An advance in the therapy of diabetes

Rastinon tablets, developed by Farbwerke Hoechst AG., of Frankfurt/M., under the research No. D860, have now an established place in the therapy of diabetes mellitus. The large volume of clinical work and the number of papers published, reflect the world-wide interest in Rastinon. This work clearly shows that for the suitable patient Rastinon tablets provide a form of therapy which is

Simple, safe, effective and economical

Rastinon is not a "sulphonamide drug," has no anti-bacterial action and does not produce crystalluria. No cases of dyshaemopoiesis or other serious side-effects have been reported among the many thousands of patients satisfactorily controlled for more than two years.

The suitability of a patient for treatment with Rastinon tablets is readily assessed in the diabetic clinic and once stabilised no difficulties have been experienced in controlling the patient. An acute intercurrent infection may necessitate a temporary return to insulin therapy.

DOSAGE

Once stabilised, from one to three tablets a day are normally all that is required to replace the insulin with its concomitant syringe, needles, swabs, and often nursing assistance as well. During the period of stabilisation it has been found that generally from four to eight tablets on the first day, three to six on the second and three to five on the third are sufficient.

The daily amount should be divided into two or three doses and taken during or after meals with a little fluid. Higher doses are not usually more effective and are not recommended as they may occasionally cause hypoglycaemic reactions. The normal regime of urine examination and dietary control remains necessary.

To lessen the possibility of the patient taking a tablet other than Rastinon in error, each tablet is en-

graved with the name Rastinon and the trade mark of the originators.

PACKS

Bottles of 100 and 500 tablets—each tablet contains 0.5 G. N-Butyl-N'-toluene-p-sulphonylurea (tolbutamide). The basic cost to the N.H.S. of a week's treatment is on average between 3/6d. and 5/3d.

One week's treatment with 'Antepar' Elixir or Tablets is usually sufficient to eradicate *threadworms*, a single dose to clear *roundworms*, from the gut. Effective without fasting, purging or supporting measures, 'Antepar' acts by paralysing the worms—they are then expelled by normal peristalsis.

'Antepar' Elixir is supplied in bottles of 4 fl. oz. and 20 fl. oz. It contains the equivalent of 500 mgm. of piperazine hydrate per fl. dr. 'Antepar' Tablets, for chewing, are issued in strip packs of 20 and bottles of 250. One tablet is equivalent in strength to 1 fl. dr. of Elixir.

0.2 mg. total alkaloids of belladonna
0.6 mg. Ergotamine Tartrate B.P.
40 mg. Phenobarbitone B.P.

Ergotamine and belladonna suppress the peripheral effects of overstimulation of both sympathetic and parasympathetic divisions. At the same time central sedation with phenobarbitone renders the patient less reactive to mental and emotional stimuli.

Bellergal Retard acts at different levels (central and peripheral) to control the somatic manifestations of mental and emotional stress. Bellergal Retard "cuts the lines of communication" between psyche and soma in psychosomatic disorders.

CHRISTMAS, 1958. DURING THE PAST 12 months, with the assistance of this column in the *British Medical Journal*, we have made countless new friends and continued our happy business relationship with our old customers. To all of you may we take this opportunity of offering our most hearty Christmas Greetings and our hope that this will indeed prove a joyous Festive Season. No doubt you will enjoy all the good food associated with the English Christmas, but afterwards will welcome a change from the traditional dishes. May we suggest that you send for our New Year price list, which will give you many ideas for delicious variations from the normal routine. For example, why not try Hungarian Highlights. The fine foods in this carton are prepared in Hungary from the original recipes and cannot be obtained from any other mail order house. They will appeal to all lovers of Continental food at its very best. Each carton contains 1 x 14-oz. tin "Bakony" style Pork Cutlets, "Caikos" style Pork Ragout, Veal Fillet with Mushrooms, Veal Ragout with Paprika, Beef with Letcho, Tenderloin à la Budapest, Filled Cabbages à la Kolozsvár, Transylvanian Gulash, Stewpot Gulash, and Goose Liver with Risotto. The carton of 10 tins sent for £3 7s. 6d., post paid, c.w.o., two cartons £6 12s. 6d.—Grays, Dept. B.M., Greenhill, London Road, Worcester.
