ZOPLA

MEDICAL AND SURGICAL PLASTERS

Developed in collaboration with some of the leading hospitals, the ZOPLA range of self-adhesive, zinc oxide plasters covers every medical, surgical, and dermatological need.

The range includes:

STRAPPINGS — for surgical use. Powerfully adhesive, on white, flesh, and elastic cloths.

FELTS of selected Merino Wool, for all padding and protective purposes. Only pure wool felt will retain its resilience and will not harden in use.

HELVIA—First Aid Flexible Dressing—elastic adhesive plaster with medicated gauze.

ZOPLA-BANDS—Elastic adhesive bandage of superior quality.

Details of the full ZOPLA range, together with samples, will gladly be sent on request.

antacid

or

antipepsin?

A new approach to the problem of peptic ulcer

It has been suggested by recent laboratory investigation that Bismuth carbonate, in adequate amounts, will inactivate pepsin at pH below 2.0. The inactivation of pepsin is desirable in the treatment of peptic ulcer, as it prevents auto-digestion of the breach in the gastric mucosa.

The so-called true antacids only inactivate pepsin when the pH of the gastric contents rises above 3.3, and whilst pepsin inactivation is always desirable, in some cases a marked antacid effect is not required.

Bismuth carbonate is unique in that it is indicated in all cases of peptic ulcer, either alone or in combination with one or more of the more powerful simple antacids:

WHEN THERE IS MARKED HYPERACIDITY

BISMUTH CARBONATE

WITH SUFFICIENT OF A SIMPLE ANTACID TO RAISE THE pH TO 3.5-4.0, is indicated.

WHEN HYPERACIDITY IS SLIGHT OR ABSENT

BISMUTH CARBONATE

ALONE, is indicated.

When
nourishment
is the main problem...

BRAND'S ESSENCE is a first-class protein of animal origin. Being partly hydrolized, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

The major indications for the administration of Brand's Essence are loss of appetite during fatigue, acute infections, and dysphagia or digestive disturbances due to organic or bacterial lesions of the mouth, oesophagus and alimentary tract, and after surgical procedures.

The addition of Brand's Essence to low residue and weight-reducing diets is especially appreciated by the patient.

Brand's Essence

(BEEF OR CHICKEN)

filmtab *

ERYTHROCIN
REGD.

starts to dissolve almost this quick...

NEW

filmtab . . . for faster drug absorption

Now, there's no delayed action from enteric coating. The new tissue-thin *Filmtab* coating (marketed only by Abbott) starts to disintegrate within 30 seconds after the patient swallows it - makes the antibiotic available for immediate absorption.

NEW

filmtab . . . for earlier blood levels

Because of the swift absorption, the patient gets high blood levels of ERYTHROCIN (Erythromycin Stearate, Abbott) in less than 2 hours - instead of 4-6 hours as before. Peak concentration is reached within 4 hours, with significant concentrations lasting for 8 hours.

NEW

filmtab . . . for your patients

It is easy on the patient for compared with most other widely-used antibiotics. *Filmtab* ERYTHROCIN is less likely to alter normal intestinal flora. Prescribe *Filmtab* ERYTHROCIN for all susceptible coccic infections—even when the organism is resistant to other antibiotics. Available in bottles of 25, 100 (100 and 200 mg.)

* Trade Mark for Abbott's film sealed tablets patent applied for.

a New Experience in
TRANQUILLITY

For anxious, tense, restless patients Seconesin provides a safe relaxant-sedative. It introduces a totally new idea in sedation. Non-narcotic and with a minimum of secobarbital, there is no danger of cumulation or "hangover" because both components are rapidly eliminated. Seconesin acts promptly and its effect lasts for a few hours only. Day-time relaxation with Seconesin is so calming that most patients sleep well at night without further hypnotics or sedatives. Each tablet contains :—Meph-
enesin 400 mg. Secobarbital 30mg.

