*to relieve anxiety and tension . . .*  
*to calm the psychoneurotic . . .*  
*to control the acute psychotic . . .*

# Fentazin

PERPHENAZINE

*the broad-span phenothiazine*

*and unsurpassed anti-emetic*

FENTAZIN (perphenazine) is remarkably effective in a wide range of psychiatric disorders. Virtually free from side-effects, it is eminently suitable for the routine management of minor anxiety and tension states.

FENTAZIN is several times more active than older phenothiazines, and offers rapid control of even acute psychoses.

In addition, FENTAZIN is unsurpassed as an anti-emetic.

FENTAZIN TABLETS contain 2mg., 4mg., or 8mg. perphenazine. Supplied in bottles of 50 and 500 tablets of each strength.

FENTAZIN INJECTION contains 5mg. perphenazine in each 1 c.c. Supplied in ampoules of 1 c.c. in boxes of 5 ampoules.

FENTAZIN is a trade mark

# DEXTELAN

## TABLETS

0.5 and 1 mg

**Glaxo brand of dexamethasone**

in bottles of 30, 100 and 500

Dextelan is a new analogue of cortisone having similar therapeutic effects but in greater degree. It appears to have therapeutic activity in rheumatoid arthritis roughly 6 times that of prednisolone, 30 times that of cortisone. Dextelan is less liable than cortisone to cause sodium retention and oedema. Dextelan is used for exactly the same purposes as cortisone and prednisolone with proportionate reduction in dosage.

Saunders announce with pride up-to-the-minute revisions of Cecil's  
Medicine and Nelson's Pediatrics...

Cecil Loeb's New (10th) edition . . .

## ... TEXTBOOK OF MEDICINE ...

For more than 30 years, earlier editions of this famous book have served as the "back-bone" of a professional library for hundreds of thousands of physicians all over the world. *Authority and completeness* have always been unquestionable. This new (10th) edition is the most extensive revision the book has yet sustained and it is now even *more useful, more informative, more indispensable* than was any previous edition.

*The organisation of the book is superb.* It is completely integrated, with all relevant material arranged in logical order under the disease being discussed. This, together with a first-class index, means that facts can be found

Nelson's New (7th Edition) . . .

with the minimum of effort, making it the most usable textbook of medicine in existence. No effort has been spared to present all the important medical developments of the last four years. Each of the contributors writes intensively and knowledgeably about that segment of medicine with which he is most familiar.

By 164 American Authorities. Edited by Russel L. Cecil (Cornell); and Robert F. Loeb (Columbia); assisted by Alexander B. Gutman (Columbia); Walsh McDermott (Cornell); and Harold G. Wolff (Cornell). 1665 pages, with 171 illustrations. In a single volume at £5-15-6d., or in a two-volume set at £7-3-6d.

## ... TEXTBOOK OF PEDIATRICS ...

*Today's Total Care of Both Sick and the Well Child.*

The new (7th) edition of this long famous work presents a complete and up-to-date picture of how to keep the well child healthy; and how to diagnose and treat the diseases of infancy and childhood. For those who treat children regularly or only occasionally, this new edition

of "Nelson" has an effective answer to every problem likely to be encountered.

By 79 Eminent Authorities. Edited by Waldo B. Nelson, *Professor of Pediatrics, Temple University School of Medicine*. 1540 pages, with 440 illustrations. £5-15-6d.

### THE "new look"

## MEDICAL ANNUAL

77th Issue.

1959

Editors :

R. BODLEY SCOTT, M.A., D.M., F.R.C.P.

R. MILNES WALKER, M.S., M.B., F.R.C.S.

Pp. 615, with 66 plates and 40 text illustrations.

Reviewers and subscribers alike have been enthusiastic about the completely new format which was adopted for the first time last year. Read what the reviewers had had to say about the many improvements.

**The Medical Press.**—The book is not merely more logical but much more readable. This new annual we predict without hesitation will therefore be more than ever useful to the practitioner, and consequently more than ever indispensable to him.

**The British Medical Journal.**—Now the year's work is reviewed in subsections complete in themselves, which run from Alimentary Diseases to Vital Statistics. This method encourages browsing, which is the attraction of a work of this kind and there is an excellent index which makes it easy to look up a particular topic. The contributors all seem to be reporting from the active front of medical progress, and the reader of this volume will have a sound idea of recent advances in medicine.

