

Hospital Diet . . .

However adequate, and attractive, the hospital diet, it may well be found that the patient's will to eat and power to assimilate need a little encouragement. In many cases, when it is desired to spare the body physiological effort and still provide food, Lucozade will be found valuable. It is so refreshing and stimulating to the jaded palate that it creates a new desire for solid food.

Lucozade is lightly carbonated with an attractive golden colour and a pleasant citrus flavour. It contains 23.5% w/v Liquid Glucose B.P., and its energy value is 21 calories per fluid ounce. It is supplied in 6 oz. and 26 oz. bottles.

patient
very
pleased

During a disheartening period of "failures" Mr. P. J. was put on Atarax therapy, one 25 mg. tablet t.d.s. This safe and simple treatment corrected a strong predisposition to excessive worry and his outlook improved greatly during treatment. His effort at work is now more effective and he finds he is able to relax completely when off duty.

"IMPROVED THERAPY FOR PEPTIC ULCER"

Extract reprinted from the *American Journal of Gastroenterology*, (1957) 28, 439.

"The medication investigated is known as Roter tablets . . . The dosage employed in the treatment of gastric or duodenal ulcer was 2 tablets, taken three times a day with tepid water immediately after meals . . . this therapy is applicable to ambulatory patients."

SUMMARY

"In a series of 155 cases of peptic ulcer treated with . . . (Roter) tablets for three to six weeks, there was immediate relief of pain in 92 per cent of cases and roentgenological healing of the ulcer in 81 per cent. The average weight gain was 7.9 lbs. and occult blood disappeared from the stools in all of the six cases in which it was found.

"The benefit provided by the medication is attributed to the minute particulation of the bismuth subnitrate, produced by a special process of trituration in association with a synergistic antacid combination.

"The special features of this medication are immediate and prolonged relief of pain, correction of gastric hyperacidity, absence of side reactions, effectiveness for ambulatory patients, and early healing of the ulcer in most cases.

"There was no acid rebound in therapeutic dosage and no adverse effects were reported."

RYBRONSOL

COMPLEMENTARY TREATMENT FOR ASTHMA

**soothes the
general nervous system**

RYBRONSOL is a sedative powder which soothes the general nervous system, helps to relax the bronchial spasm and relieves congestion in the bronchial tree.

It can be recommended to all sufferers from asthma as complementary to Rybarvin and/or Rybarex, the well-known inhalation treatments also prepared by Rybar Laboratories Ltd.

At bedtime, RYBRONSOL promotes sleep and after meals it alleviates the congestion and excitability of the bronchial tubes.

Formula:			
Phenazone	0.47 gm.
Iodoantipyrine	0.03 gm.
Antipyrine Acetylsalicylate	0.40 gm.
Caffeine	0.075 gm.

Porous Elastoplast^{TRADE MARK}

for gaping abdominal wounds

The edges of gaping appendix and abdominal wounds after laparotomy can be approximated by the use of porous Elastoplast prepared in the following manner. From a 3-in. or 4-in. wide porous Elastoplast bandage cut two pieces which, when stretched, are long enough to reach round two-thirds of the circumference of the body.

A transverse slit is made in one piece of the plaster so that when applied the hole lies near the inner edge of the wound.

The other piece, after anchoring to the opposite of the back, is pulled through the slit and when the correct tension is obtained it is adhered to the fabric of the porous Elastoplast beneath.

The edges of the piece put through the hole should be turned in to prevent sticking to the sides of the hole. The edges of the hole may also be turned in by making an additional short lengthwise cut at each end of the slit. The tapered opposing piece can then be pulled through without sticking and secured with a piece of adhesive plaster as illustrated.

NEW ANTACID

SATISFIES ALL CRITERIA FOR THE IDEAL ANTACID

ACTAL

Trade Mark

sodium polyhydroxyaluminium monocarbonate hexitol complex

**has all the effectiveness of the best liquid
antacid with the convenience of a tablet**

All this from Bayer—and at very low cost

Latest comprehensive antacid study* states :—

The commonly available antacids have been tested by these techniques and appraised against these criteria.

