This is one of a series of paintings for Lederle by Paul Peck, illustrating the anatomy of various organs and tissues of the body that are frequently attacked by infection, where ACHROMYCIN tetracycline may prove useful.

Achromycin^{*}

TETRACYCLINE

in Infections Involving the Small Bowel and the Peritoneum

BECAUSE of its remarkably broad antimicrobial spectrum against pathogens which produce infections of the small bowel and the peritoneum, ACHROMYCIN tetracycline has proved pre-eminently useful in the therapy of infectious enteritis, in the treatment of peritonitis, and as a prophylactic adjunct to surgery of the bowel. In the management of perforations of the bowel, ACHROMYCIN has provided invaluable assistance. The wide antibacterial range of ACHROMYCIN affords protection against the most common pathogens of peritonitis—including *E. coli*, streptococci, staphylococci, *A. aerogenes*, *Alcaligenes faecalis*, *B. subtilis*, *Cl. welchii*, *Klebsiella pneumoniae*, and corynebacteria—as well as the pathogens causing infantile diarrhoea and various dysenteries, including *Shigella*, *Salmonella*, *Vibrio cholerae*, and *Balantidium coli*.

ACHROMYCIN has been used in countless clinical cases and reported in an evergrowing number of published works from authoritative worldwide sources. The literature now abounds with testimony to its value in medical and surgical practice.

ACHROMYCIN tetracycline is available in a large variety of convenient dosage forms : Capsules, Ear Solution, Intramuscular, Intravenous, Ointment (3%), Ophthalmic Ointment (1%), Ophthalmic Powder Sterilized, Oral Suspension, Liquid Pediatric Drops, Soluble Tablets, SPERSOIDS* Dispersible Powder, Syrup, Tablets, Troches.

LEDERLE LABORATORIES DIVISION

Cyanamid PRODUCTS LTD. LONDON, W.C.2.

Parenteral therapy without a syringe

These new 'Sublings' each contain 10 mg. of Testosterone B.P. in a special water-soluble wax base devised to give perfect sublingual absorption. They have been shown to be clinically effective and to produce a 17-ketosteroid excretion rate COMPARABLE TO THAT FROM THE SAME DOSAGE OF INJECTED TESTOSTERONE PROPIONATE.

An objective test of the efficacy of treatment is thus available. This is in contrast to the almost entirely subjective evidence in therapy with Methyltestosterone B.P. (whether administered sublingually or swallowed) since this is not excreted as 17-ketosteroids and admittedly gives less satisfaction than injected Testosterone Propionate weight for weight.

TESTOSTERONE SUBLINGS

In Males

- (1) Depression and Debility in middle-age where androgen therapy is indicated.
- (2) As in Eunuchism and Eunuchoidism, etc.

In Females

- (1) Excessive Functional Uterine Bleeding.
- (2) Inoperable Mammary Carcinoma.
- (3) Uterine Fibroids.

The right diet at your fingertips

This filing box, designed for the consulting room desk, contains an indexed supply of diet cards for 16 different conditions. The cards are planned to include specimen daily menus which facilitate the patient's co-operation and save the doctor's time. This is one of the services offered free of charge to the medical profession by the Energen Dietary Service.

In special cases, clinical considerations often necessitate the preparation of a diet which takes into account the individual requirements of the patient. On receipt of the appropriate information from the practitioner, such diets can be specially constructed and sent through the post; or a consultation can be arranged with a senior dietitian.

The Energen Dietary Service is staffed by fully qualified dietitians, under close medical supervision. It offers independent information and assistance to the medical profession in all dietary and nutritional matters.

Requests for this Diet
Card Filing Box, or other inquiries should be addressed to:

THE ENERGEN DIETARY SERVICE, 25A, BRYANSTON SQUARE, LONDON, W.1. TELEPHONE: AMBASSADOR 9332.

ENERGEN DIETARY SERVICE

Positive Health!

TAMPAX encourages women to lead a normal life during the monthly period. It brings a higher standard of hygiene, and increased personal comfort (elimination of chafing, belts, pins and pads) which results in a greater sense of physical and mental freedom.

