"In these days of economy in prescribing"

Extract from a letter in the BRITISH MEDICAL JOURNAL, August 11th, 1956, p. 374

"A recent annotation in the Journal, on the treatment of constipation, incriminates liquid paraffin as a cause of lipoid pneumonia and as an obstacle to the absorption of fat-soluble substances such as carotene and to the healing of wounds. In these days of economy in prescribing ... the biologically standardized form of senna* ... is cheaper by half than paraffin, is far easier to dispense, and there is no wastage of storage space."

*Senokot.

combination that is hard to beat: neomycin and bacitracin in an ointment base.

Between them these two antibiotics have a wide range of antibacterial activity against gram-positive and gram-negative organisms. They both have an extremely low sensitising potential and negligible irritant properties—so much so, that NEOBACRIN is equally suitable for application to the eye or skin. Moreover, development of resistant strains has not been known to occur with neomycin or bacitracin applied locally.

With benefits so evident, NEOBACRIN is the natural choice for everyday use in outpatients' departments and general practice for treating infections of skin and eye, infected wounds, burns and ulcers.

SMITH & NEPHEW

Armamentarium against tuberculosis

Smith & Nephew play a prominent part in the chemotherapy of tuberculosis. They offer a range of tuberculostatic drugs which includes:—

PYCAZIDE (isoniazid)
PARAMISAN SODIUM (P.A.S.)

PYCAMISAN (P.A.S. + isoniazid)
THERAPAS (alternative to P.A.S)
(Calcium 4-benzamidosalicylate)

NUPASAL -213 (less toxic form of isoniazid) (o-hydroxybenzal isonicotinyl hydrazone)

PYCAZIDE is the Smith & Nephew name for isoniazid. PYCAZIDE syrup (blackcurrant flavoured) is available to permit greater flexibility of dosage than is possible with PYCAZIDE tablets, and is particularly suitable in the treatment of children. One teaspoonful is approximately equivalent to 20 mg. of isoniazid.

P.A.S. and isoniazid are combined in PYCAMISAN cachets in five different strengths enabling "made to measure" dosage to be prescribed with the least waste of time and effort. PYCAMISAN cachets are practically tasteless and easy to swallow and their use offers distinct advantages in domiciliary treatment of tuberculosis.

*PARAMISAN SODIUM' is the sodium salt of P.A.S. (Sodium Aminosalicylate B.P.). It is recommended in the combined chemotherapy of all the forms of tuberculosis. It is rapidly absorbed, rapidly excreted and of low toxicity.

The cachet form of 'PARAMISAN SODIUM' ('PASHETS') makes oral dosage possible without any unpleasant taste in the mouth. Twelve cachets provide a day's requirements of the drug. 'PARAMISAN SODIUM' is also available in tablet form and in ampoules for local or intrathecal injection.

Wherever P.A.S. is indicated **THERAPAS** may be used. It is better tolerated by the patient and has a slightly sweet, not unpleasant taste. THERAPAS is as effective as P.A.S. in delaying the emergence of streptomycin resistance. Its value in the treatment of genitourinary tuberculosis is well established.

As an alternative to isoniazid NUPASAL-213 may be used in cases which have already exhibited toxicity to isoniazid, for the toxicity of NUPASAL-213 is virtually nil.

Dosages and presentations of any or all of these drugs will gladly be sent on request as space does not permit those details to be given in this advertisement.

RAUWILOID Reduces the pressure gradually and safely...

Of proved value in the treatment of mild to moderate hypertension, 'Rauwiloid' is a purified and standardized fraction of Rauwolfia serpentina in tablet form. It lowers elevated blood pressure gradually, slows the pulse rate, and so reduces cardiac effort. A calm, tranquil sense of well-being is induced, without drowsiness, and with little impairment of alertness. Dosage is not critical, and there are no important side-effects or contraindications. Mental depression is unlikely to be encountered when 'Rauwiloid' is used in the recommended dosage. It is the medicament of choice for hypertension in its early stages, in order to arrest progression.

'Rauwiloid' contains 2 mg, of the active hypotensive alkaloids of Rauwolfia serpentina per tablet, undesirable constituents of the crude root being excluded by the extraction process.

