**15 years of clinical opinion  
supports the use of vaginal tampons**

---

# Why an applicator?

The function of the applicator in inserting the tampon at the upper end of the vaginal tract is of the greatest importance. It eliminates any handling of the highly-compressed soft surgical cotton, and ensures comfort and steady absorption. The correct position of the internal tampon avoids contact with both anal and urethral sources of contamination. Tampax tampons are simply and hygienically inserted in correct proximity to the cervix by means of a disposable 'applicator' tube, only  $\frac{9}{16}$ " diameter. The applicator is an integral part of tamponage and, therefore, results in a definite improvement in menstrual hygiene.

## ... the virtues of **LUCOZADE**

It is realised that the doctor judges Lucozade from two viewpoints. He agrees with its use in the sickroom. He

also, personally, finds it a most palatable drink.

This palatability of Lucozade provides a long-sought answer to a long-standing problem . . . acceptability.

The subtle balance between flavour, sparkle and liquid glucose content provides nourishment in a form acceptable even to the feeblest digestion; nourishment retained and assimilated.

Doctors have been kind enough to tell us of many conditions which have responded favourably, quickly, to Lucozade. Bedside lockers bear testimony to the confidence it inspires.

And many doctors have discovered for themselves the virtues of a glass of Lucozade when they return after a hard round of work.

# An easier way of removing EAR WAX

Hitherto, the removal of wax from the external auditory meatus has, commonly, necessitated two attendances by the patient—first for diagnosis and prescription of a suitable loosening agent—the second, two or three days later, for syringing. Now, by the use of Cerumol Ear Drops, wax can be removed, in the majority of cases in one visit. A few drops of Cerumol are instilled into the ear, and, while another patient is being seen to, the soft cerumen dissolves and the harder wax disimpacts. The resultant debris can then be cleared by gentle syringing. Only when the wax plug is abnormally hard, is it necessary for the administration of Cerumol to be prolonged and the patient told to return for syringing at a later date. In many cases, Cerumol can be instilled by patients in their own home and, as the wax has frequently been found to come out of its own accord, further visits are unnecessary. Cerumol is anti-bacterial, efficient, and harmless to the lining of the external auditory meatus or to the tympanic membrane. Accepted for use in a large number of hospitals and general practices, Cerumol is included in Category No. 4 of the M.O.H. classified list of Proprietary Preparations, and may therefore be prescribed on N.H.S. form E.C.10.

# A new capillary haemostatic

# ADRENOXYL

(Adrenochromemonesemicarbazone)

## for medical and surgical conditions

*Clinically proven to reduce bleeding-time without effect  
on coagulation or blood pressure, and to have no undesirable side effects*

**ADRENOXYL**, a product of original research, reduces the mean bleeding-time by decreasing the permeability and increasing the contractility and resistance of the capillaries. Its effectiveness in diminishing blood loss has been demonstrated by clinical studies.

**ADRENOXYL** has no effect on coagulation. It neither increases nor decreases blood pressure.

**ADRENOXYL** is non-toxic, and there are no contra-indications to its use.

**ADRENOXYL** is indicated in the preventive and curative treatment of all types of capillary bleeding.

**ADRENOXYL** has been successfully used to diminish capillary bleeding in a wide range of surgical operations, and has proved particularly

useful in ear, nose, and throat surgery, ophthalmic surgery, thoracic surgery, gastro-intestinal surgery, plastic surgery and urogenital surgery. It has also been used successfully in many medical conditions associated with capillary haemorrhage or where capillary fragility is a feature.

**ADRENOXYL** may be administered by mouth or by subcutaneous or intramuscular injection. The oral form is for routine treatment, though when rapid action is desired the intramuscular route is recommended.

**ADRENOXYL** is now available in boxes of 6 or 50 ampoules; tubes of 25 tablets or bottles of 500 tablets.

## Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, *the entire Vitamin B complex should always be administered concurrently.*

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient

## A new concentrated glucose drink CITROZE

(TRADE MARK)

made with whole fresh lemons

Citroze is a new highly-concentrated glucose drink which offers all the virtues of pure glucose in a highly palatable form. It is deliciously and wholesomely flavoured with whole fresh lemons and is recommended for use during convalescence, and in cases of low vitality and poor appetite.

Citroze has an exceptionally high glucose content—not less than 10% after dilution. It does not cause flatulence, and can be taken either hot or cold. Citroze is to be diluted with two parts water or soda water.

The price is 3/6 for an economical 26-oz bottle, which makes 4 pints of ready-to-drink Citroze, obtainable at all leading chemists.

**Ingredients:**

Dextrose mono-  
hydrate 30%, sugar,  
lemon juice, citric acid  
and benzoic acid

# Exactly The mixture as before

One of the reasons for the consistently good quality of John Bull tyres is the immense amount of trouble we take to ensure that every batch of rubber we prepare contains exactly the right proportions of exactly the right ingredients. This involves the testing, by a huge laboratory staff, of all raw materials both before and during processing. The functional tread of John Bull tyres is made from a specially soft, yet amazingly tough, rubber which really GRIPS the road surface. Absence of 'dither' and skid reduces surface abrasion, thus making John Bull an extremely long-wearing, as well as a very safe, tyre.

**ST. ANDREW'S HOSPITAL, NORTHAMPTON**

for Nervous and Mental Disorders

President: The Earl Spencer, Medical Supt. Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

**MOULTON PARK.**—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

**WANTAGE HOUSE.**—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department for Diathermy and High-frequency treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

**BRYN-Y-NEUADD HALL.**—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.