PEPTIC
ULCER
THERAPY

AN EFFECTIVE METHOD of relieving the symptoms of hyperchlorhydria and peptic ulceration is provided by Collubarb Tablets, containing aluminium hydroxide (Collumina brand) 5 grains (0.32 grm.) phenobarbitone $\frac{1}{4}$ grain (0.016 grm.) and atropine sulphate 1/500 grain (0.13 mg.).

A Three-fold Function

- 1 *The aluminium hydroxide neutralises excess acid without producing an alkaline condition of the stomach.*
- 2 *The phenobarbitone helps to relieve the anxiety tension so often associated with hyperchlorhydria and peptic ulceration.*
- 3 *The small dose of atropine sulphate moderates excessive motor activity of the gastro-intestinal tract with diminution of secretion of gastric juice.*

Elastoplast Porous Adhesive Bandages now in full supply

Heavy demands for Elastoplast Porous Adhesive Bandages have hitherto made it necessary for hospitals to be given priority when allocating supplies. By means of new manufacturing facilities, Elastoplast Porous Adhesive Bandages are now being produced in sufficient quantities

to meet the full demand of the Medical Profession, and all E.C.10 prescriptions can now be promptly met.

The Elastoplast Bandage with the porous adhesive permits free evaporation of sweat from the skin. This minimizes the main cause of plaster reaction.

When prescribing Elastoplast add "Porous Adhesive" to your script.

Elastoplast

TRADE MARK
POROUS ADHESIVE BANDAGES B.P.C.

Full details from: Smith & Nephew Ltd., Welwyn Garden City, Herts. The marketing organisation of T. J. Smith & Nephew Ltd, Hull.

Elastoplast Bandaging Technique

In the treatment of gravitational ulcers . . . careful bandaging is essential in order to achieve the best results.

Seepage of discharge beneath a bandage may be prevented by cutting small holes in the bandage as illustrated.

Cotton wool, held in place over holes by a further strip of Elastoplast, absorbs discharge. See illustration opposite.

Elastoplast

TRADE MARK

POROUS ADHESIVE BANDAGES B.P.C.

The Elastoplast Bandage with Porous Adhesive complies with the B.P.C. It provides firm adhesion, compression and support while permitting free evaporation of skin exudates. Full details from Smith & Nephew Ltd., Welwyn Garden City, Herts., the marketing organisation of T. J. Smith & Nephew Ltd., Hull.

Outside the British Commonwealth, Elastoplast and Elastocrepe are known as Tensoplast and Tensocrepe respectively.

for the rapid relief of pain

The distress caused by the piercing, stabbing pains of neuralgia is quickly relieved by the rapid, smooth, analgesic action of HYPON TABLETS, enabling the practitioner to prescribe a safe means of meeting the patient's need. Menstrual pain is also effectively alleviated. Where the cause of distress is of a more chronic nature, as in rheumatism and sciatica, the adverse

effects of prolonged medication with codeine and salicylic therapy are eliminated by the inclusion in the formula of caffeine and phenolphthalein. HYPON TABLETS are already widely prescribed by members of the profession for their speedy and safe action with the almost complete elimination of gastric upset. Parallel with the relief from pain, febrile states are effectively reduced in conditions such as influenza, coryza and tonsillitis.

MILK-ALKALI DRIP THERAPY WITHOUT DISCOMFORT

GASTRIC ACIDITY can now be controlled effectively, and without the inconvenience of intragastric milk-alkali drip therapy. This is made possible with the help of NULACIN.

Before NULACIN was evolved, a continuous antacid effect could only be achieved under hospital conditions, and with discomfort to the patient.

INDICATIONS

NULACIN tablets are indicated whenever neutralization of the gastric contents is required: in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Beginning half-an-hour after food, a NULACIN tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. May be prescribed on E.C.10. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to pharmacists is 2/-.) Also available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrins and maltose, and incorporate Magnesium Trisilicate 3.5 grs.; Magnesium Oxide 2.0 grs.; Calcium Carbonate 2.0 grs.; Magnesium Carbonate 0.5 grs.; Ol. Ment. Pip. q.s.

Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.

Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

Transvasin

brings the esters of NICOTINIC ACID
SALICYLIC ACID
p-AMINO BENZOIC ACID
to the focal point of
soft-tissue rheumatism

The esters in Transvasin, a new preparation developed by Hamol S.A., our Swiss associates, readily pass the skin barrier in therapeutic quantities and enable an effective concentration of the drugs to be built up where they are needed. Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant, and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Salicylic acid tetrahydrofurfuryl-ester	14%
Nicotinic acid ethyl-ester	2%
Nicotinic acid n-hexyl-ester	2%
p-Aminobenzoic acid ethyl-ester	2%
Water-miscible cream base ad	100%

Transvasin is available in 1 oz. tubes, basic price 2/6 plus 7½d P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

NEW GLAXO SOLUBLE PENICILLIN LIQUID

CRYSTAPEN LIQUID

offers the decisive
advantages of
soluble penicillin
in a

**STABLE
PALATABLE
LIQUID**

- *attacks with higher, faster blood levels and follows through with sustained activity in the tissues*

This new oral penicillin is different in a very important respect. It presents *soluble* potassium penicillin—most effective form for oral therapy—in a stable, palatable liquid.

To secure the most rapid and decisive results by mouth, penicillin must be speedily absorbed to give a high initial destructive level (by far the most conclusive attack), followed by a sustained inhibitory level at the infected focus. This is undoubtedly best achieved with soluble potassium penicillin, which is absorbed from the alimentary tract with the greatest efficiency.

It is this form of penicillin that is presented in

Crystapen Liquid. Each fluid drachm (teaspoonful) contains 200,000 units of potassium penicillin in a discreetly flavoured fluid vehicle.

The true merit of this preparation is revealed by the fact that the initial peak level is secured in *addition* to the prolonged level, *not at the expense of it*. Indeed, Crystapen Liquid exerts a sustained therapeutic effect lasting up to six hours—as long as that of any other form of oral penicillin. In short, this preparation not only delivers a swift lethal attack on susceptible organisms, but also *follows through* with sustained activity in the tissues.

CRYSTAPEN LIQUID

TRADE MARK

200,000 units potassium penicillin per fluid drachm (one teaspoonful). Bottles of 2 fl. oz.

The general indications for Veganin are summarized in the triad PAIN — PYREXIA — EXCITEMENT. Corresponding to these are the three constituents of Veganin — acetylsalicylic acid, phenacetin and codeine; and the three main effects that they produce — analgesia, antipyresis and sedation. In practice, it is as hard to separate one indication from another as it is to consider the action of each constituent individually. They act synergistically on a myriad of symptoms.

PACKING:
Supplied in tubes of 10 and 20 tablets. Also available in bulk packages of 100 at 6/3 and 500 at 27/1 for dispensing only; not subject to P.T. on prescription. Each tablet of 10.4 gr. contains acid acetylsalicyl. 250 mg., phenacetin 250 mg., codein phos. 10 mg.

Let Sanatogen help you in treatment of Psychosomatic Disorders

Hippocrates, in the fifth century B.C., taught that deductions are to be made only from observed facts. Though this basic principle was neglected for more than two thousand years, in the last hundred years it has borne fruit, and the harvest increases year by year. Today the general practitioner treats many diseases with confidence and exact knowledge. But what of psychosomatic disorders?

EVIDENCE FOR SANATOGEN

Sanatogen (a casein-glycerophosphate complex) has been successfully used as a nerve tonic for more than fifty years. In this period there must have been hundreds of proprietary tonics, now forgotten. Yet the demand for Sanatogen has continued to increase each year. Now that is a statement of observed fact which deserves consideration. Of course, we do not suggest that Sanatogen is the complete answer to psychosomatic disorders. Nevertheless, all the clinical evidence shows that the chemical combination contained in Sanatogen does produce remarkable results.

