

Gentle Reminder

Even the healthiest person suffers occasionally from alimentary disorders. If the trouble is of a minor nature - brought on, perhaps, by unwise diet - Andrews may well be the answer.

Andrews neutralizes stomach acids, stimulates bile flow. It assists elimination by introducing liquid into the bowel by osmosis. Used judiciously as a corrective to a faulty diet, Andrews encourages the body to perform its normal functions in a perfectly natural and gentle way.

RASTINON

THE
ORAL TREATMENT
OF DIABETES

An advance in the therapy of diabetes

Rastinon tablets, developed by Farbwerke Hoechst AG., of Frankfurt/M., under the research No. D860, have now an established place in the therapy of diabetes mellitus. The large volume of clinical work and the number of papers published, reflect the world-wide interest in Rastinon. This work clearly shows that for the suitable patient Rastinon tablets provide a form of therapy which is

Simple, safe, effective and economical

Rastinon is not a "sulphonamide drug," has no anti-bacterial action and does not produce crystalluria. No cases of dyshaemopoiesis or other serious side-effects have been reported among the many thousands of patients satisfactorily controlled for more than two years.

The suitability of a patient for treatment with Rastinon tablets is readily assessed in the diabetic clinic and once stabilised no difficulties have been experienced in controlling the patient. An acute intercurrent infection may necessitate a temporary return to insulin therapy.

DOSAGE

Once stabilised, from one to three tablets a day are normally all that is required to replace the insulin with its concomitant syringe, needles, swabs, and often nursing assistance as well. During the period of stabilisation it has been found that generally from four to eight tablets on the first day, three to six on the second and three to five on the third are sufficient.

The daily amount should be divided into two or three doses and taken during or after meals with a little fluid. Higher doses are not usually more effective and are not recommended as they may occasionally cause hypoglycaemic reactions. The normal regime of urine examination and dietary control remains necessary.

To lessen the possibility of the patient taking a tablet other than Rastinon in error, each tablet is en-

graved with the name Rastinon and the trade mark of the originators.

PACKS

Bottles of 100 and 500 tablets—each tablet contains 0.5 G. N-Butyl-N'-toluene-p-sulphonylurea (tolbutamide). The basic cost to the N.H.S. of a week's treatment is on average between 3/6d. and 5/3d.

'Inversine' and 'Salurio'
Introduce a New Era
In the treatment
of Hypertension

'INVERSINE'

(Mecamylamine Hydrochloride)

The ganglion blocking agent completely and consistently effective upon oral administration.

'SALURIC'

(Chlorothiazide)

The oral diuretic agent which also possesses hypotensive properties.

'SALURIC', already universally accepted as the only oral diuretic as effective as mersalyl, possesses the *unique* and *additional* property of *hypotensive activity*. Frequently it may be possible to control blood pressure with 'SALURIC' *alone* or with the addition of only a sedative or mild hypotensive agent. But when ganglion blocking agents are required in addition, the dosage and administration of these is greatly simplified.

LONGER LIFE FOR HYPERTENSIVES

'INVERSINE' and 'SALURIC' *concurrently*, provide: Smaller dosage of 'INVERSINE': Smoother control of blood pressure • Freedom from, or diminution in, side-effects usually associated with ganglion blockade.

How supplied:

'INVERSINE': 10 mg. tablets (white, quarter-scored); 2.5 mg. tablets (yellow, half-scored).

'SALURIC': 0.5 G. tablets (half-scored).

'Inversine' and 'Saluric' are not supplied in a combined tablet.

'INVERSINE' and 'SALURIC' were discovered and developed in the Merck Sharp & Dohme Research Laboratories, and are manufactured in England exclusively by the Merck Sharp & Dohme Organisation. 'Inversine' and 'Saluric' are Registered Trade Marks.

Please consult literature for dosage.

'Triominic'

WANDER

**THE NEW CONCEPT FOR RELIEF OF
THE COMMON COLD**

Relief in minutes—lasts for hours

An orally administered decongestant has much better distribution to the mucous membranes of the respiratory tract than nasal sprays, drops and inhalants, and this "affords opportunity for shrinkage in areas that could not be approached by sprays, drops or actual topical application."*

'TRIOMINIC' "dries" and decongests nasal passages, combats allergic symptoms—with little likelihood of rebound congestion or pathological changes in the nasal mucosa, and without the risk of local overtreatment or "nose drop addiction." Especially valuable for night-time cough caused by postnasal drip.

