DAPTAZOLE

in intractable pain

Since its introduction over two years ago, 'DAPTAZOLE' Brand of Amiphenazole has become firmly established as an adjunct to morphine in the treatment of intractable pain.

'DAPTAZOLE' does not appreciably diminish the analgesic action of morphine, but shows a marked and lasting antagonism to the respiratory and narcotic depression.

A report on 'DAPTAZOLE' concerns the treatment of 127 cases of the terminal stages of carcinoma with severely painful lesions. Large doses of morphine were given with 'DAPTAZOLE' and total relief of the pain was achieved in almost all cases.

WINTHROP PRODUCTS LTD—Overseas

British

Bayer Products Ltd. manufactures at the new production unit near Newcastle-upon-Tyne, a comprehensive range of pharmaceutical preparations widely used throughout Britain and sold overseas by Winthrop Products Ltd.

The Management of Bayer Products Ltd. believes that the development of new drugs is of great importance to the British community. Effective drugs can increase national productivity by reducing the severity and duration of illness and, because they often provide a suitable means of treating patients in their homes, can help to cut the very large hospital costs of the National Health Service. The construction of the new factory at Newcastle is a logical development of this view.

"IMPROVED THERAPY FOR PEPTIC ULCER"

Extract reprinted from the *American Journal of Gastroenterology*, (1957) 28, 439.

"The medication investigated is known as Roter tablets . . . The dosage employed in the treatment of gastric or duodenal ulcer was 2 tablets, taken three times a day with tepid water immediately after meals . . . this therapy is applicable to ambulatory patients."

SUMMARY

"In a series of 155 cases of peptic ulcer treated with . . . (Roter) tablets for three to six weeks, there was immediate relief of pain in 92 per cent of cases and roentgenological healing of the ulcer in 81 per cent. The average weight gain was 7.9 lbs. and occult blood disappeared from the stools in all of the six cases in which it was found.

"The benefit provided by the medication is attributed to the minute particulation of the bismuth subnitrate, produced by a special process of trituration in association with a synergistic antacid combination.

"The special features of this medication are immediate and prolonged relief of pain, correction of gastric hyperacidity, absence of side reactions, effectiveness for ambulatory patients, and early healing of the ulcer in most cases.

"There was no acid rebound in therapeutic dosage and no adverse effects were reported."

**ROTER**

FORMULA PER TABLET. Magnesium Carbonate (400 mg.),
Bismuth Subnitrate Roter (350 mg.), Sodium Bicarbonate (200 mg.),

atarax and peptic ulcer

An interesting suggestion

Recently published evidence has suggested that Atarax may be of value in the treatment both of peptic ulcer patients and of those whose predisposition to excessive worry might lead to the development of peptic ulcer.

Although by no means conclusive, the evidence suggests that in addition to its action in reducing worry, Atarax has a favourable effect on gastric hypersecretion.

26 patients: La Clinique, 513, 473 (1957).

"Atarax, 75 to 100 mg. daily in divided doses, was administered to 26 patients together with conventional treatment . . . comparison of an earlier series of 37 ulcer patients receiving only standard therapy with those given ATARAX adjunctively revealed that clinical and radiological response was significantly better in the latter group."

Six dogs: Pre-publication communication made to the Belgian branch of the Société de Biologie. Brussels (1956).

"Small doses of hydroxyzine (Atarax) (5 mg./kg.) produce a significant reduction of the hypersecretory effect..."

25 patients: Personal communication (1957).

Tests in a series of 25 patients show that there is "a definite and distinct lowering (of both volume of secretions and of free hydrochloric acid) in the majority of patients..."

the antibiotic of choice

in a NEW presentation

ACHROMYCIN OPHTHALMIC OIL SUSPENSION 1%

has been specially developed to make the topical use of ACHROMYCIN tetracycline in eye infections even simpler and more effective. The Oil Suspension offers optimal dispersion of the antibiotic; it diffuses rapidly into the conjunctival sac, has less effect on visual acuity, and provides longer-lasting antibiotic effectiveness. This new form of ACHROMYCIN is acceptable in every sense — to patient and physician alike. The new plastic dropper-type bottle makes accurate dosage easy, and the preparation is virtually free from side-effects. Because the product is so effective and simple to use, the patient can co-operate fully in following the treatment prescribed. That is why ACHROMYCIN Ophthalmic Oil Suspension 1% is now the treatment of first choice in many common forms of eye infection.