THE ROLE OF SANATOGEN

Sanatogen is 95% casein chemically combined with 5% sodium glycerophosphates. Three teaspoonfuls of Sanatogen t.d.s. (the normal dosage) provide the patient with 24 grams of protein daily, free from fat and cholesterol, at a cost of less than a shilling a day; whilst by reason of its glycerophosphate content it has a specific tonic effect on body and nerve tissue. Although Sanatogen is not prescribable owing to its high food value, it is being increasingly recommended by practitioners today because of the excellent results obtainable with this tonic. On the evidence, it is a fair deduction to say that Sanatogen is by far the best tonic available today for treatment of stress and strain. You can with confidence say to your patient: "A course of Sanatogen will do you good."

Sanatogen

THE HIGH PROTEIN TONIC

The word 'Sanatogen' is a registered trade mark of Genatosan Ltd., Loughborough, Leics.

The paroxysmal abdominal pain of infantile colic is a result of smooth muscle spasm of the gastro-intestinal tract. It is therefore most effectively relieved by the administration of 'Merbentyl' Syrup, the new form of the antispasmodic 'Merbentyl'. Strikingly free from the side effects usually associated with antispasmodic therapy, 'Merbentyl' Syrup is particularly suitable for administration to infants and children; especially as they enjoy its clean, clear taste.

'Merbentyl' Syrup is available in bottles of 4 and 20 Fl. oz.

*... I watched the wound heal through
a Dalmas Transparent Dressing*

DALMAS TRANSPARENT WOUND DRESSING

The Dalmas Transparent Wound Dressing consists of a clear, transparent observation panel spread with adhesive along the edges and incorporating two strips of antiseptic dressing.

Reports have been received on the use of DALMAS transparent wound dressings on over 300 major operation cases, during a period of 6 months. Not a single case of sepsis occurred.

The dressing enables the wound to be seen in all stages of repair. It has high degree of pliability, thus allowing it to mould to the body contours during post-operative movements; it need not be changed until the stitches or clips are removed.

The dressing is waterproof and strong and protects stitches and clips from being dragged on by loose dressings. The ends are sealed with Dalmaplast waterproof strapping.

The use of Dalmas transparent wound dressings saves time. They are cheaper than the usual gauze, wool, strapping and bandages. The protective gauze covering is specially treated to remain sterile over several weeks, so that it constitutes a reliable surgical dressing. Two widths 3" & 4½"; three lengths 8", 12" and 36"

"I spent a most interesting day yesterday, Sister !"

"I saw 'PYREX' Precision Bore tubing being re-drawn in the 'PYREX' works."

"The ordinary tubing is carried over a steel mould (a mandril they call it) and is re-heated in the process. It comes out the other side dead accurate to size and shape. And that's the tubing they use for these hypodermic syringes. I'm told it is accurate to four points of decimals."

"Yes, doctor, accuracy is certainly important, but what I find most remarkable is that these 'PYREX' syringes never crack or break even in the hottest water."

● **PYREX Precision Bore Glass Tubing gives exceptional resistance to thermal shock. Normally supplied with a bore tolerance of ± 0.05 mm (± 0.002 in.), or for special requirements to bore tolerance of ± 0.02 mm (± 0.0008 in.).**

● Special leaflet giving details of lengths and bore sizes gladly sent on application.

Striking a new note in ORAL CHLORAMPHENICOL therapy

Chloramphenicol cinnamate, a new tasteless derivative of chloramphenicol which leaves no residual bitterness on the tongue after oral administration, has been combined with atropine to form Alficetyn Suspension, a palatable preparation which has a wide range of therapeutic activity when given by mouth.

Alficetyn Suspension contains in each teaspoonful (4 c.c.), chloramphenicol cinnamate equivalent to 125 mg. chloramphenicol B.P., and atropine sulphate 0.032 mg.

AMPHETONE

REGISTERED

A GENERAL STIMULANT FOR THE CENTRAL NERVOUS SYSTEM

For cases requiring a quick-acting general stimulant without increasing the patient's appetite, we consider Amphetone unique. It combines for the first time Dexamphetamine Sulphate and Strychnine with Glycerophosphates and members of the Vitamin B Group. The Dexamphetamine provides the convalescent with an immediate feeling of well-being, this being followed by the well-known tonic effects of the other medicaments. Clinical reports have been excellent.

