Reagent Tablets for the detection of

GLYCOSURIA

KETONURIA

Both tests performed simultaneously in one minute!

'Clinitest' tablets have been widely used and prescribed since 1947. Many valuable hours have been saved. Following successful clinical trials, the makers of 'CLINITEST' have produced 'Acetest' reagent tablets for the detection of Ketonuria. Reliable routine sugar and acetone tests can now be carried out *together* in one minute!

'CLINITEST'

No external heating. No measuring of reagents.

Approved by the Medical Advisory Committee of the Diabetic Association.

Available under the N.H.S. on Form E.C.10.

(Basic Drug Tariff Prices: Set 6/8d. complete. Refill bottles of 36 Tablets 2/4d.)

'CLINITEST'

HOSPITAL EQUIPMENT

An invaluable time-saver in wards and clinics. Write for details and hospital prices.

The advantages of 'ACETEST'

A single tablet provides all the reagents required. Low cost permits use as a screening procedure or as a routine for diabetic patients. No danger of false positives with normal urine. No caustic reagents.

- 1 Put 1 drop of urine on tablet.
- 2 Take reading at 30 seconds. Compare tablet to colour chart provided.
- 3 Record results as negative, trace moderate or strongly positive.

Available under the N.H.S. on Form E.C.10. Basic Drug Tariff price 3/10 per bottle of 100 tablets (with colour scale).

The complete answer for macrocytic anæmias

Clinical experience over a decade has established that the administration of Anahæmin constitutes the most effective form of treatment for pernicious anæmia.

Anahæmin produces, with small and comparatively infrequent doses, a prompt and satisfactory erythropoiesis in patients in relapse, it ensures the

maintenance of a normal erythrocyte level in patients in remission and is effective in preventing the onset of subacute combined degeneration of the cord. Anahæmin has also been found to be of value in the treatment of herpes zoster and post-herpetic neuralgia. The suggested dosage is 4 ml. on alternate days until relief is obtained.

'ANAHÆMIN'

Anahæmin is available in:

1 ml. ampoules, Boxes of 6 at 11/4, 25 at 43/4
2 ml. ampoules, Boxes of 6 at 19/-, 25 at 74/-
Vials of 10 ml. at 14/8 and 25 ml. at 35/10

The esters of NICOTINIC, SALICYLIC and p-AMINO BENZOIC acids bring relief to cases of arthritis and rheumatism

"Thank you, doctor"

IN CASES OF soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

In two years Becantyl has become an established treatment for useless cough—

*Especially with
children and old people,
No side-effects*

Unrelated to morphine derivatives or guaiacol and with none of their disadvantages, Becantyl suppresses useless cough. The active ingredient in Becantyl is Sodium-2 : 6-ditertiarybutyl-naphthalene monosulphonate. This chemical, which does not cause constipation, anorexia, drowsiness or other side-effects, is the result of original research.

These characteristics make Becantyl especially valuable for the treatment of useless cough in children and old people.

Becantyl is available in 4 fluid-ounce bottles, and also in 40 fluid-ounce and 80 fluid-ounce dispensing bottles.

The suggested doses are:—

Adults: 2 teaspoonfuls

Children: 3—6 years: $\frac{1}{2}$ teaspoonful
7—15 years: $\frac{1}{2}$ —1 teaspoonful
three times a day or as prescribed.

Becantyl has no B.P. or N.F. equivalent, is not advertised to the public, and may be prescribed on form E.C.10.

The broom-shaped mould

As long ago as 1701, the Italian botanist Micheli described *MUCOR PENICILLATUS*, which means simply the broom-shaped mould. It is a far cry from this pre-Linnaean classification of *PENICILLIUM* to the researches of Fleming, Florey and Chain, yet the name is apter than anyone knew, for what antibiotic makes a cleaner sweep of pathogenic organisms?

Penicillin is not a cure-all, nor has it been superseded by the newer antibiotics. It is active against all the diseases caused by penicillin-sensitive organisms: no more and no less. World-wide research has so far failed to disclose any substance possessing penicillin's unique blend of high efficacy and low toxicity. It is the best known and the most versatile of antibacterial substances, pharmacologically almost inert yet therapeutically invaluable. And: "There has been no clear demonstration that a strain of *STAPHYLOCOCCUS*, initially sensitive to penicillin, has, under the impact of therapy in a given case, become resistant".*

Glaxo penicillin has now been fully available to the general practitioner for ten years. We helped to pioneer its manufacture in this country; our knowledge of it is unrivalled; we are responsible for more than half of the country's present penicillin production.

*Annals N.Y. Acad. Sci., 1954, 59, 243.

Among the nineteen Glaxo penicillin products the first and most versatile is

The most suitable iron

FERROMYN (*Ferrous Succinate*) has been proved clinically to offer the most acceptable form of iron for oral administration in the treatment of hypochromic anæmias.

