

RYOTOL is lethal to Ps. pyocyanea, Staphylococcus aureus, Proteus vulgaris and Streptococcus pyogenes found in C.S.O.M. and Otitis Externa.

The presence of Ps. pyocyanea has been demonstrated in 90% of cases of chronically discharging ears. This gram-negative, highly resistant organism is unaffected by penicillin, sulphonamides and many other bactericides. It produces abundant pus and is therefore extremely troublesome.

RYOTOL Ear Drops are the outcome of clinical work on humans, following outstanding results obtained in the veterinary field.

Formula:

Monophenyl ether of ethylene glycol . . . 2.0% v/v
Phenylmercuric Nitrate . . . 0.1% w/v
Phenyl-dimethyl iso-pyrazolone . . . 5% w/v
in a stabilised non-irritant base.

NAPT PUBLICATION

BCG AND VOLE VACCINATION

new revised edition

K. NEVILLE IRVINE, MA, DM, MRCS, LRCP.

Adviser in BCG Vaccination to the Oxford Regional Hospital Board

The form of this handbook has remained unchanged, but over two hundred alterations have been made in the text to bring it up to date. New sections on the treatment both of the normal vaccination reaction and of complications have been added for the benefit of the general practitioner.

Clothbound 15s.

102 pages, 10 coloured plates, comprehensive index NAPT, Tavistock House North, W.C.1

CLINICAL PATHOLOGY IN GENERAL PRACTICE

321 pages. Price 21s. (by post-inland and overseas, 22s. 3d.)

This handbook on clinical pathology meets the needs of the general practitioner, the houseman, and the senior student. It contains thirty-nine articles comprising a series specially written for the British Medical Journal. Each article has been revised and brought up to date by its author. The book gives authoritative information on—

- available laboratory facilities
- reliable tests and which to use
- techniques for collecting and preserving specimens
- interpretation of results and significance of abnormal findings

unique derivative of Auswelfin canescens

combines the full effectiveness of the rauwoffiss with a new freedom from side effects

* TRADEMARK FOR DESERPIDINE, ABBOTT

Harmonyl makes rauwolfia more useful in your everyday practice. Two years of clinical evaluation have shown that this new alkaloid exhibits significantly fewer and milder side effects than reserpine. Yet, Harmonyl compares to the most potent forms of rauwolfia in effectiveness.

Most significant: Harmonyl causes less mental and

physical depression—and far less of the lethargy seen with many rauwolfia preparations.

Patients become more lucid and alert, for example, in a study of chronically ill, agitated senile cases treated with Harmonyl. And these patients were completely free from side effects—although a similar group on reserpine developed such symptoms as anorexia, headache, bizarre dreams, shakes and nausea.

Harmonyl has also demonstrated its potency and relative freedom from side effects in hypertension. In a study comparing various forms of rauwolfia, the investigators reported describine "an effective agent in reducing the blood pressure of the hypertensive patient both in the mild to moderate, as well as the severe form of hypertension." They also noted that side reactions were "less annoying and somewhat less frequent" with this new alkaloid. Other studies confirm that few cases of giddiness, vertigo or sense of detached existence are seen with Harmonyl.

Harmonyl is supplied in 0.25 mg. grooved tablets.

and SKIN
the wide-range
antibiotic ointment
with minimal
risk of

THIS CHART shows the wide range of gram-positive and gram-negative organisms jointly covered by neomycin and bacitracin. Combined in Neobacrin, both antibiotics in most cases are lethal to the bacteria, not merely inhibitory.

Gram-Negative Organisms	Bacitracio	Neomycin
Aerobacter aerogenes	R	s
Klebsiella pneumoniae	R	s
Neisseria gonorrhoeae	s .	R
Proteus vulgaris	R	s '
Pseudomonas aeruginosa	R	s

Gram-Positive Organisms	Bacitracin	Neomycin
Clostridium perfringens	s	R
Clostridium sporogenes	s	R
Corynebacterium diphtheriae	8	· s
Corynebacterium diphtheroides	8	s
Diplococcus pneumoniae	s	MS
Staphylococcus albus	s	s
Staphylococcus aureus	s	5
Streptococcus pyogenes	s	MS
Streptococcus viridans	\$	MS

KEY: S—Sensitive, MS—Moderately sensitive, R—Resistant. All sensitivities may be increased by the synergistic action of both agents.

In every way Neobacrin is the antibiotic ointment of choice for everyday treatment of common skin and eye infections. The most important reason why it is so useful is that neither of its component antibiotics is likely to cause sensitisation; a distinct possibility with many of the antibiotics that are used systemically as well as locally.

