SIR JAMES MURRAY'S

PURE FLUID MAGNESIA

Has been prescribed for sixty years as the best Remedy for Acidities, Indigestion, Heartburn, Urine-Acid, and Gout. It averts the dangerous concretions caused by the use of Solid Magnesia, or Granular Citrates.

"Its value is so generally admitted that the framers of the *British Pharmacopoeia* have introduced a formula for its preparation identical with Sir James Murray's."—*Lancet*, November 9th, 1868.

"Very great care is evidently bestowed on the preparation of Sir James Murray's Fluid Magnesia, which is an exceedingly elegant preparation."—*British Medical Journal*, January and, 1869.

His Acidulated Lemon Syrup, when mixed with this fluid, forms a pleasant effervescent aperient peculiarly adapted for ladies and children.

Sold by all Chemists, in 10-oz. bottles, 1s.; 32-oz., 2s. 6d.; also in gallon and half-gallon jars for the profession only.

Amsterdam Exhibition, 1869.—The Grand Diploma of Honour:

Being the First Prize, and Superior to the Gold Medal.

Liebig Company's Extract of

MEAT.—Paris Exhibition, 1867—Two Gold Medals; Havre Exhibition, 1868—The Gold Medal. Only sort warranted perfect and genuine by BARON LIEBIG, the Inventor.—"A success and a boon."—*Medical Press and Circular*. One pint of delicious beef tea for 4d., which costs 1s., if made from fresh meat. Cheapest and finest flavoured "stock" for soups, etc.

CAUTION.—Require BARON LIEBIG'S signature upon every jar. Sold by all Italian Warehousemen, Grocers, Chemists, and Ship's Store Dealers.

All Wholesale Houses. And of LIEBIG'S EXTRACT OF MEAT COMPANY (Limited), 43, Mark Lane E.C.

NOTICE.—Various chemical analyses have been published purporting to show a fraction more of moisture to exist in the Company's Extract than in some imitation sorts. It is extremely easy to evaporate the water almost to any extent; but it is quite as certain that the fine meaty-flavour which distinguishes the Company's Extract from all others would be destroyed, if the concentration of the Extract were carried beyond a certain degree. Beef-tea, made from LIEBIG COMPANY'S EXTRACT, with *boiling hot water*, will be found to be greatly superior in flavour, strength, and clearness, to any other sorts. This explains the universal preference it obtains in the market.

This Extract is supplied to the British, French, Prussian, Russian, and other Governments.
