. It provides him with news of the latest advances in the form of reasoned reviews by leading authorities in the respective specialities.

PRINCIPAL CONTENTS

MEDICINE

By E. J. Wayne, M.D., F.R.C.P.
Regius Professor of Practice of Medicine, University of Glasgow.

SURGERY

By D. H. Patey, M.S., F.R.C.S.
Surgeon, Middlesex Hospital.

OBSTETRICS AND GYNAECOLOGY

By Benjamin Teney, M.D.
Professor of Obstetrics, Boston University School of Medicine, Boston, Mass.

PAEDIATRICS

By John Craig, M.B., F.R.C.P.Ed.
Professor of Child Health, University of Aberdeen; Senior Physician, Royal Aberdeen Hospital for Sick Children.

DERMATOLOGY

By H. R. Vickers, M.B., F.R.C.P.
Consulting Dermatologist, United Sheffield Hospitals and Sheffield Regional Hospital Board.

CARDIOLOGY

By I. G. W. Hill, C.B.E., F.R.C.P.Ed., M.R.C.P.
Professor of Medicine, University of St. Andrews.

BLOOD DISEASES

By L. J. Witts, D.M., F.R.C.P.
Nuffield Professor of Clinical Medicine, University of Oxford.

NEUROLOGY

By Denis Williams, M.D., F.R.C.P.
Neurologist, St. George's Hospital; Physician to Outpatients, National Hospital, Queen Square.

DISEASES OF THE EAR, NOSE AND THROAT

By F. C. W. Capps, F.R.C.S.
Surgeon in charge, Ear, Nose and Throat Dept., St. Bartholomew's Hospital.

OPHTHALMOLOGY

By A. McKie Reid, M.C., M.B., F.R.C.S., D.O.M.S.
Ophthalmic Surgeon, United Liverpool Hospitals; Lecturer in Ophthalmology, University of Liverpool.

ANAESTHESIA

By Frankis Evans, M.B., F.F.A.R.C.S., D.A.
Anaesthetist and Lecturer in Anaesthetics, Medical College, St. Bartholomew's Hospital.

TROPICAL DISEASES

By A. W. Woodruff, M.D., F.R.C.P., D.T.M. & H.
Wellcome Professor of Clinical Tropical Medicine, University of London; Physician, Hospital for Tropical Diseases, London.

THORACIC SURGERY

By T. Holmes Sellors, D.M., M.Ch., F.R.C.S.
Thoracic Surgeon, Middlesex Hospital; Surgeon, London Chest Hospital.

ORTHOPAEDICS

By Bryan McFarland, M.D., M.Ch., F.R.C.S.
Professor of Orthopaedic Surgery, University of Liverpool.

PREVENTIVE INOCULATION

By H. J. Parish, M.D., F.R.C.P.Ed.
Clinical Research Director, Wellcome Research Laboratories.

GENERAL PRACTICE

By G. O. Barber, O.B.E., M.B., B.Chir.
General Practitioner, Great Dunmow, Essex.

CURRENT THERAPEUTICS LXXXII—The Role of Antimicrobial Agents in Abdominal Surgery

By J. Englebert Dunphy, M.D.
Clinical Professor of Surgery, Harvard Medical School; Surgeon, Peter Bent Brigham Hospital, Boston.

15 years of clinical opinion supports the use of vaginal tampons

a high standard of hygiene is encouraged and personal comfort increased

There is abundant clinical evidence to support the widespread and increasing use of tampons for the internal absorption of the menstrual flow. Research work conducted in Britain and America over the past 15 years (1-7) has shown conclusively that vaginal tampons properly used are in no way prejudicial to health.

Women welcome them because of the extra comfort and because they are now able to indulge in social activities and sports with a greater sense of physical and mental freedom. One observer (6) found that elimination of pads, pins and belts, and of the chafing and itching caused by the usual external pads were factors greatly in favour of tampons. Another observer (7) noted that 93.6% of her subjects preferred to go on using tampons once they had tried them, rather than return to perineal pads, and many workers stress the freedom from odour and vaginal and urethral infection of peri-anal origin.

Intelligently used, vaginal tampons represent a decided advance in feminine hygiene. They may be recommended with confidence.

