If only I had the MONEY!

How often the need for money arises—to take advantage of a business opportunity—to pay a deposit on a house—to pay for extras during disability from accident or illness.

But how much more would your family need income if the security of your earning capacity was removed.

The Confederation Life can provide income when it is most needed by yourself or your family under a very simple plan which only requires you to save a small percentage of your present earnings. It will:

Pay you an income if you suffer lengthy disablement from an illness or accident.

Pay a regular monthly income to your family if you should die.

Accumulate a reserve fund against retirement or emergencies.

Write for full particulars to Dept. G.8.

Brand's

MEAT AND FISH PROTEIN FOODS FOR BABIES

The makers of Brand's Essence are pleased to introduce Brand's Strained Protein Foods (Meat and Fish) for Babies.

Brand's Strained Beef and Brand's Strained Veal are all fine quality meat, ground to a smooth meat purée and moistened with meat broth. A little salt is added for flavouring.

Brand's Strained Fish is all selected white fish, prepared in purée form similar to the strained meats.

Clinically tested, Brand's Strained Protein Foods were very well received and very well tolerated. They are recommended as an addition to normal infant diet, and are especially helpful during weaning. They can be given from the age of 3½ to 4 months onwards (according to the physician's advice).

BRAND'S STRAINED BEEF BRAND'S STRAINED VEAL BRAND'S STRAINED FISH

Brand's Strained Protein Foods are free from preservatives; heat-sealed and sterilized, in 1\% oz. glass jars.

Professional samples and literature on request.

BRAND & CO. LTD., MAYFAIR WORKS, VAUXHALL, S.W.&

Intramuscular Iron

and the

Anaemias of Infancy

The value of Imferon in Nutritional Anæmia of Infancy and in the prophylaxis and treatment of Anæmia of Prematurity has recently been convincingly demonstrated.

"There was obvious rapid clinical improvement in all cases as shown by the return of appetite, change of disposition, improvement in colour, and gain in weight."

"The daily rise in hæmoglobin during the first two weeks after treatment was almost 1.5%."—Brit. Med. J., 1955, 2, 700.

Imferon is the most practical and effective means of administering iron to infants who do not make progress on oral preparations. The increase in hæmoglobin concentration is about 20% in two weeks—more than can be achieved with any form of oral therapy.

THE INDICATIONS FOR IMPERON IN INFANCY ARE:

- 1. Nutritional anæmia in infants who do not make progress on oral iron,
- 2. Nutritional anæmia in infants whose home conditions are poor and who would otherwise have to be admitted to hospital.
- 3. The prophylaxis and treatment of anæmia of prematurity.
- 4. As an alternative in some cases to blood transfusion.

FURTHER INFORMATION IS AVAILABLE ON REQUEST.

Imferon is issued in ampoules of 2 ml. (100 mg. Fe) in boxes of 10 and 100.

A product of the Laboratories for Applied Biology Ltd., London, N.16

REGISTERED

A GENERAL STIMULANT FOR THE CENTRAL NERVOUS SYSTEM

For cases requiring a quick-acting general stimulant without increasing the patient's appetite, we consider Amphetone unique. It combines for the first time Dexamphetamine Sulphate and Strychnine with Glycerophosphates and members of the Vitamin B Group. Dexamphetamine provides the convalescent with an immediate feeling of well-being, this being followed by the well-known tonic effects of the other medicaments. Clinical reports have been excellent.

FORMULA
Dexamphetamine Sulphate B.P.C., 1/12 grain: Strychnine Hydrochloride
B.P., 1/60 grain: Calcium Glycerophosphate B.P.C., 2 grains: Sodium
Glycerophosphate B.P.C., 2 grains: Aneurine Hydrochloride B.P., 1/30
grain: Nicotinamide B.P., 1/4 grain: Riboflavin B.P., 1/60 grain: Syrup
of Blackcurrant B.P.C., 2 fluid dtms.: Water, to 1/2 fluid ounce.

POISON SI

Available in bottles containing 10, 20, 40, and 80 fluid ounces. Professional prices 4/8, 8/10, 14/7, and 26/6 each. Samples available on request.