RECENT FINDINGS

In a clinical trial* conducted this year a therapeutic comparison was made between Oral (*Ferromyn*), Intramuscular and Intravenous methods of iron administration. "...and unless the patient is very near term this (*Ferromyn*) is the method of choice in the first instance, even for severe degrees of iron-deficiency anæmia."

* *British Medical Journal* (1956), 2, 638

FERROMYN is presented in four forms:

FERROMYN TABLETS & FERROMYN ELIXIR Each tablet/teaspoonful contains: *Ferrous Succinate* 150 mg.

FERROMYN 'B' TABLETS & ELIXIR FERROMYN 'B' Each tablet/teaspoonful contains: *Ferrous Succinate* 150 mg. *Aneurine Hydrochloride* 1 mg. *Riboflavin* 1 mg. *Nicotinamide* 10 mg.

Rubriment relieves pain in such conditions as muscular rheumatism, fibrositis, strains and sprains.

Some minutes after application the skin becomes flushed and there is a comforting feeling of warmth which persists for many hours.

RUBRIMENT

A new long-acting rubefacient— safe and effective

Rubriment is a product of original research.

For some years it has been known that some chemicals when applied to the skin produce redness and warmth. Rubriment is based on a new substance, the benzyl ester of nicotinic acid, which has been demonstrated to give a long-lasting rubefacient effect without any damage or irritation to the skin even after prolonged and repeated application.

Ten minutes after application of Rubriment there is a comforting feeling of warmth and the area is seen to be

flushed. This redness is due to the dilatation of the small cutaneous blood-vessels. This persists, without danger of irritation to the skin. Clinical reports have been received of the efficacy of Rubriment for the relief of pain in such conditions as muscular rheumatism, lumbago, fibrositis, strains and sprains. The immediate and prolonged vasodilatory action of Rubriment also provides effective relief for unbroken chilblains.

Whenever counter-irritation is indicated, Rubriment is the preparation of choice for the patient.

Available in two forms

Rubriment (2.5% nicotinic acid benzyl ester and 0.1% Capsicin) is available either as a cream or as a liniment, both of which are non-greasy. The cream is rapidly absorbed and needs only gentle

application. *It is supplied in tubes of 20 g. (Approx.). BASIC PRICE to N.H.S., 2/2d.*

The liniment lends itself to massage, if this is required. *It is supplied in bottles of 2 fl. ozs. (approx.). BASIC PRICE to N.H.S., 3/-.*

Directions for use Apply Rubriment to the affected area. As Rubriment causes a stinging sensation in contact with the eyes and face, the hands should be well washed after use.

One application per day has been found to be effective for

the majority of patients, though a fresh application may be made, if necessary, at more frequent intervals.

Rubriment is not advertised to the public and can be prescribed on form E.C.10.

CHEMOTHERAPY

OF TUBERCULOSIS

B-PAS WANDER PRODUCTS

These are now in unrestricted supply to provide the significant advantages of the newest clinically proven modification of PAS, i.e., B-PAS (4-Benzoylamino-2-hydroxybenzoic acid).

Extensive published reports based on the criteria of bacteriostatic levels, tolerability and clinical results show that B-PAS (Wander), first introduced by our Research Laboratories in 1948, is a major contribution to tuberculotherapy.

Calcium B-PAS (Wander) is virtually insoluble; hence its slower absorption and excretion, and ability to provide high blood levels of extended duration, but with relatively low dosage. In contradistinction to other forms of PAS, B-PAS (Wander) is entirely free from unpleasant taste. It is thus acceptable to patients in easily taken powder form, as well as in cachets if preferred. The powder form is supplied in convenient single-dose envelopes, or in bulk in any quantity.

PACKS—Powder: Tins of 150 and 500 x 3.5 g. envelopes.
Cachets: „ „ 80 and 400 x 1.0 g.

Sodium B-PAS (Wander) also available in 1.5 g. Cachets

'B-PASINAH' WANDER

combined B-PAS and Isoniazid (INAH)

To facilitate concurrent administration of B-PAS (Wander) and INAH, this product is formulated so that 12 Cachets daily in divided dosage provides 12 g. of Calcium B-PAS (Wander) plus 300 mg. of INAH.

PACKS—Cachets each containing 1 g. B-PAS (Wander)
and 25 mg. INAH: Tins of 100 and 500.

Full Abstracts from Literature on B-PAS, also details of institutional quantities and prices, sent on request.

*All Wander tuberculostatic products
may be obtained from usual pharmacists or direct from*

Surgery time cut by hours!

A prominent doctor writes :—

"I have had a Fonadek for 18 months, and cut down surgery time by a considerable amount of hours. One instance stands out—I had a very ill patient who came to this surgery, and immediate admission to hospital was essential. I sent the patient into the waiting room, and using the Fonadek, was able to contact the Emergency Bed Service, while continuing the surgery.

I saw four patients before Bed Service had found me a bed."

dose: *1-2 100 mg. Ovets three times a day and 2-4 Ovets at bedtime.*

Will Doctors ever rule the Earth?