- Carbonates, bicarbonates, and preparations containing them, e.g., Mixture of Magnesium Trisilicate, *B.P.C.*, raise the pH too far and may cause classical alkalosis.
- Magnesium trisilicate, aluminium glycinate, aluminium phosphate, and certain antacids containing milk solids do not raise the pH adequately.
- Aluminium hydroxide gel controls pH at the desired level but shows marked variation in speed of action and, being a liquid preparation, is inconvenient in use while its palatability is not always acceptable. It may lose two-thirds or more of its reactivity when prepared in tablet form.

A new substance—a sodium polyhydroxyaluminium monocarbonate hexitol complex—is described. This appears to meet adequately all the criteria. It loses no antacid activity on drying and tableting but still reacts about $2\frac{1}{2}$ times as rapidly as the best Dried Aluminium Hydroxide Gel tested and over four times as rapidly as most samples.

ACTAL 1–2 tablets to be sucked when required. Packs of 48, 250, 1,000 tablets (360 mg.)
Basic N.H.S. cost of one week's treatment (2 tabs. t.d.s.) only 1s. 10½d.

* To be published.

The esters of NICOTINIC, SALICYLIC and p-AMINO BENZOIC acids bring relief to cases of arthritis and rheumatism

"Thank you, doctor"

IN CASES OF soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

**Therapeutische Umschau*

Are you a bookcase?

Symptoms

The symptoms vary. Sometimes an infuriated wife with a bad attack of *volumi dustus* is the only active irritant, but in severe cases, a serious distortion of the *shelfi noktup* may result in its complete collapse, causing a possible fatal attack of hysterics on the part of the wife (or landlady) and severe shock to the patient.

Treatment

The patient should, if possible, give up reading, but as this often leads to an alternative habit which may set up *Teevytwitch* or "Box Goggle", the patient is better advised to take the Minty treatment. This consists of installing a beautifully designed dust-proof bookcase which protects both the contents *and* the book "case". As the treatment is likely to be necessary until the Last Will & Testament stage, the expanding, "interlocking" Minty is recommended, as it offers an endless variety of space and arrangement, and, as the makers say, is always complete—but never finished. You can begin a Minty library for as little as £9.2.0—and on deferred terms, if you wish.

Only at Minty showrooms can you see and buy Minty bookcases (and furniture); only by this *direct* selling from Minty to you can Minty offer you such fine furniture at such moderate prices. There are seven Minty showrooms each within reasonably easy reach of most people, but if for any reason you can't call, Minty will be glad to send you a catalogue and particulars of post ordering. Write to Dept. B.1, Minty Ltd., 44-45 High Street, Oxford.

DIAMOX*

A C E T A Z O L A M I D E

Of all the applications of DIAMOX acetazolamide, few are more welcomed in clinical practice than is its value in epilepsy. Freedom from epileptic seizures has been observed in numerous cases of grand and petit mal following treatment with DIAMOX. The drug has shown an unusually beneficial effect on resistant cases of petit mal. It is effective when used alone and of particular value when used in combination with the usual anticonvulsants. Highly versatile, DIAMOX has long been recognised for its value in other conditions including cardiac oedema, glaucoma, premenstrual tension, toxæmias and oedema of pregnancy, drug-induced oedema, etc.

Available in oral tablets of 250 mg. (engraved). Bottles of 25, 100 and 1000. DIAMOX Acetazolamide Sodium Parenteral Vials of 500 mg.

CODIS AND SOLUBILITY

THE GREAT ADVANTAGE of Codis is that it provides a codeine compound tablet in which the aspirin content is soluble in water. (The codeine constituent is also soluble, and the phenacetin is in very fine suspension.)

This is achieved by careful compounding and preparation, resulting in tablets which are quickly absorbed and well tolerated—even in cases of proven intolerance to ordinary (insoluble) aspirin.

To ensure stability and easy identification, the tablets are wrapped in moisture-proof distinctive gold foils of 10 tablets each (dispensing size), or boxes containing five foils of 4 tablets each (public size).

