effective
antibiotic*

Filmtab ERYTHROCIN Stearate

Erythrocin is orally effective against pharyngitis, tonsillitis, otitis media, sinusitis, bronchitis, pneumonia, scarlet fever, erysipelas, pyoderma and many other cocci conditions. Erythrocin is now supplied as the stearate salt in film-sealed tablets. The new *Filmtab* coating (marketed only by Abbott) starts to disintegrate within 30 seconds of being swallowed, making the antibiotic available for immediate absorption. This ensures high blood levels in less than 2 hours, peak concentrations within 4 hours, with significant concentrations lasting for 8 hours.

100 mg. and 200 mg. Filmtabs are available in bottles of 25 and 100. For children, Erythrocin Stearate Oral Suspension. Samples on request.

*Highest peak concentrations and sustained
therapeutic effect with 'ESKACILLIN'*

the palatable liquid oral penicillin

Some authorities stress the value of high, if intermittent, peak penicillin serum concentrations; others favour lower, but sustained, plateau levels. With 'Eskacillin' the advantages of both patterns are available. A very high peak concentration is achieved within about one hour of the first dose, succeeded by a more than adequate therapeutic level sustained for several hours.

A NEW ADJUVANT IN THE TREATMENT OF RESPIRATORY DISORDERS

Lloyd-Hamol Ltd., of London and Zurich, presents to the medical profession a new decongestive salve, Thoracin, for the symptomatic relief of coughs, colds and respiratory disorders.

This diagram shows how Thoracin components penetrate the skin, are carried by the blood-stream to the alveoli and excreted there to exert their effect.

FORMULA

Phenyl Ethyl Nicotinate	2.0%w/w
Guaiacol Furoate	5.0%w/w
Tetrahydrofurfuryl Salicylate	10.0%w/w
Camphor	3.0%w/w
Eucalyptol	2.0%w/w
Water-Miscible Base to	100.0%

► The Thoracin formula is based on the same principles that have made Transvasin so successful in the treatment of rheumatic conditions.

► Thoracin is composed of esters of substituted hydroxy aromatic derivatives.

► Thoracin achieves the effect of the classic counter-irritant remedies—poultices, plasters and cupping—without irritation of the skin.

► Thoracin contains a new ester of Guaiacol that is entirely free from the evil smell and irritant effect associated with this phenol derivative in its pure form. This ester easily penetrates the skin and is excreted in the alveoli, where it exerts its well-known action.

► Thoracin ensures vasodilation of the superficial skin vessels by the use of esters of nicotinic acid.

► Thoracin brings to the alveoli via the blood-stream the sedative, antispasmodic, and expectorant properties of camphor and eucalyptus.

THORACIN is available in 1 oz. tubes—basic price 2/6 plus 7½d. P.T. It is an ethical product, and is not advertised to the public. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low. *Samples and literature will be gladly sent on application.*

THORACIN

MADE BY THE MANUFACTURERS
OF TRANSVASIN

Two outstanding preparations

Parentrovite

A new injectable preparation of B-vitamins and vitamin C in high concentration designed especially for treatment of the patient who is toxic, possibly with coma or delirium, from

overdosage with narcotics or barbiturates, excessive consumption of alcohol, viral or bacterial infections.

In all these circumstances there is derangement of intracellular metabolism, involving inactivation of the B vitamin enzyme systems and severe depletion of body stores.

Recovery may be speeded by, and may even depend upon, the restoration of normal intracellular metabolism by means of high blood concentrations of the vitamins concerned.

To achieve this aim, ampoules are available in pairs of 5 c.c. for intravenous injection in acute conditions, and in smaller volumes for intramuscular injection in less urgent cases or for maintenance therapy.

FORMULA

After a series of trials, the following formula has been adopted.

For intravenous injection.		INTRAVENOUS (I.V. 250)	
Aneurine hydrochloride	250 mg.	—
Nicotinamide	160 mg.	—
Riboflavin	4 mg.	—
Pyridoxine	50 mg.	—
Ca Pantothenate	5 mg.	—
Dextrose	—	1 g.
Ascorbic acid (as sodium ascorbate)	—	500 mg.
		5 ml.	5 ml.
			10 ml.

Also available for intramuscular injection.

Omnivite forte

A preparation in tablet form for the continuation treatment of the *alcohol addict*. All the vitamins known to be concerned in intracellular metabolism are present in amounts found by clinical trial to be effective.

Further details of both these preparations may be obtained on request.

FORMULA. Each tablet contains:

Aneurine hydrochloride (B1)	1.65 mg.	Folic acid	0.55 mg.
Riboflavin (B2)	1.335 mg.	Para-aminobenzoic acid	5.50 mg.
Pyridoxine (B6)	1.65 mg.	Inositol	26.5 mg.
Nicotinamide	5.0 mg.	Choline bitartrate	26.5 mg.
Calcium pantothenate	5.0 mg.	Ascorbic acid	16.65 mg.
Cyanocobalamin (B12)	2.5 microgm.	-tocopherol acetate	3.335 mg.
Biotin	0.025 mg.	Vitamin A	3333 i.u.
Vitamin D			166 i.u.