Publication has been delayed owing to the dispute in the printing trade. Your order may therefore still be placed at the pre-publication rate of

38s. 6d. post free.

After publication the price is 42s., postage 1s. 9d.

# Only Nulacin provides intragastric milk-alkali drip therapy for the ambulatory patient

*"In view of the ineffectiveness of most of the tableted antacids, the milk alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy."*

(Medical Times 1958, 1, 74)

**NULACIN TABLETS** have been developed so that when allowed to dissolve slowly in the mouth, they give continuous milk-alkali drip therapy and provide a treatment of peptic ulcer and other conditions associated with hyperacidity. The effectiveness of Nulacin therapy has been established by clinical work in many countries. The following are a few references to the literature:

Antacids. *The Practitioner*, January 1957, 178: 43

Antacids in Peptic Ulcer. *The Practitioner*, January 1956, 176: 103

Recent Advances in the Ulcerative Diseases of the Gastrointestinal Tract. *Amer. J. Gastro.*, December 1956, 26: 665

Ambulatory Continuous Drip Method in the Treatment of Peptic Ulcer. *Amer. J. Dig. Dis.*, March 1955, 22: 67-71

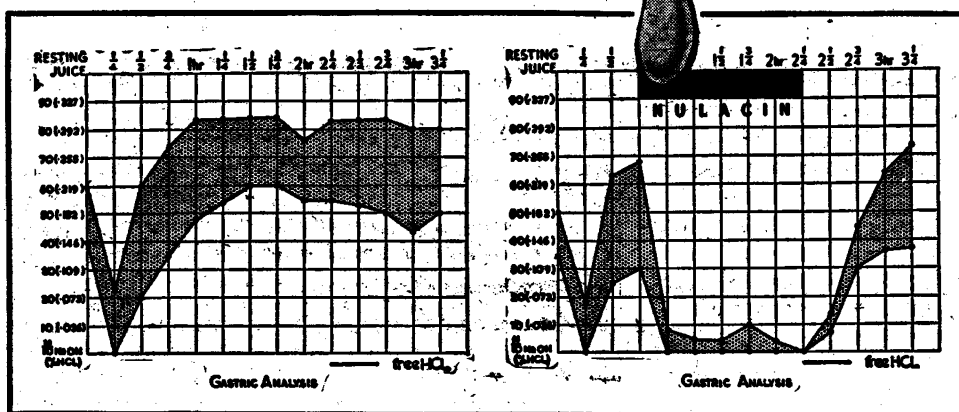

Management of Peptic Ulceration in General Practice. *Med. World*, December 1954, 81: 591-601

Clinical Investigation into the Action of Antacids. *The Practitioner*, July 1954, 173: 46

Further Studies on the Reduction of Gastric Acidity. *Brit. Med. J.*, 23rd January 1954, 1: 183-184

Control of Gastric Acidity by a New Way of Antacid Administration. *J. Lab. & Clin. Med.*, 1953, 42: 955

The Effect on Gastric Acidity of "Nulacin" Tablets. *Med. J. Aust.*, 28th November 1953, 2: 823-824

The basic N.H.S. price of the 25 tablet tube is 2/-.

## DURABOLIN (19-NORANDROSTENOLONE PHENYL PROPIONATE)

*the most potent, long-acting anabolic preparation  
Non-virilising in the recommended dosage*

Because It ensures a positive nitrogen balance when the rebuilding of new tissues is necessary (Brit. med. J. 2, 785-786, Sept. 27th 1958) DURABOLIN is being increasingly recommended as the anabolic agent of choice. Additionally DURABOLIN induces re-deposition of calcium in depleted bone and also relieves associated pain.

DURABOLIN has no progestational effects or other contra-indications.

**Form and Administration** 25 mg. 19-norandrosthenolone phenyl propionate in 1 c.c. oily solution; for intramuscular injection.

**Dosage** 25 to 50 mg. weekly.

**Presentation** 3 x 1 c.c. ampoules.

### Indications

Nitrogen loss  
occurring post-operatively,  
and in association  
with corticoid therapy  
Metastatic carcinoma  
Osteoporosis  
Paget's disease  
Terminal stages of  
all malignant disease  
Chronic infectious diseases  
Anorexia nervosa  
Uraemia.

# Esidrex

hydrochlorothiazide—a product of CIBA research.