Does that seem so very illogical? Is it not possible or indeed probable that in the distant future such a thing could well come about? When nation has ceased to fight nation may not a greater war begin? An all-out war on man's natural enemies. A war in which man is united against those things that mar his health and curtail his very existence? Led by the future's finest medical minds and with every resource, both physical and financial, this humane army could so speed the march of medical progress, could wield such power for good, that all other human activities would be put secondary. Sooner or later will not future man subscribe wholeheartedly to the science of life? Will he not extol those dedicated to his well-being and survival? And will they not become exalted throughout the Earth? But pause awhile and consider. What will be their weapons in this fight of fights? Surely they won't still be the stethoscope or the scalpel. Neither will they be the antibiotics of this present age. Or will they? Perhaps such "wonder drugs" as Terramycin will still be the medical man's most powerful weapon. Perhaps broad-spectrums will even then play a leading role in conquering man's afflictions. But who is so bold as to predict the future? One can only use today's foremost weapons to the extent of today's foremost knowledge to probe the future and treat the present. Medical men of another age will stand on our shoulders and see further. Will it be they who rule the Earth?

Terramycin is the Trade Mark of Chas. Pfizer & Co. Inc., for their brand of Oxytetracycline

It may be simple enough to prescribe an effective reducing diet but how easy it is for the patient to break his dietary intentions. REVICAPS REducing VItamin CAPsules help the patient to keep to the prescribed diet. They contain d-amphetamine to suppress appetite and elevate mood, bulk-producing methylcellulose to allay hunger and also a full complement of essential vitamins and minerals to offset the very risk of nutritional deficiency that many reducing diets entail.

When you
advise starting baby
on SOLIDS...

...consider the
advantages of Scott's
Twin-Pack, two cereals
packed separately in
one container

INFORMATION
FOR DOCTORS & NURSES
ON
Scott's
TWIN-PACK
baby-cereal

Scott's Twin-Pack feeds, protects, soothes and educates. It feeds because each ounce gives over 100 calories. It protects and soothes because it is fortified by the addition of Vitamin D, calcium and trace elements, whilst it also contains Vitamin B₁ which is associated with the development of healthy nerve tissues. Moreover, Scott's Twin-Pack is easily digested and assimilated. Finally, Scott's Twin-Pack helps to educate baby's taste and pave the way towards a full varied diet, because each of the two cereals has its own distinct flavour.

Scott's Twin-Pack consists of pre-cooked and prepared oats and wheat, each in a separate waxed paper container, within the specially protected outer pack. It accords perfectly with modern teaching of the early addition of solids and variety to a baby's diet.

THE ANALYSES BELOW
give you the full nutritional details:-

OAT

Scott's Baby Cereal—Oat consists of oat flour, malt extract, bone phosphate, dried yeast, salt, iron and ammonium citrate, manganese sulphate, copper sulphate and calciferol (Vitamin D.)

	per cent.		gram. per oz.	
Fat (by acid hydrolysis)	6.2	Fat (by acid hydrolysis)	1.78

'Dettol' is active...

REGD.

against both Gram-positive and
Gram-negative micro-organisms.

Under standard conditions of test a dilution of
1 in 200 kills Staph. aureus in 10 minutes;
a 1 in 500 dilution kills Strep. pyogenes
in 10 minutes.

'Dettol' retains a high degree of efficiency in the presence
of organic matter.

'Dettol' is not incompatible with soap, traces of which
need not be removed before application.

'Dettol' is non-poisonous and non-staining.

'Dettol' is well tolerated by the skin and tissues.

INSTRUMENT 'DETTOL'

Instrument Dettol is widely used as a most effective and practical means of disinfecting surgical instruments—steel, stainless steel and plated, as well as glassware, rubber appliances and nylon sutures.

SURGICAL 'DETTOL'

Surgical Dettol is a specially formulated tincture for the surgical preparation

of the skin. It remains actively bactericidal for a considerable period after drying. It dries quickly and leaves a non-slippery surface. Bactericidal action is not adversely affected by the use of ordinary soap solutions. Surgical Dettol in clinical use has proved non-toxic and non-irritant when used in accordance with the directions.

"The time has come"

.....the doctor said

*"To talk of many things:
Of coughs—and hacks—and
tossing nights—
Of eyes with purple rings.
And why the throat is raspy hot
And whether coughs have wings."*

With apologies to Lewis Carroll

The time has definitely come to talk of Lipect, for Lipect is not just another 'new remedy'. It is a carefully balanced combination of the powerful and safe cough suppressant, pholcodine with the antihistaminic, antazoline hydrochloride and the expectorant ipecacuanha. Lipect not only relieves ineffectual hacking but will also control allergic bronchospasm and stimulate expectoration. In addition, it is pleasantly flavoured, a feature that makes it readily acceptable to young and old alike.