Nulacin

for milk-alkali drip therapy

without inconvenience

Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer

Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

HORLICKS LIMITED

PHARMACEUTICAL DIVISION • SLOUGH • BUCKS

The use of milk-alkali drip therapy in establishing and maintaining a state of gastric anacidity has for many years been accepted as a standard practice in the treatment of peptic ulcers.

Such a continuous antacid effect could only be achieved by administering the drip through a tube, with its attendant inconvenience and discomfort to the patient. NULACIN tablets, held in the buccal cavity, give continuous neutralization without inconvenience or discomfort.

INDICATIONS

NULACIN tablets are indicated whenever neutralization of the gastric contents is required: in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Beginning half-an-hour after food, a NULACIN tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. May be prescribed on E.C.10. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to pharmacists is 2/-.) Also available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrans and maltose, and incorporate Magnesium Trisilicate 3.5 grs.; Magnesium Oxide 2.0 grs.; Calcium Carbonate 2.0 grs.; Magnesium Carbonate 0.5 grs.; Ol. Ment. Pip. q.s.

NULACIN

is available throughout the British Commonwealth, in the U.S.A., and many other countries. It is known as Nulactin in Canada and Sweden.

A new Haemostatic for the Control of Capillary Bleeding in Medical and Surgical Conditions

Clinically proven to reduce bleeding-time without effect on coagulation or blood pressure, and to have no undesirable side effects

This graph gives dramatic evidence of the effect of Adrenoxyl on capillary resistance and bleeding-time

During recent years, research has been carried out on a new chemical substance that reduces the mean bleeding-time by decreasing capillary permeability and increasing contractility and capillary resistance.

The product of this original research is called Adrenoxyl (*Adrenochromemonosemicarbazone*) and has been clinically proven to be of value in controlling capillary haemorrhage.

ADRENOXYL has no effect on coagulation. It neither increases nor decreases blood pressure.

ADRENOXYL is non-toxic, and there are no contra-indications to its use.

ADRENOXYL is indicated in the preventive and curative treatment of all types of capillary bleeding.

ADRENOXYL has been successfully used for the control of capillary bleeding in a wide range of surgical operations, and has proved particularly useful in ear, nose, and throat surgery, ophthalmic surgery, thoracic surgery, gastro-intestinal surgery, plastic surgery, and urogenital surgery.

It has also been used successfully in many medical conditions associated with capillary haemorrhage or where capillary fragility is a feature.

ADRENOXYL may be administered by mouth or by subcutaneous or intramuscular injection. The oral form is for routine treatment, though when rapid action is desired the intramuscular route is recommended.

ADRENOXYL is now available in boxes of 6 or 50 ampoules; tubes of 25 tablets or bottles of 500 tablets.

FERROMYN

(Ferrous Succinate)

**the new
organic iron—
a complete
range at
reduced prices**

Leadership in oral iron therapy

This new iron preparation presents Ferrous Succinate, the bivalent iron salt of succinic acid. Succinic acid, together with glycine is essential for the synthesis in the red bone marrow of a porphyrin (hæm) containing iron.

The controlled clinical trials with FERROMYN show a mean utilisation factor of 42% as compared with the mean utilisation factor of 28% with Ferrous Gluconate and 14% with Ferrous Sulphate.

A notable feature of this preparation is that the very favourable response is obtained with the minimum overall dosage of ferrous salt thus ensuring minimum risk of toxic reaction.

The range of FERROMYN preparations has been extended to include ELIXIR FERROMYN and ELIXIR FERROMYN 'B'.

INTRODUCE

NOBECUTANE

A NEW PLASTIC WOUND DRESSING

(See Brit. med. J. 1954. 2.17)

NOBECUTANE consists of an acrylic resin dissolved in a mixture of acetic esters. When applied to the dry skin the solvent evaporates leaving an elastic, transparent, and adhesive film.

* * *

NOBECUTANE has many advantages over conventional dressings. It is non-irritating, transparent, tough, pliable and durable and can be applied over joints where some degree of mobility is required.

* * *

NOBECUTANE is impervious to bacteria but permeable to air and water vapour and allows normal aqueous exhalation of the skin to escape and no maceration of the skin occurs.

* * *

NOBECUTANE is economical in use and results in a saving of at least 20% over the cost of conventional dressings. In addition it is welcomed by nursing staff who find it effects a considerable amount of saving in time.

* * *

NOBECUTANE is available to *hospitals only* in bottles of 250 ml. at a price of 17/6 per bottle. Each bottle contains adequate material for the dressing of approximately sixty to seventy surgical wounds.

MALARIA—a bar to progress

Increasing evidence from endemic regions indicates that 'Daraprim' can play a major part in eradicating malaria. This new drug has proved an excellent suppressant in a dosage of one product once a week; when administered under supervision to an entire community it has been shown capable of breaking the malarial cycle. 'Daraprim' is tasteless and well tolerated; it causes no discoloration of the skin. It is supplied as compressed products of 25 mgm., in packs of 6, 30, 250 and 1000.

EFFECTIVE ORAL AMINOPHYLLINE

THEODROX

"These charts show the increase in gastric tolerance following the oral administration of Aminophylline with aluminium hydroxide (Theodrox) compared with that of plain aminophylline.