INDICATIONS

Skin Conditions

Impetigo

Sycosis barbae

Furunculosis

Secondarily infected wounds, burns, ulcers

Infectious eczematoid and pyogenic dermatitis Superficial Infections of the Eye

Conjunctivitis

Blepharitis

Infected Meibomian glands or lachrymal sacs

PRESENTATION

15 gm. tube

3½ gm. tube (with ophthalmic nozzle)

Each gram of NEOBACRIN contains 5 mg. neomycin sulphate and 500 units zinc bacitracin in bland paraffin base.

sensitisation

The esters of NICOTINIC, SALICYLIC and

p-AMINOBENZOIC acids

bring relief to cases of arthritis and rheumatism

In Cases of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Transvasin is available in 1 oz. tubes, basic N.H.S. price 2/6 plus P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

Smith Kline & French Laboratories Ltd Coldharbour Lane, London SE5

"All right Mr. Baxter, shall we continue? . . .

I.Z.S., as you so neatly put it, 'has something the other insulins haven't got.' In other words, in about 90 per cent. of patients the bloodsugar level can be controlled for up to 24 hours with a single injection of I.Z.S. When you compare the various insulins available, you'll find that no other form is so universal in its application as I.Z.S. This is, among other things, because I.Z.S. does not contain any protein or peptide material other than the insulin itself, and is therefore practically free of any allergic reactions. Perhaps Mr. Baxter will now give others a chance to raise their questions."

I.Z.S. A.B. Vials of 10 c.c. 40 or 80 units per c.c.

I.Z.S. (Amorphous) A.B. Vials of 10 c.c. 40 units per c.c.

Signs of the times...

Few doctors have need to depend on Nature's signs to learn that winter is close at hand. Day by day, the steadily growing population in the waiting room provides an equally eloquent barometer! Time now to enlist VI-MAGNA multivitamins for those of your patients particularly prone to winter ills. The routine is eminently simple: just one VI-MAGNA Capsule or one teaspoonful of Syrup daily throughout the winter months. Remember—every dose of VI-MAGNA provides the important supplementary factors in carefully balanced amounts...every dose contributes to improved well-being during the testing months ahead.

VI-Magna CAPSULES & SYRUP

Each Capsule contains:		1
Vitamin A	5,000 I.U.	,
Vitamin D (viosterol)	500 I.U.	,
Thiamine mononitrate	3 mg.	•
Riboflavine (B2)	3 mg.	1
Pyridoxine HCl (B ₆)	0 2 mg.	-
Ascorbic acid (C)	75 mg.	
Niacinamide	20 mg.	- 2
Calcium pantothenate	1 mg.	,
Folic Acid	1 mg.	
Vitamin B ₁₂	1 mcgm.	
(as present in concentrated ex from streptomyces fermentation	tractives	
Bottles of 100 and 1,000	UII)	,
Bottles of 100 and 1,000		

Each teaspoonful (5 cc.) of Syr	up contains:		
Vitamin A (palmitate)	5,000 I.U.		
Vitamin D	500 I.U.		
Thiamine HCl (B ₁)	3.0 mg.		
Riboflavine (B2)	2.0 mg.		
Niacinamide	20 0 mg.		
Ascorbic acid (C)	75.0 mg.		
Calcium pantothenate	1.0 mg.		
Pyridoxine HC1 (B ₆)	0 2 mg.		
Vitamin B ₁₂	5 0 mcgm.		
(as present in concentrated extractives			
from streptomyces fermentation	on)		
Bottles of 4 and 16 fl. oz.

Present tense

Although concern or even anxiety over the problems of today and the challenges of tomorrow should normally act as a spur to greater effort, the over-anxious and tense individual may be overwhelmed and rendered ineffectual. The performance of such patients will be benefited by a change in mood.

To this end, 'Mepavlon' is most useful. 'Mepavlon' helps control the irrational fears and the attendant feeling of inner tension without interfering with autonomic functions. Patients become less pre-occupied with their symptoms, increasingly co-operative and hence more accessible to psychotherapy.

'Mepavlon' is presented in tablets each 400 mgm. in containers of 30 and a dispensing pack of 250.

Future perfect!

as the patient sees it...

The ophthalmic forms of Achromycin tetracycline are acceptable in every sense —not only from the physician's angle but from the patient's viewpoint too. Simple and painless to use, they are virtually free from unwanted side effects. The patient will therefore co-operate to the full in following the course of treatment prescribed.