FORMULA

Dexamphetamine Sulphate B.P.C., 1/12 grain; Strychnine Hydrochloride B.P., 1/60 grain; Calcium Glycerophosphate B.P.C., 2 grains; Sodium Glycerophosphate B.P.C., 2 grains; Aneurine Hydrochloride B.P., 1/30 grain; Nicotinamide B.P., 1/4 grain; Riboflavin B.P., 1/60 grain; Syrup of Blackcurrant B.P.C., 2 fluid drms.; Water, to 1/2 fluid ounce.

POISON

SI

Available in bottles containing 10, 20 and 80 fluid ounces. Professional prices 4/6, 9/3 and 26/6 each. Samples available on request.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR:** Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners:** £425 per annum for the first post held; £475 per annum for the second and any subsequent post held.

(ii) **Fully registered practitioners:** £425 per annum for the first post held; £475 per annum for the second post held; £525 per annum for the third and any subsequent post held.

provided that a medical practitioner who has held house posts under (i) above whilst provisionally registered shall be remunerated at the rate of £525 per annum for each post held after obtaining full registration; and provided that in exceptional circumstances, subject to the consent of the Minister (in Scotland of the Secretary of State), the rates under (ii) may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

A deduction at the rate of £125 per annum shall be made from the remuneration of House Officers in respect of board and lodging and other services provided. Each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER:** Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

Possession of D.P.M. desirable. Experience in psychiatry essential. House available on hospital estate for which a charge would be made. Candidates may visit the hospital by direct appointment. Application forms obtainable from, and returnable to, Secretary, Napsbury Hospital Management Committee, Napsbury Hospital, near St. Albans, Herts, by December 21, 1954. (5288)

SOUTH-EAST METROPOLITAN REGIONAL HOSPITAL BOARD

Applications are invited for two appointments as

Whole-time REGISTRAR in Psychiatry

to fill vacancies in the approved trainee establishment at Oakwood Hospital, Maidstone, Kent. Previous experience in general medicine is desirable. The appointment will be in accordance with the terms and conditions of service of hospital medical and dental staff (England and Wales), and will be for one year in the first instance. Applications, giving particulars of age, qualifications, and experience, with relevant dates, together with the names and addresses of two referees, to be sent to the Secretary, Registrars Committee, South-East Metropolitan Regional Hospital Board, 11, Portland Place, W.1, not later than December 28. (5070)

SHENLEY HOSPITAL**PSYCHIATRIC REGISTRAR**

Applications are invited for the above named post, resident or non-resident, for one year in the first instance, at Shenley Hospital, 2,284 beds (16 miles from London). Opportunity for work with neurotic and psychotic patients. Full facilities for training. The hospital may be visited by appointment. Application forms obtainable from, and returnable to, Secretary, Shenley Hospital, near St. Albans, Herts, by December 23, 1954. (5287)

SHEFFIELD NO. 2 HOSPITAL MANAGEMENT COMMITTEE**Middlewood Hospital, Sheffield, 6 (2,000 beds)**

Applications are invited from male or female officers for the appointment of

JUNIOR HOSPITAL MEDICAL OFFICER or SENIOR HOUSE OFFICER at Middlewood Mental Hospital

Living quarters and residential services are available for single officers and a small furnished flatlet for a married couple with no children. There are good facilities for postgraduate study for the D.P.M. and there is full collaboration with the general hospital situated in the same grounds. Excellent laboratory and other special departments. Extensive psychiatric out-patient service. Applications, stating age, qualifications and experience, together with names and addresses of two referees, should be forwarded immediately to the Medical Superintendent. (5166)

WORCESTER (near), POWICK HOSPITAL

Applications are invited for the post of

JUNIOR HOSPITAL MEDICAL OFFICER (Resident or non-resident)