Dosage is simple—two tablets taken at bedtime.

Full literature on request.

'Rauwiloid' is a registered trade-mark.

Regd. Users:

RIKER LABORATORIES LIMITED LOUGHBOROUGH

Recommendation without reservation

In the transition from a milk diet to milk-plussolids, the starchy portion of a baby's diet is often increased at the expense of milk and the valuable proteins which milk contains. The ideal first cereal, therefore, should provide not just extra solids but solids in the form of first-class protein.

To this end the vegetable protein of the oat flour in Trufood Cereal Food has been supplemented by milk proteins and important mineral salts. In this way the total protein has been raised to 6.05 grammes per ounce or 21.4%, and the casein and lactalbumin form a valuable complement to the biological value of the total protein.

The Trufood Creameries and Laboratories are at Wrenbury in Cheshire. Full information on any Trufood product is available from Trufood Limited, 113 Newington Causeway, London, S.E.1.

SAFE SYMPTOMATIC RELIEF FOR THE ANXIOUS PATIENT

OBLIVON-C is a new, long-acting derivative of Oblivon in tablet form, with the same wide margin of safety and freedom from side effects. In the treatment of anxiety states OBLIVON-C gives day-long freedom from tension and creates a climate of confidence in which simple reassurance can be accepted.

presentation: OBLIVON-C is presented as Ovets, each containing 100 mg. of methylpentynol carbamate. Containers of 100.

dose: 1-2 100 mg. Ovets three times a day and 2-4 Ovets at bedtime.

A PRODUCT OF SEARLE RESEARCH

MICTINE

Effective,
Non-Mercurial
Oral Diuretic

STRUCTURE

"Mictine," brand of aminometradine, is 1-allyl-3ethyl-6-aminotetrahydropyrimidinedione. It avoids the undesirable side-effects associated with mercurial, xanthine or sulphonamide agents.

ACTION AND EFFECTIVENESS

"Mictine" is believed to act by inhibition of sodium ion absorption in the renal tubule. In therapeutic dosage it has not caused any effect on glomerular filtration rate, renal plasma flow, cardiac output, heart rate or blood pressure, nor any alteration in the blood or blood-forming tissues or in renal or hepatic function. In a group of unselected patients 70 per cent. may be expected to respond to "Mictine".

TOLERANCE

"Mictine" is not toxic at therapeutic dosages. On the other hand, side-effects do occur such as headache and gastro-intestinal symptoms. These are reduced to a minimum if an interrupted dosage scheme is adopted.

ADMINISTRATION

"Mictine" is indicated in the maintenance of an oedema-free state in any patient requiring diuretic therapy and the effecting of initial diuresis in all patients but those with severe congestive failure. For these purposes the dosage is one to four tablets daily in divided doses during meals on alternate

days or on three successive days followed by four days without therapy. "Mictine" is not intended to produce initial diuresis in more severe congestive failure; however, "Mictine" may be given when other diuretics are contra-indicated, or if tolerance to them has developed.

Available in bottles of 25, 100 and 500 tablets each containing 200 mg. aminometradine.

Full literature is available to the medical profession on request. G. D. Searle & Co. Ltd., High Wycombe, Bucks. Tel. High Wycombe 1770.

Where vitamin C

is indicated...

Delrosa Rose Hip Syrup provides Vitamin C in a convenient form. It is readily tolerated by babies, and children of all ages find it extremely palatable. Delrosa is made from rose-hips, the richest source of Natural Vitamin C and contains nearly three times as much Vitamin C as Blackcurrant Syrup B.P.C. and three-times as much as Fresh Orange Juice.

We shall be pleased to send a full size bottle for clinical trial, on request.

SCOTT & TURNER, ANDREWS HOUSE, NEWCASTLE-UPON-TYNE.

Quickly into action

The high solubility and low acetylation of Urolucosil mean that it is rapidly excreted into the urinary tract without risk of crystalluria. As a result, high urine concentrations can be quickly attained.

That is why Urolucosil is so effective against B. coli infections of the urinary tract. Small doses are highly effective, and side-effects are rare. The maintenance dose of Urolucosil can be continued for many months without risk of toxic reactions.

Active Principle: Sulphamethizole 0.1G.

