

## CASSELL MEDICAL BOOKS

### THE CLINICAL EXAMINATION OF PATIENTS WITH ORGANIC CEREBRAL DISEASE

By ROBERT KLEIN, M.D.,  
and WILLIAM MAYER-GROSS, M.D., F.R.C.P.

This is the first comprehensive scheme for examination to appear in English. Simple tests are given, and the various types of deviation from normal behaviour are described and their clinical significance assessed.

## *Analgesic administration to children*

Whether for analgesic or antipyretic purposes 'Angiers' is the ideal aspirin for administration to young patients. Parents, too, gain peace of mind.

'Angiers' is pure aspirin, in tiny pink 1½ grain tablets, orange-flavoured and pleasant to suck, chew or swallow. They disintegrate as rapidly in the stomach as they do in milk, water or the salivary juices of the mouth.

Each 'Angiers' Tablet also contains 1.50 grains of Dicalcium Phosphate, to check any possible salicylic irritation of sensitive stomachs.

Dispensing Pack (500 tablets)  
Also from all chemists in bottles of 50 tablets at 1/7d. including P.T.

**TEVIOT PLACE, EDINBURGH****Blakiston Division****McGraw-Hill Publishing Company Ltd****McGraw-Hill House London EC4****CLUES TO SUICIDE**

edited by E. S. Shneidman and N. L. Farberow

Seventeen experts in psychology, psychiatry, sociology, law and social work have contributed to this book, which describes recent theoretical and practical work on the problem of suicide. It shows that suicide can often be predicted and in many cases prevented. All general physicians and psychiatrists can learn from this book, since any of them might have to treat a suicidal patient; while the specialist will be interested in the experimental work described.

**Just published****288 pages****41s 6d****METHODS OF GROUP PSYCHOTHERAPY**

R. J. Corsini

This new general textbook collects and summarizes the work of group therapists over the past twenty years. It examines without bias all the main streams of thought, giving special attention to group psychoanalysis, non-directive group therapy, Adlerian family counselling and Psychodrama. A full bibliography is included.

**November****251 pages****45s****FORTHCOMING PUBLICATIONS****CHRONIC BRONCHITIS, EMPHYSEMA AND COR PULMONALE**

By C. H. STUART-HARRIS and T. HANLEY

About 250 pp. with 61 illustrations, some in colour.  
About 37s. 6d.

Written primarily for clinicians, this book attempts to draw together the diverse studies carried out from the clinical department of the University of Sheffield on these diseases, particularly on the cardiac complications.

**BASIC CARDIOLOGY**

By T. E. GUMPERT

About 250 pp., with 72 illustrations. About 37s. 6d.

This book aims at bridging the gap between detailed specialist textbooks and standard textbooks embracing the whole of medicine.

**CEREBRAL PALSY IN CHILDHOOD**

By GRACE E. WOODS

With a foreword by PETER HENDERSON

About 160 pp., with 41 illustrations. About 25s.

This book deals with the aetiology and clinical assessment of cerebral palsy, with particular reference to 301 children surveyed during the last five years in Bristol.

**PÆDIATRICS FOR NURSES**

By ARTHUR E. WATKINS

Second Edition. About 216 pp., with 16 plates. 17s. 6d.

The purpose of this book is to present to the nurse the main paediatric diseases and problems which she will meet in her training and afterwards.

**THE NURSING OF MENTAL DEFECTIVES**

By CHARLES HALLAS

About 176 pp., with 9 illustrations. About 21s.

Thoroughly covers the matter contained in the syllabus for those taking mental nursing examinations.

## An Introduction to Chest Surgery

**GEOFFREY FLAVELL** *Thoracic Surgeon, The London Hospital*

**NEW BOOK**

354 pages

52 text figures

128 X-rays

30s. net

This book should prove invaluable to general practitioners, physicians and also to senior students as it is both comprehensive yet concise, clearly written and easily read.

It covers fully the selection and diagnosis of patients for chest surgery, gives clear and often detailed accounts of all the principal operations, and of pre- and post-operative treatment. All the major conditions are illustrated by extremely well-chosen case histories written in a most vivid and forcible style.