In many cases of conjunctivitis and of ocular infection due to staphylococci, streptococci and other sensitive organisms, local measures with the Ophthalmic Ointment or Sterilized Powder are fully effective. In more severe conditions, however, simultaneous systemic treatment should be adopted with one of the oral forms of the drug.

A PRODUCT OF SEARLE RESEARCH

MICTINE

Effective,
Non-Mercurial
Oral Diuretic

STRUCTURE

"Mictine," brand of aminometradine, is 1-allyl-3ethyl-6-aminotetrahydropyrimidinedione. It avoids the undesirable side-effects associated with mercurial, xanthine or sulphonamide agents.

ACTION AND EFFECTIVENESS

"Mictine" is believed to act by inhibition of sodium ion absorption in the renal tubule. In therapeutic dosage it has not caused any effect on glomerular filtration rate, renal plasma flow, cardiac output, heart rate or blood pressure, nor any alteration in the blood or blood-forming tissues or in renal or hepatic function. In a group of unselected patients 70 per cent. may be expected to respond to "Mictine".

TOLERANCE

"Mictine" is not toxic at therapeutic dosages. On the other hand, side-effects do occur such as headache and gastro-intestinal symptoms. These are reduced to a minimum if an interrupted dosage scheme is adopted.

ADMINISTRATION

"Mictine" is indicated in the maintenance of an oedema-free state in any patient requiring diuretic therapy and the effecting of initial diuresis in all patients but those with severe congestive failure. For these purposes the dosage is one to four tablets daily in divided doses during meals on alternate

days or on three successive days followed by four days without therapy. "Mictine" is not intended to produce initial diuresis in more severe congestive failure; however, "Mictine" may be given when other diuretics are contra-indicated, or if tolerance to them has developed.

Available in bottles of 25, 100 and 500 tablets each containing 200 mg. aminometradine.

Full literature is available to the medical profession on request. G. D. Searle & Co. Ltd., High Wycombe, Bucks. Tel. High Wycombe 1770.

EAR WAX Removed this easy way

The removal of wax from the external auditory meatus has, in the past, normally entailed attendance by the patient for diagnosis and for the prescription of a suitable loosening agent, and a second attendance a few days later for syringing. Now, by the use of Cerumol Ear Drops, wax can be removed in most

Now, by the use of Cerumol Ear Drops, wax can be removed in most cases at one visit. A few drops of Cerumol can be instilled into the ear and, while another patient is being attended to, the soft cerumen dissolves and the harder wax disimpacts. The wax can then be removed by gentle syringing or with cotton wool. The wax may even be found to run out of the ear on its own accord, in which case patient themselves may instil Cerumol at home, obviating further attendances. Cerumol is anti-bacterial, non-irritating and harmless to the lining of the external auditory meatus or the tympanic membrane. Cerumol is included in Category No. 4 of the M.O.H. classified list of Proprietary Preparations and may be prescribed on N.H.S. Form E.C. 10.

In gastro-intestinal conditions...

When solid food is out of the question—in diarrhoea due to food poisoning or other intestinal infection—frequent sips of Lucozade, so easily assimilated, will do much to maintain the patient's strength and morale. Lucozade has all the qualities of glucose combined with a refreshing palatability that makes it acceptable in all circumstances of weakness and exhaustion.

Lucozade requires no preparation. It is a lightly carbonated glucose solution with an attractive golden colour and a pleasant citrous flavour. The liquid glucose content is 23.5% w/v or about 21 calories for each fluid ounce.

LUCOZADE

A logical treatment for coughs and colds

A decongestive salve, Thoracin, for the symptomatic relief of coughs, colds and respiratory disorders

Most doctors would agree that an externally applied remedy that passes through the skin direct to the bloodstream would have marked advantages over an oral preparation that may upset the digestive apparatus.

The decongestive salve, Thoracin, has just these advantages. Thoracin contains a new *ester* of guaiacol. This ester, being fat- and water-soluble, easily penetrates the skin, passes into the blood-stream and is quickly carried to the root of the trouble—the alveoli, bronchioles and bronchi of the lung.

Thoracin causes a vasodilation of the superficial skin vessels by the use of esters of nicotinic acid. It achieves the effect of the classic counterirritant remedies—poultices, plasters and cupping—without irritation of the skin.

Thoracin contains the tetrahydrofurfuryl ester of salicylic acid, which relieves the pain caused by reflex spasm of the pectoral muscles. It also brings to the alveoli via the bloodstream the sedative, antispasmodic and expectorant properties of camphor, eucalyptus, and guaiacol.