A new oral antiseptic in lozenge form

for local
treatment of
bucco-pharyngeal
infections

Iversal

a product of FBA

BASIC N.H.S. PRICE—2/4d.

Indications

All infections of mouth and pharyngeal cavity—i.e., tonsillitis, Vincent's Angina, gingivitis, stomatitis, post-operatively in tooth extraction and tonsillectomies.

IVERSAL possesses a highly selective action against organisms especially β -hæmolytic streptococci and pneumococci and does not induce sensitization as may arise from treating mild oral infections with antibiotics or sulphonamides. *It contains no local anaesthetic.*

Each lozenge contains 10 mg. benzoquinone amidinohydrazone-thiosemicarbazone hydrate (Ambazone).

Administration and Dosage

Usual recommendation: 1 lozenge 3-5 times daily, dissolved slowly in mouth, preferably after meals to avoid dilution by saliva. Particularly effective at night when salivation is markedly reduced during sleep.

IVERSAL has no action against coliform bacteria and therefore *cannot harm the intestinal flora.*

Samples gladly sent on request.

Sole distributors for Farbenfabriken Bayer A.G. Leverkusen, Germany, are Levmedic Ltd., 37/41 Bedford Row, London, W.C.1., to whom all communications should be addressed.

AND NOW

FOR PAEDIATRIC USE

For "once-a-day" sulpha therapy in infants and children

Now children, even young infants, can receive the full benefits of LEDERKYN—Lederle's low-dosage, long-acting sulpha drug. For Lederle research has overcome the characteristic bitter taste of free sulphonamides by the introduction of tasteless acetyl sulphamethoxypyridazine. LEDERKYN ACETYL Pediatric Suspension presents this superior sulphonamide in a pleasantly cherry-flavoured form that is highly acceptable to children. This new product materially simplifies the therapy in the young patient because of its high antibacterial potency, low "once-a-day" dosage, prolonged action and better tolerance.

Bottles of 2 fl. oz., 250 mg. active sulphonamide in each teaspoonful (5 cc.)

EAR WAX *Removed this easy way*

The removal of wax from the external auditory meatus has, in the past, normally entailed attendance by the patient for diagnosis and for the prescription of a suitable loosening agent, and a second attendance a few days later for syringing.

Now, by the use of Cerumol Ear Drops, wax can be removed in most cases at one visit. A few drops of Cerumol can be instilled into the ear and, while another patient is being attended to, the soft cerumen dissolves and the harder wax disimpacts. The wax can then be removed by gentle syringing or with cotton wool. The wax may even be found to run out of the ear on its own accord, in which case patients themselves may instil Cerumol at home, obviating further attendances.

Cerumol is anti-bacterial, non-irritating and harmless to the lining of the external auditory meatus or the tympanic membrane. Cerumol is included in Category No. 4 of the M.O.H. classified list of Proprietary Preparations and may be prescribed on N.H.S. Form E.C.10.

FORMULA (Active Constituents per 100 c.c.):— *p*-dichlorobenzene B.P.C., 2 gm.; Benzocaine B.P., 3 gm.; Chlorbutol B.P., 5 gm.; *Ol. Terebinth* B.P., 15 c.c.

PACKS:—For Surgery Use: 10 c.c. vial—separate dropper included. (Basic N.H.S. price 2/8.) For Hospital Use: 2 oz. and 10 oz. bottles.

The mathematics of mortality in overweight patients

A simple calculation based on Price's Textbook¹ reveals that the disturbingly common condition of overweight is an uncommonly deadly killer. For instance, taking the average male life-expectancy in the U.K. as 67.76² years, an 11½ stone man of 35 whose standard weight for height should be 10 stone—a "mere" 15% overweight—runs the risk of having his life-span shortened by 6 years and more. Apart from the lengthy list of diseases associated with and aggravated by overweight conditions³, it is stated that "Even the incidence of accidents and suicides is increased in obesity".⁴

The choice presented to the patient seems to be "diet or die early"—and when diet-adherence is imperative Preludin is the prescription of choice.