The illustrations are an important feature, in particular the X-rays, which number 128. These have been very carefully selected, and reproduced by direct reduction from the original films: they illustrate with extreme clarity nearly every condition described in the text.

## The Early Diagnosis of the Acute Abdomen

**SIR ZACHARY COPE** *Consulting Surgeon, St. Mary's Hospital*

**ELEVENTH  
EDITION**

188 pages

36 text figures

24 X-rays

18s. net

Recent advances in surgery have been fully considered in the preparation of this new edition, which has been more extensively and thoroughly revised than any of its predecessors.

Much new material will be found in nearly every chapter, including descriptions of many conditions not included before, such as jejunal diverticulitis, volvulus of the stomach, and meconium ileus. In addition three entirely new chapters have been written. These discuss the grouping of symptoms in diagnosis; acute abdominal symptoms caused by vascular lesions; and intestinal obstruction in infants and young children.

The text has been entirely reset, all the text figures redrawn and many new ones added. Sixteen new X-ray plates have been included to illustrate some of the more recently recognized conditions, in particular those occurring in early infancy.

## BURNS—Pathology and Therapeutic Applications

By SIMON SEVITT, M.D., M.Sc., M.A., F.R.C.P.I., D.P.H., Consultant Pathologist to the Birmingham Accident Hospital and M.R.C. Burns Research Unit. Pp. viii+336+Index. 85 illustrations. 37s. 6d. net, by post 2s. extra.

This book, the first to be devoted to the pathology of burns, interprets the significance of pathological findings and inter-relates pathology, clinical picture and treatment, not only in thermal burns, but in electrical, chemical and radiation burns. Its essentially modern and practical approach makes the work of immense value to all medical men concerned with the burned patient, including surgeons and pathologists, and also to postgraduate students of surgery, pathology and medicine.

## PRINCIPLES OF GYNAECOLOGY

By T. N. A. JEFFCOATE, M.D., F.R.C.S.(Edin.), F.R.C.O.G., Professor of Obstetrics and Gynaecology in the University of Liverpool. Pp. viii+669+Index. 12 colour plates. 75s. net, by post 2s. 3d. extra.

This is primarily a *practical* work and the author, a well-known teacher, has drawn on his vast experience to stress and clarify particularly those matters which, he admits himself, are difficult to master. With this eminently personal approach and the author's complete understanding of the reader's problems and its direct and fluent style, the book will carry the advanced student through and beyond the qualifying examinations and become invaluable to the qualified doctor in general practice.

## AN INTRODUCTION TO MEDICAL LABORATORY TECHNOLOGY

*Second Edition.* By F. J. BAKER, F.I.M.L.T., F.I.M.S.T., F.R.M.S., R. E. SILVERTON, A.I.M.L.T., F.R.M.S., and EVELINE D. LUCKCOCK, A.I.M.L.T. Pp. xvi+346+Index. 118 illustrations. 35s. net, by post 2s. extra.

This work is the result of the authors' wide personal experience in training student technicians in the laboratories of the Brompton Hospital. It has been written to conform with the requirements of the revised Intermediate Examination of the Institute of Medical Laboratory Technology, and it has been added to the Institute's list of recommended books for students. Its complete and precise information and straightforward style make the Second Edition a valuable reference for laboratory technicians and medical students, and an unequalled aid to examination candidates.

# The effect of ENPAC on Intestinal Flora during Antibiotic Therapy

This graph illustrates the striking result of a clinical trial with 66 patients at Bristol recently published in the *Lancet*. It demonstrated how during antibiotic treatment *Enpac* builds up resistant lactobacilli while reducing the number of staphylococci to a low level. By contrast, when the antibiotic was used alone, lactobacilli dropped to the low figure of 16%, whereas resistant staphylococci flourished greatly at the high level of 76%.

## SUMMARY

*Extract from the Lancet article on the Bristol clinical trial*

"It was found that the staphylococci increased in both groups at the beginning of antibiotic therapy. Staphylococci continued to increase in the patients taking the antibiotic alone, but in those taking *Enpac* there was a pronounced drop in numbers following the initial rise. Simultaneously, in this latter group the lactobacilli were rapidly established and continued to multiply. This followed the elimination of the normally

non-resistant lactobacilli by the antibiotic during the early days of treatment." (Lancet, 1957, i, 899)

Samples and literature are freely available to the medical profession on request.

