TWO IMPORTANT NEW EDITIONS

Ready September

EMERGENCY SURGERY

By Hamilton Bailey, F.R.C.S.

7th Edn. 1,213 pp. 1,576 illustrations, a large 189s., post 3s. number in colour.

This well-known work has been completely revised; many new illustrations have been added and a large number of others remade. So extensive has been the revision that it might almost be said to be a new book.

A SYNOPSIS OF SURGERY

Edited by Sir Cecil Wakeley, Bt., K.B.E., C.B., F.R.C.S.

15th Edn. 658 pp. 190 illustrations and 13 plates in colour. 37s. 6d., post 1s. 2d.

This compact volume presents an epitome of the salient facts in surgical practice in such a manner that they may be easily referred to or revised. An invaluable aid to the memory in retaining a vast array of facts in an orderly manner.

JOHN WRIGHT & SONS LTD., BRISTOL

. SAUNDERS BOOKS..

Hollender-PSYCHOLOGY OF MEDICAL PRACTICE

One of the physician's most difficult tasks is to put himself on "the other end of the stethoscope" and to understand the fears and hopes that are in the patient's mind. This new book helps you apply your medical knowledge to the patient's uninformed attitudes about his illness and helps you put him in the best possible frame of mind to cope with his illness. It is not a book on psychiatry or on psychosomatic medicine, but rather one on the everyday problems of the doctor-patient relationship and the emotional reaction of patients to disease.

By MARC H. HOLLENDER, Professor and Chairman, Department of Psychiatry, State University of New York. 276 pages.

45s. 6d.

Terracol & Sweet-DISEASES OF THE ESOPHAGUS

Based on the eminent French work "Maladies de L'Oesophage" by the skilled endoscopist, Professor Jean Terracol. Translated, re-edited, and brought completely up to date by the distinguished oesophageal surgeon, Dr. Richard Sweet. This outstanding book covers all aspects and phases of diagnosis and treatment of all the varied diseases of the oesophagus and highlights the remarkable advances made during the last 15 years.

By JEAN TERRACOL, Professor of the Faculty of Medicine of Montpelier, France; and RICHARD H. SWEET, Associate Clinical Professor of Surgery, Harvard Medical School. 682 pages, with 408 illustrations.

The NEW MAYO CLINIC VOLUME. (Volume 49)

Recent developments in clinical medicine and surgery from the world-famous Mayo Clinic. All these developments have been preved in practice and are based on the thousands of cases seen each year at this Clinic. 831 pages. 238 illustrations. 91s.

PITMAN MEDICAL PUBLISHING COMPANY LTD.

STREET PARKER LONDON W . C . 2

A new chemotherapeutic agent developed in Hungary for the treatment of malignant neoplasms

'DEGRANOL' Brand of MANNOMUSTINE

(B.C.M.)

Arrangements have been made with the Hungarian authorities for the general availability for the first time in this country of a new type of cytostat. This product was first prepared by Dr. L. Vargha of Hungary by linking nitrogen mustard with mannitol to form 1, 6-bis-(betachloroethylamino)-1, 6-desoxy-D-mannitol-dihydrochloride (known to research workers as B.C.M.).

The product strongly inhibits proliferating lymphocytes

and it is also being investigated for its effect on metastasising tumours. Extensive clinical investigation in Hungary shows it to be of particular interest in the treatment of:-

Chronic Lymphoid Leukaemia, Chronic Myeloid Leukaemia, Lymphadenoma, Lymphesarcoma, Reticulosarcoma, Myeloma.

H2C-NH-CH2-CH2-C но-с-н но-с-н .2HCI н-С-ОН H-C-OH H₂C-NH-CH₂-CH₂-C

Carcinoma and Sarcoma DEGRANOL is being used experimentally in Hungary for administration before and after surgical treatment especially in gastric, intestinal and rectal cancer, to prevent tumour cells from being spread by the operation. In non-operable cases palliative effects have been obtained with DEGRANOL in a number of cases, with relief from pain, gain in weight and subjective improvement.

Toxicity, side effects, etc. DEGRANOL has been exhaustively tested clinically in Hungary and is now undergoing large-scale controlled clinical trials in this country. When used in accordance with instructions DEGRANOL is remarkably free from side effects. It is very much less toxic than nitrogen mustard and even unusually large doses are well tolerated.

Administration DEGRANOL is available in the form of 50mg, ampoules, and is administered by intravenous injection.

Full information, literature, references, etc., supplied on application to the sole U.K. distributors for CHINOIN. BUDAPEST.

Leda Chemicals Limited (Pharmaceutical Division) P.O. Box 500, Berk House, Portman Square, W.I Tel: Hunter 6688 Supplies can be obtained from the above or through the usual distributive channels.

PRACTICAL BOOKS FOR STUDENTS

A notable advance in surgical teaching-

TEXTBOOK OF SURGERY

Edited by

GUY BLACKBURN, M.B.E., M.CHIR., F.R.C.S.

REX LAWRIE, M.S., F.R.C.S., M.D., F.R.C.P. Foreword by

SIR RUSSELL BROCK, M.S., F.R.C.S., F.A.C.S.(Hon.)

With Sixteen Contributors from Guy's Hospital

The object of the editors has been to provide a comprehensive survey of the whole field of general surgery for the student preparing for final examinations, and for the recently qualified practitioner. Emphasis has been laid throughout on the clinical side of surgery, with particular stress on the latest methods of diagnosis. Special care has been taken in the manner of presentation, in the preparation of concise yet lucid text, and in the selection of the numerous plates, figures and diagrams which support and amplify it. Perhaps most important, as Sir Russell Brock says in his Foreword, "... the book has been written and produced in a remarkably and commendably short time. It is more than hot from the press—it is hot from the pen.'

GLAXO LABORATORIES LTD., GREENFORD, MIDDLESEX, BYRon 3434 Subsidiary Companies or Agents in most countries

Recently introduced to the Medical Profession in this country, Vasculit is a haemokinetic agent which produces a marked increase in peripheral blood flow. This is accompanied by an increase in cardiac efficiency associated with an increase in stroke output. The heart rate remains unchanged.

