

The role of

'DEGRANOL'
MANNOMUSTINE (B.C.M)

in the treatment of
malignant disease

'DEGRANOL' is a new
cytostatic agent first prepared by
Prof. L. Vargha of Hungary

Composition

1, 6-bis (beta chloroethylamino)-1, 6
desoxy-D-mannitol-dihydrochloride.

Indications

Extensive clinical trials with
'DEGRANOL' have yielded very
favourable results in the treatment of
malignant disease of the *haemopoietic*
and *lymphatic systems*. It may also be
administered before and after surgical
treatment to prevent tumour cells
from being spread by the operation.
'DEGRANOL' is of extremely low
toxicity and is remarkably free
from side effects.

Administration

'DEGRANOL' is available in 50 mg.
ampoules and is administered by
intravenous injection.

For full information, literature, references etc. apply
to the sole U.K. distributors for CHINOIN, BUDAPEST.

Gentle Reminder

Even the healthiest person suffers occasionally from alimentary disorders. If the trouble is of a minor nature - brought on, perhaps, by unwise diet - Andrews may well be the answer.

Andrews neutralizes stomach acids, stimulates bile flow. It assists elimination by introducing liquid into the bowel by osmosis. Used judiciously as a corrective to a faulty diet, Andrews encourages the body to perform its normal functions in a perfectly natural and gentle way.

APPROX. COMPOSITION

Acid Tart.	23%
Sod. Bicarb.	23%
Sucros	37%
Mag. Sulph. Exsic.	17%

An 8 oz. tin for clinical trial
will gladly be sent on request

easy maintenance

—and safety above all

running noses...

*and nasal congestion
orally with*

'Triominic'

WANDER

**THE *NEW* CONCEPT FOR RELIEF OF
THE COMMON COLD**

Relief in minutes—lasts for hours

An orally administered decongestant has much better distribution to the mucous membranes of the respiratory tract than nasal sprays, drops and inhalants, and this "affords opportunity for shrinkage in areas that could not be approached by sprays, drops or actual topical application."*

'TRIOMINIC' "dries" and decongests nasal passages, combats allergic symptoms—with little likelihood of rebound congestion or pathological changes in the nasal mucosa, and without the risk of local overtreatment or "nose drop addiction." Especially valuable for night-time cough caused by postnasal drip.

* *Arch. Otolaryng.*, 1954, 59, 48.

Each "timed-release" 'TRIOMINIC' Tablet contains:

Phenylpropanolamine-HCl	..	50 mg.
Mepyramine maleate B.P.	..	25 mg.
Pheniramine maleate	..	25 mg.

'Triominic' Wander is Schedule 4

Dosage: 1 tablet in the morning, afternoon and in the evening if needed. An average prescription is 12 tablets.

Packs: Supplied for dispensing in bottles of 50 and 250.

Price: N.H.S. Basic Price for 12 tablets (4 days' treatment) is 2s. 3d.

Also Available: 'Triominic' Syrup, for children and those adults who prefer a liquid medication, in bottles of 2 fl. oz. and 20 fl. oz. (dispensing). N.H.S. Basic Price for 2 fl. oz. is 1s. 10d.

**'Triominic' "timed-release" tablets provide relief in minutes
.... keep nasal passages clear
for 6 to 8 hours.**

FIRST

the outer layer dissolves within minutes to produce 3 to 4 hours' relief

THEN

the inner core disintegrates to give 3 to 4 more hours' relief

Focus on the better IRON prescription

With a high ferrous iron content
—approx. 65 mg. per tablet.

That normally gives optimal haemoglobin
response on three tablets a day.

That is smaller, so easier to swallow,
and can be chewed.

That is excellently tolerated even by
many intolerant of existing compounds.

That is stable yet uncoated.

That is safer in the home.
Being dull brown and not sugar coated,
Fersamal tablets are less likely to be taken
in quantity or to attract the
attention of children.

That is economical—one tablet t.d.s.
costing about one penny a day.