Professional samples and literature will gladly be supplied by Medical Dept., Tampax Ltd., Belvue Road, Northolt, Greenford, Middlesex.

SANITARY PROTECTION WORN INTERNALLY

The esters of NICOTINIC, SALICYLIC and p-AMINOBENZOIC acids

bring relief to cases of arthritis and rheumatism

"Thank you, doctor"

IN CASES OF soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

The dyspeptic well fed on Complan

the complete food easily digestible

The dyspeptic, prevented by his condition from eating the balanced meals he needs, is a 'natural' for the new Glaxo food, Complan.

Containing every nutrient essential to health, Complan can be given either as a supplement to make good the deficiencies of a restricted diet, or as the sole source of nourishment when an imminent or developed peptic ulcer precludes any solid food. Drunk normally from a cup, Complan can as easily be given through a thin tube.

Pleasant to taste, and quickly mixed, Complan can be as readily made in office or workshop as in home or hospital. It is the complete answer to the dyspeptic breadwinner's midday meal problem—and to many of those of the hospital dietician.

Others who benefit from Complan are invalids, convalescents, the expectant mother, the elderly and those who rely too much on a favourite but nutritionally inadequate dish.

THIRD VOLUME—NOW READY
with classified contents list to volumes 1,2&3

REFRESHER COURSE *for* GENERAL PRACTITIONERS

This is the third collection of Refresher Course articles for General Practitioners. The sixty articles first appeared in the "British Medical Journal" from April, 1952, to September, 1953. Each article is written by an authority in his subject and has been revised to bring it up to date. Their purpose is to remind the practitioner of what is old and well established and to tell him of new developments. The book will also be of service to the specialist who wishes to keep in touch with other branches of medicine, and to students preparing for final examinations. A cumulative classified contents list of all three books in the Refresher Course for General Practitioners series adds to the usefulness of this volume.

548 pages, cloth bound. Price 25s. net.

In two years Becantyl has become an established treatment for useless cough—

*Especially with
children and old people,*

No side-effects

Unrelated to morphine derivatives or guaiacol and with none of their disadvantages, Becantyl suppresses useless cough. The active ingredient in Becantyl is Sodium-2 : 6-ditertiarybutylnaphthalene monosulphonate. This chemical, which does not cause constipation, anorexia, drowsiness or other side-effects, is the result of original research.

These characteristics make Becantyl especially valuable for the treatment of useless cough in children and old people.

Becantyl is available in 4 fluid-ounce bottles, and also in 40 fluid-ounce and 80 fluid-ounce dispensing bottles.

The suggested doses are:—

Adults: 2 teaspoonfuls

Children: 3—6 years: $\frac{1}{2}$ teaspoonful

7—15 years: $\frac{1}{2}$ —1 teaspoonful

three times a day or as prescribed.

Becantyl has no B.P. or N.F. equivalent, is not advertised to the public, and may be prescribed on form E.C.10.

Children are the future...

On the children of today will rest the great responsibilities of tomorrow. Their achievements in the future are linked inseparably with their present-day health and well-being. Children can benefit from the fund of nutritional knowledge established over the years, so well reflected in the recently introduced Vi-MAGNA Syrup. Designed especially to correct inadequate intake or poor utilization of dietary factors, the Syrup provides a full complement of essential vitamins in carefully balanced amounts—daily dose one teaspoonful. It is delightfully flavoured to ensure willing acceptance by the most fastidious youngster.

For Anxiety in Angina Pectoris

Does mental tension cause angina pectoris—or do the attacks themselves lead to nervousness?

Whatever the answer, mental strain often accompanies cardiac distress. Peritrate with Phenobarbitone makes the management of angina cases easier. In one tablet the doctor can make use of the properties both of Peritrate and Phenobarbitone. Peritrate reduces the number of attacks, and their severity when they come, and phenobarbitone offers moderate sedation to allay anxiety.

Taken on a continuing dosage schedule, Peritrate with Phenobarbitone produces a considerable improvement in the patient's condition and outlook.

