

A distinguished arrival from France —

NORMANDIN COGNAC TRADITION LIQUEUR BRANDY

To everyone who appreciates rare quality, the arrival in this country of TRADITION Liqueur Brandy is important news. So named because it is especially blended by E. Normandin et Cie. to suit the traditional English preference for a pale, dry Cognac, TRADITION owes nothing to artifice. It derives its superb clean flavour wholly and solely from grapes grown at Chateaufort, in the heart of the Cognac region, while its delicate amber colour is its natural inheritance from the oaken casks in which the years have mellowed it. Ask your Wine Merchant to tell you more about TRADITION — to be informed about it is to enjoy it all the more.

TRADITION Cognac Liqueur Brandy
Bottles: 57/6 each
Half-Bottles: 29/3 each

FOR A SPLENDID 3-STAR-LOREL
Although TRADITION is not inexpensive, you can with an easy conscience spend on it what you sensibly save on LOREL — an uncommonly excellent pure French Brandy which costs only 37/6 a bottle. Perfect for Brandy-and-sodas.

CORTISONE

Cortisone and corticotrophin (ACTH), which will shortly be in sufficient supply to enable them to be generally released, are two of the most potent therapeutic weapons now available to clinicians. In this symposium the clinician will find a comprehensive and practical guide to the indications, contraindications and dangers of these two preparations, written by experts who have all had first-hand experience of the use of cortisone and corticotrophin in clinical practice.

At 15 lbs. or thereabouts, when the infant's menu first includes 'solids', Farex provides the sound and gentle transition. The basic ingredients, wheat, oat and maize flours are fortified with iron, phosphorus, calcium and vitamins B₁, B₂ and D. In manufacture the starch particles are broken down into a soft light texture assimilable by the most delicate digestion.

FAREX *carrying on.* The sound start provided by Farex is well consolidated by including it in the diet throughout the formative years. The needs of the invalid, the dyspeptic and the aged are also well served by Farex—supplying protein and carbohydrates in an easily digestible form. And having no marked flavour, Farex blends appetisingly with most sweets or savouries.

INFLUENZA treatment with **Hypon**

when its standing room only . . .

Influenzal states are unwanted companions of winter which persist in greater or lesser degree each season. Recourse to a suitable medicament becomes of paramount importance for the early abatement of symptoms.

The rapid therapeutic effect of Hypon tablets is now accepted, being of extreme value in relieving pain and reducing temperature during influenza epidemics, when time is a factor of importance to both patient and General Practitioner.

HYPON tablets possess a powerful analgesic-antipyretic action.

HYPON tablets contain Caffein to counteract mental and post-influenzal depression.

HYPON tablets also provide sufficient phenolphthalein to maintain normal peristalsis.

Indications: *Influenza, Tonsillitis, Rheumatic conditions, Spastic Dysmenorrhæa, Neuralgia.*

Formula: *Acid Acetylsalicyl. 40.22%. Phenacet. 48.00%. Caffein. 2.00%. Codein. Phosph. 0.99%. Phenolphthal. 1.04%. Excip. 7.75%. Each tablet 8 grains.*

COLLIRON

One of a complete range of **Iron Preparations**

Many oral iron preparations cause gastro-intestinal irritation thereby making it impossible to administer sufficient iron by the oral route to restore the hæmoglobin level to normal. Colloidal ferric hydroxide in the form of COLLIRON overcomes this great disadvantage, as the iron is presented in a non-irritant form and is readily tolerated even in large dosage over a prolonged period.

Presentation

Bottles of 4 fl. oz. and 8 fl. oz.

Dropper bottles of 30 ml.

COLLIRON is also available in capsules

If rapid response to iron therapy is needed

COLLIRON I.V. is unexcelled.

OUTSTANDING ADVANTAGES OF COLLIRON

1. *Pleasant to take*
2. *Well tolerated*
3. *Efficient utilization*
4. *Does not stain the teeth*
5. *Particularly suitable for children to whom it can easily be administered by means of a special dropper bottle.*

ENTER... the season when the doctor's waiting room grows ominously full and such familiar complaints as catarrh and rhinitis provide the dominant theme of his day.