THEODROX provides a dependable method of oral administration of aminophylline in doses large enough to produce blood levels comparable with those following injection.

Previous investigations have shown that good response is obtained from aminophylline only if a certain concentration of the active component, theophylline, is attained in the blood. Because gastric irritation prevents giving oral doses large enough to produce this necessary blood level, the only dependable way of obtaining this end has been to resort to parenteral aminophylline.

Now there is clinical proof that when aminophylline is combined with a specially prepared aluminium hydroxide, the stumbling block of gastric irritation can be virtually eliminated, and massive oral doses can be tolerated to produce consistent blood levels comparable to those obtained by parenteral administration. (1) (2).

Theodrox is supplied in containers of 25, 100 and 1,000 tablets, each tablet containing Aminophylline, B.P. 3 gr. and Dried Aluminium Hydroxide Gel, B.P.C., 4 gr.

Theodrox is also available as Theodrox with Phenobarbitone, each tablet containing in addition $\frac{1}{2}$ gr. of Phenobarbitone B.P.

A BALANCED OUTLOOK

in anxiety states

Anxine Tablets provide comprehensive symptomatic treatment of anxiety states, psychoneuroses and psychosomatic disorders

by improving mood and increasing confidence,

by inducing gentle sedation and allaying anxiety
and

by securing the optimal degree of muscular relaxation.

Although each of the three components of Anxine Tablets, dexamphetamine sulphate, cyclobarbitone and mephenesin, makes an important contribution to the amelioration of the symptoms of anxiety states, none is adequate alone. It is only when they are combined, in the form of Anxine Tablets, that maximum control of symptoms is achieved.

Formula

Each Anxine Tablet
contains :

Dexamphetamine
sulphate 2.5 mg.
Cyclobarbitone 35 mg.
Mephenesin .. 120 mg.

A new combination

CODIS

REGD.

soluble aspirin with
codeine phosphate and phenacetin

Codis presents a familiar grouping of analgesic drugs ; aspirin, phenacetin, codeine phosphate ; with an important advantage. The "aspirin" in Codis is rendered soluble, as in "Solprin".

Placed, uncrushed, in water, a Codis tablet disperses in a matter of seconds to form a solution of calcium aspirin and codeine phosphate with finely suspended phenacetin. The chance of irritation of the gastric mucosa by undissolved particles of aspirin is thus minimised.

Codis is recommended for all those conditions for which Tab. Codein. Co. B.P. would be prescribed. It has the added advantages of greater ease of administration and far less likelihood of aspirin intolerance, while the rapid absorption of the soluble aspirin promotes prompt relief.

COMPOSITION

Each Codis tablet weighs 11.45gr., and contains:—
Acid. Acetylsalicyl. B.P. 4gr., Phenacet. B.P.
4gr., Codein. Phosph. B.P. 0.125 gr., Calc. Carb.
B.P. 1.2 gr., Acid. Cit. B.P. (Exsic) 0.4gr.

Codis is not advertised to the public.

ULCER
EMOTIONS

EMOTIONAL DISTURBANCE...

A close association has been shown to exist between certain emotional disturbances and changes in gastric function. Increased acid secretion has been observed to follow emotional reactions of a combative nature and the importance of controlling gastric acidity in the management of peptic ulcer is widely recognised.

'Aludrox' Amphoteric Gel, buffers gastric acid to a pH of 3.5 to 4.0, at the same time providing a protective gel barrier over the surface of the ulcer. Healing is thus able to proceed whilst the risk of alkalosis is avoided and normal digestion is unimpaired.

'ALUDROX'
Trade Mark

'ALUDROX' is available in two forms: as an amphoteric gel (consisting of Aluminium Hydroxide Gel B.P.C. suitably flavoured and preserved) in 6 oz. and 12 oz. bottles and as tablets (each tablet containing dried Aluminium Hydroxide Gel B.P.C. 13 gr.) in boxes of 60.

John Wyeth & Brother Ltd., Clifton House, Euston Road, London, N.W.1

A New development providing **CONTROLLED** antacid therapy

Prodexin is a new product containing aluminium glycinate, and belongs to the buffer group of antacids. It depends for its action upon the slow release, on hydrolysis, of active aluminium hydroxide gel and glycine (amino acetic acid). Glycine rapidly raises the pH to 2, sparing the aluminium gel for the later stage of raising it into the "safe zone" of pH 3.5 to 4.5. Prodexin maintains an equable gastric environment for long periods without alkalisiation.

Prodexin provides a convenient, economical and safe treatment for **HYPERACIDITY** and **PEPTIC ULCER**.

The tablets, sucked one at a time, maintain the pH of the stomach contents within the "safe zone" for up to two hours. With Prodexin there is no risk of acid rebound or alkalosis. Prodexin tablets are pleasant to suck and they do not form gritty particles in the mouth or give rise to constipation.

PRODEXIN

Each tablet contains:—

Aluminium glycinate.....0.9 gramme.
(dihydroxy aluminium aminoacetate)

Light magnesium carbonate.....0.1 gramme.

The basic N.H.S. cost of treatment at the rate of 6 Prodexin tablets daily is 8½d.