JAMES WOOLLEY, SONS & CO., LTD., VICTORIA BRIDGE, MANCHESTER 3 London stockists: May, Roberts & Co., Ltd., 47, Stamford Hill, London, N.16

An accepted combination in the chemotherapy of tuberculosis is P.A.S. together with isoniazid or streptomycin. Either combination, according to a recent Medical Research Council report (1), is very effective and helps to delay the appearance of resistant strains. P.A.S. has, however, the disadvantage of being poorly tolerated; many patients would welcome an alternative. Therapas, first synthesized in our laboratories in 1951, was introduced as an alternative to P.A.S. to which it is converted in the body (2). Preliminary trials have shown that Therapas may be effective in delaying the emergence of resistant strains to isoniazid or streptomycin, when used together with either of these drugs, and also that it has a therapeutic action per se. It gives satisfactory clinical and radiological results in the treatment of pulmonary tuberculosis (3, 4) and of genito-urinary tuberculosis (5). Since it has a sweet, not unpleasant, taste it is usually much preferred by the patient.

- 1 Report to M.R.C. of Tuberculosis Chemotherapy Trials Committee, Brit. Med. J., 1955, 1, 435.
- 2 J. Pharmacy & Pharmacol., 1953. 5, 849.
- 3 Schweiz. med. Wschr., 1955, 85,
- 4 Tubercle, 1955, 36, 209.
- 5 Lancet, 1955, 1, 116.

dosage

Therapas may be administered in daily doses of 14 G.

availability

Individual packets of 3.5 G. in boxes of 100 packets. I G. cachets in containers of 100 and 500. Bulk Therapas powder in containers of 100 G. and 500 G.

Further information and prices from Smith & Nephew Ltd., Welwyn Garden City, Herts.

to summarize

a

THERAPAS may be just as effective as P.A.S.

b

It is often better tolerated.

C

And it can be used wherever P.A.S. is indicated.

Transvasin

brings the esters of NICOTINIC ACID

SALICYLIC ACID
p-AMINOBENZOIC ACID

to the focal point of soft-tissue rheumatism

The esters in Transvasin, a new preparation developed by Hamol S.A., our Swiss associates, readily pass the skin barrier in therapeutic quantities and enable an effective concentration of the drugs to be built up where they are needed.* Transvasin

not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant, and can be safely used on delicate skins. It is now being widely prescribed with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Salicylic acid tetrahydrofurfuryl-ester 14%
Nicotimic acid ethyl-ester 2%
Nicotimic acid n-hexyl-ester 2%
p-Aminobenzoic acid ethyl-ester 2%
Water-miscible cream base ad 100%

*Therapeutische Umschau VIII, 1952, 10, 143

Transvasin is available in 1 oz. tubes, basic price 2/6 plus 9d. P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

Naphthionin

A new hæmostatic for intravenous or

intramuscular injection

Used as a prophylactic ante-operatively and for the control of post-operative hæmorrhage, NAPHTHIONIN reduces both bleeding and clotting times; and is of particular value where vascular fragility heightens hæmorrhagic danger. NAPHTHIONIN does not control hæmophiliac bleeding, for which THROMBIN (MAW) is the hæmostatic of choice. With the use of NAPHTHIONIN, the attainment of a bloodless field in surgical procedures becomes practical and tolerance is excellent even where prolonged dosage is necessary. Supplied in boxes of 6x 10cc. ampoules. A product of OM Laboratoires -Geneva. Prepared and distributed in Great Britain solely by S Maw Son and

Maw's Ethical Products also include

HEMATRIX An ointment for the treatment of hæmorrhoids, pruritus ani, and all painful, inflammatory, pruritic, and eczematous lesions of the skin in the anal region.

Prescricable on E.C.10.

THROMBIN (MAW) A hæmostatic for topical use in surgical procedures for the immediate arrest of hæmorrhage.

THROMBOPLASTIN (MAW) For reagent use in the determination of the prothrombin time in anticoagulant therapy.