Whenever the need is for decongestion and disinfection of the nasal cavity, there is no more safe or suitable a prescription than ARGOTONE Nasal Drops. The antiseptic action of ARGOTONE derives from its content of silver vitellin—while ephedrine hydrochloride is quick to relieve the congestion. Despite its outstanding efficacy over the years, ARGOTONE has been shown to be innocuous to the cilia and nasal mucosa.

**15 years of clinical opinion
supports the use of vaginal tampons**

**Why
an
applicator?**

The function of the applicator in inserting the tampon at the upper end of the vaginal tract is of the greatest importance. It eliminates any handling of the highly-compressed soft surgical cotton, and ensures comfort and steady absorption. The correct position of the internal tampon avoids contact with both anal and urethral sources of contamination. Tampax tampons are simply and hygienically inserted in correct proximity to the cervix by means of a disposable 'applicator' tube, only $\frac{9}{16}$ " diameter. The applicator is an integral part of tamponage and, therefore, results in a definite improvement in menstrual hygiene.

Chloromycetin* is unique in being readily and effectively absorbed from the gastro-intestinal tract and producing blood-levels which rise proportionally with increase in dosage. This is a great advantage in severe infections where initially, high blood-levels are essential; a rapid response to treatment is a natural corollary. Owing to effective absorption, gastro-intestinal side-effects following the administration of Chloromycetin are reduced to a minimum.

THERE'S MORE TO IT THAN MEETS THE EYE

Who, viewing for the first time and knowing nothing of the wonders of television could possibly envisage the vast background of patient, painstaking scientific research, spreading over many long years, that has brought this modern miracle into being?

Or again, what real indication does the screen give of the tremendous organisation, stagecraft and skill which, by the flick of a switch, brings this magic into your home?

The Cow & Gate tin similarly conveys little of the vast amount of scientific research and painstaking testing always going on behind the scenes, which ensures that its contents are as effective in infant feeding practice as human ingenuity can make them.

COW & GATE MILK FOODS

Of the various measures directed towards ante-natal care, none is more vital than a well-planned dietary supplementation. Such routine however need be no arduous matter to the mother. Prenatal Capsules *Lederle* avoid the need for any further supplements by combining many nutritional factors in a single preparation.

The simple routine of two Prenatal Capsules daily is a wise procedure from the time that pregnancy is confirmed. It can advantageously be continued throughout the period of lactation.

This ensures a balanced intake of vitamins, bone-forming minerals and haematinic factors sufficient to meet the nutritional requirements of both mother and child.

TRUFOOD CEREAL FOOD

A PRE-COOKED CEREAL FOOD ENRICHED WITH MILK PROTEINS

The introduction of solids to baby's diet usually tends to increase the starchy portion of the diet at the expense of valuable milk proteins as well as the calcium and phosphorous salts contained in milk.

To meet this situation the vegetable protein of the oat flour in Trufood Cereal Food has been supplemented by milk proteins and the addition of valuable mineral salts. In this way the total protein has been raised to 6.05 grammes per ounce or 21.4%, and the casein and lactalbumin form a valuable complement to the biological value of the total protein.

RAUWILOID + VERILOID is a striking example of drug complementation. It combines in one tablet 1 mg. of 'Rauwiloid' brand alkaloid hydrochlorides of *Rauwolfia serpentina* and 3 mg. 'Veriloid' brand alkaloids of *Veratrum viride*. 'Rauwiloid', by widening the margin between the effective therapeutic dose of 'Veriloid' and that producing side actions, enables satisfactory hypotensive doses of 'Veriloid' to be given to most patients. The combination is ideal for relieving the symptoms of moderate to severe hypertension. It is effective, safe, produces a minimum of discomfort to the patient and exerts a prolonged antihypertensive action.

"The addition of 'Rauwiloid' makes 'Veriloid' easy to administer, more effective and practically does away with unpleasant side reactions".

Urtication by switching with the common stinging nettle appears to have been an old Roman custom. When Julius Caesar landed, his soldiers had with them nettle seeds which they sowed for their own use as an epidermal stimulant and counter-irritant, to relieve stiffness and rheumatism caused by the already then notorious British climate.

It is true that no other cheese is like St. Ivel, not only is this because no other cheese has the delicious Cheddar flavour and creamy texture, but also because it is the only cheese containing Lactobacilli in active form.

The reason for this is that instead of using an ordinary cheese starter of lactic streptococci, a culture of specially selected strains of Lactobacilli is used. The cultures are maintained by professional bacteriologists with specialized knowledge of bacterial selection and genetics.