The post offers experience in all branches of psychiatry, including all forms of modern treatment and out-patient clinics. The hospital has a high admission rate, is recognized for the D.P.M., and has associated Child Guidance Clinics and a Mental Deficiency Institute similarly recognized. Arrangements are made for medical officers to attend at the Birmingham Medical School for instruction in neurology. Applications, with full details and the names of two referees, to be forwarded to the Medical Superintendent. (4555)

MANCHESTER, 8, SPRINGFIELD HOSPITAL

Applications are invited for the post of

SENIOR HOUSE OFFICER

at this mental hospital of over 750 beds. The hospital is closely associated with the Department of Psychiatry of the University of Manchester and is approved for the D.P.M. England and R.M.P.A. The admission rate is substantial and a wide range of clinical material is available. Most forms of modern treatment are used. There are associated out-patient clinics. Accommodation is available for a single person, for which the appropriate deduction will be made. Permission to live out may be granted in certain circumstances. Applications, giving the names of two referees, to be sent to the Medical Supt. as soon as possible. (5231)

CHIEF RESIDENT

\$150 a month and room and board, or \$40 living-out allowance.

ASSISTANT RESIDENTS
In Paediatrics and Surgery

\$100 a month and room and board or \$40 living out allowance.

SENIOR INTERNSHIPS

\$70 a month and room and board. These appointments will be made by the end of December. Further information and application forms may be obtained from the undersigned. The hospital is prepared to pay half the cost of the successful applicant's transportation to Winnipeg.—Wallace Grant, M.D., Chairman, Intern Committee. (5303)

SARNIA GENERAL HOSPITAL
Sarnia, Ontario, Canada**MALE INTERN**

Wanted for rotation in new modern 265-bed hospital. Position vacant. Preferably 25 to 40 years of age. Should be a graduate of an approved medical school. Must be conversant with English language. \$230 per month gross. Address applications to Administrator. (3971)

UNIVERSITY OF ADELAIDE
Faculty of Medicine

Applications are invited for the appointment as
ASSISTANT TO THE DIRECTOR OF OBSTETRICS

Terms: The appointment, which will become effective on January 1, 1955, or as soon after that date as possible, carries with it the status and salary of a Senior Lecturer in the University. Salary scale £A.1,360 by £A.60 to £A.1,600. See also general conditions of appointment of Senior Lecturers in the University, which may be obtained from the undersigned or from the Secretary, Association of Universities of the British Commonwealth, 5, Gordon Square, London, W.C.1. Qualifications: A candidate must be a member of the Royal College of Obstetricians and Gynaecologists. Duties: The Assistant will be required to take part in the teaching of obstetrics to medical students—mainly clinical teaching, but with some participation in systematic lectures—and to deputise for the Director of Obstetrics in his absence. There will be some opportunity for post-graduate teaching; and the Assistant will be expected to engage in research. General: In 1955 there will be two teaching hospitals undertaking residential training in obstetrics. It is expected that the Assistant will be given an honorary appointment in obstetrics at one or both of the hospitals. It is hoped that gynaecological facilities will become available in the future development of the department. Applications (in duplicate), giving particulars of age, nationality, academic record, teaching qualifications, war service (if any), and present and past appointments, and accompanied by a list of publications (if any), copies of testimonials, the names and addresses of two referees, of whom confidential enquiries may be made, a recent photograph, and a certificate of health, should reach the undersigned not later than December 31, 1954.—A. W. Bampton, Registrar, University of Adelaide, Adelaide, South Australia. (5306)

UNIVERSITY COLLEGE HOSPITAL OF THE WEST INDIES

Applications are invited for the post of
REGISTRAR or SENIOR REGISTRAR in the Department of Surgery at the above-named teaching hospital, which is in special relationship with the University of London. Applicants should possess a higher qualification in surgery. The successful candidate will be required to assume duties as soon as possible after March 1, 1955. The appointment will be for one year in the first instance, subject to renewal. Salary is payable within the scale £800 by £100 to £1,000 to £1,100 by £100 to £1,400 per annum, depending on experience and qualifications. Single accommodation and board or a limited number of unfurnished flats for unmarried or married officers are provided at a deduction of £125 per annum or five per cent of salary, respectively. Return first-class passage by sea will be paid for one person only. Further information may be obtained from the Hospital Manager and Secretary, University College Hospital, Mona P.O., Jamaica, B.W.I., to whom applications, stating age, nationality and details of qualifications and experience, together with three recent testimonials or the names and addresses of three referees, should be sent by January 1, 1955. (5171)