... without doubt here is a unique method of applying antibiotics for topical use in a dry form—in this case a stable combination of Zinc Bacitracin, Neomycin and Polymyxin 'B'. They are dispersed in ultra-fine powder form (milled to an average particle size of 60 microns) under pressure with an inert gas propellant which is neither toxic nor inflammable. Polybactrin is remarkably economical because of its speedy bactericidal action—bacteriological tests performed demonstrate complete inhibition of gram positive and gram negative organisms on heavily inoculated blood plates—after only a fractional exposure to this antibiotic triad—and equally important, does not induce the development of resistant strains. Furthermore, there are no contra-indications to the

use of Polybactrin which has proved to be highly effective in the treatment of contaminated wounds and as a prophylaxis in all branches of surgery...

## **activity can be rapidly restored**

The well-being of many patients demands regularity in daily bowel movements. DULCOLAX, when taken in the evening on a full stomach in tablet form, will bring about a soft easy motion about ten to twelve hours later. In the form of a suppository it will act within the hour when inserted upon rising. This is achieved without side-effects or subsequent rebound constipation. The gentle action of DULCOLAX is most suitable for the aged.

## Signs of the times...

Few doctors have need to depend on Nature's signs to learn that winter is close at hand. Day by day, the steadily growing population in the waiting room provides an equally eloquent barometer! Time now to enlist Vi-MAGNA multivitamins for those of your patients particularly prone to winter ills. The routine is eminently simple: just one Vi-MAGNA Capsule or one teaspoonful of Syrup daily throughout the winter months. Remember—every dose of Vi-MAGNA provides the important supplementary factors in carefully balanced amounts... every dose contributes to improved well-being during the testing months ahead.

*New  
Buffered  
Theophylline  
for the  
Prophylaxis  
and  
Treatment of  
Asthma*

'ENGLATE' combines theophylline sodium with glycine, which acts as an effective buffer against gastric hydrochloric acid and thus reduces the precipitation of theophylline. Theophylline sodium glycinate causes less gastro-intestinal disturbances than other xanthine compounds and can therefore be prescribed in larger doses to obtain maximum theophylline activity.

'ENGLATE' syrup is specially recommended for children up to 12 years in preference to tablets.

## unrivalled speed of absorption

For rapid absorption Chloromycetin\* is unique among present-day antibiotics. Effective anti-bacterial levels at most sites of infection can readily be obtained by oral administration.

As blood-levels may conveniently be adjusted to control any grade of infection,

Chloromycetin therapy produces swift response, and the duration of treatment is, therefore, reduced. The completeness of absorption also lessens the possibility of gastro-intestinal upset.

## the basic problem

*"Apart from the impossibility of testing the antibiotic-sensitivity of the bacterial flora of more than a small fraction of the affected population, the onset of pneumonia may be so sudden and catastrophic that immediate chemotherapy is essential . . ."* †

## one name

*"... the real dilemma . . . whether to aim the attack primarily against H. influenzae, using the tetracyclines or chloramphenicol, or against Staph. aureus with erythromycin or novobiocin."* †

In a single preparation Sigmamycin answers this dilemma. It is rapidly effective against both these organisms.

*"... patients may die within twenty-four hours if not effectively treated . . ."*

*"Bacteria and Influenza" † Lancet {1957} ii, 835-6*

## the only one name

*"... the best course may be to use a combination of antibiotics from both groups . . ."* †

(The broad and medium spectrums)

Sigmamycin, which contains tetracycline and oleandomycin, is the *only* preparation currently available in this country which meets this description in a single preparation.