A new adjuvant in the treatment of respiratory disorders

Messrs. Lloyd-Hamol Limited, of London and Zurich, announce the launching in this country of Thoracin, a new decongestive salve for the symptomatic relief of coughs, colds and respiratory disorders.

► The Thoracin formula is based on the same principles that have made Transvasin so successful in the treatment of rheumatic conditions.

► Thoracin is composed of esters of substituted hydroxy aromatic derivatives.

► Thoracin achieves the effect of the classic counter-irritant remedies—poultices, plasters and cupping—without irritation of the skin.

► Thoracin contains a new ester of Guaiacol that is entirely free from the evil smell and irritant effect associated with this phenol derivative in its pure form. This ester easily penetrates the skin and is excreted in the alveoli, where it exerts its well-known action.

► Thoracin ensures vasodilation of the superficial skin vessels by the use of esters of nicotinic acid.

► Thoracin brings to the alveoli via the blood-stream the sedative, antispasmodic, and expectorant properties of camphor and eucalyptus.

THORACIN is available in 1 oz tubes at 4/-. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

FORMULA :

Phenyl Ethyl Nicotinate	2.0%w/w
Guaiacol Furoate	5.0%w/w
Tetrahydrofurfuryl Salicylate	10.0%w/w
Camphor	3.0%w/w
Eucalyptol	2.0%w/w
Water-Miscible Base to	100.0%

From 1 to 2—that is the Ostermilk sequence for smooth *safe* bottle feeding. Ostermilk No. 1 is a fat-modified milk food specially prepared to suit the baby's digestive capacity in the first months of life. Ostermilk No. 2 is designed to meet 'growing needs' from the time the infant weighs 10 to 12 lb. The first 'Ostermilk children' are now men and women in their middle twenties, and a second generation of sturdy babies is bearing tribute to the value and reliability of Ostermilk. As a supplement to breast milk, or as a complete replacement, Ostermilk has set irreproachable standards of *safety, digestibility and nutritional value.*

third
trimester
iron-depletion

CEREVON . . . oral organic iron therapy

During the third trimester the increasing rate of foetal growth makes heavy demands on the maternal iron reserves which are not adequately met by the normal dietary intake.

The risk of gastric upset from ferro-therapy during this period is considerably lessened by the administration of CEREVON (Ferrous Gluconate)—an organic iron—which will rapidly build up the deficit of iron in the tissue deposits to the mutual benefit of the expectant mother and foetus.

CEREVON is available in both tablet and palatable liquid form. In addition to the organic iron Ferrous Gluconate, ELIXIR CEREVON contains the Vitamin B complex, a valuable adjuvant to the ante-natal regime.

CEREVON ELIXIR

FORMULA: Each teaspoonful contains: Ferrous Gluconate 0.3 G., Aneurine Hydrochloride 1 mgm., Riboflavin 1 mgm., Nicotinamide 10 mgm.

INCLUSIVE COST TO THE NATIONAL HEALTH SERVICE 2 ozs. 5/6d.

Nulacin

MILK-ALKALI DRIP THERAPY WITHOUT INCONVENIENCE OR DISCOMFORT

Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.

Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

HERETOFORE, a continuous state of maintained gastric anacidity has been possible only with hospitalization and discomfort to the patient.

Now, NULACIN will give your patients the relief and comfort of intra-gastric milk-alkali drip therapy without hospitalization, and whether they are at home or at work.

INDICATIONS

NULACIN tablets are indicated whenever neutralization of the gastric contents is required:—in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Beginning half-an-hour after food, a NULACIN tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. May be prescribed on E.C.10. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to pharmacists is 2/-.) Also available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrans and maltose, and incorporate Magnesium Trisilicate 3.5 grs.; Magnesium Oxide 2.0 grs.; Calcium Carbonate 2.0 grs.; Magnesium Carbonate 0.5 grs.; Ol. Menth. Pip.q.s.

Frank deficiency of the B complex factors is fortunately rarely met with in general practice, but an *inadequate intake* of these vitamins is far from uncommon. Though the patient may exhibit only a single clinical sign, suggesting that one factor alone is needed, this is often circumstantial evidence of hidden needs and masked symptoms involving other factors of the complex. Thus when prescribing one of the B group vitamins there is every justification for prescribing them all.