LIPECT

Cough Elixir

Packs: Bottles of 4 fl. oz.

*Each 4 c.c. teaspoonful contains: 4 mg. Pholcodine,
12.5 mg. Antazoline Hydrochloride,
0.03 c.c. Ext. Ipecac. Liq., 3.2 gr. Sucrose.*

Introducing **'migril'** TRADE MARK for

3D *relief in migraine*

Dispels headache

Disperses visual disturbances

Defeats nausea and vomiting

A new product—'Migril'—provides, for the first time, a successful 3-way attack on migraine.

'Migril' contains ergotamine tartrate (2 mgm.), caffeine (100 mgm.) and cyclizine hydrochloride (50 mgm.) in each tablet. The inclusion of cyclizine hydrochloride not only eliminates the nausea and vomiting often associated with migraine but also **enables larger and more effective doses of ergotamine to be administered.**

BURROUGHS WELLCOME & CO. (THE WELLCOME FOUNDATION LTD.) **LONDON**

THE menopausal patient on 'Premarin' therapy can usually expect a rapid readjustment to her new physiological environment. Outstanding among the advantages of 'Premarin' are the prompt relief of symptoms noted in the majority of cases, and the virtual absence of untoward side effects. Furthermore, the sense of well-being so frequently imparted tends to restore a normal mental outlook.

'Premarin' an effective natural oestrogen

'Premarin' contains: Oestrone sulphate plus the sulphates of equilin, equilenin, β -oestradiol, β -dihydroequilenin, and other conjugated steroids. Available as tablets of 0.625 mg. (100 and 1,000) and 1.25 mg. (30, 100 and 1,000).

Ph.685

Counter hypertension with

RAUWILOID+VERILOID

**. . . . a safe yet powerful
combination**

The standardized hypotensive alkaloids of *Rauwolfia serpentina* ('Rauwiloid') and *Veratrum viride* ('Veriloid') together provide a most effective and safe oral treatment for moderate to severe degrees of hypertension. 'Rauwiloid' widens the margin between the emetic and the antihypertensive doses of 'Veriloid', and enables therapeutic doses of 'Veriloid' to be given in almost every case of hypertension. This combination of drugs exerts a steady and prolonged hypotensive effect, and produces the minimum of discomfort to the patient.

"The addition of 'Rauwiloid' makes 'Veriloid' easy to administer, more effective and practically does away with unpleasant side-actions".

Amer. J. Med., (1954) 17:629

'Rauwiloid + Veriloid' tablets each contain 1 mg. of the alkaloids of *Rauwolfia serpentina* and 3 mg. (by biological assay in terms of reference standard) of those of *Veratrum viride*. The starting dosage is one tablet three times daily. The tablets are available in bottles of 100 and 500.

Full literature on request.

'Rauwiloid' and 'Veriloid' are registered trade-marks. Regd. Users :

LOUGHBOROUGH LEICS

Keeping the Peptic Ulcer Patient in the Comfort Zone

Each 10 c.c. of 'Kolantyl' Gel contain:

- 400 mg. Dried Aluminium Hydroxide Gel.
- 200 mg. Magnesium Oxide.
- 5 mg. 'Merbentyl'
- 100 mg. Methycellulose
- 25 mg. Sodium Lauryl Sulphate.

Tablets containing these ingredients are also prepared.

Availability: 'Kolantyl' Gel is supplied in bottles of 12 fl. oz. 'Kolantyl' tablets in bottles of 50 and 250.

Dosage: 2-4 large teaspoonfuls of 'Kolantyl' Gel (or 2 tablets) three or four times daily. In severe cases a dose may be taken every three hours.

'Kolantyl' Gel maintains the stomach pH within a zone that ensures freedom from the pain of hyperacidity. The valuable anticholinergic and smooth muscle relaxing properties of the 'Merbentyl' component extend the antacid activity over a longer period by reducing peristalsis. This effect is particularly valuable at night. The complementary antacids avoid constipation or undue laxation, and there is no acid rebound.

KOLANTYL GEL

relieves ulcer pain very effectively

The *preferred* Oral Penicillin

Acid-Stable

'Distaquaine' V

trade mark

crystalline penicillin V, free acid

'DISTAQUAINE' V, containing crystalline penicillin V (free acid form), is unaffected by the gastric acidity and for this reason alone is to be preferred to other penicillins for oral administration. Furthermore, it is efficiently absorbed and offers a reliable alternative to parenteral penicillin therapy. Three preparations are available:

'Distaquaine' V TABLETS

60 mg. scored tablets
Bottles of 30, 200 and 1,000

DOSAGE

ADULTS—One or more tablets at four-hourly intervals.
CHILDREN—Half the adult dose.

'Distaquaine' V ELIXIR

30 mg. dose (1.75 ml.) Bottle of 2 fl. oz. (30 doses). A plastic spoon of 1.75 ml. ($\frac{1}{2}$ fl. dr.) is provided.