Manufactured in the laboratories of

C. L. BENCARD LIMITED

MINERVA ROAD • PARK ROYAL • LONDON N.W.10

In the Service...

Research

The House of Wander continues to maintain its advanced position in pharmaceuticals and quality food products because the standardization of active ingredients during manufacture is backed by careful control and investigation in its extensive Research Laboratories.

In Quality

The Wander Research Laboratories have made useful contributions in the fields of dietetics, nutrition and vitamins. Their wide experience and up-to-date laboratory facilities help to maintain the high quality of Malt Extract and Cod Liver Oil (Wander), the vitamin content of which exceeds that of the analogous B.P. preparations.

The special consideration of physicians when prescribing a malt and oil preparation is that of vitamin values. Comparative studies prove that to prescribe "Wander Brand" is to specify malt extract and cod liver oil of the finest possible quality.

In the Service of Medicine

Careful control and investigation help to maintain "Wander Brand" in the forefront of its class. Moreover, with all its special advantages, "Wander Brand" costs no more than some malt and oil preparations with a lower vitamin content.

CLINICAL PRODUCTS LIMITED • RICHMOND • SURREY

*The potent
anticholinergic agent
for
Gastric Hypermotility*

The proven value of "Pro-Banthine" lies in its high potency as an anticholinergic agent inhibiting transmission of neural stimuli at autonomic ganglia and parasympathetic myoneural junctions. By such inhibition "Pro-Banthine" reduces gastro-duodenal hypermotility, which is one of the causes of ulcer pain, and it is in striking confirmation of this that dosage with "Pro-Banthine" dramatically results in relief of pain.

SEARLE

*Ethical Pharmaceuticals
since 1888*

G.D. SEARLE & CO. LTD.

London, W.1.

Telephone: Welbeck 1306.

"Pro-Banthine" is safe, easily administered, and devoid of unpleasant taste. Pain relief and marked improvement is felt in most cases in 48 to 72 hours after starting "Pro-Banthine" treatment. Dosage is usually 15 to 30 mg. q.i.d. "Pro-Banthine" is supplied in 15 mg. tablets in bottles of 40, 100 and 1,000.

Literature on request.

*TRADE MARK

A perfect source of Vitamin C

RIBENA (*Syrupus Ribis Nigri B.P.C.*)

**HIGH CONCENTRATION OF VITAMIN C—
REMARKABLE STABILITY**

Four characteristics of Ribena make it
a perfect source of Vitamin C:

- 1 It contains a high concentration of Vitamin C—and it is very stable.
- 2 The vitamin is in its natural state. *
- 3 Ribena is very well tolerated even by sensitive stomachs. It is completely free from all cellular structure. It is suitable for infants almost from birth, for peptic ulcer cases, and for women suffering from "morning sickness"; they can take it when almost everything else increases discomfort.
- 4 In addition to its therapeutic values, it is delicious in its own right as sweet blackcurrant syrup.

* Following reports of unsatisfactory response to the therapeutic use of synthetic ascorbic acid in peptic ulcer cases, controlled tests using Ribena were instituted at various large British hospitals, with striking results. Clinical experience has also shown that in ulcerative gingivitis, the routine use of Ribena as an adjunct to local therapy has given more satisfactory results than that of the synthetic vitamin. The superiority is presumably due to the presence of other factors of the Vitamin C complex, possibly the Vitamin P, as well as mineral elements.

Therapeutic uses

Ribena is recommended for all conditions requiring Vitamin C implementation: namely, as a natural and rapid restorative from fatigue; for increasing resistance to local infection and colds; for expectant and nursing mothers; for infants from birth; for children and adolescents: in many dental conditions; in peptic ulcer cases; in fractures and wounds; in blood dyscrasias and hæmorrhagic states; in infections and fevers; and in many skin disorders.

Reports for doctors overseas

The makers of Ribena co-operated extensively with the Ministries of Food and Health during the war, a co-operation which still goes on to some extent even now. The Royal Forest Factory has attached to it a series of very fine laboratories where research into fruit juices and vitamins is conducted to an academic level, under the direction of an expert, lately in charge of the Fruit Products Section of the University of Bristol Agricultural Research Station. Reports of much of the work done are available, on application, to doctors and scientists overseas. These are likely to be of particular interest now that Ribena is being extensively exported.

Send for further information. A booklet entitled "Blackcurrant Juice in Modern Therapy: Natural Vitamin C" will be forwarded to you with pleasure; also details of a number of controlled tests made on the use of Vitamin C, if you will write to:—

THE EXTRA PHARMACOPŒIA

(MARTINDALE)

Volume 1, 23rd Edition

In this new edition will be found information on the composition and character of practically every substance used in medicine, together with a concise summary of its use, its method of administration and its contraindications, with abstracts of the world literature. The book gives details, with references, of the most recent innovations in medical practice.

Information is provided on the toxicity of chemicals and drugs, on reports of cases of poisoning, and on treatment of overdosage. It is unlikely that any medicinal agent of established value has been omitted from the Therapeutic and Pharmacological Index, which is about half as long again as that of the last edition and contains approximately 750 headings.