No preparation meets this need more efficiently than Lederplex. It contains the *entire* natural vitamin B complex derived from liver and is fortified with Folvite* Folic Acid and vitamin B₁₂, with other important nutritional factors. Lederplex will prove a particularly firm ally during the months ahead for ensuring an adequate intake of B complex vitamins.

Clearing the Channel

An action firm but gentle, prompt but lasting—that is the requirement when clearing nasal congestion. 'Vasylox', a new vasoconstrictor, meets this need. 'Vasylox' restores free breathing without causing central stimulation, sleeplessness, or interference with ciliary motility. Neither irritating nor stinging, it may be used for patients of any age, even for infants. 'Vasylox', which contains 0.25 per cent of methoxamine hydrochloride, is issued in 1/2 oz. bottles with separate dropper.

Nervous Exhaustion

Practitioners often encounter patients whose ill-health is due mainly to emotional or neurotic disturbance. Frequently there appears to be no physical basis and their principal symptoms are usually undue nervousness, fatigue and poor appetite.

For these mildly neurasthenic and exhausted cases 'BELETE' Wyeth is uniquely appropriate. It contains Phenobarbitone and Vitamin B-complex as an appetising Elixir, and so provides a quieting relaxation, while at the same time supplying nutritional factors known to be essential for the energy requirements of nervous metabolism.

'BELETE' contains :—
 Phenobarbitone B.P. ½ gr. : Aneurine Hydrochloride 1.5 mg. : Riboflavin 1.0 mg. : Pyridoxine Hydrochloride 0.33 mg. : Nicotinamide B.P. 10.0 mg. : Pantothenyl Alcohol 0.2 mg. (equivalent to 0.212 mg. Pantothenic Acid) : Alcohol 15%.

Outside the British Commonwealth, Elastoplast and Elastocrepe are known as Tensoplast and Tensocrepe respectively.

IRON BY MOUTH

without alimentary disturbance

EACH fluid oz. of 'PROBEX' contains the total alcohol-soluble constituents of 2 ozs. of whole fresh beef liver, together with ferrous iron (in saccharated form), and erythrogenic components of the Vitamin B-complex.

'PROBEX' is primarily indicated in :

(1)

The difficult and resistant case of chronic hypochromic anæmia—where the response to treatment with iron alone is slow and ephemeral.

(2)

Anæmia of pregnancy—where the absence of gastro-intestinal side-effects is warmly welcomed.

(3)

Anæmia of infancy and childhood—where the palatability of the preparation ensures administrative success.

'P R O B E X'

Trade Mark

BEEF LIVER WITH IRON

'PROBEX' is available in bottles of 8 fluid ozs.

Each fluid ounce (30 c.c. approx.) contains the total alcohol-soluble constituents of 2 oz. of whole fresh beef liver, together with:

Iron and Sodium Citrate ..	1.2 G.	Aneurine Hydrochloride ..	2 mg.
Liquid Glucose ..	13.1 G.	Riboflavine ..	2 mg.
Sucrose ..	470 mg.	Nicotinamide ..	15 mg.
Hypophosphorous Acid ..	130 mg.	Alcohol (95%) ..	3.6 mls.

Through chemical interaction, a saccharated iron compound is formed, which contains the equivalent of 3 grains (Fe) per fluid ounce.

'MEPILIN'

TRADE MARK

for the menopausal patient

The association of methyltestosterone and ethinylœstradiol in Mepilin produces a more complete response in the treatment of menopausal disorders than can be obtained by the use of œstrogens alone.

The presence of methyltestosterone enables a reduction in œstrogen dosage to be made; thus undesirable side effects such as breast turgidity and pelvic congestion are avoided and the risk of withdrawal bleeding is reduced. An increased feeling of confidence and well-being is produced which is both mental and physical.

Each teaspoonful (4 ml.) of Mepilin Elixir and each Mepilin Tablet contains ethinylœstradiol 0.01 mg. and methyltestosterone 3 mg.

'MEPILIN' TABLETS Bottle of 25 at 4/4 and 100 at 14/6.

'MEPILIN' ELIXIR Bottle of 4 fl. oz. at 6/- and 20 fl. oz. at 23/-. *Basic N.H.S. Prices*

DOSAGE: Menopause and geriatric conditions: average cases—3 tablets or 3 teaspoonsfuls daily. Premenstrual tension and dysmenorrhœa—2 tablets or 2 teaspoonsfuls daily from 10th to 22nd day of the menstrual cycle.