UNIVERSITY OF OTAGO, Dunedin
OTAGO HOSPITAL BOARD, Dunedin**FULL-TIME ASSISTANT AND LECTURER**
(Junior Specialist grade)

Department of Obstetrics and Gynaecology. Applications are invited for the above position from those who hold a degree in medicine of an approved University, and who hold in addition the M.R.C.O.G. The position is designated as that of a Junior Specialist under the Hospital Employment (Medical Officers) Regulations, 1952, Amendment No. 1. Salary scale £1,290 to £1,590 per annum (plus cost-of-living bonus of £62 12s. per annum) by annual increments of £50. Commencing rate of salary within the scale according to qualifications and experience, as determined by the Medical Officers' Salaries Grading Committee of the Department of Health. Duties will include teaching of obstetrics and gynaecology to medical undergraduates, research, and clinical work in the Dunedin Hospital. The position is a non-resident one. Applications for this position, made on the prescribed form, stating age, qualifications and experience, together with testimonials, references, health and radiological certificates, will be received by the undersigned up to 10 o'clock a.m. on Thursday, January 20, 1955. Forms of application and conditions of appointment may be obtained from the undersigned, or from the Office of the High Commissioner for New Zealand, 415, The Strand, London.—W. A. Williamson, Secretary, Otago Hospital Board, P.O. Box 946, Dunedin, New Zealand. (4818)

Overseas (Vacant)—contd.**WATTS HOSPITAL**
Durham, North Carolina, U.S.A.

ROTATING AND STRAIGHT INTERNSHIPS
Available in this 250-bed 56-basinet general hospital, fully approved by American Medical Association for internships and residencies. One- or two-year appointments available.

RESIDENCIES

also offered in internal medicine, general surgery, and obstetrics. Residency programmes fully accredited, and are accepted in fulfilling requirements for certification by specialty boards.

Applicants must be graduates of universities on A.M.A. approved list. Hospital participates in Exchange-Visitor Programme. Located in medical centre, with Duke University Medical School in Durham and Medical School of the University of North Carolina 10 miles distant. Monthly stipend: Internships, \$100; Assistant Residencies, \$150; Residencies, \$175. Full maintenance also provided, comprising lodging, meals, uniforms, and laundry. Pleasant surroundings, stimulating, sunny climate. Please direct inquiries to: Sample B. Forbus, Director (4840)

UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.****GUY'S HOSPITAL MEDICAL SCHOOL**
London Bridge, S.E.1

Applications are invited for a post of **RESEARCH FELLOW** in the Ear, Nose and Throat Department. The candidate will be required to conduct clinical research into problems connected with hearing, under the direction of the Surgeons of the department. A higher qualification is desirable but not essential. Salary £850 per annum. Applications, with the names of three referees, should be sent to the Dean not later than December 31. (5134)

OXFORD UNIVERSITY**Applications are invited for the post of**
FULL-TIME CLINICAL TUTOR
in Ophthalmology

The appointment is for two years in the first instance, and is renewable. The salary will be £1,400 per annum plus F.S.S.U. and children's allowances. The salary will be increased in any general revision of university salaries. The successful candidate will be responsible for teaching ophthalmology in the University Medical School and a considerable part of his time will be free for research. The candidate may hold the honorary post of First Assistant in the Oxford Eye Hospital. He will be required to take up office on March 1, 1955, or as soon as possible thereafter. Applications, together with the names of two referees, should be sent by December 31, 1954, to the Secretary, Nuffield Laboratory of Ophthalmology, Walton Street, Oxford. (5304)

ST. MARY'S HOSPITAL MEDICAL SCHOOL
(University of London), Paddington, W.2
Paediatric Unit