DOSAGE

CHILDREN—One or more spoonfuls (30 mg.) at four-hourly intervals.
ADULTS—At least two spoonfuls (3.5 ml.—1 fl. dr.) at four-hourly intervals.

'Distaquaine' V SULPHA

Each scored tablet contains 60 mg. penicillin V, 0.30 gramme sulphadimidine and 0.14 gramme sulphamerazine. Bottles of 30, 200 and 1,000

DOSAGE

ADULTS—Two tablets initially, followed by one or two tablets at four-hourly intervals.
CHILDREN—Half the adult dose.

EQUIPMENT ACCESSORIES

**WEIGHT CANISTER**

New, white polythene weight canister of smart appearance.

Fitted with lid and metal handle. The can will take approximately 18–20 lb. of lead shot.

**WEIGHT CARRYING CASE**

Made from black vulcanized fibre for carrying all standard sets of weights. Specially designed with adjustable handle for easy carrying by nursing staff. For use with any extension apparatus, the total length is 21½ inches by 4 inches diameter.

EXTENSION APPARATUS

This extension apparatus can be adapted for use on any type of bed, couch or divan. It consists of 4 parts—main pulley arm, top double arm clamp, bottom single arm clamp and extension arm. Recommended for all types of extension and traction, limb extension (in conjunction with splints), exercises with weights, etc. Total weight 4½ lb. Total height with extension arm, 54 inches.

**BED BLOCKS**

Made from black vulcanized fibre in 3, 4 and 5 inch heights, or inter-fitting to make a variation of seven heights in all—3, 4, 5, 7, 8, 9 and 12 inch. The blocks stack inside each other, taking up little storage space. The total weight of the six pieces is 1 lb. 4 oz. They have been tested to take any weight up to 80 stones and are competitive in price.

EAR WAX *Removed this easy way*

The removal of wax from the external auditory meatus has, in the past, normally entailed attendance by the patient for diagnosis and for the prescription of a suitable loosening agent, and a second attendance a few days later for syringing.

Now, by the use of Cerumol Ear Drops, wax can be removed in most cases at one visit. A few drops of Cerumol can be instilled into the ear and, while another patient is being attended to, the soft cerumen dissolves and the harder wax disimpacts. The wax can then be removed by gentle syringing or with cotton wool. The wax may even be found to run out of the ear on its own accord, in which case patients themselves may instil Cerumol at home, obviating further attendances.

Cerumol is anti-bacterial, non-irritating and harmless to the lining of the external auditory meatus or the tympanic membrane. Cerumol is included in Category No. 4 of the M.O.H. classified list of Proprietary Preparations and may be prescribed on N.H.S. Form E.C.10.

FORMULA (Active Constituents per 100 c.c.):—p-dichlorobenzene B.P.C., 2 gm.; Benzocaine B.P., 3 gm.; Chlorbutol B.P., 5 gm.; Ol. Terebinth B.P., 15 c.c.

PACKS:—For Surgery Use: 10 c.c. vial—separate dropper included. (Basic N.H.S. price 2/8.) For Hospital Use: 2 oz. and 10 oz. bottles.

VITAMINS LIMITED

Cost of Drugs only 5 p.c. of Health Service Bill

At the Annual General Meeting of Vitamins Ltd., held in London in September, the Chairman, Mr. H. C. H. Graves drew attention to the misleading impression in existence concerning the cost of drugs to the National Health Service.

The Shareholders — and 99.99 per cent of the electorate of this country — had been led, he said, to believe by those who, in his opinion, should know better, that if the National Health Service foundered on the financial rocks, it would be due to the “high cost of drugs”. Such a statement or impression was the reverse of the truth. Of the total cost of the National Health Service the cost of the medicines which it used accounted for 5 per cent — the other 95 per cent was made up of other costs including administration. The 1955/6 estimates alone showed an increase of £41,000,000 in the “other” costs, a sum greater than the whole of the drug bill for the year. The concentration of public attention on the 5 per cent, however, had undoubtedly served as a most effective diversionary effort or smoke screen to obscure criticism of the other 95 per cent of the expenditure.

During the past financial year sales of Bemax had set a new record in excess of anything achieved in the post war era. It was no doubt a tribute to the marked effect on health of regular Bemax that the product was so well known throughout the length and breadth of the land and indeed in most parts of the civilized world. Many complaints were heard these days of a feeling of frustration, or of undue fatigue or of being under par. We heard of listless children, of infants who did not grow as quickly as they should. The National Health Service treated them and us when we were ill but what about when we were not ill but below par? It was that twilight stage, that stage of betwixt and between, which most dramatically benefited from the steady use of Bemax. How different many of the frustrated and listless would be on Bemax.

The report and accounts were adopted.

VITAVEL SYRUP

Vitavel Syrup is a preparation containing the four principal vitamins — A, B₁, C & D—in an orange juice base with liquid glucose added. There is no smell or taste of fish oils.