## the complete answer

# PENTOXYLON

## COMPREHENSIVE THERAPY FOR ANGINA PECTORIS

- Prevents coronary spasm
- Averts attacks
- Dispels fear

### PENTOXYLON

- \* *reduces nitro-glycerin requirements.*
- \* *reduces severity of attacks.*
- \* *reduces incidence of attacks.*
- \* *reduces tachycardia.*
- \* *reduces anxiety, allays apprehension.*
- \* *reduces blood-pressure in hypertension.*
- \* *increases exercise tolerance.*
- \* *produces objective improvement demonstrable by electro-cardiograph.*

It is recognised that complete angina therapy should not only relieve the coronary spasm, but should help to prevent attacks. This has been accomplished by 'Pentoxylon' to a considerable degree. 'Pentoxylon' combines the benefits of two powerful and reliable agents — 'Rauwiloid' and P.E.T.N. 'Rauwiloid', an alkaloidal extract of *Rauwolfia serpentina*, has bradycardic, tranquillising and stress-relieving properties, and stabilises the patient emotionally. P.E.T.N. produces a long-sustained dilatation of the coronary blood vessels, so improving the circulation to the myocardium, reducing the severity of attacks when they occur. The dual action of 'Pentoxylon' provides a more comprehensive . . . more effective . . . therapy than has hitherto been possible using a single medicament, and it infuses the anginal patient with a feeling of well-being and hope.

Each 'Pentoxylon' tablet contains 1mg. 'Rauwiloid' and 10mg. pentaerythryl tetranitrate. The usual dosage is one tablet four times daily *before* meals. Occasionally it is desirable to increase the dosage — up to 8 tablets daily are well tolerated.

'In view of these analytical and general evidences, this brandy may be described as particularly suitable for medicinal purposes'

*See Lancet, July 22, 1899, p. 219*

'The evidence both of analysis and taste indicates that the high standard of purity and quality has been maintained and that the brandy is eminently suitable for medicinal purposes'

*See Lancet, May 7, 1932, p. 992*

**make friends with MARTELL**

## *Efficacy and Convenience in Antacid Therapy*

In the management of gastrointestinal disorders associated with hyperchlorhydria, \*'Milk of Magnesia' Tablets have proved of outstanding value.

Exerting an immediate and prolonged neutralising action, 'Milk of Magnesia' Tablets offer a valuable prescription to the

physician for the treatment of simple digestive upsets, including gastritis and duodenitis, and equally so, for those cases where frank ulceration has occurred.

Pleasantly mint flavoured and conveniently portable, they are always ready to hand whenever the need of alkalisation arises.

## The Tale of a Fee

Sir Harley Street, the famous 'Doc'

One day received a dreadful shock.

A massive crate, sent by Lord Pill

Arrived 'in payment of his bill.'

"By jove," said he, "this isn't proper

The blighter's paid his bill in copper!"

He raised the lid—he rubbed his eyes—

Oh! what a rapturous surprise!

The explanation of his grin is

He's counting out 1,000 *Guinness*.

(He rather hopes his typist makes

Some more such fortunate mistakes).

For SUB-ACUTE and Chronic dermatoses

# TAR + HYDROCORTISONE

combined in

# TARCORTIN CREAM

have pronounced advantages over either medicament alone.

The established germicidal, stimulating and anti-pruritic properties of tar, in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone. These two valuable therapeutic agents are presented in a non-greasy, stainless, hydrophilic cream, known as TARCORTIN.

## TARCORTIN CREAM

is supplied in 7 gm. tubes, containing 0.5% Hydrocortisone in a special coal-tar extract.

## for Sacro-iliac Strain

*a narrow belt alone is not enough . . .*

That is why Spencer Designers incorporate an easily-adjustable pelvic binder (see inset below) *inside* each Spencer created for sacro-iliac strain.

A narrow belt alone will not provide adequate continuous immobilization of the sacro-iliac joints, because such a belt will *not* stay in place. With ordinary body movements, any narrow belt alone will ride up and dig in at the back, thus causing faulty posture that increases the disability. That is why every Spencer Sacro-iliac Support is a "belt within a support" designed to the necessary heights and lengths to bridge the lumbar curve and co-relate abdominal and back support. Thus improvement in posture—essential to relief in sacro-iliac strain—is attained and maintained.

Every Spencer—for abdomen, back, breasts—is individually designed, cut and made for each patient.

# EMERGENCIES IN GENERAL PRACTICE

from the  
British Medical Journal

470 Pages, cloth bound,  
with full index

**PRICE 25s. net**

by post: inland and overseas 26s. 9d.