In therapeutic dosage, the action of Vasculit is immediate and free from the common and often intense side-effects associated with conventional treatment of deficient peripheral blood flow. Clinical investigations reveal no significant fall in blood pressure

and no extra systoles or other arrythmias have been observed. Apart from its therapeutic effects, Vasculit is reported to create a

subjective feeling of well-being.

a haemokinetic agent

for increased peripheral blood flow

Vasculit is available both in drop and tablet form. This permits precise and flexible dosage to suit the varying needs of individual

Good results have been obtained with Vasculit in the treatment of many vasomotor disorders, delayed union of fractures, in traumatic osteoporosis and in bedsores1. It has also been used with benefit in post-thrombotic conditions² and has received numerous favourable reports as a valuable adjuvant in the treatment of indolent ulcers of the leg*. Headaches and cerebral symptoms associated with essential hypertension and arteriosclerosis have been promptly relieved.

p-AMINOBENZOIC acids

bring relief to cases of arthritis and rheumatism

The cases of soft-tissue rheumatism, and arthritic disorders, in the control of t

For Transvasin is composed of the esters of nicotinic, activities and p-aminobenzoic acids. These esters readily pass the stop parrier in the apeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.

Transvasin not only induces vasodilation of the skin with a superficial crythema, but also brings about a deep hyperacture of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Transvatin is available in 1 oz. tubes, basic N.H.S. price in the U.K. 2/6 plus P.T., and is not advertised to the public. It may be prescribed on FormE.C. 10. Samples and literature will be gladly conton application.

Poliomyelitis-

...an effective pattern of protection

The increasing use of inoculation against Poliomyelitis does not dispense with the necessity for using other proved methods of prevention.

On the contrary—such methods should be more widely and more thoroughly applied.

'In Poliomyelitis epidemics, where a large proportion of the virus hosts are symptomless carriers—a vigorous health education programme.... directed at raising the standards of personal hygiene....coupled with measures to raise individual resistance to Poliomyelitis virus infection by strengthening active immunity, offers best hope of success.'

For inactivating Poliomyelitis virus, 'Oxidising agents seem to be

the most active chemical disinfectants.' 2

'An oxidising agent of great potency is Domestos which, when used at concentration of from \(\frac{1}{4}\) to 2 ozs per gallon, provides a level of available chlorine in the range 150 to 1,200 parts per million—sufficient to inactivate the Poliomyelitis virus.' \(\frac{1}{3}\)

A pattern of protection against Polio is assured by using domestos, which destroys Poliomyelitis virus—

(a) For Lavatories. Overnight contact will destroy heavy soiling and give a free residual chlorine content which will inactivate virus contaminants. The exterior of the bowl and the seat which frequently come into contact with the hands of

children, should always be washed with a domestos solution.

- (b) For the disinfection and cleaning of dishes, floors, kitchen surfaces, sinks, etc.
- (c) For safeguarding against the infection of food by bluebottles, flies, vermin.
- (d) For the disinfection of yards, paths, etc.
- (e) For the disinfection and cleaning of clogged drains.
- Topical Aspects of Poliomyelitis', 'Journal of the Royal Society of Health' Dec. 1956
- World Health Organisation Technical Report Series, No. 81, 'Expert Committee on Poliomyelitis'.

CONSULTANTS IN HYGIENE

ADRENOXYL

reduces the mean capillary bleeding time

Adrenoxyl is a capillary haemostatic which reduces the mean capillary bleeding time by increasing the contractility and resistance, and decreasing the permeability of the capillary wall.

Reduces capillary oozing

Reports have been received of the value of Adrenoxyl in diminishing capillary oozing both at the time of operation and post-operatively in many types of operation, including ear, nose and throat, ophthalmic, plastic and dental surgery. It has no effect on venous or arterial bleeding.

Safe and free from side-effects

Adrenoxyl is safe, and no side-effects have been reported following its use. It does not affect pulse rate, blood pressure, nor blood coagulation.

Packs

Adrenoxyl is available in ampoules for intramuscular or subcutaneous injection and in tablets for oral administration.

AMPOULES Each 2 ml. ampoule contains 0.75 mg. of

adrenochrome monosemicarbazone dihydrate. The ampoules are packed in boxes of 6 and 50.

TABLETS Each tablet contains 2.5 mg. of adrenochrome monosemicarbazone dihydrate. The tablets are packed in tubes of 25 and bottles of 500.

Sunskine and Warmth for people of all ages

So many people would feel all the better for the stimulating warmth and sunshine provided by Philips Health Lamps. For instance, when used under medical guidance, these lamps are often remarkably successful in treating rheumatic complaints and debilitated conditions.

Two types of lamp are available, both requiring a signed medical certificate to enable the patient to purchase.

Philips Ultra-violet SUNLAMP

Philips Sunlamp gives the blessing of "Mountain sunshine"-a boon in convalescence and, as many doctors spow, is useful for treating skin troubles, such as psoriasis. Price: 25.17s.6d. (including goggles).

Philips infra-red INFRAPILIE

Philips Infraphil was installed in the medical centres at the last two Olympic Games. It is most valuable in alleviating the pain of arthritis, rheumatism and muscle-strain. Infraphil Infrared lamp costs only £3.3s.0d. (as illustrated). De-luxe model "A" Price: £4.4s.0d.

NOW AVAILABLE IN BRITAIN

DONNATAL

antispasmodic anticholine sedative

"... in the United States the preparation which is by far the most widely prescribed is "donnatal", a mixture of the naturally occurring substances atropine, hyoscine, and hyoscyamine."

British Medical Journal, 1958, 1. 882

As recently annotated in the B.M.J., Donnatal contains *natural* belladonna alkaloids, atropine, hyoscine and hyoscyamine, with added phenobarbitone. In the United States it is, as quoted, "the most widely prescribed preparation" where spasmolysis with non-toxic sedation is indicated. Since the original introduction of Donnatal some years ago, a wealth of clinical evidence has been steadily accumulating, testifying to the remarkable success of this unique formulation in the treatment of a wide range of gastro-intestinal, genito-urinary and other disorders where the control of spasm is called for.

Each Donnatal Tablet contains:

Hyoscyamine Sulphate 0.1037 mg.
Atropine Sulphate 0.0194 mg.
Hyoscine hydrobromide 0.0065 mg.
Phenobarbitone (‡ gr.) 16.2 mg.

Available in bottles of 50

Better relief for Arthritics-minimum side effects

In salicylate therapy BUFFERIN (Antacid Analgesic) has these two special advantages. It is *faster-acting*—twice as fast as ordinary aspirin. It is *better-tolerated*—even in large doses, as for arthritis.