You've only got one pair of hands

USE A LITTLE NIVEA AFTER EVERY WASH
Frequent washing and scrubbing of the hands and immersing them in anti-septics tends to impoverish the skin. Nivea counteracts the drying effects and keeps the skin smooth and supple. Nivea is a water-in-oil emulsion, containing Eucerite which, due to its high cholesterol content, is closely related to the fatty substances of the skin. It is rapidly absorbed and does not leave the skin greasy. Use a little after every wash and keep your hands in perfect working condition.

PH65

A New development providing **CONTROLLED** antacid therapy

Prodexin is a new product containing aluminium glycinate, and belongs to the buffer group of antacids. It depends for its action upon the slow release, on hydrolysis, of active aluminium hydroxide gel and glycine (amino acetic acid). Glycine rapidly raises the pH to 2, sparing the aluminium gel for the later stage of raising it into the "safe zone" of pH 3.5 to 4.5. Prodexin maintains an equable gastric environment for long periods without alkalisiation.

Prodexin provides a convenient, economical and safe treatment for HYPERACIDITY and PEPTIC ULCER.

The tablets, sucked one at a time, maintain the pH of the stomach contents within the "safe zone" for up to two hours. With Prodexin there is no risk of acid rebound or alkalosis. Prodexin tablets are pleasant to suck and they do not form gritty particles in the mouth or give rise to constipation.

PRODIXIN

Each tablet contains:—

Aluminium glycinate.....0.9 gramme.
(dihydroxy aluminium aminoacetate)

Light magnesium carbonate.....0.1 gramme.

The basic N.H.S. cost of treatment at the rate of 6 Prodexin tablets daily is 8½d.

in the Treatment of Nutritional Macrocytic Anaemia

Marmite yeast extract has been used with success in the treatment of certain forms of macrocytic anaemia which are frequently encountered in tropical countries. Its value in the anaemias of coeliac disease, sprue, and idiopathic steatorrhoea has also been reported.

The precise mode of action of Marmite has not yet been satisfactorily explained. It has been suggested that folic acid, which is present in Marmite and which is effective in this type of anaemia, may be responsible, but there is also the possibility that some unidentified substance in Marmite may be the effective agent.

A CAREER AT SEA

The Merchant Navy offers good prospects

The large Shipping Companies recruit future Executive Officers for their ocean-going ships from H.M.S. WORCESTER, a Nautical College founded in 1862 by London shipowners. Nearly 7,000 Cadets have passed through the College and received specialized training in addition to a sound general education.

The College is officially recognized by the Ministry of Education and the Ministry of Transport, the latter accepting the training provided on board the WORCESTER as being the equivalent of one year's sea service.

Cadets are admitted after reaching the age of 13½ and before reaching the age of 16. They leave the College when they are 17 and the period of training depends on the age at entry, with a minimum period of two years. Candidates are required to take the Common Entrance Examination or the WORCESTER Entrance Examination, according to age. They must be medically fit with perfect eyesight.

Fees are £210 per annum including uniform. Several scholarships in reduction of fees are available. The WORCESTER offers an excellent opportunity for boys of good education and character wishing to become Executive Officers in the Merchant Navy—a career providing world travel, good remuneration, and an interesting life.

Illustrated Prospectus containing full information will be forwarded on application to the Secretary.

High-speed pen recorders for medical use

SAFE—HIGH DEFINITION—NON-CLOGGING

Kelvin Hughes high-speed ink writing recorders are, by virtue of their design, perfectly safe for use in operating theatres. The ink is quick drying and does not clog, since it is immediately evacuated whenever the apparatus is switched off. Frequency responses of the recorders are very high, resulting in extremely good definition. Units can be adapted for use with existing chart tables.

Kelvin Hughes welcome enquiries from the Medical profession regarding any application of pen recording.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment. The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR:** Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners:* £425 per annum for the first post held; £475 per annum for the second and any subsequent post held.