This book deals with medical emergencies in a wide  
sense: acute clinical emergencies requiring prompt and  
skilful treatment; conditions such as faints and fits and  
giddy turns, the careful elucidation of which may mean  
the difference to a patient between a life of activity and  
one of restriction; acute psychiatric states;  
accidents of treatment, such as dangerous reactions to  
drugs or collapse during anaesthesia; and emergency  
calls when the doctor is isolated, as on a ship.

It comprises 57 specially commissioned articles which  
appeared originally in the *British Medical Journal*.

The author of each is an acknowledged authority. This  
collection, now revised by the authors, will be of value  
not only to general practitioners but also to senior  
students, house-physicians, house-surgeons, and to  
those supervising their work in hospitals.

From booksellers or, by post, from Publishing Manager

# BRITISH MEDICAL ASSOCIATION

B.M.A. House, Tavistock Square, London, W.C.1.

Wall's Ice Cream is a well-balanced food, with valuable fat, carbohydrate and protein content. It is easily assimilated and of high calorific value. Very often patients with poor appetites readily accept and enjoy ice cream, and for this reason also, hospitals include ice cream in their invalid diet.

There is no more enjoyable way of taking nourishment than by eating good ice cream.

## SURGICAL DRESSINGS and Specialities

### "GAMGEE TISSUE"

REGISTERED TRADE MARK

Soft, comfortable and highly absorbent, this economical dressing is the best of its kind. The woven tubular gauze covering ensures the cotton wool filling remaining in place, and prevents it breaking up when handled or being used as a dressing.

### "CESTRA" LAMINATED POST-OPERATIVE DRESSING

P.O.D.'s

A NEW dressing designed for general use where ordinary gauze pads would normally be used in dressing wounds. Softer, more bulky and LESS EXPENSIVE than ordinary gauze swabs. Fewer pads are needed per dressing.

### "CESTRA" STANDARD GAUZE SWABS

Available in a wide range of stock sizes and in several qualities. Also available in larger sizes and to individual requirements, sewn, with tapes, etc.

### "CESTRA" MASKS

The perfect surgical mask for the prevention of droplet infection. Highly efficient, comfortable, and easily sterilised.

### "CESTRAFOLD" RIBBON GAUZE

A very efficient substitute for Fast Edge Ribbon Gauze. Suitable for plugging and making up into Gauze Pads. Can be supplied in assorted widths.

### "CESTRA" STERILIZED MATERNITY OUTFITS

These can be offered in various sizes.

### "CESTRA" PREMATURE BABY SETS

Made from our well known "Gamgee Tissue". A garment specially designed for immediate use. Soft and warm.

### "CESTRA" CELLULOSE PAPER HANDKERCHIEFS

Essential in cases of Nasal and Pulmonary complaints. Also Capsicum Tissue and Medilintex Poultrice Dressings.

PLEASE OBTAIN FROM YOUR USUAL SUPPLIERS

## ALFONA

FOR THE TREATMENT OF ATHEROMA

The suppliers wish to advise doctors that "ALFONA" is now available for samples and clinical trials.

"ALFONA" is prepared by replacing the butterfat in milk by a vegetable fat complex which contains essential fatty acids. The amount of fat is the same as in ordinary milk. It is homogenized to give optimum digestibility and sterilized for longer keeping quality.

"ALFONA" is thus a "milk" free from cholesterol and animal fats but containing essential fatty acids.

## APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

#### Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

#### Other Grades, Whole-time

##### (a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

**ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF**

**Psychiatry—contd.****LEEDS REGIONAL HOSPITAL BOARD**

Applications are invited from medical practitioners for the appointment of

**REGIONAL PSYCHIATRIST**

The person appointed will be employed for 7/11ths of his time on administrative duties concerned with the development of the Mental Health Service in the Region and will be on the staff of the Senior Administrative Medical Officer at the Board's Headquarters, Harrogate (Salary scale, whole-time, £2,300 to £2,875 per annum). For the remaining 4/11ths of his time he will be engaged on Consultant clinical work (Salary scale, whole-time, £2,205 to £3,255 per annum). The proportion of time spent on administrative and clinical duties will be subject to review from time to time. It is hoped that arrangements will be made for the successful candidate to work in association with the Leeds University Department of Psychiatry for at least one session per week. Candidates should hold high qualifications in medicine and psychiatry and have had wide experience in general psychiatry, including administrative experience of both in-patient and out-patient work. Applications (12 copies), with full details of qualifications and experience, together with the names of three referees, to be sent to the Secretary, Park Parade, Harrogate, by November 18, 1957. (7999)

