An old friend

in a new guise

**a molecular complex of chloral hydrate
in tablet form **WELLDORM****

(dichloralphenazone)

'Welldorm' has all the advantages that make chloral hydrate one of the best hypnotics. It has none of the disadvantages—the nauseating taste and smell, the gastric irritation—that restrict the use of chloral in daily practice. 'Welldorm' induces, without excitation, calm deep sleep with no hangover effect. 'Welldorm' is ideally suited for both the very old and the very young, because it is one of the safest of all hypnotics.

'Welldorm' is presented as tablets each containing 10 grains dichloralphenazone in 25s and 250s. The basic NHS cost of 12 tablets (supplied from a dispensing pack) is 1/- . There is also available a 2½ grain strength for children at a basic NHS cost of 6d. for 12 tablets (supplied from a dispensing pack). Clinical samples will be sent on request.

WELLDORM

safe, non-barbiturate sedative/hypnotic

Smith & Nephew Pharmaceuticals Limited

WELWYN GARDEN CITY, HERTFORDSHIRE

“But that’s just the point, Mr. Baxter...”

... it’s quite important to remember the difference between the two. Globin insulin contains a foreign protein, globin, to modify the action of the insulin, whereas I.Z.S. contains no protein or peptide, other than the insulin itself. Let me stress once again, gentlemen, that the prolonged effect of I.Z.S. depends entirely on the appropriate adjustment of the particle size of the zinc insulin compound. It is because the effect of I.Z.S. is independent of any modifying protein, that allergic reactions following its use are practically unknown. That is precisely why I.Z.S. is so suitable as the single daily injection of insulin in about 90 per cent. of diabetic patients. Any other questions ?”

I.Z.S. A.B. Vials of 10 c.c. 40 or 80 units per c.c.

I.Z.S. (Amorphous) A.B. Vials of 10 c.c. 40 or 80 units per c.c.

I.Z.S. (Crystalline) A.B. Vials of 10 c.c. 40 or 80 units per c.c.

Only Nulacin provides intragastric milk-alkali drip therapy for the ambulatory patient

"In view of the ineffectiveness of most of the tableted antacids, the milk alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy."

(Medical Times 1958, 1, 74)

NULACIN TABLETS have been developed so that when allowed to dissolve slowly in the mouth, they give continuous milk-alkali drip therapy and provide a treatment of peptic ulcer and other conditions associated with hyperacidity. The effectiveness of Nulacin therapy has been established by clinical work in many countries. The following are a few references to the literature:

Antacids. *The Practitioner*, January 1957, 178: 43

Antacids in Peptic Ulcer. *The Practitioner*, January 1956, 176: 103

Recent Advances in the Ulcerative Diseases of the Gastrointestinal Tract. *Amer. J. Gastro.*, December 1956, 26: 665

The advantages of

Esidrex

(hydrochlorothiazide, a product of CIBA research)

For oedema and hypertension

Highest potency—low dosage.

Fully active orally—often effective where mercurials have failed.

Less risk of potassium depletion.

Almost a pure sali-diuretic.

No significant effect on urinary pH.

Low cost of treatment—averages 4d. to 1/- daily.

The dosage range is usually 25 to 100 mg. daily, taken in two doses, after breakfast and after lunch.

Tablets of 25 mg. and 50 mg.* hydrochlorothiazide in 25's, 100's and 500's.

*Available shortly.

Deep skin penetration in Arthritis and Rheumatism

**NICOTINIC, SALICYLIC AND
p-AMINO BENZOIC ACIDS in Ester form**

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Now you can achieve

a positive nitrogen balance by infusion

When disease, injury, pre- or post-operative requirements make normal feeding impossible, Trophysan provides the nitrogenous materials the body needs for tissue replacement. It contains:

- 1 All the essential amino acids and glycine.
- 2 Trace minerals and vitamins to promote protein synthesis.
- 3 Sorbitol to ensure an adequate supply of energy.

Trophysan is available in a variety of concentrations, with or without sorbitol, to satisfy a wide range of individual requirements. It is usually administered by intravenous infusion, but can also be given by gastro-intestinal tube or subcutaneously.

OXYGEN THERAPY

With the Normalair C570 pocket-size set, on-the-spot oxygen first aid is put into the hands of the police officer, fire and rescue teams, for the first time. The C570 can be taken anywhere. It weighs only 5 lb. and gives oxygen flow rates of 1, 2, 4, 6 or 10 litres a minute, a range to meet all requirements.

The Normalair C990 light-weight set is carried comfortably by shoulder strap or in coat pocket. This personal set gives an accurately-metered oxygen flow of 2 or 4 litres a minute from 120 or 200 litres capacity cylinders.

Application forms from Director of Recruitment, Colonial Office, London, S.W.1 (quoting B.C.D. 117/5/01). (5667)

THE NEW ZEALAND DIVISION OF MENTAL HYGIENE has vacancies in its various hospitals for psychiatrists, junior and senior, and for medical practitioners who wish to train as psychiatrists. There is a serious shortage of psychiatrists in New Zealand and there is ample scope for advancement and satisfying work with all types of psychiatric problems. There is in particular a rapid development of mental deficiency services and senior applicants with extensive experience in mental deficiency could be appointed to a Superintendency at an early date. The practitioner who desires to proceed to a Diploma of Psychological Medicine has his service in New Zealand recognised by the examining bodies, can get wide experience, and under certain circumstances can in due course get a year's leave on full pay to proceed to the United Kingdom or to Australia to secure the qualification.