You'll find all this in

FERSAMAL

HIGHEST TOLERATION

PRACTICAL
DOSAGE COMBINATIONS

SATISFACTORY
CLINICAL RESPONSE

These are the advantages of

Calcium B-PAS WANDER

and

B-Pasinah WANDER

(calcium B-PAS Wander plus isoniazid)

in the

Chemotherapy of Tuberculosis

B-PAS (Wander), 4-benzoylamino-2-hydroxybenzoic acid, first introduced by our Research Laboratories in 1948, is the drug of choice in regimens comprising PAS in concurrent therapy.

In the form of its calcium salt, it provides extended bacteriostatic levels, induces only minimal side-effects as compared with sodium PAS, and because of its high acceptability guarantees as far as possible that patients, particularly on domiciliary treatment, do take their medication.

Available in 3.5 g. envelopes and in 1 g. cachets; and as bulk powder.

'**B-PASINAH**' is available in two convenient forms:

Powders each containing
3.5 g. calcium B-PAS (Wander)
and 87.5 mg. isoniazid.

Cachets each containing
1 g. calcium B-PAS (Wander)
and 25 mg. isoniazid.

THE HUB

*of a great
pharmaceutical
company*

The research laboratory is the very centre of a great pharmaceutical company. Without it no discoveries could be made, no progress would be possible—it is the hub of all activity. For this is where ideas are conceived, experiments carried out, and results evaluated—in the hope that something will come to light to advance the frontier of medical knowledge another step.

300 graduate scientists—chemists, doctors, pharmacists—are employed by Hoechst in Frankfurt on pharmaceutical research alone. They work in ultra-modern laboratories, with all the equipment they could possibly need—inspired by the example of such illustrious predecessors at Hoechst as Emil von Behring and Paul Ehrlich, originators respectively of the first antidiphtheria serum and salvarsan.

Hoechst standards, not only in research but also in production, are second to none in the world.

HOECHST

Only Nulacin provides intragastric milk-alkali drip therapy for the ambulatory patient

“In view of the ineffectiveness of most of the tableted antacids, the milk alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy.”

(Medical Times 1958, 1, 74)

NULACIN TABLETS have been developed so that when allowed to dissolve slowly in the mouth, they give continuous milk-alkali drip therapy and provide a treatment of peptic ulcer and other conditions associated with hyperacidity. The effectiveness of Nulacin therapy has been established by clinical work in many countries. The following are a few references to the literature:

Antacids. *The Practitioner*, January 1957, 178: 43

Antacids in Peptic Ulcer. *The Practitioner*, January 1956, 176: 103

Recent Advances in the Ulcerative Diseases of the Gastrointestinal Tract. *Amer. J. Gastro.*, December 1956, 26: 665

“Aspirin is a serious gastric irritant, particularly in peptic ulcer patients”*

“Calcium aspirin... can be used with impunity”*

** Extracts from B.M.J., 2-7-55.*

SOLPRIN is accordingly often prescribed

Solprin contains aspirin in soluble form. It is a highly efficient analgesic — the more quickly and easily absorbed by reason of its solubility. Dissolved in water, the tablets produce a solution of calcium acetylsalicylate. Solprin is extremely well tolerated, even by sufferers from peptic ulcer.

Solprin will be found particularly valuable when heavy or prolonged dosage is called for.

Patients find Solprin easy to take and palatable.

SOLPRIN^{REGD.}

Soluble and substantially neutral

Not advertised to the public

Solprin is available only on prescription and only in Great Britain and Northern Ireland. Clinical samples and literature will be supplied on request.

Effective Penetration of the Intact Skin

Vascutonex Cream

A TOPICAL SALICYLATE THERAPY WHICH
INCORPORATES TWO ESSENTIAL FACTORS

Effective skin
penetration

Effective absorption
into lipid tissue

The first factor is provided by diethylamine salicylate, which has been shown to have an absorption rate 300-500 times greater than methyl salicylate.*

The second factor is glycol salicylate, the slow release of which from fatty tissue prolongs the action of the quicker acting diethylamine salicylate.

The local effect of these salicylates is to begin their therapeutic action at the site of the lesion. By plain intunction, about 80% of the salicylate content of the cream is taken up into the body and about 60% is excreted in the urine.

VASCUTONEX is non-staining, odourless, and contains no counter-irritants — its therapeutic action depending entirely on the effective absorption and anti-rheumatic action of the salicylates in the formula.