(ii) *Fully registered practitioners:* £425 per annum for the first post held; £475 per annum for the second post held; £525 per annum for the third and any subsequent post held.

provided that a medical practitioner who has held house posts under (i) above whilst provisionally registered shall be remunerated at the rate of £525 per annum for each post held after obtaining full registration; and provided that in exceptional circumstances, subject to the consent of the Minister (in Scotland of the Secretary of State), the rates under (ii) may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

A deduction at the rate of £125 per annum shall be made from the remuneration of House Officers in respect of board and lodging and other services provided. Each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER:** Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

The duties will be mainly in connection with the Maternity and Child Welfare Service and the School Health Service, but the person appointed will be expected to carry out such other duties as may be allocated to him by the Medical Officer of Health. There is opportunity for experience in the clinical departments of the local hospitals. The salary will be on an appropriate step of the scale £950 to £1,300 per annum, according to experience and qualifications. Further particulars can be obtained from the Medical Officer of Health, Town Hall, Reading, to whom forms of application should be returned not later than October 9, 1954.—G. F. Darlow, Town Clerk. (9368)

Public Health—contd.**NORTHUMBERLAND COUNTY COUNCIL**

Applications are invited for the post of **SCHOOL MEDICAL OFFICER**. The salary will be £950 by £50 to £1,300 per annum. Previous experience may be taken into consideration in determining the commencing salary. Travelling expenses and subsistence allowances in accordance with the Council's scale will be paid. The post is superannuable, and the successful candidate will be required to pass a medical examination. Forms of application obtainable from the Principal School Medical Officer, County Hall, Newcastle-upon-Tyne, 1. Closing date October 9, 1954.—E. P. Harvey, Clerk of the Council, County Hall, Newcastle-upon-Tyne, 1. (9478)

ROCHDALE, COUNTY BOROUGH OF

Applications are invited from qualified medical practitioners, male or female, for the whole-time appointment of either **ASSISTANT MEDICAL OFFICER in the School Medical and Child Welfare Department** or **SCHOOL MEDICAL OFFICER**. The duties of the former will be equally divided between the Child Welfare and School Medical Services, while the duties of the latter will be mainly within the School Medical Service. Preference will be given to holders of the D.P.H. or similar qualification and applicants who have experience in the branches mentioned, including experience of ascertainment of educationally sub-normal children. Salary £950, rising by increments of £50 to £1,300 per annum, commencing according to experience. The successful candidate must pass a medical examination. Candidates must state whether they are related to any member or senior official of the Council. Canvassing will disqualify. Application forms may be obtained from the Medical Officer of Health, Public Health Department, Baillie Street, Rochdale, to whom they should be returned, together with the names and addresses of three referees, by October 11, 1954.—K. B. Moore, Town Hall, Rochdale. (9418)

**SHEFFIELD, CITY OF
Public Health Department**

Applications are invited for the appointment of **DEPUTY MEDICAL OFFICER OF HEALTH** at a salary of £1,600, rising by annual increments of £100 to a maximum of £1,900. Applicants must be registered medical practitioners holding the Diploma in Public Health, with experience in the administration of the Public Health Services. The appointment is superannuable, and the person appointed will be required to pass a medical examination and to devote the whole of his time to the service of the Council. Applications (which must be made on a form to be obtained from me), containing the names of three persons to whom reference may be made, must be received by me, not later than October 4, 1954, endorsed "Deputy Medical Officer of Health." Canvassing, whether direct or indirect, is prohibited and will be a disqualification. Further information can be obtained from Dr. Llywelyn Roberts, Medical Officer of Health, P.O. Box 78, Town Hall Chambers, Sheffield, 1.—John Heys, Town Clerk, Town Hall, Sheffield, 1. (9419)

**WESTMINSTER CITY COUNCIL AND
HOLBORN BOROUGH COUNCIL**

Joint appointment of **PRINCIPAL ASSISTANT MEDICAL OFFICER OF HEALTH** (permanent superannuable post). Salary £1,250 by £50 to £1,400 per annum. Applicants to be registered medical practitioners and to hold a registered Public Health qualification; age not to exceed 45 years. The person appointed will act as Principal Assistant Medical Officer of Health for the two Boroughs. His services will be allocated in the proportion of three-fourths to Westminster and one-fourth to Holborn. Further particulars from and applications (marked "Principal Assistant Medical Officer of Health," stating age, war service, qualifications, present and past appointments, with copies of three recent testimonials), to the Town Clerk, Westminster City Hall, Charing Cross Road, W.C.2, by October 12, 1954. (9426)