Great importance is attached to this aspect and to the nutritional requirements of the Lactobacilli so as to maintain the activity of the culture in the cheese after manufacture, and to ensure maximum therapeutic value.

FRESH UP FROM SOMERSET

A new concentrated glucose drink CITROZE

(TRADE MARK)

made with whole fresh lemons

Citroze is a new highly-concentrated glucose drink which offers all the virtues of pure glucose in a highly palatable form. It is deliciously and wholesomely flavoured with whole fresh lemons and is recommended for use during convalescence, and in cases of low vitality and poor appetite.

Citroze has an exceptionally high glucose content—not less than 10% after dilution. It does not cause flatulence, and can be taken either hot or cold. Citroze is to be diluted with two parts water or soda water. The price is 3/6 for an economical 26-oz bottle, which makes 4 pints of ready-to-drink Citroze, obtainable at all leading chemists.

For
the patient
with angina

Peritrate is a valuable aid in the treatment of angina by virtue of its action as a coronary vasodilator. Each 10 mg. tablet begins to act half-an-hour after ingestion and the action continues 4-5 hours. Peritrate prevents anginal attacks, or reduces their frequency, severity and duration. It diminishes the patient's nitroglycerin requirements, and improves exercise tolerance. Peritrate is non-toxic and causes very few side-effects even on prolonged administration.

PERITRATE WITH PHENOBARBITONE

Peritrate is now available with Phenobarbitone for the Angina Pectoris patient who needs sedation. Each tablet contains 10 mg. Peritrate and 15 mg. Phenobarbitone.

Consulting room ballad

"What do you think of Guinness, Sir?"
The brewer said to me.

"Does it aid the ailing patient?
Does it help the blind to see?
Is it any use as medicine?"
Said my favourite pharmacist,
"Do you think we should include it
In the therapeutic list?"

My well considered answer was,
"There isn't any doubt,
'There's nothing like a Guinness
To make one's heart feel stout.
It won't restore the dead to life,
Or mend a broken arm,
But it titillates the appetite
And never does you harm.

"It sets the patient on his feet,
Restores his muscle tone,
Inflates the rabbit's ego,
Increases blood and bone,
Alleviates depression
Insomnia melts away,
It's kindest to one's ulcer
If taken once a day."

THE NEW ROVER PROGRAMME

New high performance specification and new power-braking for the 90. Greater comfort in all three models:—the 60, 75 and 90.

THE NINETY

HIGH PERFORMANCE By increasing the compression ratio, the acceleration has become still more vivid. An optional overdrive ensures a higher maximum speed, exceptionally fast and silent cruising at low engine speeds and a useful saving in petrol consumption. Top gear flexibility, so valuable when driving in traffic, is unaffected.

EXTRA SAFETY To match this livelier performance, a new Servo-assisted braking system is introduced. This ensures impressive light-pressure stopping from high speeds and maximum safety under modern road conditions.

THE SIXTY, SEVENTY-FIVE AND NINETY

EXTRA COMFORT Rover cars have a fine reputation for driver and passenger comfort. There is now a choice of two styles in the front seating—a bench type seat or, as an optional extra, two individual seats independently adjustable. The deep hide upholstery is pleated to retain its shape and the rear arm rests have been redesigned for greater comfort.

Prices including purchase tax, '60': £1191.2.6; '75': £1297.7.6; '90': £1339.17.6 (overdrive, optional extra)

A new capillary haemostatic

ADRENOXYL

(Adrenochromemonosemicarbazone)

for medical and surgical conditions

*Clinically proven to reduce bleeding-time without effect
on coagulation or blood pressure, and to have no undesirable side effects*

ADRENOXYL, a product of original research, reduces the mean bleeding-time by decreasing the permeability and increasing the contractility and resistance of the capillaries. Its effectiveness in diminishing blood loss has been demonstrated by clinical studies.

ADRENOXYL has no effect on coagulation. It neither increases nor decreases blood pressure.

ADRENOXYL is non-toxic, and there are no contra-indications to its use.