CODIS
Analgesic — Sedative — Antipyretic

"CODIS" is a combination of aspirin, phenacetin, and codeine phosphate—a combination well known and accepted medically as giving pain relief in a wide range of conditions.

The unique combination of these three substances in the form of a soluble compound has been formulated by "Dispersin" as a soluble form and which is being prepared for sale.

CODIS AND SOLUBILITY

THE GREAT ADVANTAGE of Codis is that it provides a codeine compound tablet in which the aspirin content is soluble in water. (The codeine constituent is also soluble, and the phenacetin is in very fine suspension.)

This is achieved by careful compounding and preparation, resulting in tablets which are quickly absorbed and well tolerated—even in cases of proven intolerance to ordinary (insoluble) aspirin.

To ensure stability and easy identification, the tablets are wrapped in moisture-proof distinctive gold foils of 10 tablets each (dispensing size), or boxes containing five foils of 4 tablets each (public size).

CODIS REGD. AVAILABLE FOR DISPENSING

today's new MASTER PLAN *against* migraine

The prescribing of 'Migril' makes possible at last a *planned* attack upon the three predominant symptoms of migraine. Ergotamine is present at strength in 'Migril' for its specific effect upon the characteristic headache and ocular disturbances. Caffeine is present too, since it acts as a synergist to ergotamine. Frequently, however, ergotamine tends to evoke nausea and vomiting on its own account and can therefore worsen these aspects of the condition. For this reason, the potent, rapidly acting anti-emetic cyclizine is also included in 'Migril'—to overcome any tendency to nausea or vomiting, whether caused by the ergotamine or by the condition itself. And so successfully does cyclizine achieve this aim that truly effective oral doses of ergotamine can today be given—by means of 'Migril'.

RIKER LABORATORIES LIMITED • LOUGHBOROUGH • LEICS.

In oedema of cardiac origin

'Neptal' brand mercuramide with theophylline is both quick and effective in action. A few hours after its administration there is a greatly increased flow of urine due to reduced reabsorption of water, sodium, and chloride from the renal tubules. This effect is of established value in controlling pulmonary and peripheral oedema and ascites associated with cardiac failure. It may also be used to reduce body weight in the obese patient in whom there is a hydropic tendency with sodium chloride retention.

'Neptal' may be given intramuscularly, or orally according to individual circumstances. Other parenteral methods are sometimes employed. When a constant diuresis is desirable, the intervals between injections may be prolonged by the interim administration of the oral preparation and a substance such as ammonium chloride which enhances its diuretic action.

SUPPLIES

Solution for injection in 1 c.c. and 2 c.c. ampoules (each c.c. contains 92 mg. mercuramide and 45 mg. theophylline.)

Tablets each containing 160 mg. mercuramide with 80 mg. theophylline.

Kiddies need no coaxing with this new form of **Achromycin V**

Here's an entirely new form of ACHROMYCIN V especially designed to simplify the control of infection in children and infants. ACHROMYCIN V Pediatric Drops Aqueous—delightfully flavoured with orange—make a particular appeal to the child who turns awkward when it's time to take his medicine.

The product contains ACHROMYCIN tetracycline with citric acid and sodium citrate for more rapid absorption and higher levels of the antibiotic in the blood.

Thus infection can be promptly controlled and the child's recovery accelerated. Accurate dosage can be measured drop by drop from the pliable plastic bottle (5 mg. of tetracycline per drop). The product can be given directly onto the tongue or added to water or fruit juice.

'RAUWILOID'

is essential
for Hypertension

'Rauwiloid', a purified and standardised fraction of *Rauwolfia serpentina* alkaloids, can be considered a basic treatment for hypertension. It lowers blood pressure more effectively than phenobarbitone or its combinations with theobromine and is less likely to cause depression than reserpine.