**NEWCASTLE REGIONAL HOSPITAL BOARD****CONSULTANT PSYCHIATRIST AND DEPUTY MEDICAL SUPERINTENDENT**

St. Mary's Hospital, Stanington, near Morpeth (856 beds). The hospital and admission unit were opened in 1913 and two convalescent and two parole villas added in 1939. It serves Gateshead County Borough and parts of the Counties of Northumberland and Durham (population 304,600). Out-patient clinics held at Queen Elizabeth Hospital, Gateshead, St. Thomas Clinic, Newcastle, and General Hospital, Hexham. Applicants should have had wide experience in intra- and extra-mural psychiatry and be prepared to take clinical charge, subject to general administrative control of Medical Superintendent, of a section of the hospital and to participate in the work of associated out-patient clinics and domiciliary consultant service in the area served by the hospital. The post is whole-time, resident. A suitable house is available. Candidates may visit the hospital by arrangement with the Medical Superintendent. Applications, together with names and addresses of three referees, to Regional Psychiatrist, Regional Hospital Board, Benfield Road, Newcastle upon Tyne, 6, within 28 days. (8013)

**CORNWALL COUNTY COUNCIL**

Applications are invited from registered medical practitioners who have had experience in child guidance work for the whole-time appointment of

**COUNTY PSYCHIATRIST**

The person appointed will be responsible to the County Medical Officer for the general administration of the County Council's Mental Health Services, and the duties will include the certification of mentally defective persons, the holding of Child Guidance Clinics, and such other duties in connection with mental health as may be assigned to him from time to time. Applicants should hold the Diploma in Psychological Medicine, and be recognized or eligible for recognition by the Ministry of Education and the Board of Control for the ascertainment and certification of educationally sub-normal children and mentally defective persons. Salary will be on the scale of £1,520 rising by annual increments to £1,955 a year, the initial salary depending on previous experience of the candidate selected. A car is essential, and there will be a travelling allowance in accordance with the County Scale. The post is subject to the Local Government Superannuation Acts, and the successful candidate will be required to pass a medical examination. Applications, stating age, nationality, qualifications and experience, together with copies of two recent testimonials and the names of two persons to whom reference may be made, should reach the County Medical Officer, County Hall, Truro, not later than November 16, 1957.—E. T. Venner, Clerk of the County Council, County Hall, Truro. (7666)

**MANCHESTER REGIONAL HOSPITAL BOARD****WHOLE-TIME ASSISTANT PSYCHIATRIST**

(S.H.M.O.), Prestwich (Mental) Hospital, Manchester (about 3,000 beds). Single person can be accommodated in hospital, otherwise post non-resident. All modern forms of treatment are undertaken. Candidates should have had wide experience in psychiatry. D.P.M. desirable. Application forms from the Senior Administrative Medical Officer to the Board, Cheetwood Road, Manchester, 8, to be returned by November 11, 1957. (8186)

**NEWCASTLE REGIONAL HOSPITAL BOARD****ASSISTANT PSYCHIATRIST**

S.H.M.O., whole-time, for the recently opened Department of Child Psychiatry attached to the Newcastle General Hospital, which is associated with University Department of Psychological Medicine under the general direction of the Professor of Psychiatry. The unit, which is the training centre in child psychiatry in the region and undertakes undergraduate and postgraduate teaching as well as research, co-operates with Department of Paediatrics. Applicants should possess Diploma in Psychological Medicine and a higher medical degree would be an advantage. Further particulars from Regional Psychiatrist. Applications, with names and addresses of three referees, to Regional Psychiatrist, Regional Hospital Board, Benfield Road, Newcastle upon Tyne, 6, within 28 days. (8014)