## The most potent oral diuretic — antihypertensive

Highest potency—low dosage.  
Often effective where mercurials have failed.  
Almost a pure sodium chloride excretor.  
Does not make the urine alkaline.  
Minimal electrolyte disturbance.  
Well tolerated.  
Economical—cost of treatment averages 4d. to 1/- daily.

The dosage range is usually 25 to 100 mg. daily. One dose on alternate days is often adequate for maintenance in chronic heart failure. Tablets of 25 mg. and 50 mg. in 25's, 100's and 500's. Serpasil-Esidrex tablets, containing 0.15 mg. reserpine and 10 mg. hydrochlorothiazide are an ideal basic treatment for hypertension.

'Esidrex' is a registered trade mark. Reg. us.  
CIBA Laboratories Limited, Horsham, Sussex.

# ekammon

SOLUBLE

SAFER SALICYLATE THERAPY

## for SAFER Salicylate Therapy

*Ekammon-soluble makes possible the administration of aspirin in full analgesic, antipyretic and antirheumatic doses.*

### Composition

Each tablet is tangerine-flavoured and contains: Soluble Aspirin equivalent to acetylsalicylic acid 330 mgm (5 grains), Acetomenaphthone (Vitamin K) 0.49 mgm, Ascorbic Acid (Vitamin C) 20 mgm.

### Advantages

Gastric irritation due to the use of insoluble aspirin is considerably reduced or abolished when replaced by soluble aspirin

in Ekammon-soluble, avoiding erosive gastritis and its potentially lethal complications. The inclusion of Vitamin K counteracts the prothrombin-reducing action of aspirin, averting haemorrhagic tendencies; and Vitamin C prevents the depressant effects usually associated with the administration of salicylate medication.

### Packs

Containers of 50, 100, 350 and 750 tablets.

*Detailed literature and samples available on request*

## *An effective pattern of protection . .*

The increasing use of inoculation against Poliomyelitis does not dispense with the necessity for using other proved methods of prevention.

On the contrary—such methods should be more widely and more thoroughly applied.

'In Poliomyelitis epidemics, where a large proportion of the virus hosts are symptomless carriers—a vigorous health education programme . . . directed at raising the standards of personal hygiene . . . coupled with measures to raise individual resistance to Poliomyelitis virus infection by strengthening active immunity, offers best hope of success.'<sup>1</sup>

For inactivating Poliomyelitis virus, 'Oxidising agents seem to be the most active chemical disinfectants.'<sup>2</sup>

'An oxidising agent of great potency is Domestos which, when used at concentration of from  $\frac{1}{4}$  to 2 ozs. per gallon, provides a level of available chlorine in the range 150 to 1,200 parts per million—sufficient to inactivate the Poliomyelitis virus.'<sup>3</sup>

A pattern of protection against Polio is assured by using DOMESTOS, which destroys Poliomyelitis virus—

(a) For Lavatories. Overnight contact will destroy heavy soiling and give a free residual chlorine content which will inactivate virus contaminants. The exterior of the bowl and the seat which frequently come into contact with the hands of children, should always be washed with a DOMESTOS solution.

(b) For the disinfection and cleaning of dishes, floors, kitchen surfaces, sinks, etc.

(c) For safeguarding against the infection of food by bluebottles, flies, vermin.

(d) For the disinfection of yards, paths, etc.

(e) For the disinfection and cleaning of clogged drains.

1. 'Topical Aspects of Poliomyelitis'; 'Journal of the Royal Society of Health' Dec. 1956.
2. World Health Organisation Technical Report Series, No. 81, 'Expert Committee on Poliomyelitis'.
3. Domestos Technical Report D.R. 82A.

COMMONWEALTH OF AUSTRALIA  
COMMONWEALTH DEPARTMENT OF  
HEALTH AND THE UNIVERSITY OF  
SYDNEYAPPOINTMENT OF PROFESSOR OF CHILD  
HEALTH