Safe

Effective

Therapy

with 'Hydrocortone'

in

Nasal Allergy and Rhinitis

'HYDROSPRAY' provides in one convenient form hydrocortisone, 'Propadrin', and neomycin, three agents with specific actions against all the common manifestations of inflammatory and allergic conditions in the nose. 'Propadrin', a vaso-constrictor, reduces congestion and allows better penetration of hydrocortisone and neomycin to the affected sinuses.

Neomycin is desirable for control of existing infection and for prevention of secondary bacterial invasion.

Hydrocortisone exerts its powerful anti-inflammatory and anti-allergic effects where they are most needed.

Steroid side-effects need not be expected. Relief is immediate.

'HYDROSPRAY' is supplied in a specially designed 15 ml. applicator giving spray or drops as required.

Indications

Hay Fever

Vasomotor Rhinitis

Acute Inflammatory Rhinitis

Chronic Inflammatory Rhinitis

Allergic Rhinitis

Allergic Rhinitis with Polyps

Just the right combination

Cold, damp and smoke — just the right combination to produce the fog which sets people coughing and sends them to their doctor in search of relief. And relief is readily available with the M&B brand cough linctus 'Phensedyl', which contains promethazine for its prolonged antihistamine, local analgesic and central sedative action, ephedrine for its broncho-dilator activity and codeine for its depressant effect on the cough reflex. Whatever the cause of cough — whether it is "smog", smoking, the aftermath of influenza, or a more serious condition — these properties of 'Phensedyl' usually bring relief. They provide the right combination.

Supplied in bottles of 4 and 40 fl. oz. Each 3·6 c.c. (approximately 1 teaspoonful) contains:

Promethazine Hydrochloride B.P. 3·6 mgm
Codeine Phosphate B.P...... 9 mgm.
Ephedrine Hydrochloride B.P...... 7·2 mgm.

Safety, simplicity and digestibility in

INFANT FEEDING

Safe—Libby's Evaporated Milk is fresh cow's milk concentrated, sealed in cans and sterilized so that it remains sweet and safe indefinitely. It cannot cause diarrhoea or other digestive symptoms due to bacterial contamination.

Simple—In making the formula, no boiling or straining of the milk is required. It is prepared simply by adding boiled water and granulated sugar.

Easily Digested—Digestibility depends upon low curd tension and small curd particle size.—The sterilization by heat of Libby's Milk is far more effective than is boiling in lowering curd tension.

BUT curd particle size is an even more important index of digestibility than is curd tension, as shown by Doan and co-workers in the United States. Libby's Evaporated Milk, reconstituted with water and curdled with rennin, which approximates conditions occurring in the infant's stomach, remains liquid with suspension of extremely fine curds, similar to human milk, and much finer than curd from boiled or any other kind of cow's milk.

Nutrition in Geriatrics

An adequate diet plays a considerable part in maintaining the health and vitality of the elderly. Although this fact is well known, malnutrition tends to be more prevalent in the higher age groups, as physical and economic factors may restrict the choice of food and render preparation and cooking troublesome.

Marmite is a useful source of the B vitamins and has the added advantage of requiring very little preparation. Sandwiches made with Marmite are very popular with old people, who appreciate the piquant flavour. Appetising drinks can also be quickly made by stirring Marmite into boiling water or hot milk.

MARMITE

yeast extract

contains

Riboflavin (vitamin B₂) 1.5 mg. per oz.
Niacin (nicotinic acid) 16.5 mg. per oz.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum. If the post is resident a deduction of £170 per annum is made.

PUBLIC HEALTH

COUNTY BOROUGH OF HALIFAX

ASSISTANT MEDICAL OFFICER

Applications are invited from duly qualified medical practitioners (male or female) for the appointment of Assistant Medical Officer for Maternal and Child Welfare. Salary £1,050 to £1,475. Possession of D.P.H. desirable, but not essential. Applications endorsed "Assistant Medical Officer," giving details of experience and qualifications, together with copies of two recent testimonials, to be forwarded to the Town Clerk, Town Hall, Halifax, by December 8, 1956. (5445)

COUNTY BOROUGH OF OLDHAM

APPOINTMENT OF ASSISTANT MEDICAL OFFICER OF HEALTH AND ASSISTANT SCHOOL MEDICAL OFFICER

Applications are invited from registered medical practitioners for the above appointment, which affords an excellent opportunity for obtaining experience in the Public Health and School Health Services. Salary £1,050 by £50 to £1,200 by £55 to £1,475 per annum. The point of entry will be fixed according to qualifications and experience. The appointment is superannuable and subject to medical examination. Applications, stating age, qualifications and experience, should be forwarded to the Medical Officer of Health, Public Health Department, Town Hall, Oldham, together with copies of two testimonials, or the names of two persons to whom reference may be made.—Edward Haines, Town Clerk. (5535)