* Arch. Otolaryng., 1954, 59, 48.

Each "timed-release" 'TRIOMINIC' Tablet contains:

Phenylpropanolamine-HCl ..	50 mg.
Nepyramine maleate B.P. ..	25 mg.
Pheniramine maleate ..	25 mg.

'Triominic' Wander is Schedule 4

Dosage: 1 tablet in the morning, afternoon and in the evening if needed. An average prescription is 12 tablets.

Packs: Supplied for dispensing in bottles of 50 and 250.

Price: N.H.S. Basic Price for 12 tablets (4 days' treatment) is 2s. 3d.

Also Available: 'Triominic' Syrup, for children and those adults who prefer a liquid medication, in bottles of 2 fl. oz. and 20 fl. oz. (dispensing). N.H.S. Basic Price for 2 fl. oz. is 1s. 10d.

Are you a bookcase?

Symptoms

The symptoms vary. Sometimes an infuriated wife with a bad attack of *volumi dustus* is the only active irritant, but in severe cases, a serious distortion of the *shelfi noktup* may result in its complete collapse, causing a possible fatal attack of hysterics on the part of the wife (or landlady) and severe shock to the patient.

Treatment

The patient should, if possible, give up reading, but as this often leads to an alternative habit which may set up *Teevytwitch* or "Box Goggle", the patient is better advised to take the Minty treatment. This consists of installing a beautifully designed dust-proof bookcase which protects both the contents and the book "case". As the treatment is likely to be necessary until the Last Will & Testament stage, the expanding, "interlocking" Minty is recommended, as it offers an endless variety of space and arrangement, and, as the makers say, is always complete—but never finished. You can begin a Minty library for as little as £9.2.0—and on deferred terms, if you wish.

Only at Minty showrooms can you see and buy Minty bookcases (and furniture); only by this *direct* selling from Minty to you can Minty offer you such fine furniture at such moderate prices. There are seven Minty showrooms each within reasonably easy reach of most people, but if for any reason you can't call, Minty will be glad to send you a catalogue and particulars of post ordering. Write to Dept. B.2, Minty Ltd., 44-45 High Street, Oxford.

NEW ANTACID

SATISFIES ALL CRITERIA FOR THE IDEAL ANTACID

ACTAL

Trade Mark

sodium polyhydroxyaluminium monocarbonate hexitol complex

**has all the effectiveness of the best liquid
antacid with the convenience of a tablet**

All this from Bayer—and at very low cost

Latest comprehensive antacid study* states:—

"The commonly available antacids have been tested by these techniques and appraised against these criteria.

- Carbonates, bicarbonates, and preparations containing them, e.g., Mixture of Magnesium Trisilicate, B.P.C., raise the pH too far and may cause classical alkalosis.
- Magnesium trisilicate, aluminium glycinate, aluminium phosphate, and certain antacids containing milk solids do not raise the pH adequately.
- Aluminium hydroxide gel controls pH at the desired level but shows marked variation in speed of action and, being a liquid preparation, is inconvenient in use while its palatability is not always acceptable. It may lose two-thirds or more of its reactivity when prepared in tablet form.

A new substance—a sodium polyhydroxyaluminium monocarbonate hexitol complex—is described. This appears to meet adequately all the criteria. It loses no antacid activity on drying and tableting but still reacts about 2½ times as rapidly as the best Dried Aluminium Hydroxide Gel tested and over four times as rapidly as most samples."

ACTAL 1-2 tablets to be sucked when required. Packs of 48, 250, 1,000 tablets (360 mg.)
Basic N.H.S. cost of one week's treatment (2 tabs. t.d.s.) only 1s. 10½d.

* To be published.

TEN YEARS' EXPERIENCE

TELLS YOU

When the patient needs B₁₂

SIMPLY GIVE B₁₂

When, ten years ago, vitamin B₁₂ was isolated at Glaxo Laboratories, the complete control of pernicious anæmia became a certainty. Much experience since then has proved that the pure vitamin, given as Cytamen Injection or Cytacon Oral Liquid, will produce remission alone and unaided. But . . . there is a qualitative difference in the responses achieved.

In pernicious anæmia pre-treatment serum and tissue levels of B₁₂ are invariably low. The swiftest, most economical and most certain method of restoring these levels to normal . . . and of preventing insidious development of neurological complications . . . is by injection of Cytamen.