Applications are invited for the position of head of the Institute of Child Health, Sydney. The successful applicant will also be Professor of Child Health in the University of Sydney. He will be granted the status of Honorary Physician by the Royal Alexandra Hospital for Children, where there is a teaching and research unit with in-patients and out-patients facilities. The Institute of Child Health comprises two main sections: paediatrics and public health aspects of child health, both of which are under the general direction of the Professor. The Professor will be required to lecture to undergraduate and postgraduate students and to conduct courses and examinations in the field of his chair. He will be responsible within the Institute for research on the general problems of child health. He will be expected to work in close association with the Director of the School of Public Health and Tropical Medicine, Sydney. The position carries with it the right of limited private consultant practice outside the official hours of duty. The salary will be £3,913 (Australian) per annum and will be subject to the provisions of the Public Service Act and the Superannuation Act. The appointee will be required to take up duty by March, 1960. Applications must be forwarded to reach the Chief Medical Officer, Australia House, The Strand, London, not later than August 31, 1959. Applicants should state full name, date and place of birth and whether natural born or naturalised British subject. They should also give full particulars regarding academic and professional record, research and administrative experience and published work. The names of three persons to whom reference may be made and a recent photograph should be included. A statement of conditions of appointment and information for candidates may be obtained from the Chief Medical Officer, Australia House, The Strand, London, W.C.2. (6031)

Cornell University is an approved participant in the Exchange Visitors Programme. Write Clinical Director for details and application form (5976)

### COMMONWEALTH OF AUSTRALIA DEPARTMENT OF HEALTH

The Commonwealth Department of Health has established a National Biological Standards Laboratory whose functions (precisely defined by the Therapeutic Substances Act 1953) are to establish Australian standards for biologicals and to ensure that therapeutic substances used in Australia for human and veterinary use are safe, pure and potent.

#### SENIOR CONSULTANT (Senior Bacteriologist)

A Bacteriologist is required to establish a Bacteriology Laboratory within the National Biological Standards Laboratory. Salary: Commencing salary will be determined according to candidate's qualifications and experience and will be in the range (£A2,383-£A2,713) plus £A63 cost-of-living adjustment. Duties: The successful candidate will be required to recruit and supervise a staff of graduate and technical assistants to assay the potency, purity, safety and efficacy of known bacterial vaccines and antisera. When necessary he will be required to assess new human and veterinary products and to establish suitable standards for such products offered for sale to the Australian medical and veterinary professions. Research will be encouraged. Qualifications: A degree in human or veterinary medicine or in microbiology preferably with doctoral degree (Ph.D.) or equivalent is required. Candidates should be thoroughly grounded in Bacteriology and Immunology. Previous experience in the preparation or assessment of bacterial, therapeutic and prophylactic agents will be an advantage.

#### SENIOR CONSULTANT (Senior Virologist)

A Virologist is required to establish a Virology Laboratory within the National Biological Standards Laboratory. Salary: Commencing salary will be determined according to candidates' qualifications and experience and will be in the range (£A2,383-£A2,713) plus £A63 cost-of-living adjustment. Duties: The successful candidate will be required to recruit and supervise a staff of graduates and technical assistants to assess and assay the potency, purity, safety and stability of known viral products for human and veterinary use and to assess new products when necessary. Research will be encouraged. Qualifications: Candidates should possess a degree in human or veterinary medicine or microbiology preferably with doctoral degree (Ph.D.) or equivalent. The candidates should be thoroughly grounded in microbiology with special knowledge of virology and immunology.

#### SENIOR CONSULTANT (Senior Pharmaceutical Chemist)

An experienced Chemist is required to establish a Pharmaceutical Chemistry Laboratory within the National Biological Standards Laboratory. Salary: Commencing salary will be determined

according to candidate's qualifications and experience and will be in the range (£A2,383-£A2,713) plus £A63 cost-of-living adjustment. Duties: The successful candidate will be required to recruit assistants to analyse, identify, isolate and assay and supervise a staff of graduates and technical assistants to analyse, identify, isolate and assay known and new therapeutic agents, and to determine optimum methods of assay in the case of new remedies. There will be opportunities for Research. Qualifications: Applicants should be graduates in Chemistry and preferably possess post-graduate degree (Ph.D.) or equivalent. Candidates should be thoroughly grounded in organic chemistry and well acquainted with diverse field of analytical chemistry. Previous experience in pharmaceutical chemistry would be an advantage but is not essential.

Applications are invited for the position of

#### BIOCHEMIST

Grade 3 Bacteriologist in the Antibiotics Laboratory of the National Biological Standards Laboratories, Canberra, A.C.T. Salary: Commencing salary will be determined according to candidate's qualifications and experience and will be in the range £A1,443-£A1,623 plus £A63 cost-of-living adjustment. Duties: The successful candidate will be required to supervise and carry out microbiological assays of all types of antibiotic products. Qualifications: Applicants should possess a Science Degree, B.Sc., and have extensive practical experience in Bacteriology. A good chemical background is essential and a knowledge of statistics advantageous.