According to a British survey, as many as 42% of arthritics are intolerant to aspirin. And in a blind trial among arthritics with a *proved* intolerance to aspirin, 70% had no gastric symptoms after taking large doses of BUFFERIN over periods of 4 to 16 months. (1)

In clinical tests, it was shown that BUFFERIN raises the salicylate blood level of humans more than 20% higher in *ten* minutes than ordinary aspirin does in *twenty* minutes.

Hence the importance of BUFFERIN in all salicylate therapy. Only BUFFERIN contains the antacid agents which:—

*reduce gastric upset to a negligible minimum (2) (3);

*actually speed the pain-relieving ingredient into the bloodstream (4) (5).

It acts faster. It is better tolerated. It contains no sodium.

Geigy Pharmaceutical Co. Ltd.. Manchester, 23. PH.12D

Rastinon tablets, developed by Farbwerke Hoechst AG., of Frankfurt/M., under the research No. D860, have now an established place in the therapy of diabetes mellitus. The large volume of clinical work and the number of papers published, reflect the world-wide interest in Rastinon. This work clearly shows that for the suitable patient Rastinon tablets provide a form of therapy which is

Simple, safe, effective and economical

Rastinon is not a "sulphonamide drug," has no anti-bacterial action and does not produce crystalluria. No cases of dyshaemopoiesis or other serious side-effects have been reported among the many thousands of patients satisfactorily controlled for more than two years.

The suitability of a patient for treatment with Rastinon tablets is readily assessed in the diabetic clinic and once stabilised no difficulties have been experienced in controlling the patient. An acute intercurrent infection may necessitate a temporary return to insulin therapy.

DOSAGE

Once stabilised, from one to three tablets a day are normally all that is required to replace the insulin with its concomitant syringe, needles, swabs, and often nursing assistance as well. During the period of stabilisation it has been found that generally from four to eight tablets on the first day, three to six on the second and three to five on the third are sufficient.

The daily amount should be divided into two or three doses and taken during or after meals with a little fluid. Higher doses are not usually more effective and are not recommended as they may occasionally cause hypoglycaemic reactions. The normal regime of urine examination and dietary control remains necessary.

To lessen the possibility of the patient taking a tablet other than Rastinon in error, each tablet is engraved with the name Rastinon and the trade mark of the originators.

PACKS

Bottles of 100 and 500 tablets—each tablet contains 0.5 G. N-Butyl-N'-toluene-p-sulphonylurea (tolbutamide). The basic cost to the N.H.S. of a week's treatment is on average between 3/6d. and 5/3d.

unrivalled speed of absorption

For rapid absorption Chloromycetin* is unique among present-day antibiotics. Effective anti-bacterial levels at most sites of infection can readily be obtained by oral administration.

As blood-levels may conveniently be adjusted to control any grade of infection,
Chloromycetin therapy produces swift response, and the duration of treatment is, therefore, reduced. The completeness of absorption also lessens the possibility of gastro-intestinal upset.

CHLOROMYCETIN

effective against many organisms resistant to other antibiotics.

FOR PAEDIATRIC USE

For "once-a-day" sulpha therapy in infants and children

Now children, even young infants, can receive the full benefits of Lederkyn—Lederle's low-dosage, long-acting sulpha drug. For Lederle research has overcome the characteristic bitter taste of free sulphonamides by the introduction of tasteless acetyl sulphamethoxypyridazine.

Lederkyn Acetyl Pediatric Suspension presents this superior sulphonamide in a pleasantly cherry-flavoured form that is highly acceptable to children. This new product materially simplifies the therapy in the young patient because of its high antibacterial potency, low "once-a-day" dosage, prolonged action and better tolerance.

Bottles of 2 fl. oz., 250 mg. active sulphonamide in each teaspoonful (5 cc.)

round-the-clock sulpha therapy with "once-a-day" dosage

LEDERLE LABORATORIES DIVISION

Cyanamid OF GREAT BRITAIN LTD., London. W.C.2

Meclozine hydrochloride 25 mg., plus pyridoxine hydrochloride (vitamin B_6) 50 mg.

Meclozine hydrochloride is given for central control of the vomiting and pyridoxine hydrochloride for basic nutrition restoration.

DOSAGE

2 tablets at night until the condition is under control.

Basic N.H.S. cost of treatment—1/3 per day. Containers of 10 and 50 tablets.

THE BRITISH DRUG HOUSES LTD. (Medical Department) LONDON N.I

Please note also-

How easy it is for your patients to insert.

How gentle its contact with the vaginal epithelium.

How positive its wick action in absorbing the flux.

How dainty it is for the patients to remove.

How well it is adapted to individual needs.

The Tampax tampon is unique in providing "flat expansion"—conforming to the flat cross-section of the normal collapsed vagina. The Medical Profession realizes the essential physiological advantages of this feature; and patients appreciate the comfort of Tampax in situ.

Indeed, because Tampax was designed by a physician the most thorough scientific consideration was given to all such essential details. To meet individual requirements Tampax is available in two absorbencies (Regular and Super). The surgical cotton is compressed to one-eighth of its original size, and is supplied in a simple individual applicator to assure easy insertion and a hitherto unknown degree of hygiene. When placed within the vaginal canal, Tampax expands without irritation or pressure on the cervix—its positive wick action drawing the flux freely away from the cervix and preventing any blockage of the flow.

The comfort, convenience and complete hygiene, which this modern form of menstrual protection provides, can contribute so much to your patient's peace of mind and encourage her to lead a normal life during the period.

If you have not closely examined Tampax, Professional samples and literature will gladly be supplied by Medical Department, Tampax Limited, Belvue Road, Northolt, Greenford, Middlesex.

Tampax provides better physical management of menstrual hygiene

NEW: CAFDIS

soluble aspirin — phenacetincaffeine

The aspirin in Cafdis is solubilised in the same manner as in SOLPRIN and CODIS. In water, the phenacetin is in fine suspension and the aspirin and caffeine go into solution. Consequently, risk of gastric irritation from aspirin is greatly diminished.

Dissolved in water, Cafdis is pleasant and easy to take. It is quickly absorbed and rapidly becomes effective.