When, in very special circumstances, oral treatment of pernicious anæmia is unavoidable, 100 micrograms or more daily of a simple solution of B₁₂, as in Cytacon, needs no help from any other substance. The principal use for oral B₁₂ is, of course, in conditions other than pernicious anæmia: deficiency of B₁₂ absorption is not then in question and Cytacon in lower doses is the rational preparation to prescribe.

In short, when your patients need B₁₂—in pernicious anæmia, Cytamen for *certain*—in other conditions, simply Cytacon.

LETS THE AIR COME THROUGH

Biomydrin
lets the air
come through

new **Biomydrin**

the first complete nasal spray
more than just a decongestant

PENETRATION Biomydrin contains thonzonium bromide, a new mucolytic agent which disperses the mucus barrier, thus ensuring that all the therapeutic agents reach the affected areas. In addition, thonzonium bromide is a surface tension depressant and therefore promotes the spread of the solution.

ANTI-ALLERGIC ACTION The Biomydrin formula includes the antihistamine, thonzylamine hydrochloride, and is accordingly effective in allergic conditions.

ANTIBACTERIAL ACTION Biomydrin contains two antibiotics—neomycin and gramicidin. These, together with the potent bactericidal action of thonzonium bromide, provide effective control against a wide range of pathogens. With Biomydrin, decongestion is promoted and sustained, resulting in rapid control of symptoms. There is no central stimulation. Biomydrin is presented in a self-sterilizing, plastic spray container convenient for the pocket containing one half fluid ounce. Biomydrin Nasal Spray is available on prescription only: it cannot be bought by the public for self-medication.

THE BASIC N.H.S. COST IN THE U.K. IS 3/6½D. EACH

FORMULA. Neomycin Sulphate 0.1%, Gramicidin 0.005%, Thonzylamine Hydrochloride 1.0%, Phenylephrine Hydrochloride 0.25%, Thonzonium Bromide 0.05% (*N*-(2-pyrimidyl)-*N*-(*p*-methoxy-benzyl)-*N'*, *N'*-dimethyl-*N'*-cetyl-*N'*-bromoethylene diamine). Preserved with Thimerosal 0.002%.

Senokot

S T A N D A R D I Z E D S E N N A

—and the
constipated
child

A healthy child requires no laxative. In children whose bowel habits have been disturbed it is important, whenever possible, to use re-educative measures which restore normal reflexes and permit the discontinuance of treatment.

Senokot—standardized total senna principles—stimulates peristalsis by a mechanism which closely resembles that of normal defæcation (*Lancet*, 1952, 1, 655). Its regular administration restores bowel tone, sensitivity and natural rhythm and allows dosage to be gradually reduced and finally discontinued.

Re-training therefore is the aim of Senokot therapy.

Senokot is entirely British

G1263

The Climacteric . . .

"... a mixture of the male and female hormones was more efficacious than oestrogen alone." *Brit. Med. Journ.* 1953 (July 25), 2.214

The association of methyltestosterone and ethinylœstradiol in Mepilin produces a more complete response in the treatment of menopausal disorders than can be obtained by the use of oestrogens alone. An increased feeling of confidence and well-being is produced which is both mental and physical.

The presence of methyltestosterone enables a reduction in oestrogen dosage to be made; thus undesirable side effects such as breast turgidity and pelvic congestion are avoided and the risk of withdrawal bleeding is reduced.

MEPILIN ELIXIR & TABLETS

THE BRITISH DRUG HOUSES LTD. (MEDICAL DEPARTMENT) LONDON N.1 **BDH**

Patients' preference . . .

Why has Lucozade a very special attraction for the patient? The answer lies in its remarkably refreshing flavour and fragrance, qualities that baffle precise description. The colour, the sparkle and the glucose content ensure equally its recommendation by the doctor and its ready acceptance by the patient.

Lucozade is lightly carbonated with an attractive golden colour and a pleasant citrus flavour. It contains 23.5% w/v Liquid Glucose B.P., and its energy value is 21 Calories per fluid ounce. It is supplied in 6 oz. and 26 oz. bottles.

MANUFACTURED BY MAY & BAKER LTD

... and though there are many—perhaps too many—analgesics available to the practitioner, the balanced properties of Hypon make it a tablet far more effective than most. Extensive tests show that Hypon has the power not only to relieve pain but to do so very rapidly. Constipation, so often encountered following the administration of codeine is effectively counteracted by the addition of phenolphthalein. Caffeine offsets the depressing effects of aspirin and phenacetin. Hypon is invaluable where prolonged administration is called for (chronic rheumatic conditions for instance). Furthermore, the antipyretic

properties of Hypon tablets are of particular value in the treatment of the febrile states of influenza, tonsillitis...