Applications are invited for the position of

#### BIOCHEMIST

Grade 3 in the Pharmaceutical Chemistry Laboratory of the National Biological Standards Laboratories, Canberra, A.C.T. Salary: Commencing salary will be determined according to candidate's qualifications and experience and will be in the range (£A1,443-£A1,623) plus £A63 cost-of-living adjustment. Duties: The successful candidate will be required to assay and analyse known and new pharmaceutical remedies. Initially chemical assays of antibiotic substances will be required. Qualifications: Applicants should possess a Science Degree and have extensive practical experience in organic and analytical chemistry. Facilities: The Laboratory will be completely equipped. Situation: The Laboratory is situated in Canberra, Australian Capital Territory, close to the Australian National University, Canberra University College and the Canberra Laboratories of the Commonwealth Scientific and Industrial Research Organisation. Canberra is an active scientific centre, a rapidly growing planned city in a beautiful rural setting. Superannuation: The appointment will be conditional upon a satisfactory medical examination and the appointee will be required to contribute to the liberal Commonwealth Superannuation Fund. In the case of an appointee living overseas, first-class sea fares to Australia will be paid for the appointee, wife and family. Applications, stating full name, date and place of birth, marital status, full particulars regarding academic and professional record and the names and addresses of three professional referees should be forwarded to the Chief Medical Officer, Australia House, Strand, London, W.C.2. Closing date August 24, 1959. (6117)

### GOVERNMENT OF THE NORTHERN REGION OF NIGERIA

#### MEDICAL OFFICER OF HEALTH

required for administration of preventive medical service and control of sanitary matters (including statutory duties of an M.O.H.) or if posted to an airport the duties of Port Health Officer. May be required to perform general duties of Medical and Health Officers and other duties in connection with epidemic diseases. Possible posting to undertake rural health work including medical surveys and mass treatment of endemic diseases. Candidates must possess qualifications registrable in United Kingdom D.P.H. essential. Diploma in Tropical Hygiene an asset. Appointment may be (a) on 3 years' probation for permanent and pensionable employment. Pension (non-contributory) at rate of 1/600th of final pensionable emoluments for each completed month of reckonable service. (b) from National Health Service, officer retaining superannuation rights up to six years and receiving a gratuity (taxable) of 20 per cent. of aggregate of salary. Salary for officer appointed under (a) or (b) ranges from £1,212 to £1,950 a year including Inducement Pay, or (c) on short term contract (2 tours each of 18-24 months) with salary (including Inducement Pay) of £1,434 to £2,286 a year, and gratuity (taxable) of £37 10s. for each completed period of 3 months service (including leave). Quarters provided at low rental. Taxes at local rates. Annual leave permissible; generous home leave after each tour. Free

passages in both directions for officer and wife; assisted passages for children under 18 years up to cost of one adult return passage each tour. This assistance may be used to enable wife to visit children in home country in lieu of their being taken to Nigeria. In addition allowances are payable for children: £120 a year for first child, £96 for second and £72 for third. The Office of the Northern Region of Nigeria, Nigeria House, Northumberland Avenue, London, W.C.2., would be pleased to answer questions relating to conditions of service, climate, etc., in the Region. Application forms from Director of Recruitment, Colonial Office, London, S.W.1. (quoting BCD.117/408/026). (6276)

### PROVINCIAL ADMINISTRATION OF THE CAPE OF GOOD HOPE UNIVERSITY OF CAPE TOWN, JOINT MEDICAL STAFF FOR GROOTE SCHUUR HOSPITAL OBSERVATORY, CAPE TOWN, SOUTH AFRICA

Applications are invited from registered Medical Practitioners for appointment to the under-mentioned vacant post in the Joint Medical Service of Groote Schuur Hospital, Observatory, Cape Town.