Each tablet contains: Acid Acetylsalicyl. B.P. 3.5 gr., Phenacet. B.P. 2.5 gr., Caffein. B.P. 0.5 gr., Calc. Carb. B.P. 1.05 gr., Acid. Cit. B.P. (Exsic.) 0.35 gr., et excip.

N.H.S. BASIC PRICE. 500 tablets in foils of 10 tablets each. 16/- per box. N.H.S. CATEGORY 4.

For clinical samples, literature, and any further information about Cafdis, please write to:—

DUNCAN FLOCKHART OF EDINBURGH

The Doctors' House

This special shampoo

owes much of its success to the Medical Profession

Just about four years ago, Sebbix shampoo was introduced to the medical profession with marked success. Almost at once, doctors began to recommend Sebbix as a safe, sure means of controlling pityriasis capitis. Not until it had earned professional acceptance was Sebbix offered to the general public; and only then was it widely and carefully advertised. Today, Sebbix is a respected name in many households, and doctors continue to advise their patients to use this special shampoo-without the need of prescription. As a product which requires no prescription, Sebbix shampoo offers remarkable value both to private and N.H.S. patients. A point worth remembering.

Sebbix Shampoo

eliminates dandruff

Liquid or Cream, 3/3. Sachets, 9d.

NEW BOOKS

WOMAN'S CHANGE OF LIFE

by Isabel Hutton, M.D.

This book, by the author of The Hygiene of Marriage (now in its 9th edition) gives a systematic and frank account of the climacteric in a manner that will be understood and appreciated by the average woman. No medical advice is offered, but sufficient information is given to enable women to know when to consult their medical adviser should any abnormal condition develop. It is hoped that physicians may find in this treatise a useful adjunct to their medical treatment as well as a saving of lengthy explanations to the questions so often asked by anxious excitate.

ORTHOPAEDICS IN **GENERAL PRACTICE:**

Is It Rheumatism, Doctor?

by W. H. Gervis, F.R.C.S.

Typical subjects discussed and for which treatment is indicated are pain in the neck and shoulders, tennis elbow, backache in women, prolapsed disc, minor injuries, painful joints, foot deformities and the orthopaedics of childhood generally.

Publication: September 25th.

THE SUDAN MEDICAL SERVICE

by H. C. Squires, C.M.G., D.M.(Oxon.) F.R.C.P., D.P.H.

Dr. Squires served in the Civil Medical Service in the Sudan from 1908 until 1930. From 1928 until 1951 he was the Sudan Governments' Consulting Physician in London. He was therefore closely associated with the Service for forty-three of its first flifty years. The Medical Service was among the most efficient departments in the country, and this book contains a historical record of its work and of the activities of those concerned with its organization.

New Edition

THE EXTRA **PHARMACOPŒIA**

MARTINDALE

24th Edition

Volume I

Accepted throughout the world as an invaluable source of information on medicinal and pharmaceutical substances, this entirely new 24th edition of Volume I has been completely re-written and revised and is up to date in respect of the wide field of therapeutics which it covers.

It forms the most complete guide to "ethical" proprietaries and to formulæ from many sources, including those in foreign pharmacopæias. There are special sections on antibiotics, biological products, and drugs that are rarely used. Details are provided on the toxicity of chemicals and drugs, on reports of cases of poisoning, and on treatment of overdosage. The book is much larger and has more pages than any previous edition.

How Heinz Baby Foods simplify mixed feeding

The days are gone when mixed feeding involved mother in hours of work, sieving and straining meat and vegetables for her baby's dinner.

To-day, she finds it much more simple and pleasant—when you recommend Heinz Baby Foods as soon as baby is 11 or 12 weeks old. Baby takes his food more readily from a calm and relaxed mother, and this should result in happy, contented mealtimes that both mother and baby enjoy. And, with the 24 varieties of Heinz Baby Foods, a mother can give her baby the very best fruits, vegetables and meats all the year round.

All the ingredients used by Heinz are carefully selected, prepared in scrupulously hygienic conditions, and specially cooked to retain the maximum nutritional value. Accustoming baby as early as possible to this wide range of foods, trains growing appetites along healthy lines.

Further information about Heinz Baby Foods will be gladly sent on request. Please write to: H. J. Heinz Company Limited, Harlesden, London N.W.10

COATES & COOPER LTD.

PYRAMID WORKS . WEST DRAYTON . MIDDLESEX

* Doubleacting

fights both Trichomonas & Monilia

in vaginal therapy

★ It has been stated that with acetarsol and sulphonamide preparations, Trichomonas and other infecting organisms are quickly destroyed, leaving the vagina clear for Monilia, which seems to flourish on the pessary debris, particularly those with a carbohydrate base. This, however, does not occur with Penotrane because of its dual activity.

Composition: PENOTRANE is the phenylmercuric salt of dinaphthylmethane disulphonic acid, coupling powerful trichomonacidal, fungicidal and bactericidal activity with deeply penetrative properties.

Advantages: PENOTRANE gives unique penetration of living tissue, and its wide range of activities is actually increased in the presence of blood and vaginal mucus. It reduces the risk of relapse to an absolute minimum. Both Penotrane Pessaries and Vaginal Cream are buffered to maintain normal vaginal actidity.

Availability:

PENOTRANE: Applicator Sets—containing Penotrane Vaginal Cream and disposable applicators.

Detergent — Bottles of 100, 500 and 2,000 c.c.

Jelly - Tubes of 1 oz.

Pessaries — Cartons of 15 and 100.

Powder — Polythene Insufflating Containers.

Tincture — Bottles of 15, 100 500 and 2,000 c.c.

THE SOCIETY OF CHIROPODISTS

8, WIMPOLE STREET, LONDON, W.1

The Society is a member of the Board of Registration of Medical Auxiliaries.

Its diploma is accepted by the Medical Profession as evidence of scientific knowledge and thorough practical training. The designatory letters are F.Ch.S. (Fellow), M.Ch.S. (Member), and A.Ch.S. (Associate).

The course of instruction covers the whole sphere of the theory and practice of Chiropody, and includes tuition in Anatomy, Physiology, Medicine, and Surgery in so far as these have a bearing on Chiropody. All lectures on Medical subjects are given by members of the Medical Profession and certain of the lectures are given in the Universities and Medical Schools of the cities where these Schools are situate. The training, which is approved by the Minister of Health and the Dept. of Health for Scotland, occupies three years' full-time tuition and may be taken at any of the following Schools, which are recognized by the Society:

Chelsea School of Chiropody, 250, King's Road, London, S.W.3.

