## STRUCTURE AND FUNCTION

Hans Popper, MD, PhD and  
Fenton Schaffner, MS, MD

'Extremely successful ... it will undoubtedly be the standard reference book of its subject for years to come ... also an excellent textbook. The bibliography contains 3735 references and is supplemented by an appendix, a sort of *stop-press* news bringing each chapter up to date about six months before publication—a remarkable feat. The lavish illustrations are of high quality.'

*The Lancet*

This work covers a very wide field (and) is certainly based upon a thoroughly original plan. We desire to congratulate (the authors) on the appearance of what is bound to become a standard work of reference for the specialist and general practitioner on the healthy liver and its diseases.'

## Even for your problem patient

For patients who are sensitive to aspirin, for asthmatics and for those with a history of allergy, Panadol is a valuable alternative to routine mild analgesics.

Panadol does not exacerbate the symptoms of peptic ulcer (where aspirin may even cause bleeding) and, unlike preparations which contain codeine, it does not cause constipation.

# ACHROMYCIN<sup>\*</sup>V

TETRACYCLINE BUFFERED WITH SODIUM METAPHOSPHATE

## makes the therapy more secure

ACHROMYCIN V is an improved, oral form of ACHROMYCIN tetracycline—already recognised as today's foremost self-sufficient broad spectrum antibiotic. ACHROMYCIN V combines ACHROMYCIN tetracycline with sodium metaphosphate to provide more rapid absorption of tetracycline and higher levels of the antibiotic in the blood. This is achieved without any increase in the daily dosage of the antibiotic.

ACHROMYCIN V is presented in oral capsules containing 250 mg. ACHROMYCIN tetracycline and 380 mg. Sodium Metaphosphate. Bottles of 16, 100 and 1000 Capsules. <sup>\*</sup>Regd. Trade Mark

The esters in Transvasin, a new preparation developed by Hamol S.A., our Swiss associates, readily pass the skin barrier in therapeutic quantities and enable an effective concentration of the drugs to be built up where they are needed.\* Transvasin

not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant, and can be safely used on delicate skins. It is now being widely prescribed with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

# Relief of Rheumatic Pain in General Practice

## 1. Prompt relief by massive aspirin dosage without supervision

It has been estimated that 8 out of 10 patients go to their doctors with some form of rheumatic complaint. In all cases, the first aim is prompt relief, preferably calling for no supervision in administration. An effective and safe remedy is massive aspirin dosage in the form of Berex tablets.

## 2. Succinate prevents toxicity

Clinical study\* has shown that the calcium succinate in Berex prevents toxicity from massive dosage. The prothrombin level is maintained and there is no haemorrhagic tendency, even after prolonged dosage. Your patients can enjoy prolonged relief, in safety, by reducing the initial dosage as soon as the pain diminishes. Side effects — including gastric — are fewer and milder, if present at all.

## 3. Encourages tissue respiration

Experimentally, by Warburg test, it has been shown that the inhibitory action of salicylate on tissue respiration is completely offset when it is combined with succinate. Succinate encourages cellular respiration and stimulates the respiratory enzyme systems. It is to this stimulating action that the beneficial effect of succinate is attributed.

\* "No abnormal prolongation of prothrombin time even after 68 days of succinate-salicylate." "The results also show that this succinate-salicylate formulation combines safety and efficacy, permitting wide use both for treatment and maintenance without the excessive supervision required in many other forms of therapy." — Delaware State Med. J., 1954, 26, 22.

RHEUMATIC PAIN, it is estimated, brings 8 out of 10 patients to the surgery. Prompt and prolonged relief can safely be given, in all forms of rheumatism, by administering Berex in massive and prolonged dosage. No supervision is required.

# EMERGENCIES IN GENERAL PRACTICE

from the  
British Medical Journal

470 pages, cloth bound  
with full index

**PRICE 25s. net**

This book deals with medical emergencies in a wide sense: acute clinical emergencies requiring prompt and skilful treatment; conditions such as faints and fits and giddy turns, the careful elucidation of which may mean the difference to a patient between a life of activity and one of restriction; acute psychiatric states; accidents of treatment, such as dangerous reactions to drugs or collapse during anaesthesia; and emergency calls when the doctor is isolated, as on a ship.

It comprises 57 specially commissioned articles which appeared originally in the *British Medical Journal*.

The author of each is an acknowledged authority. This collection, now revised by the authors, will be of value not only to general practitioners but also to senior students, house-physicians, house-surgeons, and to those supervising their work in hospitals.