REAZIDE (Cyanacstic Acid Hydraxide) A new hydrazide for specific use in all forms of tuberculosis, particularly in chronic cases. Clinical trials in progress.

PENIDURAL Oral Suspension

The word 'Penidural' is a registered trade mark.

Safe, Reliable, Efficient

PENIDURAL, the safe or al suspension of penicillin, is a reliable weapon in the treatment of many infections.

The penicillin is absorbed from the intestine and results in therapeutic blood levels in the patient which deal efficiently with the penicillin-susceptible organisms.

PENIDURAL Oral Suspension, is a palatable preparation and its administration by mouth is simplicity itself. One teaspoonful (5 c.c.) sixhourly is sufficient to deal successfully with most of the pathological processes caused by Streptococci, Staphylococci and Pneumococci.

PENIDURAL Oral Suspension contains 300,000 units Benzathine Penicillin to each large teaspoonful (5 c.c.) and is supplied in bottles containing 60 c.c.

Oral PENIDURAL is also available in tablets, each containing 200,000 units of Benzathine Penicillin.

BARBITURATE ANDMORPHINE ANTAGONISTS

new products

β-ethyl-β-methylglutarimide

and DAPTAZOLE

2:4-Diamino-5-phenylthiazole hydrochloride

Barbiturate Poisoning

- "MEGIMIDE" is "a barbiturate antagonist of real clinical worth. To omit to use it in the treatment of barbiturate poisoning is to run the risk of the broncho-pneumonia that is so often fatal in these cases." (Lancet, 1955, i, 181.) "DAPTAZOLE," itself a weak barbiturate antagonist, enhances the action of "Megimide."
- "Megimide" and "Daptazole" administered together intravenously ensure safe, quick recovery from barbiturate intoxication without the risk of convulsions and secondary depression which often follow the use of other central analeptics.

Morphine Administration

- "DAPTAZOLE," the new morphine antagonist, has recently been shown (Brit. Med. J., 1955, i, 1367) to remove the risk of respiratory depression associated with high morphine dosage and to make tolerance or addiction unlikely.
- "Daptazole" relieves respiratory depression by increasing the depth of respiration, while in some cases the vomiting and, in most cases, the constipation associated with morphine are also relieved.

in Barbiturate "MEGIMIDE" is of value to lighten or terminate the anaesthesia of patients Anaesthesia under the influence of barbituric anaesthetics.

> Further details and supplies of "Megimide" and "Daptazole" available to the medical profession on request.

WESTMINSTER LABORATORIES LTD., CHALCOT ROAD, LONDON. N.W.1

A New Highly Potent Analgesic

'Pipadone' brand Injection of Dipipanone Hydrochloride is a new synthetic analgesic, developed at The Wellcome Research Laboratories. In contrast to methadone ('Physeptone'), of which dipipanone is the piperidino analogue, it has a marked sedative and hypnotic action. It appears to be largely free from euphoriant effect and, at the recommended dosage level, seldom causes other side-reactions.

'Pipadone' is indicated for relief of pain when sedation also is desirable. Clinical trials have shown it to be specially valuable in the management of post-operative pain; in ano-rectal surgery; in the removal of surgical dressings; and in carcinomatosis, particularly with bony metastases. Injected intramuscularly, the drug exerts its effect in about sixteen minutes. Six-hourly or twice-daily doses have been found adequate in even the severest types of pain.

The usual dose of 'Pipadone' is 25 mgm. (approximately equivalent to gr. 1/6 of morphine). Tolerance is not easily acquired. 'Pipadone' is issued in ampoules of 25 mgm. in 1 c.c., in boxes of 12 ampoules, priced at 10/6 (exempt from purchase tax), subject to the usual discounts.

complicated by
Mental Stress and Anxiety

Because many conditions of peptic ulceration are complicated by mental stress, anxiety and nervousness, the Searle Research Laboratories have combined the anticholinergic properties of "Pro-Banthine" with the sedative properties of phenobarbitone on the central nervous system in tablets containing 15 mg. of each. Phenobarbitone suppresses parasympathetic stimuli at their origin while "Pro-Banthine" forms a block at the autonomic ganglia and at parasympathetic nerve endings. Thus "Pro-Banthine" with Phenobarbitone is an example of rational therapeutics, promoting calm serenity with speedy relief from ulcer pain.