IMPORTANT

'Rauwiloid' may require more than a week for a significant anti-hypertensive effect to develop. Any previous treatment, particularly barbiturate, should be gradually reduced over this period.

In Mild to Moderate Hypertension

In most cases 'Rauwiloid' will provide adequate control by itself. Combination therapy is not necessary.

In Moderate to Severe Hypertension

When a greater hypotensive effect is required, 'Rauwiloid' should be combined with veratrum in the form of 'Rauwiloid + Veriloid'. 'Veriloid' is a biologically standardised alkaloidal extract of *Veratrum viride*. Such a combination with 'Rauwiloid' enables adequate doses of veratrum to be given for a satisfactory hypotensive response.
(See detailed literature).

In Severe or Malignant Hypertension

'Rauwiloid' used in conjunction with ganglionic blocking agents enables a smaller dose of the more potent medicament to be used, thereby minimising side-effects and decreasing the tendency for tolerance to develop.

'Rauwiloid' is available in 2 mg. tablets in bottles of 60 and 500.
Dosage, two tablets at night.

'Rauwiloid' and 'Veriloid' are registered trade marks

Ph.847

EAR WAX *Removed this easy way*

The removal of wax from the external auditory meatus has, in the past, normally entailed attendance by the patient for diagnosis and for the prescription of a suitable loosening agent, and a second attendance a few days later for syringing.

Now, by the use of Cerumol Ear Drops, wax can be removed in most cases at one visit. A few drops of Cerumol can be instilled into the ear and, while another patient is being attended to, the soft cerumen dissolves and the harder wax disimpacts. The wax can then be removed by gentle syringing or with cotton wool. The wax may even be found to run out of the ear on its own accord, in which case patients themselves may instil Cerumol at home, obviating further attendances.

Cerumol is anti-bacterial, non-irritating and harmless to the lining of the external auditory meatus or the tympanic membrane. Cerumol is included in Category No. 4 of the M.O.H. classified list of Proprietary Preparations and may be prescribed on N.H.S. Form E.C.10.

FORMULA (Active Constituents per 100 c.c.):— *p*-dichlorobenzene B.P.C., 2 gm.; Benzocaine B.P., 3 gm.; Chlorbutol B.P., 5 gm.; *Ol. Terebinth* B.P., 15 c.c.

PACKS:—For Surgery Use: 10 c.c. vial—separate dropper included. (Basic N.H.S. price 2/8.) For Hospital Use: 2 oz. and 10 oz. bottles.

SMITH & NEPHEW LIMITED · WELWYN GARDEN CITY · HERTS

A new chemotherapeutic agent developed in Hungary for the treatment of malignant neoplasms

'DEGRANOL' Brand of MANNOMUSTINE (B.C.M.)

Arrangements have been made with the Hungarian authorities for the general availability for the first time in this country of a new type of cytostat. This product was first prepared by Dr. L. Vargha of Hungary by linking nitrogen mustard with mannitol to form 1, 6-bis-(beta-chloroethylamino)-1, 6-desoxy-D-mannitol-dihydrochloride (known to research workers as B.C.M.).

The product strongly inhibits proliferating lymphocytes and it is also being investigated for its effect on metastasising tumours. Extensive clinical investigation in Hungary shows it to be of particular interest in the treatment of:—

*Chronic Lymphoid Leukaemia,
Chronic Myeloid Leukaemia,
Lymphadenoma,
Lymphosarcoma,
Reticulosarcoma, Myeloma.*

Carcinoma and Sarcoma DEGRANOL is being used experimentally in Hungary for administration before and after surgical treatment especially in gastric, intestinal and rectal cancer, to prevent tumour cells from being spread by the operation. In non-operable cases palliative effects have been obtained with DEGRANOL in a number of cases, with relief from pain, gain in weight and subjective improvement.

Toxicity, side effects, etc. DEGRANOL has been exhaustively tested clinically in Hungary and is now undergoing large-scale controlled clinical trials in this country. When used in accordance with instructions DEGRANOL is remarkably free from side effects. It is very much less toxic than nitrogen mustard and even unusually large doses are well tolerated.