London Foot Hospital School of Chiropody, 33, Fitzroy Square, London, W.1.

Birmingham General Dispensary School of Chiropody, 41, Newhall Street, Birmingham, 3.

Manchester Foot Hospital School of Chiropody,

Anson Road,
Victoria Park, Manchester, 14.

Royal Technical College, School of Chiropody, 28 and 29, The Crescent, Salford, 5.

Edinburgh Foot Clinic School of Chiropody, 81, Newington Road Edinburgh.

Glasgow and West of Scotland Foot Hospital College of Chiropody, 22, Windsor Terrace Glasgow, N.W.

Glasgow Southern Foot Clinic College of Chiropody, 44 and 48, Cumberland Street, Glasgow, C.5.

These Schools are attached to Foot Clinics where Students are afforded opportunities of seeing and treating those varied types of foot trouble which come within the province of the Chiropodist.

The Examinations in Anatomy, Physiology, Medicine, and Surgery are conducted by members of the Medical Profession from a panel approved by the Royal College of Physicians and Royal College of Surgeons of England respectively.

Further particulars may be obtained from the Secretary, L. W. Griffiths, F.A.C.C.A., A.C.I.S., or direct from any of the Schools referred to above.

INSTITUTE OF NEUROLOGY

(QUEEN SQUARE)

LONDON, W.C.1

(University of London—British Postgraduate Medical Federation)
Associated with: The National Hospital, Queen Square, and the Maida Vale Hospital for Nervous Diseases, Maida Vale

THE Institute provides postgraduate training in the various departments of Neurology.

THE OUT-PATIENT PRACTICE is open at 10 o'clock at QUEEN SQUARE every day (except Saturday). A THE OUT-FATIENT PRACTICE is open at 10 octoor at QUEEN SQUARE every day (except Saturday). A fee of £3 3s. per month is charged for attending the Out-Patient Department only.

THE IN-PATIENT PRACTICE at QUEEN SQUARE and MAIDA VALE is open at 10 o'clock, and a limited number of Clinical Clerks are appointed at both Hospitals. Fees: three months, £18; six months, £32.

Special courses of instruction are given during the summer, autumn and winter terms, and Clinical Demonstrations are given on Wednesday afternoons and Saturday mornings as advertised in the Medical Journals.

Application should be made to the Dean at the Institute.

MICHAEL KREMER.

THE UNIVERSITY OF SHEFFIELD

FACULTY OF MEDICINE

Dean-J. G. McCRIE O.B.E., T.D., M.B., F.R.C.P.Ed.

The University grants Degrees in Medicine and Surgery (M.B., Ch.B., M.D., Ch.M.) and in Dental Surgery (B.D.S., M.D.S.). It also grants a Diploma in Public Health (D.P.H.), a Diploma in Microbiology (Dip. Microbiol.) and a Diploma in Dental Surgery (L.D.S.). These are all open to men and women on equal terms.

The Session 1958-59 begins on October 6.
Entries to the Medical and Dental Schools are strictly limited in order to ensure adequate lecture and laboratory accommodation for all students. Lectures and laboratory courses are given in the University, whilst clinical instruction is provided in the general and special Hospitals in the City. The relatively ample number of hospital beds available renders the facilities for clinical instruction unusually large.

HALLS OF RESIDENCE.—For Men: Crewe Hall, Clarkehouse Road, Sheffield, 10; Ranmoor House, Fulwood Road, Sheffield, 10; Stephenson Hall, Oakholme Road, Sheffield, 10. For Women: University Hall of Residence for Women, Endcliffe Vale Road, Sheffield, 10, and annexes.

Particulars of the Halls may be obtained from the Wardens.

A number of junior hospital appointments are open to qualified students of the Schools, both male and female.

Prospectuses containing details of the Medical and Dental Schools may be obtained, respectively, from the Dean of the Faculty of Medicine and the Director of Dental Studies; and one giving particulars of Entrance Scholarships from the undersigned. A W. CHAPMAN, Registrar.

INSTITUTE OF PSYCHIATRY (UNIVERSITY OF LONDON)

(THE BETHLEM ROYAL HOSPITAL AND THE MAUDSLEY HOSPITAL) at the Maudsley Hospital, Denmark Hill, London, S.E.5

The Institute, which is in the British Postgraduate Medical Federation, provides courses of instruction covering up to three years for postgraduate students who wish to specialize in psychiatry or prepare for the Academic Postgraduate Diploma in Psychological Medicine of the University of London or the Diploma in Psychological Medicine of the Conjoint Board. The subjects covered include anatomy and biochemistry of the nervous system, neurophysiology, pathology of nervous and mental diseases, psychiatry of children and adults, delinquency, principles of psychotherapy, forensic psychiatry and criminology, psychology, mental testing and statistics. Clinical training is available throughout the year. There is a special six months' course in child psychiatry. Selected students are eligible for appointments as House Officer and Registrar at the Bethlem Royal Hospital and the Maudsley Hospital.

Facilities for research and supervision of study for biology degrees can be provided in clinical

Maudsley Hospital.

Facilities for research and supervision of study for higher degrees can be provided in clinical work and in the biochemical, physiological, neuro-endocrinological, neuropathological and psychological laboratories.

A course for Honours Graduates in Psychology is available in clinical psychology for the Academic Postgraduate Diploma in Psychology. In conjunction with the Institute of Neurology, a course in the techniques of electroencephalography is provided for doctors who expect to take up electroencephalographic appointments in hospitals.

Further information may be obtained from the Dean, Institute of Psychiatry, the Maudsley Hospital, Denmark Hill, London, S.E.5.

THE ROYAL DENTAL HOSPITAL OF LONDON SCHOOL OF DENTAL SURGERY (University of London)

Patron: Her Majesty the Queen

ADMISSION: The School is open to men and women on equal terms. Students are admitted to the courses for the B.D.S. Degree of the University or the L.D.S. Diploma of the Royal College of Surgeons of England annually in October. A limited number of selected students may be admitted for the First Medical course at the Royal Free Hospital School of Medicine.