INDICATIONS: Fibrositis and pain associated with muscular and articular rheumatism and all soft tissue pain.

* *Comptes rend. Soc. de Biol.*, 1948, 142, 819.

Announcing

A completely new corticosteroid

in a class by itself

'DECADRON' is a completely new synthetic corticosteroid discovered in the Merck Sharp & Dohme Research Laboratories. 'DECADRON' has all the basic *therapeutic* actions of earlier steroids, but to a much greater degree. Although 'DECADRON' is *35 times* more potent than cortisone, *7 to 10 times* more potent than prednisolone, and *5 times* more potent than triamcinolone and methylprednisolone, the incidence of side-effects is the lowest ever reported. The change-over to 'DECADRON' from the older steroids is extremely simple. 'DECADRON' introduces an important change in steroid therapy, since therapeutic need—not side-effects—now becomes the predominant factor.

There will be ample supplies of 'DECADRON' available to meet all prescription demands.

Full medical information on request.

*New manufacturing technique brings
significant increase*
in initial acid adsorption*

INTRODUCING DROXALIN GEL

Rapid adsorption of gastric hydrochloric acid is accepted as the most effective method of obtaining relief in peptic ulcer pain.

* In two minutes a single teaspoonful (3.5 mls.) of DROXALIN GEL will neutralise 50 mls. of N/10 HCl. This is *several times* the speed of acid adsorbents prepared by usual methods.

Using the well established Droxalin formulation a new and exclusive manufacturing technique has produced in DROXALIN GEL an antacid possessing this significant increase in Initial acid adsorption. The advantages of quicker acting DROXALIN GEL in peptic ulcer therapy and hyperacidity will be readily recognised. The palatability of Droxalin Tablets is achieved.

CLINICAL TRIAL SAMPLES ON REQUEST TO — SCOTT & TURNER LTD. NEWCASTLE UPON TYNE

"IMPROVED THERAPY FOR PEPTIC ULCER"

Extract from the American Journal of Gastroenterology, (1957) 28, 439.

"The medication investigated is known as Roter tablets . . . The dosage employed in the treatment of gastric or duodenal ulcer was 2 tablets, taken three times a day with tepid water immediately after meals . . . this therapy is applicable to ambulatory patients."

SUMMARY

"In a series of 155 cases of peptic ulcer treated with . . . (Roter) tablets for three to six weeks, there was immediate relief of pain in 92 per cent of cases and roentgenological healing of the ulcer in 81 per cent. The average weight gain was 7.9 lbs. and occult blood disappeared from the stools in all of the six cases in which it was found.

"The benefit provided by the medication is attributed to the minute particulation of the bismuth subnitrate, produced by a special process of trituration in association with a synergistic antacid combination.

"The special features of this medication are immediate and prolonged relief of pain, correction of gastric hyperacidity, absence of side reactions, effectiveness for ambulatory patients, and early healing of the ulcer in most cases.

"There was no acid rebound in therapeutic dosage and no adverse effects were reported."

A **RIKER** PRODUCT OF CONSIDERABLE VALUE
IN GENERAL PRACTICE

'Deaner'

Trade Mark

EARLY REPORTS SHOW THAT 'DEANER' MAY

- Improve outlook
- Increase appetite
- Produce sounder sleep
- Produce increased drive and energy

'Deaner' is a new biochemical corrective which acts gradually and with a prolonged effect. All evidence indicates that 'Deaner' produces its effect through acting as a precursor of brain acetylcholine.

INDICATIONS—

General Debility. Where patients complain of lack of energy and appetite, who are unable to concentrate and who seem to derive no benefit from sleep.

Headache. 'Deaner' can produce gratifying results in chronic and migraine headaches.

Availability. Tablets containing 25 mg. dimethylaminoethanol (deanol) as para-acetamido benzoic acid salt. Bottles of 100 and 500 (basic N.H.S. costs 22/- and 90/- respectively plus P.T.). Weekly cost of treatment is approximately 2/6 plus P.T.

Dose. Two tablets per day for two to three weeks, subsequently increased if necessary. The usual dose will often be found to be one tablet three times a day.