Administration DEGRANOL is available in the form of 50mg. ampoules, and is administered by intravenous injection.

Full information, literature, references, etc., supplied on application to the sole U.K. distributors for CHINOID, BUDAPEST.

EDWARD TAYLOR LTD · MONTON · MANCHESTER

Poliomyelitis—

...an effective pattern of protection

The increasing use of inoculation against Poliomyelitis does not dispense with the necessity for using other proved methods of prevention.

On the contrary—such methods should be more widely and more thoroughly applied.

'In Poliomyelitis epidemics, where a large proportion of the virus hosts are symptomless carriers—a vigorous health education programme.... directed at raising the standards of personal hygiene.... coupled with measures to raise individual resistance to Poliomyelitis virus infection by strengthening active immunity, offers best hope of success.'

For inactivating Poliomyelitis virus, 'Oxidising agents seem to be

the most active chemical disinfectants.'

'An oxidising agent of great potency is Domestos which, when used at concentration of from $\frac{1}{4}$ to 2 ozs per gallon, provides a level of available chlorine in the range 150 to 1,200 parts per million—sufficient to inactivate the Poliomyelitis virus.'

A pattern of protection against Polio is assured by using DOMESTOS, which 'destroys Poliomyelitis virus—

(a) For Lavatories. Overnight contact will destroy heavy soiling and give a free residual chlorine content which will inactivate virus contaminants. The exterior of the bowl and the seat which frequently come into contact with the hands of

children, should always be washed with a DOMESTOS solution.

(b) For the disinfection and cleaning of dishes, floors, kitchen surfaces, sinks, etc.

(c) For safeguarding against the infection of food by bluebottles, flies, vermin.

(d) For the disinfection of yards, paths, etc.

CONSULTANTS IN HYGIENE

IN CASES OF SHOCK AND ACUTE HYPOTENSIVE STATES

CARNEGIES Solutions of

L-Noradrenaline

In the treatment of shock the agent used should simulate the normal compensatory mechanisms as closely as possible. It has been shown that L-NORADRENALINE more closely approaches these ideal requirements than adrenaline, but has a toxicity only one-quarter of that of adrenaline. The merits of L-NORADRENALINE therapy in hypotensive states have been evaluated in the medical press *vide* "Lancet" 11th May, 1957, and 25th May, 1957.

NOW AVAILABLE IN TWO FORMS IN 'SNAPULES'

(REGD.)

INTRAVENOUS SOLUTION for DRIP INFUSION

This preparation is generally indicated for treatment of acute hypotension. It contains 1 mg. L-noradrenaline per ml. of solution and requires substantial dilution before intravenous infusion.

PRESENTATION "Snapules" of 2 mgm. in 2 ml., 4 mgm. in 4 ml., and ampoules of 16 mgm. in 16 ml.

EMERGENCY SOLUTION FOR INJECTION

This preparation is designed for use only in extreme emergencies when the pulse is no longer palpable and immediate resuscitative measures are called for. It contains 100 µg. per ml. and does NOT require dilution before use.

PRESENTATION "Snapules" of 0.2 mgm. in 2 ml.

Prescribable on Form E.C.10

'TREE OF LIFE'

THE OPEN WAY PSYCHOTHERAPY CLINIC

The Clinic is administered by an independent charitable Trust. It offers therapy under medical direction to those whose needs cannot be met by materialist psychology, who cannot be given immediate attention at N.H.S. clinics, and who cannot afford high private fees. (A fee of one guinea per hour's session is charged.)

The Clinic also offers opportunities for post-graduate studies in psychotherapy. These take the form of research into all aspects of illness and healing, and mental health education.

TAVISTOCK HOUSE NORTH, TAVISTOCK SQUARE, LONDON, W.C.1

CLINICAL PATHOLOGY IN GENERAL PRACTICE

321 pages. Price 21s. (by post—inland and overseas, 22s. 3d.)