SEARLE

Note New Address:
G.D. SEARLE & CO., LTD.

83, Crawford Street London W.1

Telephone: Paddington 4034

"Pro-Banthine" with Phenobarbitone is as safe as "Pro-Banthine" alone, the side-effects being exactly similar and as easily controlled. Only rarely is sleep induced by the phenobarbitone, and even then seldom during working hours. Dosage of "Pro-Banthine" with Phenobarbitone is the same as "Pro-Banthine" alone, usually one or two tablets t.i.d. with meals and two tablets at bedtime as required. "Pro-Banthine" with Phenobarbitone is available in bottles of too and 1,000 tablets.

Literature available on request.

DEHYDROCHOLIN B.D.H.

MARMITE

yeast extract

in Preventive Medicine

The prominent part played by diet in preventive medicine is now fully recognised. A well-balanced diet can contribute markedly to general good health and, conversely, a faulty diet can precipitate illness and hinder recovery. Marmite is a useful protective food providing the important B vitamins in a convenient and appetising form.

in Restricted Diets

In the dietary control of obesity, diabetes or other conditions a reduced intake of vitamins may lead to complications. Addition of Marmite to these restricted diets supplements their content of B vitamins and adds flavour to meals which are apt to be dull and uninteresting.

MARMITE LIMITED, 35, SEETHING LANE, LONDON, E.C.3

THE EXTRA PHARMACOPŒIA

(Martindale)

Volume II

23rd Edition

The second volume of the Extra Pharmacopæia supplements the information in the first volume published in 1952, the two volumes forming a comprehensive work of reference on materia medica and allied subjects. The whole book has been revised, rewritten and reset. It has been compiled for general practitioners in pharmacy and medicine, for specialists and experts engaged in associated activities, for research workers and for students. The sections dealing with the analysis of drugs, clinical biochemistry, and bacteriological notes have been extended.

A descriptive Leaflet is available.

Pp. xxix + 1501.

Price 57s. 6d. (postage 1s. 6d.)

THE NINETY

HIGH PERFORMANCE By increasing the compression ratio, the acceleration has become still more vivid. An optional overdrive ensures a higher maximum speed, exceptionally fast and silent cruising at low engine speeds and a useful saving in petrol consumption. Top gear flexibility, so valuable when driving in traffic, is unaffected.

EXTRA SAFETY To match this livelier performance, a new Servo-assisted braking system is introduced. This ensures impressive light-pressure stopping from high speeds and maximum safety under modern road conditions.

THE SIXTY, SEVENTY-FIVE AND NINETY

EXTRA COMFORT Rover cars have a fine reputation for driver and passenger comfort.

There is now a choice of two styles in the front seating—a bench type seat or, as an optional extra, two individual seats independently adjustable.

The deep hide upholstery is pleated to retain its shape and the rear arm rests have been redesigned for greater comfort.

Prices including purchase tax, '60': £1261.7.0; '75': £1373.17.0; '90: £1418.17.0 (overdrive, optional extra)

A new cough specific

Suppresses cough with no undesirable side effects

Sodium 2:6 ditertiarybutylnaphthalene monosulphonate (Becantyl), a product of original research, is a new agent that is specific in suppressing cough. It is unrelated to morphine and guaiacol.

BECANTYL does not cause constipation, anorexia, drowsiness or any other undesirable side-effects; being devoid of side-effects, BECANTYL may be prescribed for children and the aged.

Clinical experience supports the value of BECANTYL in suppressing all types of cough, BECANTYL may be prescribed whenever the treatment of cough is indicated.

BECANTYL is presented in 4 fluid ounce, 40 fluid ounce, and 80 fluid ounce bottles.

LIL-LETS

the new vaginal tampon without applicator

A tampon which has been successfully marketed on the Continent during the last five years has now become widely accepted in this country under the name LIL-LETS.

Following extensive clinical trials, LIL-LETS have won the support of leading gynæcological opinion. Samples will be sent to medical practitioners on request.