Why MIXOGEN is prescribed for menopausal symptoms

Because it is now established that :—

- combined male and female hormone treatment is the most effective in this condition.
- the correct balance of the two hormones is essential both for efficacy and economy—determined by extensive clinical trial in the U.K. and unique to Mixogen.
- both the hormones in Mixogen are completely effective when swallowed—thus maximum, immediate relief is given in the simplest and most convenient way.

Dosage: Initially 1-2 tablets daily, reducing when possible.

Packs: Perspex tubes of 25 tablets and bottles of 100, 250 and 500.

THE PRICE OF LIFE

Those who are concerned about the cost of the National Health Service can prescribe "the best sulphonamide for routine use" with an easy conscience. 'Sulphamezathine', increasingly used every year, is now reduced in price.

Always an economical drug it is now, indeed, remarkably cheap. For example, with 'Sulphamezathine', it costs less than five shillings to cure the average uncomplicated case of pneumonia.

CETYL PYRIDINIUM CHLORIDE
NOW INCORPORATED INTO PROCIDETS

Cetyl pyridinium chloride (C.P.C.) is one of the most outstanding bactericidal compounds introduced into medicine. Procids* make a perfect vehicle for this powerful bactericide. Its addition to the sodium propionate in Procids Lozenges arms the practitioner with a double-barrelled weapon against many bacterial and fungal infections of the throat, mouth and gums. By reducing surface tension, C.P.C. carries the germicidal action of Procids deeply into the folds and crevices of the mouth and pharynx. The germicidal value of Procids is such that $\frac{1}{4}$ of a Lozenge rapidly kills *Streptococcus pyogenes* in a 20 c.c. saliva solution. Procids are non-toxic, non-irritating and, containing benzocaine, give immediate relief from soreness in the throat and mouth. Indicated for preventing and treating numerous infections, such as tonsillitis, pharyngitis, laryngitis, etc., and other inflammatory conditions of the mouth and throat.

Issued in cartons of 18 Lozenges—metal-foil sealed. Clinical samples and technical literature available on request.

THIN END
OF THE WEDGE
FOR FLAT FEET!

The largest single cause of foot trouble in childhood—pronation—could easily become the least. 'Inneraze' shoes provide the complete answer: they apply the wedge principle at its most sensible, *built into the shoe itself*. This, together with the buttressed heel, gives a corrective support that lasts the life of the shoe, unaffected by wear or repair. And because the wedge cannot be seen 'Inneraze' is practically indistinguishable in wear from any of the first-class shoes made for normal young feet by Start-rite.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment. The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR:** Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners:* £425 per annum for the first post held; £475 per annum for the second and any subsequent post held.

(ii) *Fully registered practitioners:* £425 per annum for the first post held; £475 per annum for the second post held; £525 per annum for the third and any subsequent post held.

provided that a medical practitioner who has held house posts under (i) above whilst provisionally registered shall be remunerated at the rate of £525 per annum for each post held after obtaining full registration; and provided that in exceptional circumstances, subject to the consent of the Minister (in Scotland of the Secretary of State), the rates under (ii) may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

A deduction at the rate of £125 per annum shall be made from the remuneration of House Officers in respect of board and lodging and other services provided. Each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER:** Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

THE MEDICAL JOURNAL OF AUSTRALIA

The Directors of the Australasian Medical Publishing Company, Limited, wish to appoint an

ASSISTANT EDITOR

to the "Medical Journal of Australia". The present editorial staff consists of the Editor, a Deputy Editor, and a Lay Sub-Editor.

The Directors wish the appointment of Assistant to be a full-time appointment; the appointee will be asked to serve a six months' probationary period.

Applicants should state their age and give details of their education at school and university and of their postgraduate experience. They should state whether they have had any experience in literary work and whether they have any knowledge of foreign languages. The applicant will be expected after the probationary period to declare his intention to adopt medical journalism as a career. The salary offered will be £1,750 per annum.

Applications, which will close on January 31, 1955, should be forwarded to the Secretary, Australasian Medical Publishing Company, Limited, The Printing House, Seamer and Arundel Street, Glebe, New South Wales.

PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelope "Vacancy."

PUBLIC HEALTH**DURHAM, COUNTY COUNCIL OF**
Education Department

The County Education Committee invite applications from registered medical practitioners, men and women, for appointment as

ASSISTANT TO DEPUTY PRINCIPAL SCHOOL MEDICAL OFFICER

Applicants must have had at least three years' experience in the practice of their profession and have been approved by the Ministry of Education for the ascertainment of pupils needing education in a special school as educationally sub-normal children. Commencing salary is £1,150 per annum, rising by annual increments of £50 to a maximum of £1,450 per annum. The successful candidate will be required to pass a medical examination and to contribute in accordance with the provisions of the appropriate Superannuation Act. For conditions of appointment and form of application, which must be returned not later than December 4, 1954, apply enclosing stamped and addressed foolscap envelope to the Director of Education, Shire Hall, Durham.—L. W. Davis, Deputy Director of Education, Shire Hall, Durham. (3675)