COUNTY BOROUGH OF WEST BROMWICH

Applications are invited from registered medical practitioners for the post of ASSISTANT MEDICAL OFFICER OF HEALTH AND ASSISTANT SCHOOL MEDICAL OFFICER. This post affords an excellent opportunity of acquiring extensive experience in maternity and child welfare, school clinic work and other general duties of a Public Health Department. Possession of the D.P.H. or D.C.H., though not essential, would be an advantage. Salary £1,050 to £1,475 per annum and car allowance. Post superannuable, subject to medical examination and two months' notice. Applications, with full particulars of experience, and names of three referees, to be sent to the undersigned by December 6, 1956.—J. M. Day, Town Clerk, Town Hall, West Bromwich. (5451)

DERBYSHIRE COUNTY COUNCIL
County Health Department

SENIOR MEDICAL OFFICER FOR MENTAL HEALTH

Applications are invited from registered medical practitioners for this whole-time superannuable post. Experience in dealing with educationally subnormal children and mental defectives is necessary for carrying out the duties. The possession of a Diploma in Public Health or in Psychological Medicine would be regarded as an important additional qualification. Salary £1,520 by £50 (1) and £55 (7) to £1,955 per annum. Car allowance. Particulars and application forms obtainable from Dr. J. B. S. Morgan County Medical Officer, St. Mary's Gate, Derby, to whom they should be returned by November 26, 1956. (5333)

NORTHAMPTONSHIRE

APPOINTMENT OF DISTRICT MEDICAL OFFICER OF HEALTH AND ASSISTANT COUNTY MEDICAL OFFICER OF HEALTH

Applications are invited from registered medical practitioners holding a D.P.H. for the appointment of District Medical Officer of Health for the Borough of Daventry and the Rural Districts of Brixworth and Daventry and Assistant County Medical Officer of Health for the same area. The officer will act under the County Medical Officer of Health as Assistant County Medical Officer. The salary scales are (i) for the post of Medical Officer of Health for the District Councils: £920 to £1,030 per annum, and (ii) Assistant County Medical Officer: £656 to £922 per annum. A travelling allowance will be paid on the scale from time to time approved by the County Council. Office accommodation and clerical assistance will be provided. The appointment is subject to (a) the Local Government Act, 1933, and the Sanitary Officers' (Outside London) Regulations, 1935 and 1951, (b) the Local Government Superannuation Acts and (c) the passing of a medical examination. The officer will be required to devote his whole time to the duties of the appointment, to reside within the area for which he acts and to discharge the obligations imposed on a district medical officer of health by the relevant Acts, Orders and Regulations. As regards the duties of District Medical Officer of Health, the officer will be subject to the control and direction of the several Councils. The appointment will be determinable upon three months' notice on either side. Applications, stating age, qualifications and experience, with the names of three referees, should reach the Clerk of the County Council by November 26, 1956.—Alan Turner, Clerk of the County Council, County Hall, Northampton. (5162)

EAST SUFFOLK COUNTY COUNCIL

Applications are invited for appointment of ASSISTANT COUNTY MEDICAL OFFICER (29/44ths) and MEDICAL OFFICER OF HEALTH (15/44ths)

for the Borough of Beccles, the Bungay, Halesworth and Leiston Urban Districts, and the Blyth and Wainford Rural Districts (total population approximately 43,000). Salary, based on current awards, will be between the minimum £1,408 and the maximum £1,800 per annum, rising to maximum by appropriate increments in accordance with the awards. Duties will include school medical inspection, maternity and child welfare work and general public health. D.P.H. essential and previous local authority experience an advantage. Superannuable appointment, subject to satisfactory medical examination, and to provisions of Sanitary Officers' (Outside London) Regulations, 1935. Car allowance on approved national scales. Forms of application and further information obtainable from the County Medical Officer, County Hall, Ipswich, to whom all applications should be returned not later than November 24, 1956.—G. C. Lightfoot, Clerk of the County Council. (5163)

NOTTINGHAMSHIRE COUNTY COUNCIL

APPOINTMENT OF SENIOR ADMINISTRATIVE MEDICAL OFFICER (Male)

Applications are invited for the above appointment from duly qualified and registered medical practitioners who hold a Diploma in Public Health. The post is third in seniority in the department which is responsible for the central administration of the Public Health and School Health Services of the County. Applicants should have had clinical and administrative experience in general public health work and in connexion with the School Health Service. Experience of County work, though not essential, will be an advantage. Salary £1,570 per annum by £50 to £1,620 per annum by £55 per annum to £2,055 per annum. Within this scale the County Council are prepared to take into consideration the existing salary and circumstances of the successful candidate in assessing his commencing salary. Application forms and conditions of appointment are obtainable from me, and completed applications must be returned by December 8, 1956.—A. R. Davis, Clerk of the County Council, Shire Hall, Nottingham. (5382)

WARWICKSHIRE COUNTY COUNCIL

County Medical Officer of Health's Department

ASSISTANT COUNTY MEDICAL OFFICER OF HEALTH (Male or female)