Especially suitable for children

Thoracin is available in 1 oz. tubes. Basic N.H.S. price of 2/6d. plus P.T. It is not advertised to the public. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low. The cream vanishes instantly and does not mark or stain clothing.

Samples and literature will be gladly sent on application to:

Medical Department
Lloyd-Hamol Ltd., II Waterloo Place,
London, S.W.I.

THORACIN

Made by the makers of Transvasin

Thoracin can be safely used on the most delicate skins, so it is particularly suitable for children. It is always easier to apply a soothing ointment locally to a child than to administer a dose of medicine.

HOW THORACIN WORKS

The esters in Thoracin pass through the skin to the blood vessels and are carried to the heart and thus on to the lungs. Here they are excreted through the bronchial passages and come out in vaporized form through the nose and throat, easing congestion, loosening mucus and soothing irritation

COMPOSITION

Phenyl Ethyl

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s, per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time (a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held;

held; £322 108. per annum for the second and all suosequent posts netu; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

THE SCOTT ISOLATION HOSPITAL, Plymouth

Plymouth Special Hospital Management Committee

SENIOR HOUSE OFFICER

SENIOR HOUSE OFFICER

Applications are invited for the above appointment from male registered medical practitioners who have preferably been qualified for one year, and have had previous hospital experience. The applicant should be able to drive a car. The duties, in two departments, will be chiefly in connection with infectious and venereal diseases, the former including a substantial proportion of cases in children. The varied clinical work, including acute medical cases, provides valuable experience, particularly to those reading for a higher medical degree, or contemplating general practice. The appointment will be for one year, vacant at the end of December, 1957. The post is non-resident, but the successful candidate will be required to live near the hospital and be on the telephone. Applications, together with copies of two recent testimonials, should be sent to the Group Secretary, Plymouth Special Hospital Managemen Committee, 8, Nelson Gardens, Stoke, Plymouth, as soon as possible.

Oversea (Vacant)-contd.

HER MAJESTY'S OVERSEAS CIVIL SERVICE

MEDICAL OFFICERS

with qualifications registrable in United Kingdom required for general duties. Successful candidates may be posted to any station in Kenya. During carlier years of service an officer will be expected to carry out general medical and surgical duties, including varying amount of public health administration. In most stations, even if remote from the larger towns, it is possible to maintain interest in any particular branch of medicine or surgery to which the officer is attracted. The work of every medical officer is based on a hospital, which may vary in size and facilities from small district hospital, meeting needs of comparatively primitive community, to large and modern provincial hospital. Appointments can be made on permanent basis with pension (non-contributory), or on shorterm contract with gratuity (taxable) payable on satisfactory completion of service. Salary ranges from £1.284 to £2.115 a year, starting point determined by experience. Four extra increments given to successful candidates possessing the F.R.C.S., M.R.C.P., D.P.H., or other approved higher qualifications. Permanent Medical Officers can be members of Her Majesty's Overseas Civil Service and are eligible to be considered at any time for promotion to super-scale posts in Kenya and other territories in medical administration or, if they possess higher qualification and suitable experience, in specialist posts. Quariers, when available, at rental varying from £30 to £78 a year, according to size and type, and furniture at rate varying from £15 to £36 a year. Free passages in both directions for officer and wife and up to cost of one adult fare for children. Taxation at local rates. Annual local leave permissible and generous home leave granted after each tour of from 24 to 45 months. Educational facilities available. Application forms from Director of Recruitment. Colonial Office, Great Smith Street, London, S.W.1 (quoting BCD 117/7/02).

Glan-y-don Nursing Home, Colwyn Bay, is the seaside branch of Cheadle Royal.

ST. ANDREW'S HOSPITAL, NORTHAMPTON for Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt. Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet apparatus, and a department for Diathermy and High-frequency treatment. It also contains laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

RRVN-V-NFIIADD HALL—The seaside house of

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seastore. There is trout-fishing in the park.

At all the branches of the hospital there are cricket At all the branches of the nospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London

Bronchitis or Asthma?

Regular administration of Franol through the winter will usually keep the chronic bronchitic patient free from acute attacks.

In bronchial asthma Franol is well known as a valuable prophylactic. Both the number and severity of attacks are reduced and the patient's continual fear that an attack may occur at any moment is allayed and his confidence restored.

Francl, which is a combination of a bronchodilator, an antispasmodic and a sedative, is well tolerated by both adults and children.

Medical literature is available on request.

Franol relieves bronchospasm

Trade Mark

The basic N.H.S. cost of one week's treatment (2 to 3 tabs. p.d.) 9½d to 1/2½d.