EAST SUFFOLK COUNTY COUNCIL

Applications are invited for the appointment of

ASSISTANT COUNTY MEDICAL OFFICER(29/44ths) and **MEDICAL OFFICER OF HEALTH**

(15/44ths) for the Borough of Beccles, the Bungay, Halesworth and Leiston Urban Districts, and the Blyth and Wainford Rural Districts (total population approximately 43,000)

Salary, based on Awards 2285, 2321 and 2452, will be between the minimum £1,235 and the maximum £1,564 per annum, rising to maximum by appropriate increments in accordance with the awards. Duties will include school medical inspection, maternity and child welfare work and general public health. D.P.H. essential and previous local authority experience an advantage. Superannuation appointment subject to satisfactory medical examination, and to provisions of Sanitary Officers' (Outside London) Regulations, 1935. Car allowance on approved national scales. Forms of application and further information obtainable from the County Medical Officer, County Hall, Ipswich, to whom all applications should be returned not later than November 30, 1954.—G. C. Lightfoot, Clerk of the County Council. (3870)

LANCASHIRE COUNTY COUNCIL

Registered medical practitioners required for appointment of

ASSISTANT DIVISIONAL MEDICAL OFFICERS

in areas adjacent to Bolton, Fleetwood, Nelson and Ulverston

Possession of D.P.H. desirable. Salary £950 to £1,300 per annum. Travelling and subsistence allowances where applicable. Posts superannuable and subject to medical examination. Application forms and further particulars from County Medical Officer of Health, East Cliff County Offices, Preston. (3922)

NEWPORT, COUNTY BOROUGH OF**DEPUTY MEDICAL OFFICER OF HEALTH, DEPUTY PRINCIPAL SCHOOL MEDICAL OFFICER AND DEPUTY PORT MEDICAL OFFICER**

Salary £1,166 by £50 to £1,416 per annum. Particulars and forms of application to be returned by December 4, 1954, from Medical Officer of Health, Civic Centre, Newport, Mon.—J. G. Iles, Town Clerk. (3871)

NORTH RIDING COUNTY COUNCIL
(Further advertisement)

Applications are invited from suitably qualified medical practitioners for the whole-time mixed appointment of

MEDICAL OFFICER OF HEALTH for the Borough of Thornaby-on-Tees and the Rural District of Stokesley and ASSISTANT COUNTY MEDICAL OFFICER

Salary £1,379 4s. 4d., rising by annual increments to £1,727 5s. 6d. Conditions of service in accordance with Whitley Council's recommendations (Medical Council Committee "C"). Temporary housing accommodation will be made available by Thornaby Corporation. County Council now giving consideration to provision of a house. Application forms and further particulars, obtainable from the undersigned, to be returned not later than November 27, 1954. Canvassing will disqualify.—H. G. Thornley, Clerk of the County Council, County Hall, Northallerton. (3916)

ST. HELENS, COUNTY BOROUGH OF
Health Department**ASSISTANT MEDICAL OFFICER OF HEALTH**
(Male or female)

Applications are invited from qualified medical practitioners for the above post at a salary of £950 per annum, rising by annual increments of £50 to £1,300 per annum. Recognition may be given to past Local Authority service in fixing the commencing salary. The possession of a C.P.H. or D.C.H. is desirable, but not essential. Consideration for housing accommodation will be given according to the circumstances of the successful candidate. Application forms and further particulars of appointment may be obtained from the undersigned.—G. O'Brien, Medical Officer of Health, Town Hall, St. Helens, Lancs. (3661)

GOVERNMENTAL**PRISON COMMISSIONERS****FULL-TIME MEDICAL OFFICERS**

in Prison and Borstal Service (England and Wales)

Work includes general medical attention of all prisoners and inmates, making psychiatric assessments, provision of medical and psychiatric reports and giving evidence in court are important aspects of the work. Surgical and Psychotherapeutic Units are established at selected centres. Candidates must have attained age of 28; must be fully qualified and registered and should possess sound knowledge of medical and surgical practice. Preference given to those who have postgraduate experience in psychological medicine and possession of D.P.M. considered an advantage. Salary £1,500 by £75 to £1,800 by £100 to £2,100 (minimum linked to age 35, minus £50 for each year below that age and plus one increment for each year above that age but not exceeding 40). Rates are subject to deduction for posts outside London. Appointments are unestablished in first instance but opportunity for establishment through Civil Service Commission later. Unfurnished quarters when available are provided at moderate rental. Application forms and regulations from BY 1114, Appointments Officer, Ministry of Labour and National Service, 1-6, Tavistock Square, London, W.C.1, returnable by December 3, 1954. (4011)

Transportation to St. John's and return to point of departure will be arranged and paid by the hospital, with the understanding that the appointee serves for a period of one year. (3714)

JEWISH HOSPITAL
Cincinnati 29, Ohio, U.S.A.