N.B. 'Deaner' requires at least two weeks for its full effect to develop. No assessment should be made until this time has elapsed.

A practical reference manual on contraception available free to all doctors

TO GET YOUR COPY
simply write "Modern Contraceptive Technique" and "Planned Families" on your letter-heading, and post it to the address below.

The Report of the Royal Commission on Population (1949) states:
"*...there is nothing inherently wrong in the use of mechanical methods of contraception... public policy should be based on acceptance of voluntary parenthood and contraception.*"

These words give authoritative support to the use of conception control methods as a means of planning the size of the family.

MODERN CONTRACEPTIVE TECHNIQUE presents a concise and compact survey of methods commonly used. There are notes on methods which have medical approval, and also on others which are medically contra-indicated.

FOR THE USE OF PATIENTS

PLANNED FAMILIES contains an explanation of contraceptive techniques, written in non-technical terms. Any number of copies will be supplied to doctors for distribution to their patients.

In hepatic conditions . . .

In hepatic conditions, when a reserve of liver glycogen and the speedy ingestion of nourishment are of supreme importance, Lucozade is strongly indicated. Its many-sided appeal ensures immediate acceptance; and the fact that the patient will easily take as much as is necessary ensures an adequate blood sugar level in the shortest possible time.

Lucozade is lightly carbonated with an attractive golden colour and a pleasant citrus flavour. It contains 23.5% w/v Liquid Glucose B.P., and its energy value is 21 calories per fluid ounce. It is supplied in 6 oz. and 26 oz. bottles.

PORTABLE 2-FLOW**OXYGEN THERAPY
AND FIRST AID RESUSCITATION SETS**

Specially designed for personal use, this set provides an accurately controlled oxygen supply at flow rates of 2 or 4 litres per minute.

The selected flow is obtained simply by turning a clearly marked control knob and the rate of flow is maintained automatically to within very fine limits throughout the life of the cylinder.

Home Office approved oxygen cylinders of 120 or 200 litres capacity are available.

SELSUN

Individually designed Spencer Belts and Supports for Men

Prescribed for conditions of Hernia, Movable Kidney, Enteroptosis and Post-operative

Each Spencer Belt is designed to provide abdominal and back support and to improve posture. It can be slipped on and adjusted instantly by means of flat straps and self-locking slides. The weight of the support is carried by the pelvis. The Spencer Belt is non-elastic, and being made from specially woven textile, provides positive support.

As a corrective measure employed for Enteroptosis and Intestinal Stasis the Abdominal Supporting Belt for men is ideally designed for these conditions. Like other Spencer Supports, it provides any degree of abdominal uplift and support desired.

The Supports created by Spencer Designers for post-operative wear are light in weight, flexible and perfectly comfortable, and are individually designed for the patient to give gentle, restful abdominal support and to correct spinal abnormalities and improve posture.

Whenever posture improvement is one of the medical aims, Spencer is demonstrably superior. *Only through individual designing can individual needs be accurately met.*

SELSUN

WHICH IS WATER?

Try this for yourself. Place a drop of water next to a drop of Predsol* Lotion (Glaxo soluble prednisolone in water). Compare the clarity of the two. Even if you examine the lotion under a microscope you will detect no particles. All the hormone is in solution free to diffuse and exert its maximum therapeutic effect in suppressing inflammation. Spread the lotion on the skin and its other merits are swiftly apparent . . . its smooth, even flow . . . its excellent covering power . . . its complete freedom from undesirable stickiness. Moreover, dosage is flexible, the lotion being issued in two strengths, 0.1% and 0.25%.

'The Victor was made for

Seriously, don't you think the Vauxhall designers had us doctors in mind when they planned the Victor ? Consider, now . . . A doctor needs a car with modern lines—it's part of his persona—but he doesn't want a big one. He must have an immensely reliable car, for obvious reasons. He must be able to move fast, and easily, without tiring himself . . . and hop in and out quickly. He wants a *really* useful luggage boot. He wants, above all, a car that doesn't cost too much to own or to drive. Get your Vauxhall dealer to let you have a trial run. You'll be impressed. (And remember, Vauxhall Square Deal Service is the best and cheapest in the country.)