Applications are invited from registered medical practitioners for the above permanent appointment. Preference will be given to those holding the D.P.H. or D.C.H. and with previous experience. Conditions of service and salary (£1,050 to £1,475) will be in accordance with the Whitley Council. The successful candidate will be required to provide a motor car in the performance of duties for which Whitley Council scale allowances are payable. Further particulars, including details of area and duties, and application forms may be obtained from the County Medical Officer of Health, Shire Hall, Warwick. Closing date for applications is December 10, 1956.—L. Edgar Stephens, Clerk of the Council Shire Hall, Warwick. (5161)

INDUSTRIAL APPOINTMENTS

Attention is drawn to the B.M.A. scale of remuneration for Industrial Medical Officers, which is available on request from the Secretary.

NATIONAL COAL BOARD
Durham Division

AREA MEDICAL OFFICER

(No. 4 (South-West Durham) Area at Coundon, Bishop Auckland)

Applications are invited from registered medical practitioners for the above appointment to the Board's Medical Service. The successful applicant will be required to reside within the area. He should preferably be under 40 years of age. Special experience and additional qualifications will be considered in assessing commencing salary within the range £1,400 to £2,150 per annum. Previous experience in general practice or preventive medicine will be an advantage. The duties include all aspects of industrial medicine from pre-employment examination to rehabilitation and supervision of medical centres and first-aid rooms, staffed by State Registered Nurses and first-aid attendants. Frequent visits underground will be necessary. The Board has its own X-ray facilities. Applications, quoting reference EV.127/23, giving date of birth, qualifications and experience in chronological order, and naming two referees, should be sent with 14 days of publication to Divisional Chief Staff Officer, National Coal Board, Durham Division, Staff Department, 7, Side, Newcastle-upon-Tyne, 1. Successful candidates may be posted to any station in Kenya. During earlier years of service an officer will be expected to carry out general medical and surgical duties, including varying amount of public health administration. In most stations, even if remote from larger towns, it is possible to maintain interest in any particular branch of medicine or surgery to which the officer is attracted.

The work of every medical officer is based on a hospital which may vary in size and facilities from small district hospital, meeting needs of comparatively primitive community to large and modern provincial hospital.

Appointments can be made on permanent basis with pension (non-contributory), or on short-term contract with gratuity (taxable) payable on satisfactory completion of service. Normal retiring age is 55. Salary ranges from £1,284 to £2,115 a year, starting point determined by experience. Four extra increments given to successful candidates possessing the F.R.C.S., M.R.C.P., D.P.H., or other approved higher qualifications.

Permanent Medical Officers are eligible to be considered at any time for promotion to super-scale posts in Kenya and other territories in medical administration or, if they possess higher qualification and suitable experience, in specialist posts.

Quarters at rental varying from £30 to £78 a year according to size and type, and furniture at rate varying from £15 to £36 a year. Free passages in both directions for officer and wife and up to cost of one adult fare for children. Taxation at local rates. Annual local leave permissible and generous home leave granted after each tour of from 24 to 45 months. Educational facilities available.

Application forms from Director of Recruitment, Colonial Office, Great Smith Street, London, S.W.1 (quoting BCD 117/7/02). (5217)

WESTERN AUSTRALIA
State Public Service. Mental Health Services**MEDICAL OFFICER, Grade 2**

Applications are invited from medical graduates desirous of specializing in Psychiatry for appointment as Medical Officer under the following conditions:—Salary range: Male, £A.2,097-£A.2,347 (gross) per annum, plus £100 if in possession of a Diploma in psychiatry. Commencing salary within range in accordance with experience. Emoluments: Free furnished residence, fuel, and laundry, or allowance in lieu if residence not available immediately. Scholarship grant: After not less than 18 months' service, leave of absence, if desired, will be given to attend a Diploma course in Psychological Medicine outside the State. A scholarship grant of £1,250, payable in accordance with circumstances, together with certain travelling allowances. Employment (concurrent with study) in the University State or return to W.A. for duty in the interval between study courses will be permissible. The Scholarship Grant is subject to the condition that the grantee will return to the State Mental Health Services after obtaining the Diploma for a period of not less than three years. Location: The hospitals are located in the Metropolitan area. Commencement of duty: On or about March 1, 1957. Conditions of service: Superannuation benefits (transferable), long service leave (three months after each seven years' continuous service), four weeks' annual leave, and other conditions applying to permanent officers under the Public Service Act. Transport: Fares and other reasonable transport expenses incurred by appointee and dependent family in travelling to Western Australia will be payable by State, provided appointee enters into bond to serve State for a period of at least three years. Applicants must be registrable as medical practitioners in Western Australia. Applications, in duplicate, stating age, marital status, qualifications and experience, should be addressed, by December 17, 1956, to Official Secretary, Agent General for Western Australia, 115-116, Strand, London, W.C.2.