EAR WAX *Removed this easy way*

The removal of wax from the external auditory meatus has, in the past, normally entailed attendance by the patient for diagnosis and for the prescription of a suitable loosening agent, and a second attendance a few days later for syringing.

Now, by the use of Cerumol Ear Drops, wax can be removed in most cases at one visit. A few drops of Cerumol can be instilled into the ear and, while another patient is being attended to, the soft cerumen dissolves and the harder wax disimpacts. The wax can then be removed by gentle syringing or with cotton wool. The wax may even be found to run out of the ear on its own accord, in which case patients themselves may instil Cerumol at home, obviating further attendances.

Cerumol is anti-bacterial, non-irritating and harmless to the lining of the external auditory meatus or the tympanic membrane. Cerumol is included in Category No. 4 of the M.O.H. classified list of Proprietary Preparations and may be prescribed on N.H.S. Form E.C.10.

FORMULA (Active Constituents per 100 c.c.) :—p-dichlorobenzene B.P.C., 2 gm.; Benzocaine B.P., 3 gm.; Chlorbutol B.P., 5 gm.; Ol. Terebinth B.P., 15 c.c.

PENTOXYLON

endows the anginal patient with a happy, useful life...

'Pentoxylon'—combining two effective and reliable agents, 'Rauwiloid' and P.E.T.N. in one tablet—provides a more comprehensive therapy for angina pectoris than has hitherto been possible using a single preparation. 'Rauwiloid'—a purified and standardized alkaloidal extract of *Rauwolfia serpentina*—has pronounced tranquillizing, bradycardic and stress-relieving properties; P.E.T.N. (pentaerythrityltetranitrate) is a powerful, long-lasting coronary vasodilator.

'Pentoxylon' not only relieves the coronary spasm, but helps to *prevent* attacks—reducing the apprehension of the patient living in dread of the next onset of pain, and so checking the cycle at its commencement.

- * *Reduces tachycardia*
- * *Increases exercise tolerance*
- * *Reduces nitroglycerin needs*
- * *Allays apprehension and anxiety*
- * *Lowers blood pressure when this is raised*

Each 'Pentoxylon' tablet contains 'Rauwiloid' 1 mg. and P.E.T.N. (pentaerythrityltetranitrate) 10 mg. The usual dose is one tablet four times daily always *before* meals. Up to eight tablets daily are well tolerated.

Descriptive literature will be supplied on request.

★ CHOLEDYL

A major advance in ORAL xanthine therapy

Choledyl is an effective bronchodilator and spasmolytic with clinical superiority to oral aminophylline and composite drugs containing aminophylline.

The most striking effects from the use of Choledyl are shown in the relief of the mild chronic state of bronchospasm and the reduction in the occurrence of acute attacks.

Choledyl provides theophylline blood levels up to 75 per cent. higher than those obtained with oral aminophylline and it is essentially non-toxic in clinically effective dosage levels.

PRESENTATION:—

Choledyl is available in tablet form in two strengths, each tablet containing choline theophyllinate 100 mg. (coloured pink) or 200 mg. (coloured yellow). Supplied in bottles of 100 and 500 tablets.

Diabetic Neuropathies

- Complications involving the nervous
- system have long been recognized as a
- feature of diabetes. If the peripheral
- nerves are affected, administration of the
- whole vitamin B complex has been advo-
- cated. The therapeutic response to the
- entire B complex has been found to be
- considerably better than to thiamine alone.
- Although the parenteral route is recom-
- mended in the early stages of treatment,
- oral administration may be sufficient later.

- Marmite yeast extract supplies all known
- factors of the vitamin B complex in a
- palatable form. It can be incorporated
- readily in the diabetic diet and, as it
- contains only a negligible quantity of
- carbohydrate, it need not be taken into
- the dietary calculations.

MARMITE yeast extract

RIBOFLAVIN (vitamin B₂) 1.5 mg. per oz. NIACIN (nicotinic acid) 16.5 mg. per oz.