Preludin is of proved effectiveness in enabling both the obese and supposedly "simple" overweight to adhere easily to any recommended diet therapy. Preludin effectively curbs excessive food-intake by producing early satiety. Its action is directly on the appetite-satiety centre in the hypothalamus. Appetite is not destroyed, it is merely satisfied earlier.

Preludin creates no undesirable side-effects and represents a particularly safe and rational approach to a common and potentially serious condition.

British Oxygen equipment and gases...**The PNEUMOTRON**
an "electronically
controlled" resuscitator

The Pneumotron is an electronically controlled breathing apparatus originally designed for promoting and sustaining breathing in new-born infants, and which has now been developed for treating adult patients. It can be operated as a 'patient triggered' or fully automatic resuscitator. The slightest inspiratory effort of the patient will 'trigger' the apparatus to follow the breathing rate and respiratory pattern of the patient.

The Pneumotron will change over automatically to cycle at a preset rate and pressure should breathing cease altogether. Alternatively, the control can be set at fully automatic to give a continuous breathing cycle.

Please write for fully illustrated literature to British Oxygen Gases Limited, Medical Division, Great West Road, Brentford, Middlesex.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR:** Posts obtained normally no less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners:** £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners:** £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER:** Posts obtained by fully registered medical practitioners, and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

THE LONDON HOSPITAL MEDICAL COLLEGE

COURSE IN ADVANCED MEDICINE

A postgraduate Course in Medicine will be held at the London Hospital commencing Monday, January 5, and finishing Friday, March 13, 1959. Classes will be held on Mondays, Wednesdays and Fridays. The course will be limited to 24 students. The fee for the course will be £25. An entrance fee of £5 5s. must be paid by non-London hospital graduates. Applications should be made to the Dean.—H. B. May, M.A., M.D., F.R.C.P., Dean, The London Hospital Medical College, Turner Street, E.1. (3050)

UNIVERSITY OF LONDON
(British Postgraduate Medical Federation)
Institute of Neurology (Queen Square)

Two Courses of Clinical Demonstrations open to postgraduates will be held at the National Hospital, Queen Square, on Wednesdays at 4.15 p.m. from October 8 to December 17, 1958, inclusive, and on Saturdays at 10.30 a.m. from October 11 to December 20, 1958, inclusive. The fee for attending either of these courses is two guineas. Application for a ticket should be made to the Dean, Institute of Neurology, the National Hospital, Queen Square, W.C.1, and a remittance to cover the fee enclosed. Only postal applications will be considered. (3459)

TRAINING IN PSYCHIATRY AT MCGILL UNIVERSITY

The Department of Psychiatry, McGill University, Montreal, has a limited number of openings for training, and applications are now being considered for July 1. Applicants must have graduated from an approved medical school and have had a general internship of one year. The four-year Diploma Course provides general basic preparation during the first two years. The last two years provide special patterns of instruction for those: (a) planning to enter the field of general hospital, community or university psychiatry; (b) preparing themselves for a career in child psychiatry; (c) intending to enter the field of research psychiatry. Credit may be allowed for previous training. Shorter periods of instruction may be arranged, as well as instruction in special fields. Full training in psychoanalysis also may be undertaken within the Department of Psychiatry by suitably prepared candidates. Separate application for this training is required. All those accepted for training are assigned to one of seven teaching centres in Montreal. These positions carry with them board and lodging, or, in lieu of lodging, a living-out allowance, together with an honorarium ranging from \$60 to \$150 a month, depending upon the clinical position to which the applicant is assigned. For those in the advanced years of the course, clinical positions carrying higher salaries are available. In several centres, additional emoluments of \$1,800 a year are available, mainly in the form of bursaries, these being issued under certain conditions in regard to which information will be given on request. Applicants should write to the Chairman of the Department of Psychiatry, McGill University, Montreal, Canada.