Inquiries are invited concerning **RESIDENCY in Pathology** 400 bed private hospital. A.M.A. and Board approved for full pathology training. Laboratory supervised by two full-time Board certified pathologists. Two to four residents in attendance. Two hundred and twenty plus autopsies per year (over 50 per cent of hospital deaths). Over 6,000 surgical tissues. Full clinical pathological service. New laboratory wing fully equipped and staffed. Salary \$1,740 per year plus full residential emoluments for first year resident. Apply, Dr. Philip Wasserman, Director of Clinical Laboratories. (3186)

HER MAJESTY'S COLONIAL SERVICE

Applications are invited for the following post:

MEDICAL OFFICER OF HEALTH

Required in the Insect Borne Diseases Division of the Medical Department in Mauritius. He would be required to take charge of the Division and the whole of the anti-malaria programme under the Director of Medical Services and to undertake any other public health duties assigned to him by the Director. Candidates must have medical qualifications registrable in the United Kingdom, and must possess the Diploma of Public Health. The Diploma in Tropical Medicine and Hygiene is desirable, but not essential. Appointment on agreement for three years in first instance, but may later become permanent and pensionable. Salary in scale Rs. 14,220 to Rs. 20,820 (£1,066 10s. to £1,561 10s.) a year. In addition a temporary non-pensionable cost-of-living allowance is payable of nine per cent of salary. Candidates in the National Health Service may leave and retain their superannuation rights (up to a limit of six years) and receive a gratuity of twenty per cent of salary at the end of their engagements. Quarters are not provided, but officers who have not been allocated Government houses will be reimbursed any difference between approved rent paid for a private house (subject to a maximum of Rs. 250 (£18 15s.) per mensem) and the ten per cent salary they would normally pay for a Government house. For this purpose, officers residing in hotels or boarding houses will be regarded as paying half the board and lodging charge for themselves and their wives in respect of rent. Income tax at local rates. Free passages in both directions are provided for officer, wife and children not exceeding five persons in all. Generous home leave is granted after each tour of three years. Application forms from Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting reference BCD. 117/52/02). (4007)

HER MAJESTY'S OVERSEA CIVIL SERVICE
Barbados**MEDICAL SUPERINTENDENT**

Required at the General Hospital, Barbados, to be responsible generally for the supervision and management of the hospital, and such other departmental duties as the Governor may from time to time direct. In the performance of these duties he will act under the general direction of the Director of Medical Services. Candidates must possess qualifications registrable in the United Kingdom. Experience in hospital management is essential. Appointment on a permanent basis with pension (non-contributory) at the age of 55, or on agreement for three years. Salary is \$6,000 (£1,250) a year. A temporary cost-of-living allowance of £32 10s. a year is also payable. Furnished quarters are provided at a rental of five per cent of salary. Free passages on appointment and on completion of agreement are provided for officer and family up to a maximum cost of £300 each way. Free passages on leave provided for officer and wife only at end of tour of service of 3½ years (pro rata payment on completion of not less than two years of tour). Generous home leave after each tour. Income tax at local rates. Social and recreation amenities are good. Climate is healthy for Europeans. Education facilities are available. Application forms from Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting ref. BCD. 117/28/010). (4005)

HER MAJESTY'S OVERSEA CIVIL SERVICE
Medical Branch, Barbados**MEDICAL OFFICER OF HEALTH**

Required in Medical Department of Barbados. Duties include school health, public health education, maternal and child welfare clinics, tuberculosis and venereal diseases clinics, control of quarantinable diseases and co-operation with Local Government bodies in their health matters with special relation to sanitation and hygiene. Candidates must possess qualifications registrable in the United Kingdom and a Diploma in Public Health. Experience in public health practice and a qualification in tropical medicine and hygiene are desirable but not essential. Appointment will be on a permanent basis with pension (non-contributory) at the age of 55 or on agreement for three years in the first instance (in which case passage regulations are slightly different). Salary scale is from \$5,280 to \$6,240 (£1,100 to £1,300) per annum. Pension is earned at the rate of 1/600th of the final pensionable emoluments for each completed month of service. In addition a temporary (non-pensionable) cost-of-living allowance of \$156 (£32 10s.) per annum is payable. On appointment, free passages are provided for officer and family up to a total cost of £300. Leave passages are provided for officer and wife after the completion of a minimum tour of 3½ years. Income tax at local rates. Climate is healthy for Europeans. Social and recreational amenities are good. Educational facilities are available. Application forms from Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting ref. BCD. 117/28/012). (4006)

Overseas (Vacant)—contd.**NAKURU WAR MEMORIAL HOSPITAL**
Nakuru, Kenya Colony

The above hospital requires the services of a **FULLY QUALIFIED RADIOLOGIST** immediately, to be engaged on one of the two following alternative bases. The hospital is of modern construction, has 72 beds, is fully equipped with first class x-ray apparatus, and is served by 25 general practitioners, there being no other hospital facilities within a radius of 100 miles. The climate of Nakuru is healthy, and there are ample facilities for education, sport, etc., being situated in the centre of the European settled area. The alternative methods of engagement are (1) To enable a radiologist to establish a practice at the hospital by making available the x-ray room and apparatus at an agreed rental. The Board of Management would consider the payment of a guaranteed income over a period of three years, on a reducing basis, during the establishment of the practice. (2) On a basis of employment by the hospital on contract in accordance with the normal conditions appertaining to the appointment of a fully qualified radiologist to a post of this type. Under method 1, the minimum remuneration would be £2,500 per annum guaranteed for three years; under method 2 the salary would be £3,000 per annum. Preference will be given to applicants under the age of 35 years who are desirous of establishing themselves in the Colony, where there is ample scope for a capable man to build up a sound reputation, and full facilities will be granted to attain this end. For further particulars application should be made to the Secretaries, Nakuru War Memorial Hospital, P.O. Box 35, Nakuru, Kenya Colony. (3218)