This is a ROVER year

The new Rover programme introduces a 5-car range . . . gives every motorist the chance to own a Rover that exactly meets his needs. All models from the economical 2-litre 60 to the 100 m.p.h. newcomers—the 105R, with automatic transmission, and the exciting 105S—have a look and feel of quality that few cars on the road can match. Overall design is greatly improved by a new front contour which gives bolder, cleaner lines.

THE NEW FIVE-CAR RANGE

● **THE 2-LITRE 60** Like all Rovers, a lively performer and superb to handle, with exceptional economy.

● **THE 75** This famous model combines the smooth power of a 6-cylinder engine with surprisingly low fuel consumption.

● **THE 90** For high-spirited performance with Rover smoothness, silence and comfort. Fitted with power brakes.

Automatic overdrive is available as an optional extra on all the above models, taking the place of the free-wheel on the 2-litre 60 and the 75. This gives a higher maximum speed and sustained fast and silent cruising at low engine speeds with a consequent reduction in petrol consumption and engine wear.

● **THE ROVER 105R** A new luxury car fitted with ROVERDRIVE—fully automatic, 2-pedal transmission with built-in automatic overdrive. Here is a high performance car for effortless driving in town traffic or on the open road.

● **THE ROVER 105S** Powered by the same twin carburettor engine as the 105R, this model has a conventional transmission system with automatic overdrive. The result is the liveliest Rover in the range, with superb acceleration to 100 m.p.h., and an inspiring all round road performance.

*When prescribing infra-red
or ultra-violet rays for
self-treatment ...*

... remember these advantages
of **PHILIPS** Health lamps

(Made in Holland)

INFRAPHIL MODEL "B"

This is a simply constructed and lightweight lamp that helps, quickly and comfortably, to relieve many ailments of a rheumatic nature. The patient can, after medical advice, give himself home treatment in a standing, sitting or lying position and in any room where there is an electric point. The lamp is obtainable only on production of a signed medical certificate. Price £3.3.0.

INFRAPHIL MODEL "A"

Basically, this is the same lamp as the one above. It has, however, been given a stream-lined, robust stand, the base of which enables the lamp to be more easily fixed to a wall and the rays directed downwards. INFRAPHIL is particularly suitable for sportsmen and athletes, who will use it as an aid to massage and for the relief of sprains, bruises and muscular fatigue. Obtainable on medical certificate only. Price £4.4.0.

Ultra-violet SUNLAMP

Compact and attractive in appearance, this Philips ultra-violet lamp has the double advantage of portability and manoeuvrability. It is simple and safe for your patients to use, under Medical Guidance, in the comfort of their own home. Goggles are, of course, essential and these are provided with the lamp. Again, a signed medical certificate is necessary for purchase. Price £5.17.6.

*We shall be glad to supply further
details of any of these lamps. Please

ABSTRACTS OF WORLD MEDICINE

A monthly journal of informative abstracts—dealing in each issue with a comprehensive range of subjects.

A single journal which will keep you informed of developments in every part of the world throughout the whole field of medicine.

Bringing you, from over 1,600 medical periodicals, the significant contributions to the sum of medical knowledge and experience.

The Abstracts are grouped in sections which bring together material collected from widely differing sources. They contain sufficient material to give a bird's-eye view of work done and results achieved.

More than 400 abstracters, each an expert in his field, work under the guidance of an experienced editorial staff.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR:** Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners:* £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners:* £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER:** Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum. If the post is resident a deduction of £170 per annum is made.

**Gradual
and
sustained
lowering
of blood
pressure**

SEOMINAL is primarily indicated in mild or moderate degrees of hypertension. It induces a feeling of calmness and tranquillity without drowsiness, and relieves symptoms such as dyspnoea, congestive headache and vertigo. The hypotensive effect of Seominal is gradual, and may not be apparent for some weeks. The initial dosage is usually two tablets daily, later reduced to one or half a tablet daily.

SEOMINAL

Trade Mark

Each tablet of Seominal contains 'Luminal' 10 mg. (approx. gr. 1/6), theobromine 325 mg. (gr. 5), reserpine (alkaloid of rauwolfia) 0.2 mg.