**NORTH-WEST METROPOLITAN REGIONAL HOSPITAL BOARD****ASSISTANT CHILD PSYCHIATRIST**

Senior Hospital Medical Officer grade, six half-days a week, Hertfordshire Child Guidance Service. Applications will be considered for six, four or two half-days a week, and candidates should state for which they are applying. with duties commencing as soon as possible, and at an initial salary of £1,100 by £100 to £1,600 by £50 to £1,650 per annum, plus £60 London allowance, with family allowance and superannuation. Forms of application are obtainable from, and should be lodged with, the Dean, Guy's Hospital Medical School, London Bridge, S.E.1, not later than November 7, 1957. (7813)

**THE NUFFIELD FOUNDATION****MEDICAL FELLOWSHIPS**

As part of its programme for the advancement of health, the Nuffield Foundation is prepared to award a number of fellowships to highly qualified men and women of the United Kingdom, usually between the ages of 25 and 35, who wish to train further for teaching and research appointments in any branch of medicine. Applications for awards in 1958, which must first be endorsed by the executive authority of a university medical school in the United Kingdom, must be received by the Foundation not later than February 1, 1958. The conditions of these fellowships and the application forms are obtainable from the Director, the Nuffield Foundation, Nuffield Lodge, Regent's Park, London, N.W.1.—L. Farrer-Brown, Director of the Nuffield Foundation. (8238)

**THE UNIVERSITY OF LEEDS  
Department of Anaesthetics**

Applications are invited from registered medical practitioners for appointment as

**LECTURER IN ANAESTHETICS**

at a salary on the scale £1,200 by £100 to £1,600 (efficiency bar) by £100 to £1,900 a year, according to qualifications and experience. Applications (three copies), stating date of birth, qualifications and experience, together with the names of three referees, should reach the Registrar, the University, Leeds, 2 (from whom further particulars may be obtained), not later than November 25, 1957. (8193)

**THE UNIVERSITY OF LEEDS  
Department of Anaesthetics**

Applications are invited from candidates interested in physiology, physics or biochemistry for appointment as full-time

**RESEARCH ASSISTANT**

in the Department of Anaesthetics, at a salary within the range £500 to £600 a year. The appointment is suitable for a science graduate intending to work for a higher degree and will be for one year in the first instance, subject to renewal. Laboratory facilities will be provided and the successful applicant will work as part of a group engaged in studying the problems of spontaneous and artificial respiration in man. Applications (three copies), stating date of birth, qualifications and experience, together with the names of two referees, should reach the Registrar the University, Leeds, 2 (from whom further particulars may be obtained), not later than November 25, 1957. (8224)

**THE UNIVERSITY OF LIVERPOOL**

Applications are invited for the post of

**LECTURER (part-time)  
in charge of the Department of Laryngology**

at a salary of £115 per annum. The Lecturer will be required to deliver a course of lectures in otorhino-laryngology in the Medical School and to act as internal examiner in the Final M.B. qualifying examination. Applications, stating age, academic qualifications and experience, together with the names of two referees, should be received not later than November 23, 1957, by the Registrar, from whom further particulars of the conditions of appointment may be obtained. (8226)

**THE UNIVERSITY OF MANCHESTER**

Applications are invited from persons with medical qualifications registrable in this country for the full-time post of

**LECTURER OR ASSISTANT LECTURER IN  
OPHTHALMIC PATHOLOGY**

in the Departments of Ophthalmology and Pathology. Whilst previous experience in the subject is desirable, candidates with some experience in general pathology would also be considered. The successful candidate would be required to commence his duties on January 1, 1958, if possible. Salary per annum: Lecturer, on a scale rising to £2,150; Assistant Lecturer, on a scale rising to £1,300; initial salary and status according to qualifications and experience. Membership of the F.S.S.U. and children's allowance scheme. Applications should be submitted not later than November 20, 1957, to the Registrar, the University, Manchester, 13, from whom further particulars and forms of application may be obtained. (7764)

**UNIVERSITY OF EDINBURGH  
Department of Pathology**

Applications are invited for the post of  
**LECTURER in the Department of Pathology**  
Salary scale, £900 by £100 to £1,900 per annum (efficiency bar at £1,300), with placement according to experience and qualifications, and with superannuation benefit and family allowance where applicable. Further particulars may be obtained from the undersigned, with whom applications, giving the names of two referees, should be lodged not later than December 7, 1957.—Charles H. Stewart, Secretary to the University. (8157)