GOVERNMENTAL**PRISON AND BORSTAL SERVICE**

OCCUPATIONAL THERAPIST (in sole charge) Applications are invited for a post at H.M. Prison, Wakefield. Salary £455 by £15 to £515 per annum (National Health Service scale). Pensionable under the Health Services Superannuation Scheme. Applicants must hold the Diploma of the Association of Occupational Therapists or a qualification approved by the Scottish Association of Occupational Therapists. Regulations and application forms from Establishment Officer (E.84/2/12), Prison Commission, Horseferry House, Dean Ryle Street, London, S.W.1, to be returned by October 11, 1954. (9467)

**CANADA, UNIVERSITY HOSPITAL
Saskatoon, Saskatchewan****RESIDENT STAFF**

This newly constructed hospital is opening on January 1, 1955, when the first one hundred beds will be available. Thereafter, further groups of beds will be opened until the full five hundred and fifty beds are in operation. The services will cover all departments of medical practice, namely, medicine, surgery, obstetrics, gynaecology, pathology, psychiatry and rehabilitation medicine. Included in the departments will be paediatrics, neurology, neurosurgery, orthopaedics, urology, otolaryngology, ophthalmology, radiology and radiotherapy. Full Resident Staff will be required as from July 1, 1955, but it is hoped that some of those who wish to be considered for Senior Internships and Assistant Residencies would be willing to commence duties as from January 1, 1955, with the object of helping to organize the new departments. The first year will be a rotating internship with active responsibilities in patient care. Thereafter it is the intention of the clinical staff of the hospital to provide a complete residency training programme in the major specialties. For those who wish to pursue a general practice, a two-year training programme will be provided. Salary (including full maintenance): Junior Intern, \$75 per month; Senior Intern (second year), \$150 per month; Assistant Residents, \$175 to \$225 per month. Scale according to experience. Residents, \$300 to \$350 per month. Scale according to experience. Applications should be submitted to the Medical Director, University Hospital, Saskatoon, Saskatchewan, Canada, as soon as possible. Applicants should include a curriculum vitae. (9482)

Overseas (Vacant)—contd.**FEDERATION OF RHODESIA AND NYASALAND****Ministry of Health**

Applications are invited for the following vacancies from suitably qualified male doctors, who must be British subjects, or citizens of Eire.

PATHOLOGIST

(upper age limit 42). The salary will be at a fixed rate of £2,250 per annum. Private practice is not permitted, but consultant practice is allowed to pathologists called into consultation by private medical practitioners.

GOVERNMENT MEDICAL OFFICERS

G.M.O.'s are essentially general duty officers and have opportunities in practically all fields of medicine. Though applicants up to 35 will be considered, these posts, which involve considerable change of stations and relieving duties during the first years of service, are best suited to young doctors, who have completed one to five years of post-qualification experience and who are single, or married without children. Starting salary scale £1,100 to £1,800, actual starting point (maximum £1,300 per annum) depending on experience. In addition, private practice is permitted, or an allowance of £200 per annum is paid in lieu. Application forms and further details (mention post) from Secretary, Rhodesia House, 429, Strand, London, W.C.2, completed forms to be returned by October 16. (9463)

Applications are invited from young medical students unable to complete their studies, scientific graduates, or pharmacists, as secretary to a Clinical Research Department. The duties include literature research, organization, and liaison work between scientists. Previous experience preferred and a knowledge of languages and writing ability advantageous. The position offers considerable scope for a young man with enthusiasm. Five-day week. Staff restaurant. Generous pension plan. Write, giving full particulars, to Personnel Manager, Parke, Davis and Company, Limited, Staines Road, Hounslow, Middlesex. (9343)

Readers frequently desire to refer to advertisements concerning appliances, preparations, etc., which have appeared in earlier issues of the *Journal*.

The Advertisement Manager can supply particulars at any time.

In dealing with written inquiries, especially from overseas, correspondents are, wherever possible, put in direct contact with the advertisers in whose products they are interested.

Write: Advertisement Manager,
British Medical Journal,
B.M.A. House,
Tavistock Square,
London, W.C.1.

RECEPTIONISTS, SECRETARIES, TYPISTS, HOUSEKEEPERS, ETC.