Salary scales lie within the ranges £1,410 to £1,660; £1,760 to £1,960; and £2,060 to £2,260, with in each case a deduction of £150 p.a. for house, fuel and light. Free laundry. Commencing salary would be determined by qualifications and experience. The salary of a Medical Superintendent rises at present to £2,560. Appointees would have fares paid for themselves and their families (up to £165 each) and could receive a grant of up to £50 for further expenses. A liberal contributory superannuation scheme is optional.

New Zealand offers considerable advantages in climate and general conditions. For children there is excellent free education and many opportunities in a rapidly developing country.

Enquiries mentioning this publication should be addressed to the High Commissioner for New Zealand, 415 Strand, London, W.C. 2., who will supply further details and application forms. Application forms must be lodged in London not later than 16 August, 1959. (5141)

VICTORIA HOSPITAL, London, Ontario

Diagnostic Radiologist required. This is a 900-bed teaching hospital for the University of Western Ontario. Preference will be given to candidates for the experience in Neuro-radiology. Starting remuneration \$12,000 per annum or higher according to qualifications and experience. Reply, stating age, qualifications, experience and references to Dr G. G. Copestake, Box 1525, B.M.J.

THE NEW SOUTH WALES STATE
CANCER COUNCIL

RESEARCH PATHOLOGIST

Applications are invited for this appointment at the Special Unit for Investigation and Treatment, comprising 28 in-patient beds and complete self-contained operating and laboratory facilities devoted solely to cancer. The unit is situated at the Prince of Wales Hospital Randwick. The pathologist who must be a graduate in medicine of a recognised University and possess a post-graduate degree in pathology or equivalent qualification, with additional extensive experience in modern clinical, experimental and histo-pathology, will be required to develop research projects related to causes and treatment of human cancer, within the framework of the general research programme approved by Council. Under the direction of the Honorary Director of the Unit, he will be in administrative control of the laboratory staff. Salary range £A2,831 to £A3,631 per annum. Commencing salary according to qualifications and experience. Full details of conditions of employment, superannuation benefits, research programme, etc., are available from the Medical Director of Council at the under-mentioned address. Applications endorsed "Application for Research Pathologist" closing September 30th, 1959, to be addressed to the Secretary New South Wales State Cancer Council, Department of Public Health, Box 3944, G.P.O., Sydney (5294)

UNIVERSITY COLLEGE HOSPITAL, IBADAN
Department of Medicine

SENIOR HOUSE OFFICER/REGISTRAR

The Board of Management invite applications from Registered Medical Practitioners for the above appointment in the newly completed teaching hospital. The building is on the most modern lines and the Department of Medicine contains 144 beds and a well-equipped Out-patient Clinic. There is great variety in the clinical conditions encountered and much room for original work, the departmental facilities for which are excellent. The salaries offered for the posts are: Registrar £1,266 per annum rising by one annual increment to £1,320 per annum; Senior House Officer £1,212 per annum. In addition, an inducement addition of £270 per annum on a salary less than £1,285 per annum or £300 per annum when the salary is £1,825 or over, is payable to an expatriate doctor. The appointment will be initially for one tour of 12 months and will be renewable, in the case of a Registrar, by mutual agreement for a second tour. On satisfactory completion of the agreement, a gratuity of £37 10s. will be paid for each completed term of three months' service. An outfit allowance of £60 is payable on first appointment. Partly furnished quarters are provided at a rental of 8½ per cent. of salary excluding inducement allowance, and an expatriate doctor appointed will be eligible for seven days' leave on full pay for each completed month of service in Nigeria. A Nigerian doctor is eligible for five days' leave for each completed month of service. Free first-class passages are provided for expatriate doctors and their wives on first appointment, and on completion of the agreement. Free first-class passages to Nigeria will, in certain circumstances, be provided for non-expatriate doctors. Free first-class passages will be provided for vacation leave. Candidates will be eligible for children's allowances in accordance with existing regulations. Arrangements can be made to enable doctors to continue their NHS superannuation scheme contributions and details of the revised salary and gratuity payable in such cases will accompany application forms. Applications should be submitted not later than 14 days after the appearance of this notice on the appropriate forms which will be forwarded together with additional information, on receipt of an addressed foolscap envelope by the Advisor on Staff Recruitment, London Office, University College Hospital, Ibadan, 57, Catherine Place, Palace Street, London, S.W.1. HOMES

ST. ANDREW'S HOSPITAL, NORTHAMPTON
For Nervous and Mental Disorders
President: The Earl Spencer, Medical Supt., Thomas Tennent, M.D., F.R.C.P., D.P.H.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat fruit and vegetables are supplied to the hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit growing.

WANTAGE HOUSE.—This is a reception hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department of Diathermy and high frequency treatment. It also contains laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRVNY-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short sea-side change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park. At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts) croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines), who can be seen in London by appointment.

WYKE HOUSE, ISLEWORTH, MIDDLESEX
Tel.: ISLEworth 7000

QUICKLY READY TO HAND

London Hospital Catgut in non-splintering 'spot' tubes

Speed is a matter of urgency in the Operating Theatre—which is why the London Hospital 'spot' tubes are so popular. Just a slight pressure, and instantly the tube breaks cleanly at the 'spot' position, and the sterilised suture is ready for use.

These are the advantages :

- The spot indicates the exact breaking point of the tube.
- If the thumbs are placed about $\frac{3}{4}$ " apart, exactly opposite the spot, the tube breaks cleanly and easily under slight pressure.
- No filing is needed, no instruments required, no need to hold the tube in a swab.
- There are no dangerous glass splinters.

Always use **London Hospital Catgut**
the more **F·L·E·X·I·B·L·E** Suture