Protein Tissue Building without Virilisation

NILEVAR* promptly reverses nitrogen loss,
stimulates protein tissue formation without significant
androgenic effects and can be given to patients:

irrespective of age or sex

in simple daily doses

for as long as it is therapeutically needed

INDICATIONS :

Problems of protein build-up commonly occur in :

Convalescence from acute illness

Chronic wasting disease

Undernourished or underweight individuals

Recovery after surgery

Preparation for planned surgery

Recovery from severe burns and traumata

Prematurely born infants

In these conditions NILEVAR is the essential treatment in
restoring positive nitrogen balance and well-being.

NILEVAR is available in bottles of 25, 50 and 250 tablets (10 mg.)
and in boxes of 6 ampoules (each containing 25 mg. in 1 c.c.).

DIAMOX^{*}

A C E T A Z O L A M I D E

Of all the applications of DIAMOX acetazolamide, few are more welcomed in clinical practice than is its value in epilepsy. Freedom from epileptic seizures has been observed in numerous cases of grand and petit mal following treatment with DIAMOX. The drug has shown an unusually beneficial effect on resistant cases of petit mal. It is effective when used alone and of particular value when used in combination with the usual anticonvulsants. Highly versatile, DIAMOX has long been recognised for its value in other conditions including cardiac oedema, glaucoma, premenstrual tension, toxæmias and oedema of pregnancy, drug-induced oedema, etc.

Available in oral tablets of 250 mg. (engraved). Bottles of 25, 100 and 1000. DIAMOX Acetazolamide Sodium Parenteral Vials of 500 mg.

(DEPT. A.9) UPPER MALL, LONDON, W.6.

Two in harmony

THE TWO active ingredients in 'Sulmezil' V perform together *in harmony*. Together they are much more effective than either used alone.

One ingredient is penicillin V, the acid stable form of penicillin which is rapidly and efficiently absorbed and gives consistent and reliable blood levels. This form of penicillin has proved to be markedly superior in these respects to other oral penicillin preparations.

Combined with penicillin V is 'Sulphamezathine', which has been widely accepted for many years on account of its high potency coupled with low toxicity. It is undoubtedly the best sulphonamide for routine use.

'SULMEZIL' V TABLETS

Packs of 25, 100 and 500. Each tablet contains 60 mg. of penicillin V (Calcium Salt) and 0.5 G of 'Sulphamezathine'.

'SULMEZIL' V SUSPENSION

Bottles containing 2 fluid oz. when dispensed; each fluid drachm of the prepared suspension contains the same dosage as the tablets.

Gluten-free Diets

Coeliac disease in children and certain cases of idiopathic steatorrhoea in adults have been found amenable to treatment with a gluten-free diet. As patients suffering from the coeliac syndrome remain intolerant to gluten for long periods, wheat and rye flour, which contain gluten, may have to be excluded from the diet for an indefinite time. The withdrawal of all sources of wheat and rye flour results in a severely restricted diet, and special care must be taken to ensure an adequate intake of essential nutrients.

Marmite is recommended for inclusion in the diet of coeliac patients. It supplies all known factors of the vitamin B complex which, in the absence of flour, may be in short supply. Moreover, the appetite-stimulating properties of Marmite are of importance to patients on a restricted dietary regime.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally no. less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

THE ROYAL MELBOURNE HOSPITAL**ASSISTANT DIRECTOR OF ANAESTHETICS**

Applications are invited from legally qualified medical practitioners for the position of Assistant Director of Anaesthetics. This is a full-time appointment, initially for a period of one year, and is non-resident. Applicants should possess a Diploma of Anaesthetics or its equivalent and extensive clinical experience in modern methods. Duties will include routine and emergency anaesthetics and teaching of undergraduate and postgraduate students. Commencing salary £2,500 per annum. Right of private practice is not granted. Applications on the prescribed form, obtainable from the undersigned, close on November 21, 1958.—Afton Morcom, Manager. (4544)

**WELLINGTON HOSPITAL BOARD
Wellington, New Zealand****WHOLE-TIME ANAESTHETIST
Wellington Hospital**

The Wellington Hospital Board invites immediate applications from registered medical practitioners for a position as whole-time Anaesthetist at Wellington Hospital. This position is graded as being of Junior Specialist status, and the salary for Junior Specialists is within the range of £1,640 to £1,940 per annum. Intending applicants should, however, apply to the office of the High Commissioner for New Zealand, 415, The Strand, London, for a schedule of information regarding the position which gives fuller details. Applications, giving particulars as to age, qualifications, experience, and stating the earliest date upon which duty can be commenced, should be forwarded as soon as possible to the Secretary, Wellington Hospital Board, Private Bag, Wellington Hospital, Wellington, New Zealand.—A. F. Wilton, Acting Secretary. (4056)