Applications are invited for the appointment of **JUNIOR LECTURER** for a period of three years. The duties will be primarily research with some teaching and clinical work. Opportunities for training in metabolic studies and micro-chemical methods will be available in the Paediatric Unit Laboratory and in the Department of Chemical Pathology. Salary within the range £900 to £1,100, together with superannuation under the F.S.S.U. and children's allowance. Applications (two copies), together with the names of three referees, should be sent before December 31 to the Secretary, from whom further particulars may be obtained. (4876)

UNIVERSITY OF EDINBURGH

Applications are invited for **I.C.I. RESEARCH FELLOWSHIPS** in Biochemistry, Chemistry, Engineering, Pharmacology or Physics, to which some appointments will date from October 1, 1955 (or earlier in the case of selected candidates who may be available before that date). The salary will depend upon qualifications and experience, but will be within the range £600 to £900 per annum, together with F.S.S.U. benefits and family allowances. Forms of application and further particulars may be obtained from the undersigned. Applications (two copies) should be submitted not later than February 14, 1955.—Charles H. Stewart, Sec. to the University. (5130)

UNIVERSITY OF GLASGOW

Applications are invited for a **LECTURESHIP IN MIDWIFERY** with clinical attachments at the Glasgow Royal Maternity and Women's Hospitals and the Western Infirmary. Salary according to placement on university scale for clinical teachers. The final maximum on this scale is £1,500 per annum. F.S.S.U. and family allowance benefits. Applications (two copies) should be lodged, not later than December 31, 1954, with the undersigned, from whom further particulars may be obtained.—Rbt. T. Hutchison, Secretary of University Court. (4836)

UNIVERSITY OF LEEDS

Applications are invited for appointment as **TEMPORARY LECTURER** in the Department of Obstetrics and Gynaecology for a period of two months from a date in the first half of January, at a salary at the rate of £1,000 to £1,500 a year, according to qualifications and experience. The appointment offers ample clinical as well as teaching experience. Applications (three copies), stating date of birth, qualifications and experience, together with the names of three referees, should reach the Registrar, The University, Leeds, 2, not later than Dec. 20. (5152)

ST. ANDREW'S HOSPITAL, NORTHAMPTON
For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

CHEADLE ROYAL, CHEADLE,
CHESHIRE

Registered Mental Hospital

President:

The Right Hon. The Earl of Derby, M.C.

Medical Superintendent:

W. V. Wadsworth, B.Sc., M.B., M.R.C.P., D.P.M.

This hospital receives all types of patients who are suffering from psychological and senile illnesses. It has recently been extensively redecorated and central heating has been installed throughout, making it one of the most luxuriously appointed hospitals in the country. Private rooms, with special nurses, can be provided.

All patients receive very careful and thorough clinical and pathological investigation; the most modern psychiatric treatment is available, including deep insulin therapy. Psychotherapeutic treatment is employed in suitable cases.

OCCUPATIONAL THERAPY is a special feature of the hospital, and there are excellent facilities for indoor and outdoor recreation—tennis, cricket, croquet, badminton, billiards, cinema, television, etc.

GERIATRIC UNITS for mild cases of senility are provided where patients can pursue as normal a life as possible.

The hospital is situated in 300 acres of pleasant Cheshire parkland, and yet is only 9 miles from Manchester.

GLAN-Y-DON is the hospital's convalescent home, overlooking the sea at Colwyn Bay. It is extremely comfortable and well appointed, and has its own farm and market garden.

For terms and further particulars, apply to the Medical Superintendent. Telephone: GATLEY 2231.

Protective Foods in Winter

During the winter months it is specially important that a well-balanced diet containing a good supply of vitamins should be provided to give added protection against infection.

Marmite is a useful protective food, which provides essential vitamins of the B complex. It is a popular culinary adjunct, which can be served in many different ways. An appetising hot drink can be made by stirring a teaspoonful of Marmite into a cupful of boiling water or hot milk.

MARMITE yeast extract

contains
Riboflavin (vitamin B₂) 1.5 mg. per oz.
