# MEAT AND FISH PROTEIN FOODS FOR BABIES

The makers of Brand's Essence are pleased to introduce Brand's Strained Protein Foods (Meat and Fish) for Babies.

Brand's Strained Beef and Brand's Strained Veal are all fine table-quality meat, ground to a smooth meat purée and moistened with meat broth. A little salt is added for flavouring.

Brand's Strained Fish is all selected white fish, prepared in puree form similar to the strained meats.

Clinically tested, Brand's Strained Protein Foods were very well received and very well tolerated. They are recommended as an addition to normal infant diet, and are especially helpful during weaning. They can be given from the age of  $3\frac{1}{2}$  to 4 months onwards.

BRAND'S STRAINED BEEF BRAND'S STRAINED VEAL BRAND'S STRAINED FISH

Brand's Strained Protein Foods are free from preservatives; heat-sealed and sterilized, in 134 oz. glass jars.

Professional samples and literature on request.

SIMPLICITY... For the successful control of mild dandruff 'Pragmatar' demands of the patient no more than a little extra trouble when he washes his hair. After one application of any good bland shampoo and a thorough rinsing, 'Pragmatar' is lathered into the hair and allowed to remain in place for ten minutes. The lather is then rinsed out and the treatment is complete. 'Pragmatar' leaves no 'after-oiliness' and does not stain the hair.

More and more, practitioners and specialists are turning to ACHROMYCIN tetracycline—now recognised as a master stroke in the advancement of antibiotic therapy. In every sense, this newest Lederle antibiotic measures up to present-day requirements. In its antibacterial range, it is unsurpassed by any other broad-spectrum antibiotic. It is stable and readily soluble—quickly producing effective blood levels and diffusing rapidly into the body tissues. It is highly successful when taken by mouth, yet can be given safely by the intramuscular or intravenous routes when there is need for urgent control of infection. And to these merits can be added its relatively low frequency and mild degree of side effects.

'POLYFAX' combines 'Aerosporin' brand Polymyxin B Sulphate with Bacitracin in a new antibiotic ointment of very wide antibacterial range. 'Polyfax' has a prominent place in clinical practice because

- Polymyxin is lethal to many gram-negative organisms, particularly Ps. pyocyanea.
- Bacitracin is effective against gram-positive organisms.
- Drug resistance to polymyxin is unknown, to bacitracin very rare.
- Penicillin-resistant strains often succumb to bacitracin.
- Risk of skin sensitisation is minimal.
- Local absorption is insignificant.
- Subsequent systemic use of antibiotics is not prejudiced.
- 'Polyfax' is so formulated that its antibiotic components are stable and readily diffusible.

'POLYFAX' is non-irritating and may be applied for long periods if necessary. It is available in tubes of 20 gm. for topical application and as 'Polyfax' brand Ophthalmic Ointment in tubes of 4 gm. with special nozzle.

# Codis contains soluble aspirin

#### COMBINED WITH CODEINE PHOSPHATE AND PHENACETIN

SOLUBLE ASPIRIN is now widely preferred to ordinary aspirin for general prescription.

"Codis" is a codeine compound tablet of high quality that takes this important development into account.

The aspirin in Codis provides soluble calcium aspirin, which is formed immediately the tablet is dissolved in water. This

calcium aspirin will be more rapidly absorbed by the patient and is far less likely to cause gastric irritation.

Because of the ready dissolution and dispersion of the tablets, Codis will be found considerably easier to administer. Codis is suitable for prescription in all those cases which call for a codeine compound tablet.

# When you are asked about SKIN HEALTH

It is often very helpful to recommend Cidal soap. For Cidal contains an unusually efficient germicide

Hexachlorophene (2,2'-dihydroxy-3,5,6,3',5',6'-hexachlorodiphenylmethane) which has been found to play a useful part in the alleviation of acne, seborrhœa, impetigo and many other minor ailments involving the skin, including prickly heat. Cidal also reduces the risk of infection through minor cuts and grazes.