OVERSEA (Wanted)

WELL QUALIFIED DOCTOR, EXTENSIVE experience in general practice and hospitals, major operative surgery, obstetrics and gynaecology, orthopaedics, fractures, paediatrics, etc., seeks opening in Canada or U.S.A. where ability, hard work and initiative will earn decent salary.—Box 2952, B.M.J.

UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.****INSTITUTE OF CHILD HEALTH
The Hospital for Sick Children, Great Ormond
Street, London, W.C.1**

Applications invited for

TEMPORARY LECTURER

in Growth and Development, from medically qualified persons. Appointment one year in first instance, starting January 1959, or shortly thereafter, for research on growth of normal and sick children. Salary not less than £1,150 per annum. Further details from the Secretary, Institute of Child Health. (4546)

MEDICAL RESEARCH COUNCIL**JUNIOR OR SENIOR MEDICAL OFFICER**

required with an interest in research, preferably with some experience of paediatrics, for work at their Infantile Malnutrition Research Unit, Mulago Hospital, Kampala, Uganda. The person appointed will be required to identify himself with the research programme of the Unit, which aims at a comprehensive study of the effects of malnutrition on the growth and development of the African child. Sick children are treated in research wards, and the progress of healthy children is followed at a welfare clinic and at schools. Salary, according to age and experience, on scale equivalent to Registrar or higher, supplemented to appropriate overseas level. Child allowances of £50 per annum per child payable in addition. Appointment for initial tour of 18 months, plus 90 days' home leave (including Sundays and travelling time) with a possibility of further tour(s) leading to permanent employment with the Council. Superannuation provision will be made under the Federated Superannuation System for Universities or it may be continued under the National Health Service Scheme. Write (full personal particulars and experience, plus a list of references to published work, and the names of two professional referees) to Personnel Officer, Medical Research Council, 38, Old Queen Street, Westminster, S.W.1. (4522)

**THE INSTITUTE OF DENTAL SURGERY
(University of London)
Eastman Dental Hospital, Gray's Inn Road,
London, W.C.1****SENIOR LECTURER IN ORAL SURGERY**

Applications are invited by the Committee of Management for the above post. The duties involve the instruction of postgraduate students and participation in the teaching and research activities of the department of Oral Surgery. The occupant of the post will be eligible for appointment as Honorary Consultant to the Eastman Dental Hospital, subject to the approval of the Board of Governors. Candidates will be expected to hold higher qualifications and to have had teaching experience. The appointment will be whole-time and will be for a period of three years in the first instance. Salary within the range £1,800 to £2,500 per annum, plus family allowances. Further particulars may be obtained from the Dean. Closing date for applications December 1, 1958. (4414)

THE MEDICAL RESEARCH COUNCIL require a medically qualified worker, preferably with clinical and/or laboratory research experience of leprosy, to work in Malaya. Should candidates lack specialist knowledge of leprosy but have suitable general experience, a training could be provided. The successful applicant will be expected to take charge of a well-equipped leprosy research unit near Kuala Lumpur and to undertake clinical trials in association with the National Institute for Medical Research, to which the person appointed would be attached for administrative purposes, on a new drug which has shown activity in recent pilot studies. There are good facilities for carrying out other original work. Basic salary (plus child allowance) according to postgraduate experience and standing; in addition, supplement paid for work overseas. Three-year superannuable appointment, with home leave. Passage (with family) paid both ways. Kit allowance. Apply (full details, with names of two professional referees) to the Director, National Institute for Medical Research, The Ridgeway, Mill Hill, London, N.W.7. (4548)

Oversea (Vacant)—contd.**MERCY HOSPITAL, Canton, Ohio, U.S.A.****ROTATING INTERNSHIPS**

offered beginning July 1, 1959, with lodging, meals, laundry, uniforms, and a stipend of \$125 monthly furnished. Passage available, to be returned within the first six months of duty. Contracts are for one year, and are expected to be completed unless there is some serious violation on the part of the doctor. (4481)