DURATION OF COURSE: For the Degree, approximately 4½ years after passing the First Medical Examination, and for the Diploma approximately four years after passing the pre-Medical examination. ADMISSION: The School is open to men and

examination.

FERS: Registration fee, 5 guineas. Annual Composition fee 75 guineas (final instalment for B.D.S. students £25), inclusive of fees for intercollegiate courses for the First M.B., Amatomy, Physiology, General Medicine and Surgery, materials, hire of apparatus, etc. Numerous scholarships and prizes are awarded annually, including an open Entrance Scholarship of £100. examination.

are awarded annually, including an open Entrance Scholarship of £100.

FACILITIES: The School contains a Museum, Library, departments for instruction in Prosthetics, Orthodonics, General and Dental Bacteriology and Pathology, Radiology, Clinical Photography and Visual Education, and every accommodation for teaching the theory and practice of Dental Surgery. The Royal Dental Hospital In-patient Unit of operating theatre and twelve beds is situated at the Grove Hospital, Tooting.

The Athletic Ground is at Colindale, HOUSE APPOINTMENTS; Six Senior House Surgeons and eighteen ordinary House Surgeons are appointed each year.

Vice-Dean-B. J. HARRIES, F.R.C.S.Eng. Secretary-Maj. Gen. H. L. BIRKS, C.B., D.S.O.

UNIVERSITY COLLEGE LONDON FACULTY OF MEDICAL SCIENCES (University of London)

Gower Street, London, W.C.1. Dean of the Faculty: Professor J. Z. Young, M.A., D.Sc., F.R.S.

The Faculty of Medical Sciences at University The Faculty of Medical Sciences at University College London offers exceptional opportunities to medical and dental students. The staff, including teachers and research workers, is the largest in London, and for those with wide interests there is close contact with students in other Faculties.

At present about 60 medical students are accepted each October for direct entry into the 2nd M.B. course, and about 35 dental students for the 2nd B.D.S. course.

On completing the preclinical course most students attend University College Hospital Medical School or the National Dental Hospital for their clinical studies.

There are two Entrance Scholarships for the preclinical course, and for those students who desire to take a B.Sc. (Special) Degree in Anatomy or Physiology following the 2nd M.B. Examination there are twelve scholarships tenable for one year.

The prospectus of the Faculty and application forms may be obtained from the Secretary, University College London, Gower Street, W.C.1.

ROYAL COLLEGE OF SURGEONS OF ENGLAND

POSTGRADUATE TEACHING

A programme of postgraduate teaching has been arranged, including the study of surgery and surgical and allied specialties. A full-time Course in Clinical Surgery is held twice a year, and, in addition, clinical conferences are arranged to take place at various hospitals during the periods when lectures in general surgery and anaesthetics are being held. being held.

Specialists are available to advise postgraduate Specialists are available to advise postgraduate students regarding study in General Surgery, Orthopaedic Surgery, Plastic Surgery, Anaesthetics and Dental Surgery, who will assist, as far as possible, in finding suitable clinical instruction and clinical appointments.

The following courses have so far been arranged

GENERAL SURGERY

GENERAL SURGERY

August 25 to October 17, 1958.
February 16 to April 10, 1959.
September 29 to October 18, 1958.
(10 Clinical Conferences and 24 Surgery Lectures.)
April 6 to 24, 1959.
(10 Clinical Conferences and 24 Surgery Lectures.)
Fees: Full-time course (two months). £42.
Part-time course (two months). £42.
Part-time course (three weeks), £15 15s,
Lectures only (three weeks), £10 10s.
Individual lectures 10s. each.

FACULTY OF ANAESTHETISTS

FACULTY OF ANAESTHETISTS

Full-time course in Anaesthetics, including Pharmacology, consisting of 36 lectures, nightly discussion groups and demonstrations, have been arranged for 1958-59 as follows:

October 13 to 24, 1958.

Spring, 1959.

June, 1959.

Fees:
Lectures, tutorials and demonstrations, £15 15s.
Discussion groups, £10 10s.
Individual lectures, 10s. each.

FACULTY OF DENTAL SURGERY

A Course of Lectures and Clinical Demonstra-

A Course of Lectures and Clinical Demonstra-tions in General, Oral and Dental Surgery. (In conjunction with the Institute of Dental Surgery.) October 27 to December 19, 1958 (24 lectures). April 27 to June 19, 1959 (24 lectures). Fees: Full course £31 10s. Lectures only £10 10s.

EXAMINATIONS

The Final Examinations for the Fellowship (F.R.C.S.) may be taken in Surgery, Ophthalmology and Otolaryngology.

There is also a Fellowship in Dental Surgery (F.D.S.R.C.S.) and a Fellowship of the Faculty of Anaesthetists (F.F.A.R.C.S.).

Details of these examinations may be obtained either from the College or from the Examination Hall, 8-11, Queen Square, W.C.1.

CONJOINT EXAMINATIONS

The Discourse of L.R.C.P. M.P.C.S. are granted.

The Diplomas of L.R.C.P., M.R.C.S. are granted jointly with the Royal College of Physicians, as well as Diplomas in 12 specialties.

SCHOLARSHIPS AND PRIZES

The College grants many Research Scholarships and Prizes and in certain cases makes grants in aid of surgical research, the work being carried out either in the College or elsewhere. Research facilities are available in Anatomy, Physiology, Pathology and Pharmacology.

NUFFIELD COLLEGE OF SURGICAL SCIENCES

The Nuffield College of Surgical Sciences, the The Nutfield College of Surgical Sciences, the residential part of which adjoins the main building of the Royal College of Surgeons, comprises some 80 bedrooms, lounges, squash court and billiard room and is available for postgraduate students of the College and visiting doctors.

Full particulars may be obtained on application to R. S. Johnson-Gilbert, Assistant Secretary, Royal College of Surgeons, Lincoln's Inn Fields, London, W.C.2 (Tel. HOLborn 3474).

SOCIETY OF APOTHECARIES OF LONDON (M.M.S.A.)

The Mastery of Midwifery is designed to give evidence of intensive study and practical experience in Ante-natal Care, Midwifery, and Child Welfare and their relation to Hygiene and Preventive Medicine. The possession of this Diploma will prove of value in private practice and also to candidates for appointments involving the special work described in the preceding paragraph. The tests imposed are stringent: the examination, written, oral, and clinical, demands thorough and detailed knowledge gained by practical experience, and constitutes a definite endeavour to combat Maternal and Infant Mortality. Examinations are held twice yearly, in the months of May and November. Regulations and forms of application for admission to the Examination may be obtained from the Registrar, the Society of Apothecaries, Black Friars Zane, E.C.4.