#### DEPARTMENT OF PAEDIATRICS

Medical Practitioner, Grade D: £2,100 (fixed). Applications will only be considered from registered specialists in paediatrics. In addition to the salary indicated a vacation savings bonus is payable, subject to certain conditions. The conditions of service are prescribed in terms of the Hospital Service Ordinance No. 23 of 1958 and the regulations framed thereunder, as well as the agreement entered into between the Provincial Administration and the University of Cape Town. The Joint Medical Staff is required to serve jointly the Provincial Administration and the University of Cape Town. Successful candidates for permanent appointment will be required to submit satisfactory birth, health, professional and registration certificates. Candidates are required to furnish particulars in regard to the following: (a) Academic achievements (degrees and diploma held and the standard of achievement in profession examinations, scholarships and special awards). (b) Professional experience (not only the name of the employer but also that of the institution in which the candidate worked and the type of work undertaken). (c) Names of three persons from whom references may be obtained (one of these should preferably be someone occupied in the same branch of medicine as the candidate). Applications must be made in duplicate on the prescribed form, Staff 23, which is obtainable from the Director of Hospital Services, P.O. Box 2060, Cape Town, or from the Medical Superintendent of any provincial hospital in the Cape Province as well as from the Immigration Attaché, Office of the High Commissioner for the Union of South Africa, South Africa House, Trafalgar Square, London, W.C.2. The completed application forms must be addressed to the Director of Hospital Services and must reach him not later than 10th September, 1959. (6113)

### LAUNCESTON GENERAL HOSPITAL, TASMANIA

#### CLINICAL PATHOLOGIST

**THE BRITISH DRUG HOUSES LTD.**  
(Medical Department), LONDON N.1

For patients with marked involvement of  
trunk and abdominal muscles

*Spencer*

**IS the support of choice**

Spencer Supports are therapeutically effective as treatment aid in convalescent and chronic poliomyelitis, especially where there is involvement of trunk and abdominal muscles. The patient pictured at left is a typical example. This female child is shown 16 months following acute poliomyelitis. Note residual paralysis of abdominal muscles, scoliosis, and marked lordosis. Treatment for this patient included Spencer Spinal Support (as shown) to help maintain and correct body alignment and to help prevent further development of deformity. A Spencer abdominal Spring Pad\* was incorporated in the support to aid respiration and to compensate for paralysed abdominal muscles.

Spencer is the support of choice because: each Spencer Support is *individually designed, cut, and made* according to the medical indications for each patient.

\* Patented.

# 'Medihaler'

The first product to apply the principle of pressurised aerosol to inhalation therapy. The 'Medihaler' is an appliance possessing almost every worthwhile feature required in inhalation therapy.

**1 OPTIMUM PARTICLE SIZE** The Particle size is important. On it depends the amount of the drug that reaches the lower respiratory tract and remains there. The critical size for particles is from 2 to 5 microns diameter. OVER 80% (by weight) OF THE PARTICLES PROPELLED THROUGH THE 'MEDIHALER' ARE OF THIS DIAMETER RANGE.

**2 A POWDER AEROSOL** Powder aerosols are superior to liquid sprays. They usually produce more rapid effects and they do not increase the fluid volume in the respiratory tract. 'Medihaler' particles are suspended in an inert, propellant liquid. On projection the liquid vaporises instantaneously leaving the particles of powder fully suspended, their homogeneity unimpaired.

**3 SIMPLICITY IN OPERATION** The 'Medihaler' can be used at any time, anywhere, in any circumstances by any person, old or young.

**4 NEUTRAL AEROSOL** Many established nebuliser solutions have a strong acid reaction. These solutions on prolonged usage can cause damage to the bronchial mucosa. The 'Medihaler' powdered aerosols are quite neutral.

**5 A MEASURED DOSE** The special metering valve incorporated in the 'Medihaler' provides a measured dose at each operation—an important factor in the use of potent anti-asthmatic drugs—and one inhalation is usually all that is required.

**6 CONTENTS UNCONTAMINATED AND STABLE** The stainless steel container of the 'Medihaler' is sealed except when the spray is released.

**7 ROBUSTNESS** The 'Medihaler' cannot be broken with normal usage.

THE 'MEDIHALER' CAN BE CARRIED IN THE WAISTCOAT POCKET AND USED WITH PRESS-BUTTON SIMPLICITY.

For treating the Asthma patient the following

'Medihaler' products are available:

'Medihaler Epi'	(Adrenaline Bitartrate B.P.)
'Medihaler Iso'	(Isoprenaline Sulphate)
'Medihaler Cort'	(Hydrocortisone Acetate)

#### PRICES AND PACKS