This handbook on clinical pathology meets the needs of the general practitioner, the houseman, and the senior student. It contains thirty-nine articles comprising a series specially written for the *British Medical Journal*. Each article has been revised and brought up to date by its author. The book gives authoritative information on—

- available laboratory facilities
- reliable tests and which to use
- techniques for collecting and preserving specimens
- interpretation of results and significance of abnormal findings

Obtainable from booksellers or by post from Publishing Manager

or from Regional Offices of the Association

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

***SERVICE MEMBERS** may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

PSYCHIATRY**DEPARTMENT OF HEALTH SERVICES
Tasmania****APPOINTMENT OF PART-TIME
PSYCHIATRIST, Hobart**

Applications for the above-mentioned appointment are invited from registered medical practitioners for appointment as Part-time Psychiatrist to the Department of Health Services in Hobart. Qualifications: At least a few years' experience in the practice of psychiatry is essential and the possession of a Diploma of Psychological Medicine is desirable.

The successful applicant will be required to devote five sessions per week (each of four hours) or the equivalent in Clinical Psychiatric work in Hobart for the Department of Health Services. The work will include work with both adults and children, the psychotic, neurotic, and mentally defective, and court and gaol psychiatry.

This appointment presents a unique opportunity to enable a Specialist in Psychiatry to establish himself in private specialist practice in Hobart, as there is at present no Psychiatrist practising privately.

The appointment will be for two years in the first instance. Salary is at the rate of £1,500 per annum. Four weeks' annual leave is granted.

Applications, stating qualifications, experience, and personal particulars, together with copies of three recent references, should be lodged with the undersigned.—The Official Secretary, Office of the Agent-General for Tasmania, 457, Strand, London. (6671)

LEEDS REGIONAL HOSPITAL BOARD**CONSULTANT PSYCHIATRIST AND
PHYSICIAN SUPERINTENDENT**

at Broadgate Hospital (650 beds), Beverley, East Riding. The successful candidate will have extramural duties at general hospitals in the Hull and East Riding areas. The appointment may be either resident or non-resident. Candidates for the above appointment should hold high qualifications in medicine and psychiatry and have had experience of administrative aspects of the specialty. Applications (12 copies), stating age, qualifications, and details of appointments held (showing dates), with names and addresses of three referees, to the Secretary, Park Parade, Harrogate, not later than August 26, 1958. (7324)

**NORTH-WEST METROPOLITAN REGIONAL
HOSPITAL BOARD****CONSULTANT PSYCHIATRIST AND MEDICAL
DIRECTOR**

nine half-days a week, Child Guidance Training Centre, 6, Osnaburgh Street, N.W.1. Centre may be visited by direct appointment. Application forms obtainable from, and returnable to, Secretary, North-West Metropolitan Regional Hospital Board, 11a, Portland Place, W.1, before August 27, 1958. (7272)

NEWCASTLE REGIONAL HOSPITAL BOARD**APPOINTMENT OF CONSULTANT
PSYCHIATRIST IN CHILD GUIDANCE**

St. Luke's Hospital, Middlesbrough
Consultant Psychiatrist in Child Guidance. St. Luke's Hospital, Middlesbrough (567 beds). The Child Guidance Unit of this hospital is in a detached house in a suburb of the city, near the hospital, and consists of an in-patient unit of 16 beds and an active out-patient department. Additional out-patient clinics will be arranged in association with the North Riding Local Authority. The appointment is whole-time; up to two sessions per week may be spent at the Unit of Child Psychiatry, Newcastle, a teaching and research unit associated with the University Department of Psychological Medicine. Opportunities will be given for devoting some time to adult psychiatry. Appointee to reside in close proximity to the hospital. Further particulars from Regional Psychiatrist. Applications, with names and addresses of three referees, to Regional Psychiatrist, Regional Hospital Board, Benfield Road, Newcastle upon Tyne, 6, within 28 days. (7325)

**TASMANIA
Department of Health Services****PSYCHIATRISTS**

Applications are invited for two (2) posts of whole-time employed Psychiatrists attached to the Department of Health Services.

Each application should be accompanied by two recent testimonials and the names of two referees. Qualifications: Applicants must possess medical qualifications registerable with the Medical Council of Tasmania, and preference will be given to applicants holding the D.P.M. or equivalent qualification.