LIL-LETS have these main advantages:

LIL-LETS need no applicator. By inserting the tampon with the fingers, the risk of bruising is eliminated.

LIL-LETS assist personal hygiene. At 1/6 for 10 they are so much cheaper than other leading tampons that women will be encouraged to change them often. They are easily carried about and easily disposed of.

LIL-LETS are highly absorbent. They absorb almost ten times their own weight in moisture and swell sideways, not lengthways. They are, therefore, really safe.

LIL-LETS are individually wrapped. Each tampon is sealed in a transparent cover. There is no risk of soiling or infection when it is carried loose.

Elastoplast Bandaging Technique

in the treatment of

Post-Operative Conditions

surgery is a field in which Elastoplast elastic adhesive bandages are widely used with marked success. The illustration shows the 'stole' method of applying Elastoplast to the neck after operation in that region, e.g. thyroidectomy. It is an efficient method of retaining dressings in position and saves time, trouble and discomfort to the patient.

SOME OF THE MANY OTHER USES OF ELASTOPLAST IN MEDICAL PRACTICE

To reduce umbilical and inguinal hernia in children

To retain a dressing in position on the head

Compression treatment of leg ulcers

Support, and control of effusion, in joint injuries

Fixation of empyema tubes, catheters and intravenous drips

To close the edges of a gaping wound

Elastoplast elastic adhesive bandages (Porous) B.P.C. are available in 3 yard lengths and 2'', $2\frac{1}{2}''$, 3'' and 4'' widths. Prescribable on Form E.C.10.

The key to successful peptic ulcer treatment

Nulacin effectively controls gastric acidity. The value of Nulacin in the treatment of peptic ulcer and the prevention of relapse has been confirmed by clinical studies in Great Britain, Australia, the U.S.A. and India. Nulacin tablets are palatable and convenient.

INDICATIONS

NULACIN tablets are indicated whenever neutralization of the gastric contents is required: in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Beginning half-an-hour after food, a NULACIN tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

GASTRIC ANALYSIS Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer

The value of Ice Cream in invalid dietary

A LARGE NUMBER OF HOSPITALS in this country include ice cream in their invalid dietaries. Its palatability is a strong recommendation. The very nature of good ice cream, combining as it does the qualities of a food with the appeal of a treat, makes it acceptable to patients, even where there is little or no appetite for other types of food.

Good ice cream has a high fat and carbo-hydrate content. Its calorific value also is high, and it is assimilated easily and rapidly.

The nutritive values of Wall's Vanilla Ice Cream are shown by this analysis of its contents:

FAT

12.5%

CARBO-HYDRATES

19.5%

the modern relaxant sedative

Recent reports suggest that Seconesin is proving particularly useful for the control of tension symptoms associated with menstruation and the climacteric.

Seconesin in a dose of one tablet every four to six hours exerts a relaxing and mild sedative effect without making the patient drowsy. In this way, symptoms frequently can be controlled whilst the patient is perfectly capable of carrying on her normal occupation.

Annual Scientific Meeting at Brighton JULY 9-13, 1956

SCIENTIFIC EXHIBITION

During the Annual Scientific Meeting of the British Medical Association at Brighton next year there is to be an exhibition demonstrating medical work in progress. This exhibition offers a unique opportunity to medical men and women to show their work and to make contact with all sections of the profession.

These annual meetings are the largest scientific meetings of the whole profession in this country and attract many visitors from overseas.

Stands will be provided for the display of exhibits. As space is limited all those interested should write as soon as possible to the Secretary, B.M.A. House, Tavistock Square, London, W.C.1. The last date for receipt of applications is December 31, 1955.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent * testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum n any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six members.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