PROVINCIAL ADMINISTRATION OF THE CAPE OF GOOD HOPE**Hospital Board Service**

Applications are invited from suitably qualified persons for appointment to the post of **SURGICAL AND ORTHOPAEDIC TECHNICIAN (Grade C)**, at the Orthopaedic Workshops, Cape Town, South Africa

Remuneration will be at the rate of £894 per annum in the first instance, rising by annual increments of £42 per annum to a maximum of £1,020 per annum. Over and above these figures a cost-of-living allowance at the rate of £234 per annum is payable to married male officials and employees. The leave and pension privileges attached to the post and other conditions of service are governed by the relevant ordinances and regulations. Candidates must have served an apprenticeship and have an expert knowledge of the making of orthopaedic appliances, artificial limbs and surgical boots. The successful applicant will be required to submit satisfactory birth and health certificates and his appointment will be subject to the following conditions: (i) Appointment will be on contract for five years in the case of a citizen of a Commonwealth country or the Republic of Ireland and six years in the case of a citizen of European countries other than the United Kingdom and the Republic of Ireland. (ii) Transport expenses (third class by rail overseas and second or cabin class steamship fare and first class by rail in the Union) necessarily incurred by the successful applicant from place of residence to the place of assumption of duty in South Africa, will be defrayed by the Administration provided that, if the contract is broken within one year of the date of assumption of duty the person appointed must refund to the Administration the full amount paid in respect of transport expenses and if the contract is broken within five years of the date of assumption of duty in the case of a Commonwealth citizen and six years in the case of a citizen of another European country, the person appointed shall refund to the Administration the pro rata share of the full amount above referred to in respect of the unexpired period. (iii) The person so appointed will be offered permanent appointment during the terms of contract but not earlier than three years from the date of assumption of duty or with effect from the conclusion of the contract, provided he has passed an examination in Afrikaans as second language, which examination shall not be lower than the standard required for the Junior Certificate Examination of the Department of Education of this Province and provided further that his services and conduct during the period of contract are satisfactory and his state of health is such as will enable him to continue to discharge efficiently all the duties of the post in which he will be employed. Application must be made on the prescribed form, Staff 23, which is obtainable from the Staff Clerk, Room 102, South Africa House, Trafalgar Square, London, W.C.2. The completed application forms must be addressed to the Director of Hospital Services, P.O. Box 2060, Cape Town, South Africa, and must reach him not later than December 18, 1954. Candidates must state the earliest date on which they can assume duty. (4045)

ST. ANDREW'S HOSPITAL, NORTHAMPTON
For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

CHEADLE ROYAL, CHEADLE,
CHESHIRE

Registered Mental Hospital

President:

The Right Hon. The Earl of Derby, M.C.

Medical Superintendent:

W. V. Wadsworth, B.Sc., M.B., M.R.C.P., D.P.M.

This hospital receives all types of patients who are suffering from psychological and senile illnesses. It has recently been extensively redecorated and central heating has been installed throughout, making it one of the most luxuriously appointed hospitals in the country. Private rooms, with special nurses, can be provided.

All patients receive very careful and thorough clinical and pathological investigations; the most modern psychiatric treatment is available, including deep insulin therapy. Psychotherapeutic treatment is employed in suitable cases.

OCCUPATIONAL THERAPY is a special feature of the hospital and there are excellent facilities for indoor and outdoor recreation—tennis, cricket, croquet, badminton, billiards, cinema, television, etc.

GERIATRIC UNITS for mild cases of senility are provided where patients can pursue as normal a life as possible.

The hospital is situated in 300 acres of pleasant Cheshire parkland, and yet is only 9 miles from Manchester.

GLAN-Y-DON is the hospital's convalescent home, overlooking the sea at Colwyn Bay. It is extremely comfortable and well appointed, and has its own farm and market garden.

For terms and further particulars, apply to the Medical Superintendent. Telephone: GATLEY 2231.

NORTHUMBERLAND HOUSE
GREEN LANES, FINSBURY PARK, N.4

A PRIVATE HOSPITAL for the treatment of MENTAL AND NERVOUS ILLNESSES. Conveniently situated and easy of access from all parts. Six acres of grounds facing Finsbury Park. Voluntary and Temporary Patients received without certification. E.C.T. group psychotherapy. Trained Resident and Visiting Staff. **INSULIN COMA UNIT.** Fees from 10 guineas. Telephone: Stamford Hill 7866/7 (2 lines). Telegrams: "Subsidiary, London." Medical Superintendent, Robert M. Riggall, Member, British Psycho-Analytical Society.

By its powerful retarding effect on gastric motility, 'Monodral'* brings rest to the injured tissues thus relieving severe ulcer pain and helping to produce favourable conditions for healing. 'Monodral' also reduces acid secretion, is well tolerated and may be successfully combined with antacid therapy. Available in small, easy to take "caplets" containing 5 mg. active principle. Medical literature and a trial supply will gladly be sent on request.