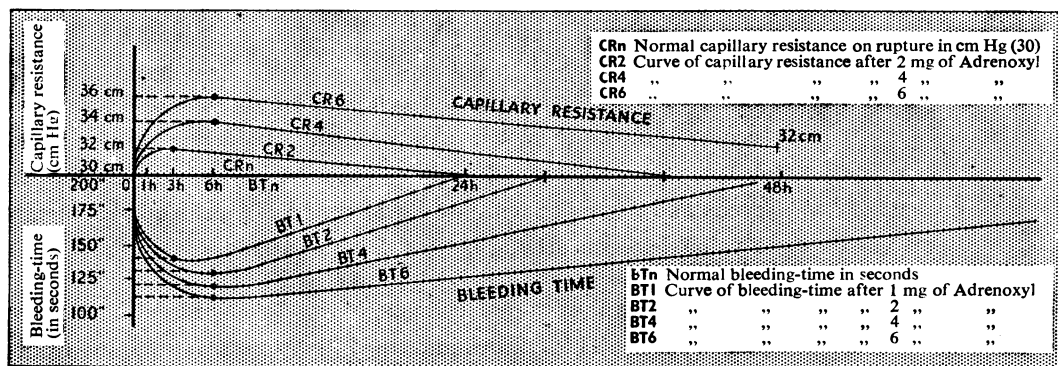

ADRENOXYL is indicated in the preventive and curative treatment of all types of capillary bleeding.

ADRENOXYL has been successfully used to diminish capillary bleeding in a wide range of surgical operations, and has proved particularly

useful in ear, nose, and throat surgery, ophthalmic surgery, thoracic surgery, gastro-intestinal surgery, plastic surgery and urogenital surgery. It has also been used successfully in many medical conditions associated with capillary haemorrhage or where capillary fragility is a feature.

ADRENOXYL may be administered by mouth or by subcutaneous or intramuscular injection. The oral form is for routine treatment, though when rapid action is desired the intramuscular route is recommended.

ADRENOXYL is now available in boxes of 6 or 50 ampoules: tubes of 25 tablets or bottles of 500 tablets.

This graph gives evidence of the effect of Adrenoxyl on capillary resistance and bleeding-time

***New research on Procidets
proves their amazing
effectiveness in the treatment
of streptococcal
and other throat infections***

Newly evolved techniques have convincingly established the value of PROCIDETS in practice.

It has been demonstrated that four Procidets sucked in succession destroy most of the bacteria and fungi in the mouth.

PROCIDETS were evolved to obviate the danger of undesirable use of antibiotics, which develops resistant strains of bacteria—a danger now generally recognised.

PROCIDETS are fully effective against bacterial and fungal infections of the throat and mouth and yet contain no antibiotic. They are non-toxic and cannot build up resistant strains.

DALMAS LIMITED · LEICESTER and LONDON · Established 1823

In the days when four-masted barques and fast clippers sailed the ocean trade routes, the call for "double watch on the wheel" meant the beginning of a grim battle through heavy weather, with two men at the helm to bring the ship to safety.

Doubling the watch . . .

Today, a close analogy can be found in modern chemotherapy, in the dual use of penicillin and the sulphonamides to ensure the maximum chance of successful recovery in serious bacterial infections. 'SULMEZIL' has been designed for this purpose. A combined formulation of 'Sulphamezathine' and 'Dibencil' benzathine

penicillin, it provides a simple and convenient means of administering these two powerful antibacterial drugs together. Active against a wide range of pathogenic organisms, it is particularly valuable in mixed infections. Moreover, with 'Sulmezil', resistant bacteria are less likely to occur.

'SULMEZIL'

combined oral penicillin and 'Sulphamezathine' therapy

Available as a pleasantly-flavoured Oral Suspension; also in tablet form.

UNIVERSITY HOSPITAL

Saskatoon, Saskatchewan

HOUSE STAFF APPOINTMENTS

This newly constructed hospital of 523 beds and 68 bassinets was opened to the public on January 26, 1955. At present, approximately 400 beds are available and the balance will be opened near the end of this year.

The services cover all departments of medical practice; namely, Medicine, Surgery, Obstetrics, Gynaecology, Paediatrics, Anaesthesia, Bacteriology, Diagnostic Radiology, Neurology, Neurosurgery, Ophthalmology, Otolaryngology, Pathology, Psychiatry, Rehabilitation Medicine, Therapeutic Radiology and Urology.

At present, there are forty-two in the house staff under a full-time co-ordinator, the Assistant Medical Director. For the coming year approximately fifty will be appointed.

