

# Sunshine and Warmth

## for people of all ages

So many people would feel all the better for the stimulating warmth and sunshine provided by Philips Health Lamps. For instance, when used under medical guidance, these lamps are often remarkably successful in treating rheumatic complaints and debilitated conditions. Two types of lamp are available, both requiring a signed medical certificate to enable the patient to purchase.

### Philips Infra-red **INFRAPHIL**

Philips Infraphil was used in the medical centres at the last two Olympic Games. It is most valuable in alleviating the pain of arthritis, rheumatism and muscle-strain.

**Infraphil Infra-red Lamp (made in Holland)**  
Price: £3 3s. 0d.

also available de-luxe model 'A' Price: £4 4s. 0d.

### Philips Ultra-violet **SUNLAMP**

Philips Sunlamp gives the blessing of "Mountain sunshine"—a boon in convalescence, and as many doctors know, is useful for treating skin troubles, such as psoriasis.

**Ultra-violet Sunlamp (made in Holland)**  
Price: £5 17s. 6d.

### ELIXIR & TABLETS

Carefully controlled experiments have demonstrated that muscle tension is greater in anxious patients than in healthy persons. The more severe the symptoms of anxiety the greater is the tension in the muscles.

It is now becoming recognised

that many cases diagnosed as psychogenic rheumatism are in fact cases of anxiety-induced muscle tension and can therefore logically be treated with Myanesin Elixir and Tablets.

*The suggested dosage is*—One tablespoonful or two tablets four times daily.

to the focal point of  
soft-tissue rheumatism

The esters in Transvasin, a new preparation developed by Hamol S.A., our Swiss associates, readily pass the skin barrier in therapeutic quantities and enable an effective concentration of the drugs to be built up where they are needed.\* Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant, and can be safely used on delicate skins. It is now being widely prescribed with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

## RELEASING the surplus

In cardiac oedema and other conditions where excess fluid accumulates in the tissues, DIAMOX acetazolamide can be relied upon to release the surplus promptly and safely. DIAMOX induces diuresis in a novel and highly efficient manner—by inhibiting the enzyme carbonic anhydrase. A single dose will induce a powerful diuretic response, persisting for six to twelve hours—and in many cases of congestive heart failure DIAMOX *alone* is capable of maintaining the patient oedema-free. As clinical experience of DIAMOX grows, more and more applications are revealed—including glaucoma, toxæmias and oedema of pregnancy, epilepsy and premenstrual tension. DIAMOX has also been used in emphysema, drug-induced oedema, renal oedema and obesity.

will provide the specific 24 hour treatment

The summer months provide conditions suitable for the multiplication of bacteria on contaminated food and for the spread of contamination by flies and other insect vectors; it is then that epidemics of bacterial food poisoning, bacillary dysentery and summer diarrhoea of infants are most frequent and widespread.

The organisms commonly responsible for such conditions are responsive to the combined therapy of streptomycin and sulphaguanidine, both of which are present in Guanimycin.

Ganimycin rapidly controls symptoms and restores well-being. It reduces the duration of illness and it will considerably reduce the convalescent carrier rate.

When diluted to 4 fluid ounces with water, each fluid ounce contains  
streptomycin sulphate 0.25 grammes and sulphaguanidine 2 grammes.

In bottles to prepare 4 fluid ounces of suspension.

- \* reduces incidence of attacks.

RIKER

It is recognised that complete angina therapy should not only relieve the coronary spasm, but should help to prevent attacks. This has been accomplished by 'Pentoxylon' to a considerable degree. 'Pentoxylon' combines the benefits of two powerful and reliable agents — 'Rauwoloid' and P.E.T.N. 'Rauwoloid', an alkaloidal extract of *Rauwolfia serpentina*, has bradycardic, tranquillising and stress-relieving properties, and stabilises the patient emotionally. P.E.T.N. produces a long-sustained dilatation of the coronary blood vessels, so improving the circulation to the myocardium, reducing the severity of attacks when they occur. The dual action of 'Pentoxylon' provides a more comprehensive . . . more effective . . . therapy than has hitherto been possible using a single medicament, and it infuses the anginal patient with a feeling of well-being and hope.

Each 'Pentoxylon' tablet contains 1mg. 'Rauwoloid' and 10mg. pentaerythritol tetranitrate. The usual dosage is one tablet four times daily *before* meals. Occasionally it is desirable to increase the dosage — up to 8 tablets daily are well tolerated.

## *An Effective Antacid of established value*

Immediate neutralization of gastric acid, yet unaccompanied by the disadvantages arising from carbonate medication, clearly indicates the clinical superiority of 'Milk of Magnesia'\* as a therapeutic antacid. Non-systemic in action, 'Milk of Magnesia' may confidently be prescribed in

a wide variety of conditions associated with gastric acid disturbance — from the mild case of dyspepsia to the acute ulcer stage — where intensive alkaline treatment is essential.

'Milk of Magnesia' reacts with the acids of the stomach to form a neutral laxative salt which promotes gentle but effective elimination.

for the prompt and prolonged  
relief of **ASTHMA**

ISO-BRONCHISAN was first produced in 1953 and offers a fresh approach to the problem of effective asthma control. The tablets, which are pleasant to take, have a coating containing easily dissolved Isopropyl-Nor-Adrenaline, a most potent bronchodilator, which, when absorbed by the sublingual route, produces the prompt relief of bronchospasm. The rest of the tablet, when swallowed, releases Ephedrine and Theophylline in balanced proportions and these, slowly absorbed along the alimentary tract, ensure long sustained antispasmodic action on the bronchial smooth muscle.

## EMERGENCIES IN GENERAL PRACTICE

from the British Medical Journal

470 Pages (cloth bound), with full index

This book deals with medical emergencies in a wide sense: acute clinical emergencies requiring prompt and skilful treatment; conditions such as faints and fits and giddy turns, the careful elucidation of which may mean the difference to a patient between a life of activity and one of restriction; acute psychiatric states; accidents of treatment, such as dangerous reactions to drugs or collapse during anaesthesia; and emergency calls when the doctor is isolated, as on a ship.

It comprises 57 specially commissioned articles which appeared originally in the *British Medical Journal*.

The author of each is an acknowledged authority. This collection, now revised by the authors, will be of value not only to general practitioners but also to senior students, house-physicians, house-surgeons, and to those supervising their work in hospitals.