Many people have been happy to find that Cidal helps to minimize unpleasant body odours at source by attacking the bacteria that ferment perspiration.

Cidal Cream Shampoo also contains Hexachlorophene and helps to keep the scalp healthy and free from dandruff. (1/3d. and 3/9d.)

It is true that no other cheese is like St. Ivel, not only is this because no other cheese has the delicious Cheddar flavour and creamy texture, but also because it is the only cheese containing Lactobacilli in active form.

The reason for this is that instead of using an ordinary cheese starter of lactic streptococci, a culture of specially selected strains of Lactobacilli is used. The cultures are maintained by professional bacteriologists with specialized knowledge of bacterial selection and genetics.

Great importance is attached to this aspect and to the nutritional requirements of the Lactobacilli so as to maintain the activity of the culture in the cheese after manufacture, and to ensure maximum therapeutic value.

#### INDICATIONS

NULACIN tablets are indicated whenever neutralization of the gastric contents is required: in active and quiescent

peptic ulcer, gastritis, gastric hyperacidity.

Beginning half-an-hour after food, a NULACIN tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

NULACIN tablets are not advertised to the public, have no B.P. equivalent and may be prescribed on E.C.10. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to pharmacists is 2/-.) Also available in tubes of 12. NULACIN tablets are prepared from whole milk com-

bined with dextrins and maltose, and incorporate Magnesium Trisilicate 3.5 grs.; Magnesium Oxide 2.0 grs.; Calcium Carbonate 2.0 grs.; Magnesium Carbonate 0.5 grs.; Ol. Menth. Pip. q.s.

The therapeutic value of any preparation is in direct ratio to the amount absorbed and utilised. That FERROMYN is an improved form of iron medication is confirmed by achieving a utilisation factor of 40 per cent ± 5. This figure is considerably higher than any obtained from contemporary oral iron preparations. The clinical response is in keeping with the above factor, realising a mean daily Hb. response of 1.2 per cent in 150 cases reviewed during a recent clinical trial.

# The value of Wall's Ice Cream in invalid dietary

A LARGE NUMBER OF HOSPITALS in this country include ice cream in their invalid dietaries. Its palatability is a strong recommendation. The very nature of good ice cream, combining as it does the qualities of a food with the appeal of a treat, makes it acceptable to patients, even where there is little or no appetite for other types of food.

Good ice cream has a high fat and carbo-hydrate content. Its calorific value also is high, and it is assimilated easily and rapidly.

(Founded in memory of the late Sir G. H. A. Comyns Berkeley and his wife, Ethel Rose Berkeley
The Berkeley Fellowship was founded under the Will of the late Sir G. H. A. Comyns Berkeley
to provide research and travel facilities to a person elected jointly by the Master and Fellows of Gonville and Caius College, Cambridge, and the Council of The Middlesex Hospital Medical School
Under the terms of the bequest, medical centres in any part of the world may be visited, with the exception of Oxford or Cambridge. Applications from graduates in medicine of The Middlesex Hospital Medical School are invited for The Fellowship. The period of tenure of the Fellowship and the emoluments will depend upon the circumstances of each case. A Fellowship will not normally be awarded for a period shorter than three months or longer than one year, but applications for renewal will be considered. The emolument may be paid as stipend or as grant to cover travel and other expenses necessarily incurred in the prosecution of the research, or partly as stipend and partly as grant. The total emolument allowed will not normally exceed £1,500 during one year's tenure. Applications should reach the Dean of The Middlesex Hospital Medical School by September 1, 1955 and should include the following information:

(a) Name, address and age. (b) Qualifications and experience. (c) Present appointment. (d) Programme of work proposed, with estimate of necessary expenses. (e) Other sources of financial assistance, including any stipend from present appointment, if continued during the tenure of the Fellowship.