Duties: On appointment, the successful applicants will be seconded for duties at Lachlan Park Mental Hospital and will be responsible to the Director of Mental Health through the Medical Superintendent of the Hospital.

Nature of Appointments: The appointments are not made under the Public Service Act. Termination of appointment is subject to three months' notice by the appointee or the Director-General of Health Services. No private practice is permitted.

Salary: At the rate of £A3,000 per annum.

Accommodation: Furnished residences are available for both Psychiatrists on a rental basis.

Superannuation: Is available.

Leave: 28 days' annual recreational leave is granted.

Enquiries and applications should be lodged with the Official Secretary, Office of the Agent-General for Tasmania, 457, Strand, London. (6670)

WELSH REGIONAL HOSPITAL BOARD**WHOLE-TIME CONSULTANT PSYCHIATRIST**

Morgannwg Hospital, Bridgend (2,359 beds). Applicants must have had wide experience in psychiatry, hold a Diploma in Psychological Medicine, be competent to take clinical responsibility and to participate in the work of the associated out-patient clinics and domiciliary consultant service in the area served by the hospital. E.E.G. experience will be an additional advantage. Married accommodation available if required. Twelve copies of application, naming three referees, to S.A.M.O., Temple of Peace, Cathays Park, Cardiff, within 21 days. (7334)

In addition to participating in the Anaesthetic Services of the Institute, the appointee will be required to co-ordinate and direct these services. The Institute is a well-equipped centre for radiotherapy and has a present bed capacity of 61 beds. It is anticipated that the bed capacity will be increased to 95 beds early in 1959. Salary at commencement will be at the rate of £A.1,603 per annum, which is the salary applicable to officers of consultant status. Superannuation is available and the appointee will be entitled to sick, recreational and long-service leave on a pro rata basis. The position is non-resident. An appointee from overseas will be granted first-class fares for himself and family, also an allowance of £200 sterling for the transport of furniture and personal effects. Further information may be obtained from the Medical Director, Dr. W. P. Holman. Applications, stating qualifications, experience, and including the names of at least two referees, close with the undersigned on August 15, 1958.—R. K. Churches, Acting Manager. (7333)

CANADA—UNIVERSITY HOSPITAL
Saskatoon, Saskatchewan

Appointments will be available for **JUNIOR AND SENIOR INTERNS** commencing January 1, 1959. The hospital is approved by the Canadian Medical Association for intern training and by the General Medical Council of Great Britain for pre-registration training. It is also approved by the Royal College of Physicians and Surgeons of Canada for specialty training. Salary \$100 per month for juniors and \$150 per month for seniors (plus \$40 board allowance), depending on experience and training. Further information and application forms will be sent by airmail. Address Assistant Director (Medical), University Hospital, Saskatoon, Sask., Canada. (7357)

DIRECTOR OF KANEMATSU MEMORIAL INSTITUTE OF PATHOLOGY

Applications are invited from qualified medical practitioners for the above-mentioned position, at a commencing salary of £3,616 (Australian currency), including £100 as remuneration for administrative duties. The duties of the Director are mainly to devote himself to his chosen field of medical research. He will also be expected to exercise general supervision over the routine work of the Institute. Further particulars set out in a brochure and the 1956 Annual Report of the Institute may be obtained from the Advertisement Director, *British Medical Journal*, Tavistock Square, London, W.C.1. Superannuation: Contributory scheme available after completing one year's service. Applications, with copies of published papers, should reach the President, Sydney Hospital, Sydney, New South Wales, Australia, not later than September 30, 1958.—E. C. Docking, Secretary. (5639)

NEW ROCHELLE HOSPITAL, New Rochelle, New York, U.S.A.
(383-bed general community hospital)

Approved by the Joint Commission on Accreditation of Hospitals. Also approved by the American College of Surgeons and American Medical Association for Internship and Residency training. Only graduates of approved university schools accepted.

INTERNSHIPS

available for the one-year term commencing July 1, 1958. Stipend is \$200 per month, plus complete maintenance.