Candidates for the MEMBERSHIP must submit their applications and testimonials to the Secretary one calendar month before the date at which they wish to appear for Examination.

For the regulations in regard to the LICENCE of the College (as a single qualification) and in regard to the various qualifications granted by the College and all other information, application should be made to the Secretary.

$New\ Butterworth\ Publications$ -

RADIOISOTOPE TECHNIQUES IN CLINICAL RESEARCH AND DIAGNOSIS

By N. VEALL, B.Sc., F.Inst.P., and H. VETTER, M.D. Pp. xii+404+Index. 74 illustrations. 50s. net, by post 1s. 9d. extra.

This new work presents a detailed but simple, scientific and accurate survey of contemporary applications of radioisotopes, covering fully the fundamental principles of isotope methods, instrumentation and clinical applications.

FUNGOUS DISEASES AND THEIR TREATMENT

Edited by R. W. RIDDELL, M.D., F.R.C.P., and G. T. STEWART, B.Sc., D.T.M. Pp. xii+288+Index. 155 illustrations. 45s. net, postage extra.

Based on papers read at the Symposium on Fungous Diseases held in London, but carefully edited and revised to secure unity of style and to avoid repetition in subject-matter, this work highlights the principal advances in recent years while emphasizing the main gaps in existing knowledge.

INDUSTRIAL HEALTH TECHNOLOGY

By BRYAN HARVEY, M.A., M.Sc., Assoc.I.Mech.E., and ROBERT MURRAY, B.Sc., M.B., Ch.B., D.P.H., D.I.H. Pp. xiv+317+Index. 88 illustrations. 45s. net, by post 2s. extra.

For medical men working in industry and in industrial areas and for all concerned with factory management, this book provides a clear exposition of known problems in the field of industrial health and is a practical textbook indicating the best means of dealing with health hazards now and in the future.

THE AGENT-GENERAL FOR VICTORIA, Victoria House, Melbourne Place, Strand, LONDON, W.C.2.

UNIVERSITY OF EDINBURGH FACULTY OF MEDICINE

The University grants the Degrees of Bachelor of Medicine and Bachelor of Surgery (M.B., Ch.B.), Doctor of Medicine (M.D.), Master of Surgery (Ch.M.), Bachelor of Dental Surgery (B.D.S.), Master of Dental Surgery (B.D.S.), Master of Dental Surgery (B.D.S.), Bachelor of Veterinary Medicine and Surgery (B.V.M. & S.), and Doctor of Veterinary Medicine and Surgery (D.V.M. & S.).

The approximate cost of the six years' course for the degrees of M.B., Ch.B., is £390. The curriculum for the degree of B.D.S. is of five years' duration and the approximate cost is £315. The course for the degree of B.V.M. & S. extends over five years, the approximate cost being £315. The Programme of Admission to the University and forms of application for prospective Medical and Dental Students may be obtained from the office of the Dean of the Faculty of Medicine, University New Buildings, Tevior Place, Edinburgh, 8, and for intending Veterinary Students from the Director of Veterinary Education, Royal (Dick) School of Veterinary Studies, Summerhall, Edinburgh, 9. The Admission Programme includes information regarding a new scheme whereby certain selected applicants may be admitted direct to the First Professional Examination, in part or in whole, on the basis of work done and examinations passed at school or other pre-University institution. The closing date for receipt of applications is December 31 of the year prior to that in which entry is desired.

institution. The closing date for receipt of applications is December 31 of the year prior to that in which entry is desired.

The University grants Diplomas in Public Health, Psychiatry, Medical Radiodiagnosis, Medical Radiotherapy, Tropical Medicine and Hygiene, Tropical Veterinary State Medicine, and full courses of instruction for the Diplomas are provided.

A Nurse-Tutor Certificate is granted in conjunction with the Royal College of Nursing. Inquiries regarding the course should be addressed to Miss Stephenson, Director, University Nursing Teaching Unit, 40b, George Square, Edinburgh.

In the various Departments of the Faculty of Medicine provision is made for research by students of graduate standing. A copy of the Faculty Programme may be obtained from the Dean's Office, Programmes regarding Degrees in other Faculties may be obtained from the Matriculation Office, University, South Bridge, Edinburgh, 8.

CHARLES H. STEWART
Secretary to the University.

Secretary to the University.

GLASGOW POSTGRADUATE MEDICAL EDUCATION COMMITTEE

COURSE IN MENTAL DEFICIENCY

A short intensive postgraduate Course in Mental Deficiency will be held from October 6 to 24, 1958. The Course will comprise: (a) Lectures and demonstrations in various aspects of mental handicap and mental deficiency; (b) Instruction in mental testing; (c) Visits to institutions. Fee: £18. The Course will be limited to twenty practitioners, places being allocated in order of return of application forms, which may be obtained from the Director of Postgraduate Medical Education, The University, Glasgow, W.2.

UNIVERSITY OF ABERDEEN FACULTY OF MEDICINE

The Degrees in Medicine granted are: Bachelor of Medicine and Bachelor of Surgery (M.B., Ch.B.), Doctor of Medicine (M.D.), Master of Surgery (Ch.M.), and Doctor of Philosophy (Ph.D.). A Diploma in Public Health (D.P.H.) is also granted, the period of study for which may cover one year of full-time study or fifteen months of full-time and part-time study or eighteen months of part-time study.

The total cost of the curriculum for the Degrees

time study.

The total cost of the curriculum for the Degrees including textbooks, class, hos-The total cost of the curriculum for the Degrees of M.B., Ch.B., including textbooks, class, hospital, matriculation, and Degree fees, is approximately £550. Students are required to commence study in the Winter Term, which begins in October, and the period of study covers six years.

The University also grants Degrees in Arts, Science (Pure. Agriculture, Forestry, and Engineering), Divinity, and Law, particulars of which may be had on amplication to the undersigned.

may be had on application to the undersigned.