TUBERCULOSIS EDUCATIONAL INSTITUTE
King George V Hospital for Diseases of the Chest
and Milford Chest Hospital, Godalming

THREE-DAY CLINICAL COURSE entitled "Aspects of Tuberculosis and Other Chest Diseases" will be held on October 7, 8, and 9. Fee: £3 3s., excluding accommodation. Details from: The Secretary, Tuberculosis Educational Institute, Tavistock House North, Tavistock Square, London, W.C.1. (3538)

UNIVERSITY OF LIVERPOOL
Department of Studies in Psychological MedicinePOSTGRADUATE INSTRUCTION IN
PSYCHOLOGICAL MEDICINE

This course is designed for those studying for a Diploma in Psychological Medicine. Instruction will be part-time and will occupy approximately three half-days a week during six academic terms; three terms being devoted to Part I and three terms to Part II. Students may enrol at the beginning of any of the three University Terms for either part separately, but, except in special circumstances, will not be permitted to study for both parts concurrently. Fees £12 12s. per term or £70 for the whole course. Further particulars may be obtained from the Director, Department of Studies in Psychological Medicine, 77, Bedford Street South, Liverpool, 7, to whom application for admission to the course should be sent as soon as possible. (3375)

UNIVERSITY OF LONDON

A lecture entitled "The Hereditary Haemorrhagic Diseases: their Classification and Diagnosis," will be delivered by Dr. A. J. Quick (Marquette University School of Medicine, U.S.A.) at 5.30 p.m. on October 6 at the London School of Hygiene and Tropical Medicine, Keppel Street, Gower Street, W.C.1. Admission free, without ticket.—James Henderson, Academic Registrar. (3511)

UNIVERSITY OF LONDON

A course of two lectures entitled (i) "The Postulate of Invariance in Evolution," (ii) "The Cortical Correlate of Perceptual Organization" will be delivered by Professor W. Köhler (Princeton) at 5.30 p.m. on October 7 and 9 at University College (Physiology Lecture Theatre), Gower Street, W.C.1. Admission free, without ticket.—James Henderson, Academic Registrar. (3512)

SITUATIONS VACANT

HOMES

CHISWICK HOUSE, MOSS LANE, PINNER,
Middlesex
Telephone: Pinner 234

Private Nursing Home for Nervous and Mild Mental Disorders and Alcoholism. Psychotherapy, E.C.T., modified insulin, etc. Fees from 18 guineas a week inclusive of nursing and medical attention. Forty patients of both sexes, including a small number of long-term elderly cases. Two country houses in 5 and 6 acres respectively in adjoining grounds. Twelve miles north-west of London. Easily accessible by Metropolitan train from Baker Street to Pinner. Ten minutes' walk from Pinner station. Apply to the Medical Director, Douglas Macaulay, M.D., D.P.M.

CHEADLE ROYAL, CHEADLE,
CHESHIRE (GATley 2231)

Medical Superintendent:

W. V. Wadsworth, B.S., M.B., M.R.C.P., D.P.M.

This excellently appointed hospital receives all types of patients who are suffering from psychological and senile illness. The most modern psychiatric treatments are available. Special geriatric unit for mild senile patients.

Glan-y-Don Nursing Home, Colwyn Bay, is the seaside branch of Chedale Royal.

ST. ANDREW'S HOSPITAL, NORTHAMPTON
for Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt., Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet apparatus, and a department for Diathermy and High-frequency treatment. It also contains laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent, Telephone No.: Northampton 4354 (3 lines), who can be seen in London by appointment.

NORTHUMBERLAND HOUSE

Psychiatric Nursing Home, 235-7, Ballards Lane, N.3. Tel.: FInchley 5283. Resident Med. Director, Dr. R. M. Riggall, Mem. Brit. Psycho-Analytical Society. Deep insulin coma unit, psychotherapy, etc.

SPRINGFIELD HOUSE, near BEDFORD
Phone: Bedford 3417

For Mental Cases (including the aged). Fees from ten guineas per week. For terms of admission, etc., apply to the Resident Physician, Cedric W. Bower. Interviews in London by appointment.