GOLD COAST LOCAL CIVIL SERVICE Gold Coast Medical Service

SPECIALIST ANAESTHETIST

SPECIALIST ANAESTHETIST

Required by Ministry of Health, Gold Coast, for administration of anaesthesia, to advise the Ministry on the practice of anaesthesia, including the ordering of equipment and drugs, and for training of selected personnel in anaesthetics. Candidates shou'd be registered medical practitioners holding a Fellowship of the Faculty of Anaesthetists (F.A.), or a diploma in Anaesthetics (D.A.), provided the latter qualification was obtained prior to November, 1953, and must have had not less than four years' approved full-time hospital experience in general anaesthetic work, preferably under the direction of a fully qualified specialist. The stated four-year period must be exclusive of hospital experience gained in house posts during the twelve months after medical registration. Appointment is to the Gold Coast Civil Service on contract of two tours of eighteen to twenty-four months each in the first instance with gratulty (taxable) on satisfactory completion of service. Salary scale £2,400 to £2,700 a year. Gratulty is £37 10s, for each completed three months of service. Candidates in the National Health Service may leave the N.H.S. but retain their superannuation rights (up to a maximum stay of six years). Salary, in this case, would be in the scale £1,900 to £2,200 a year, and the gratulty 20 per cent of the aggregate of salary. Quarters, when available, are provided at rental not exceeding £150 per annum. Income tax at local rates. Free passages provided for officer, wife and up to three children under 13 years of age. Generous home leave is granted after each tour of 18 to 24 months. Application forms from Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, S.W.1 (quoting reference No. BCD 117/13/01).

HER MAJESTY'S OVERSEA SERVICE Sierra Leone

MEDICAL OFFICERS

MEDICAL OFFICERS

are urgently required for general duties, including Hospital and district work in order to maintain existing standards of service to the public and to make possible much needed expansion. The appointments offer scope for the practice of many branches of medicine and surgery and earry a considerable measure of independence and personal responsibility. Arrangements exist for allowing private practice at the discretion of the Director of Medical Services. Candidates must possess medical qualifications registrable in the United Kingdom and have had at least twelve months' postgraduate hospital experience. There is a permanent career for doctors entering the Sierra Leone Service, but short term contracts are available. Alternative methods of entry are as follows: (a) on three years' probation for permanent and pensionable employment with retiring age of between 45 and 55. Pensions (which are non-contributing) are at the rate of 1/600th of the final pensionable emoluments for each completed month of reckonable services; (b) from the National Health Service. Candidates may resign but retain their superannuation rights up to six years and receive a gratuity (taxable) of 20 per cent of the aggregate of their salary. Salaries, including pensionable expantiation pay, for Officer under (a) and (b) range from £942 to £1,850 a year: or (c) or short term con-ract (two tours of eighteen to twenty-four months' duration each) with inclusive salaries from £1.068 to £2,000 a year. On completion of contract a gratuity (taxable) is paid at the rate of £37 10s. for each complete period of three mon'hs' service (Including leave). Starting salaries are determined according to age, qualifications and experience. Opportunities exist for transfer and promotion to posts elsewhere in Her Majesty's Oversea Service, outside Sierra Leone. Quarters are normally available, at low rental, Free passages in both directions are provided for officer, wife, and up to two children under the age of 10. Income tax at local rates. Local

Educational and Lectures-contd.

UNIVERSITY OF MANCHESTER Diploma in Medical Radiotherapy (R.C.P., and S. Eng.)

A course of instruction in Radiotherapy will begin at the Christie Hospital and Holt Radium Institute, Manchester, on Monday, April 2, 1956. This will continue until the end of January, 1957, after which students must still spend a further fifteen months working either in the Holt Radium Institute or in another approved hospital. The course is full-time, non-resident. Inclusive fee £52. Applications are invited from registered medical practitioners who fulfil the requirements as to previous medical experience laid down by the Examining Board in England (D.M.R.T. regulations obtainable from the London Conjoint Board, 8-11, Queen Square, London, W.C.1). There may be appointments under the National Health Service at S.H.O. or Registrar level for successful candidates. Special consideration will be given to candidates possessing a higher qualification in medicine or surgery. Further information may be obtained from Dr. Ralston Pa'erson, Director, Christie Hospital and Holt Radium Institute, Wilmslow Road, Manchester, 20, or from the Dean of the Postgraduate Medical Studies, The University, Manchester, 13, to whom applications should be sent not later than January 2, 1956.