W. S. Angus, Secretary.

UNIVERSITY OF BRISTOL FACULTY OF MEDICINE

THE SESSION commences on OCTOBER 2, 1958. The University grants the Degrees of Bachelor of Medicine and Surgery (M.B., Ch.B.), Master of Surgery (Ch.M.), Doctor of Medicine (M.D.), Bachelor of Dental Surgery (B.D.S.), Master of Dental Surgery (M.D.S.), and Bachelor of Veterinary Science (B.V.Sc.), as well as Diplomas in Public Health (D.P.H.), and Dental Surgery (L.D.S.) and holds a Training Course for Health Visitors.

The lectures and laboratory courses, which are given in the University, are designed to cover the curricula for the University's qualifications.

Hospital Practice and Clinical Instruction are provided in the Hospitals of the City, associated with the University for this purpose, and Students have exceptional opportunities of studying the practice of medicine from a large variety of cases. There are Halls of Residence for men and for women students. THE SESSION commences on OCTOBER 2, 1958.

For additional particulars apply to the Registrar, The University, Bristol, 8.

THE UNIVERSITY AND THE ROYAL CULTY OF PHYSICIANS AND SURGEONS F GLASGOW POSTGRADUATE MEDICAL EDUCATION COMMITTEE

PRIMARY EXAMINATIONS FOR THE SURGICAL FELLOWSHIPS OR FOR THE F.F.A. R.C.S.

A Course of Instruction in Anatomy, Physiology, Biochemistry, Pathology and Bacteriology suitable for candidates preparing for the Primary Examination of the Fellowship qua Surgeon of the Royal Faculty of Physicians and Surgeons of Glasgow will be held from October 6 to December 5, 1958. (The Primary Examination conducted by the Glasgow Royal Faculty is accepted by the Royal Colleges of Surgeons of Edinburgh, of England, and in Ireland in lieu of the corresponding examinations of these bodies.) The Course will comprise a total of approximately 180 hours' instruction given daily from Mondays to Fridays, between the hours of 12 noon and 5.30 p.m. The Course will be open to junior staff of hospitals in the Western Region of Scotland, and also to other suitable applicants. Applicants not employed in the hospitals of the Western Region may, if they wish, be given an honorary clinical attachment to one of the surgical teaching units. The fee for the Course is 430. A modified form of the Course is available for trainees in Anaesthetics. This modified Course will provide nine weekly sessions on the Pharmacology of the Anaesthetic Drugs in place of the sessions on Embryology in the surgical Course.

Trainees in Anaesthetics who are unable to take

Course.

Trainees in Anaesthetics who are unable to take the complete Course may enrol for the Pharmacology Course alone at a fee of £6.

For further details and syllabus of the Course, application should be made to the Director of Postgraduate Medical Education, The University, Glasgow, W.2.

GLASGOW POSTGRADUATE MEDICAL EDUCATION COMMITTEE

COURSE IN THE PRINCIPLES AND APPLICA-TION OF CHEMOTHERAPY IN ACUTE AND CHRONIC INFECTIOUS DISEASE Ruchill Hospital, October 4-5, 1958

Ruchill Hospital, October 4-5, 1958

This short two-day Course on the principles and application of Chemotherapy in acute and chronic infections has been arranged to suit the convenience of general practitioners who might find it inconvenient to take a longer period away from their practice. On each day classes will run from 9 a.m. until 5 p.m., and the teaching will be in the form of lectures, lecture demonstrations, seminar discussions and demonstrations of laboratory practice. The Course is intended to give within a short period a comprehensive and up-to-date description of the forms of Chemotherapy in common use and their best methods of administration. The scription of the forms of Chemotherapy in common use and their best methods of administration. The fee for the Course is Two Guineas. N.H.S. practitioners may, subject to certain conditions, obtain the fee and restricted travelling and subsistence expenses from Government sources. Since the number of places is limited, those wishing to attend should make early application to the Director of Postgraduate Medical Education, The University, Glasgow, W.2, from whom further information may be obtained. may be obtained.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s, per annum in the second and any subsequent years. If the post is resident a deduction of £170

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

Application forms may be obtained from the Dean of the Faculty of Medicine, the University, Glasgow, and should be lodged not later than September 20, 1958. (9367)

UNIVERSITY OF LONDON

A lecture entitled "Electron Microscopic Studies of Developing and Mature Dental Tissues" will be delivered by Dr. David B. Scott (National Institute of Dental Research, Betheeda) at 5 p.m. on September 19, at the Institute of Dental Surgery, Eastman Dental Hospital, Gray's Inn Road, W.C.1. Admission free, without ticket.—James Henderson, Academic Registrar. (9416)

UNIVERSITY OF MANCHESTER Faculty of Medicine In conjunction with the North-West England Faculty of the College of General Practitioners

COURSES FOR GENERAL PRACTITIONERS

COURSES FOR GENERAL PRACTITIONERS will be held as follows:

(a) Refresher Course—on alternate Sunday mornings from 11 till 12, commencing on October 5 and concluding on December 14.

(b) Industrial Medicine—on alternate Tuesdays at 8.30 p.m., commencing on October 7 and concluding on December 2.

This course is designed to help General Practitioners in their day to day work. No attempt will be made to teach the practice of Industrial Medicine, though it is hoped the course may prove of interest to those General Practitioners who have appointments in Industry.

The lectures will be held in the Clinical Sciences Building, York Place, Manchester, 13, and details are available from the Dean of Postgraduate Medical Studies, The University, Manchester, 13.

Readers frequently desire to refer to advertisements concerning appliances, preparations, etc., which have appeared in earlier issues of the *Journal*.

The Advertisement Director can supply particulars at any time.

In dealing with written inquiries, especially from overseas, correspondents are, wherever possible, put in direct contact with the advertisers in whose products they are interested.

Write: Advertisement Director. British Medical Journal, B.M.A. House. Tavistock Square, London W.C.1.

London Hospital Catgut in non-splintering 'spot' tubes

Speed is a matter of urgency in the Operating Theatre—which is why the London Hospital 'spot' tubes are so popular. Just a slight pressure, and instantly the tube breaks cleanly at the 'spot' position, and the sterilised suture is ready for use. These are the advantages:

- The spot indicates the exact breaking point of the tube.
- If the thumbs are placed about ³/₄" apart, exactly opposite the spot, the tube breaks cleanly and easily under slight pressure.
- No filing is needed, no instruments required, no need to hold the tube in a swab.
- There are no dangerous glass splinters.

Always use London Hospital Catgut