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

Travelling expenses will be paid in accordance with the table set out in the Conditions of Appointment, which, together with application forms, may be obtained from the office of the High Commissioner for New Zealand, 415, The Strand, London, or from the undersigned. Applications, stating age, qualifications and experience, together with health and chest certificates, will be received by the undersigned until 10 o'clock a.m. on Monday, March 2, 1959.—W. A. Williamson, Secretary, Otago Hospital Board, Dunedin, New Zealand. (7380)

WESTERN AUSTRALIA STATE PUBLIC SERVICE**Public Health Department
Tuberculosis Control Branch—Perth****CHEST CLINIC MEDICAL OFFICER
Grade 1 (Permanent)**

Salary range: £2,573 to £2,643 Australian currency (gross) per annum on current basic wage.

Qualifications: Applicants must possess a medical degree registrable in W.A., and should have special knowledge of tuberculosis, preferably with experience in either chest hospitals or chest clinics. Include management of out-patient clinics, interpretation of and reporting on chest x-ray films, B.C.G. vaccination clinics. Access to limited number of beds in Perth Chest Hospital.

Transport: A reasonable amount allowed for transport of appointee and dependent family to W.A. provided bond entered to serve State for period of three years.

Conditions of service: One month's annual leave, superannuation benefits, three months' long-service leave after seven years' continuous service, cumulative sick leave entitlements, and other general conditions applicable to permanent public servants.

Applications, stating age, qualifications and experience, should be submitted in duplicate on or before January 30, 1959, to Official Secretary, Western Australian Government Agency, Savoy House, 115/116, Strand, London, W.C.2. (7452)

**THE SOUTH CANTERBURY HOSPITAL BOARD
Timaru, New Zealand****EAR, NOSE AND THROAT SURGEON**

Applications are invited for the above post, which is a part-time appointment, for an initial period of three years and renewable. Salary is governed by the Hospital Employment Regulations, and would be according to qualifications and experience, up to £775 for work at Timaru Hospital. In addition there is a fortnightly clinic conducted at Oamaru, 55 miles distant, for which a fee of £10 10s., plus travelling time and mileage allowance, is payable. The total salary will be approximately £1,200 (N.Z. currency) per annum for a senior man. The appointee would establish himself in private practice without financial obligation. First-class private hospital facilities are available in the town. Further particulars obtainable from the Medical Superintendent, Public Hospital, Timaru. Applications, stating age, qualifications and experience, and enclosing not more than three copies only of recent testimonials, close on January 14, 1959, with the Secretary, the South Canterbury Hospital Board, P.O. Box 88, Timaru, New Zealand. (6944)

**UNIVERSITY COLLEGE HOSPITAL
Ibadan, Nigeria****HOUSE OFFICERS**

The Board of Management invites applications for the following appointments, which will become vacant on April 1, 1959:

HOUSE OFFICERS (Pre-registration)

Candidates must be provisionally registered practitioners and must be prepared to serve in any of the following departments: Medicine, surgery, obstetrics or paediatrics. The duration of the appointments will be for 12 months (two departments) or six months in the case of a candidate who has already completed a six months' pre-registration appointment.

HOUSE OFFICERS (Post-registration)

Candidates must be fully registered medical practitioners and must be prepared to serve in any of the following departments: Medicine, surgery, obstetrics, anaesthetics, paediatrics or general out-patients. The duration of the appointment will be for one year, six months to be spent in each of two departments.

House Officers will, as far as possible, serve in the department of their choice but the number of vacancies in any department is limited and it is not always possible to observe individual preferences. Salaries: House Officers (pre-registration) £660 per annum; House Officers (post-registration) £1,164 per annum, plus inducement addition of £270 per annum for expatriates. The appointments will be for one tour of 12 months. On satisfactory completion of service a gratuity of £37 10s. (taxable) will be paid to post-registration House Officers for each completed term of three months' service. An outfit allowance of £60 is payable on first appointment. Partly furnished quarters are provided at a rental of 84% of salary, excluding inducement allowance. An expatriate doctor appointed will be eligible for seven days' leave on full pay for each completed month of service in Nigeria. A Nigerian doctor will be eligible for five days' leave for each completed month. Free first-class passages are provided for expatriate doctors on first appointment, on vacation leave and on completion of their agreement. Free first-class passages to Nigeria will, in certain circumstances, be provided for Nigerian doctors. Doctors will be eligible for children's allowances in accordance with the existing regulations. Arrangements can be made to enable doctors to continue their National Health Service Superannuation Scheme contributions, and details of the revised salary and gratuity payable in such cases will accompany application forms. Applications should be submitted not later than December 27, 1958, on the appropriate forms, which will be forwarded, together with additional information, on receipt of an addressed foolscap envelope by the Adviser on Staff Recruitment, London Office, University College Hospital, Ibadan, 57, Catherine Place, Palace Street, London, S.W.1. (7408)

UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.****MEDICAL RESEARCH COUNCIL
Clinical Chemotherapeutic Research Unit,
Western Infirmary, Glasgow, W.I**

Applications invited for post in Clinical Research, M.R.C.P. desirable. Preliminary training in research method if required. Special facilities for study of metabolic, occlusive vascular and rheumatic diseases. Opportunity to keep in touch with general clinical medicine. M.R.C. scales of remuneration. Applications, stating age, qualifications and experience, with two copies of testimonials, to Director. (7390)

University and Research**Appointments, etc.—contd.****UNIVERSITY OF LONDON**

The Senate invite applications for the **CHAIR OF MEDICINE** tenable at the Royal Free Hospital School of Medicine (salary in the range £2,500 to £3,000 a year). Applications (10 copies) must be received not later than January 19, 1959, by the Academic Registrar, University of London, Senate House, W.C.1, from whom further particulars may be obtained. (7467)

SCHOLARSHIPS**THE MEDICAL WOMEN'S FEDERATION**

Applications invited for the **CHRISTINE MURRELL MEMORIAL FELLOWSHIP AWARD** value £150, to a woman medical practitioner registered in one of the British Commonwealth of Nations and on the *British Medical Register*. The Award will be made for research, or undertaking of secretarial expenses of research work, or the purchase of equipment required therefor. The Award will be for one year and be renewable for one further year. Form of application may be had on request to the Secretary, The Medical Women's Federation, Tavistock House North, Tavistock Square, London, W.C.1 and should be returned not later than April 30, 1959. It should be accompanied by a plan of the proposed subject of research to be undertaken. The names of three referees should be supplied. (7389)

FACULTY OF ANAESTHETISTS
of the
ROYAL COLLEGE OF SURGEONS
OF ENGLAND

BOARD OF FACULTY ELECTION

Notice is hereby given that an election of two Fellows in the Faculty to the vacancies on the Board occasioned by the retirement in rotation of Mr. A. D. Marston, C.B.E., and Dr. R. F. Woolmer, will take place at the College on Wednesday, March 11, 1959, at 2.30 p.m. The following shall be eligible for election to the Board on complying with the conditions of the Regulations: (a) All Fellows in the Faculty by election, provided they have been medically qualified for fifteen years; (b) all Fellows who have been medically qualified for fifteen years and Fellows by examination for ten years. Application forms of the requisite Notice to be signed by the candidate and his nominees may be obtained on application to me, and must be received by me, duly completed, by January 1, 1959. The names of the candidates will be published in the *London Gazette* and the *Medical Journals* on or about Tuesday, January 20, 1959. A voting paper will be sent by post to each Fellow whose address is registered at the College on Tuesday, January 20, 1959. Fellows are requested to give notice, without delay, of any change of address so that their voting papers may not be misdirected.—R. S. Johnson-Gilbert, Secretary, Lincoln's Inn Fields, London, W.C.2.

MEETINGS

Tancolin

The Tangerine-flavoured Children's Cough Linctus

TANCOLIN is specifically formulated for children between the ages of six months and twelve years. The pleasant tangerine flavour makes an immediate appeal even to the most unco-operative child patient.

TANCOLIN is freely prescribable on E.C.10 (Category 3/4). An ever-increasing demand indicates full acceptability as a treatment for the distressing cough associated with the Common Cold, Bronchospasm, Bronchitis and most Inflammatory and Catarrhal affections of the respiratory tract.