## everything under control?

To the manifold problems of weight reduction, REVICAPS REDucing VItamin CAPSules offer a complete and well-reasoned answer. Their methylcellulose content furnishes essential bulk and their d-amphetamine sulphate suppresses appetite and elevates the mood. The result is a more contented, more co-operative patient who is far more likely to follow a reducing diet. REVICAPS also provide adequate amounts of vitamins and minerals to furnish those factors often lacking in a restricted diet. Yes—for the overweight patient on REVICAPS, it can truly be said that 'everything is under control'!

OINTMENT · POWDER  
(DUNCAN)

For fungus infections  
of the skin . . .

In fungus infections of the skin such as tinea pedis (athlete's foot), tinea cruris (dhobie itch), moniliasis, etc., certain higher fatty acids are becoming an accepted treatment.

Undecylenic acid with its zinc salt is present in DECILDERM Ointment and Powder (Duncan), and appears to be the most effective of these acids for fungus infections.

Decilderm Ointment and Powder (Duncan) are easy to apply and the odour of undecylenic acid is hidden by a perfume.

lactation and relieves breast engorgement without  
secondary breast filling, withdrawal bleeding  
or interference with uterine involution. The  
combination of oestrogen and androgen  
in Mixogen does this with minimal dosage  
because the milk suppressive effects  
of the hormones are complementary, whereas  
their uterine effects are antagonistic.

## THE C.D. (CONCEPTION DAYS) INDICATOR

*A Precision Calculator*

The computation of a woman's fertile and infertile days is now an important element in modern clinical and consultative practice. Recent research has shown the reliability of the Ogino-Knaus Theory when correctly applied.

The C.D. Indicator, designed and manufactured in Switzerland, is a small precision calculator based on the Ogino-Knaus Theory. It can be adjusted simply and immediately to show the fertile period in the current month for each patient, according to her individual menstrual characteristics. It excludes the possibility of mathematical error.

The C.D. Indicator is used and recommended by gynaecological authorities throughout the world. Its use does not offend against any Church teaching.

*The C.D. Indicator can be obtained by the medical profession at a special professional discount of 33½%. Full literature available on request to Dept. B.M.1, C.D. Advisory Bureau, 4 Avery Row, London, W.1.*

## The "light diet" patient needs protein

KEEPING AN INVALID ON A LIGHT DIET may be no light matter to a busy housewife. Sick people tire quickly of milk foods—and in many cases there is a physical reaction against them.

Brand's Essence is a boon in sickness. It provides a useful protein supplement to the diet, in an ideal form for invalids: a fat-free, appetizing jelly that even the weakest system can rapidly absorb. Ready to serve in various ways, it is delicious just eaten with a spoon, spread on bread and butter, warmed up as a liquid, or mixed with milk.

Brand's Essence doesn't cloy—sick people often enjoy it when they can't take anything else. And it revives appetite amazingly.

The addition of Brand's Essence to low residue and weight-reducing diets is especially appreciated by the patient.

## Brand's Essence

BEEF OR CHICKEN

# For the patient on fluids only

## *... glucose in a palatable form*

Lucozade combines the known qualities of glucose with a remarkable palatability. It has, indeed, solved a very real problem associated with a diet restricted to fluids. Many flavours, acceptable to the normally alert palate, fail to stimulate or even interest the patient in a weakened, depressed condition. Lucozade, on the other hand, provides a means of sustenance when solids cannot be tolerated.

*The liquid glucose content of Lucozade is 23.5% w/v; approximately 22.5 calories for each fluid ounce. It is lightly carbonated, with an attractive golden colour and a pleasant citrous flavour of instant appeal to the invalid palate.*

## From milk to mixed diet

### HOW HEINZ STRAINED FOODS HELP

Mothers of three or four-month-old babies often need your practical advice about how to start baby on a mixed diet.

When you suggest Heinz Strained Foods you can do so with complete confidence. The 19 different foods, introduced gradually from about three-months onwards, between them offer scope for a varied diet. They are cooked and strained under strictly controlled conditions, with the minimum loss of food values. And, of course, they are prepared much more hygienically than they would be in an ordinary kitchen.

For full details of the nutrient values of the 19 varieties of Heinz Strained Foods, write to Dept. T1, H. J. Heinz Co. Ltd., Harlesden, London N.W.10.

## RYBRONSOL

### COMPLEMENTARY TREATMENT FOR ASTHMA

### soothes the general nervous system

RYBRONSOL is a sedative powder which soothes the general nervous system, helps to relax the bronchial spasm and relieves congestion in the bronchial tree.

It can be recommended to all sufferers from asthma as complementary to Rybarvin and/or Rybarex, the well-known inhalation treatments also prepared by Rybar Laboratories Ltd.

At bedtime, RYBRONSOL promotes sleep and after meals it alleviates the congestion and excitability of the bronchial tubes.