Dose:

1 tablet 4-hourly.

Packing:

In bottles of 25, 250 and 1,000 tablets.

AN ASSESSMENT OF ROTER THERAPY

in PEPTCULCER

"... there was a satisfactory response in 90% of cases"

Extracts from THE BRITISH MEDICAL JOURNAL, 1st Oct., 1955, p. 827

- "... 81% of cases became symptom-free—70% of them during the first week and 30% during the second week; a further 9% were relieved of the majority of their symptoms. Thus there was a satisfactory response in 90% of cases."
- "... Average duration of symptoms in the active ulcer group, dating from the first attack of indigestion, was 12 years ..."
- "... They were able to take foods which they had avoided for years."
- "All but 5 of the 98 cases were ambulant throughout treatment and no instructions were given as to rest. They were advised to take an average diet but to avoid fried foods."
- "The treatment is ideal for general practice, where its simplicity appeals to both patient and doctor . . ."

Formula: Magnesium Carbonate (400 mg.), Bismuth Subnitrate (350 mg.), Sodium Bicarbonate (200 mg.), Rhizoma Calami (25 mg.), and Cortex Rhamni Frangulae (25 mg.).

"No—there's a big difference, Mr. Baxter...

... as you will remember, in protamine zinc insulin, the action of the insulin is modified by the presence of a foreign protein, protamine. In contrast, I.Z.S. contains no protein or peptide material other than the insulin itself. That is its great advantage over other insulins. You see, gentlemen, the action of I.Z.S. persists for the required period by appropriate adjustment of the particle size of the insulin zinc compound. It is because the effect of I.Z.S. is entirely independent of any modifying protein, that allergic reactions following its use are virtually unknown. Any other questions?"

They like Lucozade..

and they can keep it down—

Lucozade has won its place in the sickroom because it is so very palatable. Patients enjoy it and, what is more, they can keep it down even when other food is refused, or vomited. It is difficult to assess the value of Lucozade simply in terms of the glucose it contains. It is the patient's response which is so interesting. Its acceptance so often coincides with a distinct and happy turn for the better, well illustrated in the following brief report:

"My little boy was ill.... and was completely off his food. I must admit that I only thought of Lucozade at the last moment, after two days of worry, but he improved from the time of taking it."

In a letter from Mrs. V. Darlington, Birkdale, Lancs.

LUCOZADE

the sparkling glucose drink

REPLACES LOST ENERGY

....remember these advantages of **PALLIPS** Health lamps

(Made In Holland)

MODEL "B"

Tala is a simply constructed and lightweight large that helps, quickly and confortably, to relieve many almeats of a rheumatic nature. The putient can, after medical advice, give himself home freatment in a standing, sitting or lying position and in any room where there is an electric point. The lamp is obtainable only on production of a signed medical certificate. Price 23.3.0.

ENERGY PURSUE MODEL "A"

Basically, this is the same lamp as the one above. It has, however, been given a stream-lined, robust stand, the base of which enables the lamp to be more easily fixed to a wall and the rays directed downwards. INFRAPHIL is particularly suitable for sportsmen and athletes, who will use it as an aid to massage and for the relief of sprains, bruises and muscular fatigue. Obtainable on medical certificate only. Price \$4.4.0.

Ultra-violet SUNLAMP

Compact and attractive in appearance, this Philips ultra-violet lamp has the double advantage of portability and manoeuvrability. It is simple and tafe for your patients to use, under Medical Guidance, in the comfort of their own home. Goggles are, of course, essential and these are provided with the lamp. Again, a signed medical certificate is necessary for purchase. Price \$5.17.6.

We shall be glad to supply further details of any of these lamps. Please address your enquiries to:

REFRESHER COURSE FOR GENERAL PRACTITIONERS

Second Collection

570 pages. Price 25s. (by post—inland 26s. 6d., overseas 26s.)

This is the second collection of Refresher Course articles from the British Medical Journal. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what is old and well-established and to tell him about new developments.

This collection is invaluable to general practitioners and residents as a practical reference book, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as an up-to-date and reliable text-book.

Obtainable from booksellers or by post from Publishing Manager

BRITISH MEDICAL ASSOCIATION