The first year of house staff training is a rotating internship with active responsibilities in patient care. Requirements of the Canadian Medical Association regarding the training for junior internes are carefully observed. Each first year rotating interne receives three months each in Medicine and Surgery, two months each in Obstetrics with Gynaecology and Paediatrics. The remaining two months are available as optional either in the four major services or in special fields. For those who wish to pursue a general practice, a two year training programme will be provided.

Emolument (not including board allowance)

(a) Junior interne	£75.00 per month
(b) Senior interne	£125.00 per month
(c) Assistant resident	£175.00—£200.00 per month (Scale according to experience)
(d) Resident	£250.00—£300.00 per month (Scale according to experience)

Inquiries should be addressed to:

The Assistant Director (Medical),
University Hospital,
Saskatoon, Saskatchewan, Canada.

Interested parties will receive application forms from the University Hospital for this purpose. Applications for internships must be at the hospital by January 15, 1956, and for residencies by December 1, 1955. (4388)

HER MAJESTY'S OVERSEA CIVIL SERVICE
(Medical Branch)
Kenya

Applications are invited from doctors registered in the United Kingdom for the following posts in the Medical Department of Kenya.

1. MEDICAL OFFICERS for general duties. Successful candidates may be posted to any station in Kenya. During the earlier years of service an officer will be expected to carry out general medical and surgical duties including a varying amount of public health administration. In most stations, even if remote from the larger towns, it is possible for an officer to maintain interest in any particular branch of medicine or surgery to which he is attracted, and as far as possible his professional interests are taken into account when postings are made. The work of every medical officer is based on a hospital which may vary in size and facilities from a small district hospital meeting the needs of a comparatively primitive community to a large and modern provincial hospital.

2. SCHOOL MEDICAL OFFICER. to supervise the public health aspect of European, Asian and African schools with particular reference to health, education, and nutrition together with a certain amount of clinical examinations. Preference will be given to candidates possessing a Diploma in Public Health. Appointments can be made on a permanent basis with pension (non-contributory) at age of 55, or on short-term contract with gratuity (taxable) payable on satisfactory completion of service. Salary ranges from £1,116 to £1,836 a year: starting point is determined by experience and four extra increments are given to successful candidates possessing the M.R.C.P., F.R.C.S., D.P.H., or other approved higher qualifications. Temporary cost-of-living allowance at the rate of 10 per cent of salary is also payable, subject to a maximum of £152 a year, making gross emoluments of £1,228 to £1,998 a year. Permanent medical officers are eligible to be considered at any time for promotion to super-scale posts in Kenya and other territories, in medical administration or, if they possess higher qualifications and suitable experience, in specialist posts. Quarters are generally available at rental of 10 per cent of salary. Free passages in both directions for officer and wife and up to cost of one adult fare for children. Taxation at local rates. Annual local leave permissible and generous home leave granted after each tour of from 40 to 48 months. Educational facilities are available. Application forms from Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting reference BCD 117/7/02). (4484)

THE ROGERS PRIZE

(Joseph Rogers; administered by the Society of Apothecaries of London)

This Prize, representing the accumulated income from the investment of a legacy given under the Will of Dr Joseph Rogers, deceased (after payment of any expenses incurred in the administration), will be awarded by the Trustees—the President of the Royal College of Physicians and the Master of the Worshipful Society of Apothecaries of London—"To such person as in their opinion shall have written the best or only good essay on the treatment of the sick poor of this country and the preservation of the health of the poor in this country or either of such subjects," power being reserved to the Trustees to withhold the award of the Prize if no essay shall have been submitted which, in their opinion, merits a prize. The competition is an open one: the treatment of the subjects and the length of the essay are left to the discretion of the essayist. The essay must be typewritten, and must not have been previously published. If subsequently published the essay must be described as the Joseph Rogers Prize Essay. Persons desirous of competing for the Prize, which it is estimated will amount to about £105, are invited to submit essays, which must be forwarded to the undersigned not later than May 1, 1956. Essays should be signed with a motto or other non-de-plume. The decision of the Trustees as to the award or withholding of the Prize shall be final and conclusive, and will be duly notified in the Public Press. There are no conditions beyond those stated above.—Ernest Buxby, Clerk to the Trustees, Apothecaries' Hall, Black Friars Lane, London, E.C.4. (4368)