**STATE OF QUEENSLAND, Australia
Appointment to Medical Staff**

Applications, addressed to the Agent-General for Queensland, 409/410, Strand, London, and closing on October 31, 1958, are invited from duly qualified medical practitioners of Great Britain and Northern Ireland for appointment to the position of

JUNIOR RESIDENT MEDICAL OFFICER

Gympie Hospital, Queensland. Successful applicant will be given limited registration if he has not completed his full hospital year after graduation; otherwise full registration will be granted. The salary for a graduate in the first year after graduation is £A.1,305 10s. per annum. Board and lodging provided free. Applications should include particulars of marital status, age, experience, and date available, together with copies of testimonials. (4046)

SYDNEY HOSPITAL**Kanematsu Memorial Institute of Pathology****BACTERIOLOGIST**

Applications, closing on November 7, 1958, are invited from legally qualified medical practitioners for the position of Bacteriologist at Sydney Hospital. Applicants must be well qualified in Biochemistry and must have had experience in Clinical Biochemistry. Salary will be in the range of £2,729 to £3,529 (Australian), according to qualifications and experience. Sydney Hospital is a 400-bed teaching hospital, and last year had approximately 250,000 out-patient attendances. Further information may be obtained from the Acting Director of the Institute, Dr. A. A. Palmer. Applications, with the names of three referees and accompanied by a recent photograph, to be addressed to the President, Sydney Hospital, Sydney, New South Wales, and envelope endorsed "Bacteriologist."—E. C. Docking, Secretary. (4047)

**THE QUEEN VICTORIA MEMORIAL HOSPITAL
172, Lonsdale Street, Melbourne**

Applications are invited from legally qualified medical practitioners (female or male), of at least two years' standing, for the following resident positions:

**ANAESTHETIC REGISTRAR
MEDICAL REGISTRARS****OBSTETRICAL AND GYNAECOLOGICAL
REGISTRARS****PAEDIATRIC REGISTRARS
(includes neonatal wards)****SURGICAL REGISTRAR**

Salary £1,475 (Australian) per annum, plus board and residence. Duties to commence February 2, 1959. Applications close November 5, 1958. Further information about these positions may be obtained on application to the manager.—Nell Stevenson, Manager. (4560)

**UNIVERSITY COLLEGE HOSPITAL OF THE
WEST INDIES**

Applications are invited for the following vacant posts at the above teaching hospital with effect from January, 1959:

**SENIOR REGISTRAR OR REGISTRAR IN THE
DIVISION OF OBSTETRICS**

This resident post is recognized for training for membership of the Royal College of Obstetricians and Gynaecologists.

**SENIOR REGISTRAR OR REGISTRAR IN THE
DIVISION OF SURGERY**

The appointments will be for one year in the first instance, and salary scales for the appointments are as follows:

Registrar appointments: £1,000 by £100 to £1,200; £1,300 by £100 to £1,600 per annum, according to qualifications and experience.

Medical Casualty Officer: £850 per annum. Single accommodation and board may be provided at a deduction from salary of £145 per annum. If available, unfurnished accommodation will be provided at a rental of 5% of salary. Return passages to and from the country of recruitment are provided for one person only for each appointment.

Further information may be obtained from the Hospital Manager and Secretary, University College of the West Indies, Mona, Jamaica, B.W.I., to whom applications stating post preferred, age, nationality, details of qualifications and experience, together with the names and addresses of three referees, should be sent not later than November 8, 1958. (4403)

RIKER LABORATORIES LIMITED LOUGHBOROUGH · LEICESTERSHIRE

*The new complete treatment
for migraine—*

ORGRAINE

In a recent clinical article (J.A.M.A., 1957, 163, 1115) it was stated that in a series of 2,511 cases in which 28 agents were tested in the symptomatic treatment of migraine, ergotamine tartrate was proved to be the most useful drug—and 81% of the patients showed improvement when ergotamine tartrate and caffeine were compounded with belladonna alkaloids.

Orgraine applies the same successful principles of treatment.

Composition (per tablet)

Ergotamine Tartrate B.P.	1.0 mg
Caffeine B.P.	100.0 mg
Hyoscyamine Sulphate B.P.C. (1947)	0.0875 mg
Atropine Sulphate B.P.	0.0125 mg
Phenacetin B.P.	130.0 mg

Action

→	constricts dilated cerebral arteries.
→	potentiates ergotamine
→	alleviates nausea and vomiting.
→	relieves residual occipital pain.

PACKS:

Tablets individually foil-stripped, in boxes of 10 and 100.
