his important new book

AN OUTLINE OF HUMAN RELATIONSHIPS

"Its purpose is to examine from a practical standpoint the relations between human beings at each succeeding phase of life—in the family, in the school, in society, and in the world at large. Through all these crises he offers himself as a guide, philosopher and friend . . . In my view of all the valuable and interesting volumes that Dr.

Chesser has written, this is unquestionably the best."

How do YOU tackle flat foot?

... do you prescribe an external wedge on the shoes?

BUT the wedges soon wear away; and very often the child is made to feel self-conscious because his shoes look different from other children's.

Surely it's more logical to have a wedge built-in between the inner and outer sole—invisible, and completely unaffected by wear or repair of the shoe. That is how Start-rite INNERAZE shoes are made; why they are the only practical solution to this problem.

Information from Mr. W. J. Peake, James Southall & Co. Ltd., Grome Road, Norwich.

SAFETY *with* EFFICIENCY in antiseptics

Long and comprehensive experience has fully demonstrated the value of Dettol in general practice, obstetrics and surgery.

It is well-tolerated on the skin and tissues in high concentrations.

It is an efficient bactericide:—

Dettol will destroy the following organisms in 10 minutes at 20 degrees C. in the dilutions given:—

| | |
|---------------------------|----------|
| Staph. aureus: | 1 in 200 |
| S. typhi: | 1 in 350 |
| Strept. pyogenes: | 1 in 500 |
| Bact. coli: | 1 in 250 |
| Ps. pyocyanea: | 1 in 40 |
| Myco. tuberculosis: | 1 in 200 |
| Sh. shigae: | 1 in 400 |

Different strains can vary widely in resistance, but the figures quoted are representative.

Dettol efficiency is well maintained in the presence of organic material.

A dilution of 1 in 50 will kill Staph. aureus in the presence of 25% blood in 5 minutes.

It is compatible with soap.

"Unlike the other antiseptics, Dettol appeared to have its activity increased by the presence of soap, and against Staph. pyogenes the effect was one of true synergism." (British Medical Journal, 28th July, 1956).

It is non-poisonous.

It does not stain linen, etc.

It is stable in solution.

For pre-operative skin preparations—Surgical Dettol, Orange, Blue or colourless.

For obstetrics and prevention of cross-infection—Dettol Antiseptic Cream.

For instrument disinfection—Instrument Dettol.

a positive nitrogen balance by infusion

When disease, injury, pre- or post-operative requirements make normal feeding impossible, Trophysan provides the nitrogenous materials the body needs for tissue replacement. It contains:

- 1 All the essential amino acids and glycine.
- 2 Trace minerals and vitamins to promote protein synthesis.
- 3 Sorbitol to ensure an adequate supply of energy.

Trophysan is available in a variety of concentrations, with or without sorbitol, to satisfy a wide range of individual requirements. It is usually administered by intravenous infusion, but can also be given by gastro-intestinal tube or subcutaneously.

DERMATOLOGICAL DEVELOPMENT OF GREAT PROMISE

GRISOVIN

(griseofulvin Glaxo)

The first oral treatment for fungal infections of the skin

Systemic therapy of intractable fungal infections of the skin has long been recognised to be the desirable form of treatment. It can now be achieved orally with griseofulvin, an antibiotic developed by Glaxo.

In extensive trials conducted in Britain, the U.S.A. and Austria griseofulvin given by mouth has demonstrated quite remarkable and consistent activity against dermatophyte infections of the skin, hair and nails. Previously untreatable *Trichophyton rubrum* infections, some of many year's duration, have made a striking response to the antibiotic.

An introductory booklet on Grisovin is available. It summarizes existing knowledge, now accumulating rapidly, and provides a guide to treatment with this important new Glaxo antibiotic.

How well do you know the Concerto in E \flat ?

... or any other famous work? Do you know every grace note—every subtle change in harmony? If you do, you are either an expert score reader, a regular concert-goer or the owner of an Avantic DL7-35 Power Amplifier.

This amplifier has been acclaimed by the critics (see *The Gramophone*, October 1956 and *Gramophone Record Review*, April 1957) as being faultless in design, construction and performance. It has a peak power output of 54 watts and a distortion content of less than 0.05% at 20 watts sine wave output. The power response at this level is linear from 30 c/s. to 20 kc/s. With a damping factor of 50 and a rise time of only 5 microseconds, an excellent transient response is assured.

Price: £33

The Avantic SP21 Stereophonic Pre-amplifier Control Unit is now available for use with either one or two DL7-35 Amplifiers for monophonic or stereophonic reproduction. It has 6 separate inputs for each channel and 9 controls.

The **FERROMYN**

Range

▶ **TABLETS**

▶ **ELIXIR**

▶ **CAPSULES**

High tolerance is the most important factor in the replacement of iron in the anaemic patient. By prescribing FERROMYN (Ferrous Succinate) the physician is well insured against risks of nausea and other symptoms of intolerance to iron.

The mild atoxic action of FERROMYN permits maximum absorption and utilisation of the readily available iron, and produces a haemoglobin response which quickly becomes evident in the clinical improvement of the patient.

Whether the physician prefers to administer iron in tablet, capsule, or liquid form, all three are available in the FERROMYN range.

Providing these outstanding advantages :

(i) disintegration is rapid (ii) intolerance is low (iii) haemoglobin response is 1%–2% per-day.

Only Nulacin provides intragastric milk-alkali drip therapy for the ambulatory patient

"In view of the ineffectiveness of most of the tableted antacids, the milk alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy."

(*Medical Times* 1958, 1, 74)

NULACIN TABLETS have been developed so that when allowed to dissolve slowly in the mouth, they give continuous milk-alkali drip therapy and provide a treatment of peptic ulcer and other conditions associated with hyperacidity. The effectiveness of Nulacin therapy has been established by clinical work in many countries. The following are a few references to the literature:

Carefree Calendar Girl

In a very high percentage of cases Buscopan bridges what normally would be a painful monthly period. Except for the few 'difficult' cases, the patient can go about her usual business and social activities on a par with her more fortunate sisters. From the practitioner's point of view a regular prescription offers him the opportunity to dismiss the problem of spasmodic dysmenorrhoea. He can look forward to a welcome curtailing of consultations. Buscopan, unlike an analgesic, is a specific therapy and *not* symptomatic treatment. Its action is on the parasympathetic innervation of the uterus where it relieves the condition smoothly, promptly and without side-effects. Buscopan does not give rise to gastric upsets, has no effect on the higher centres and is excellently tolerated.

ACTAL AMBASSADORS

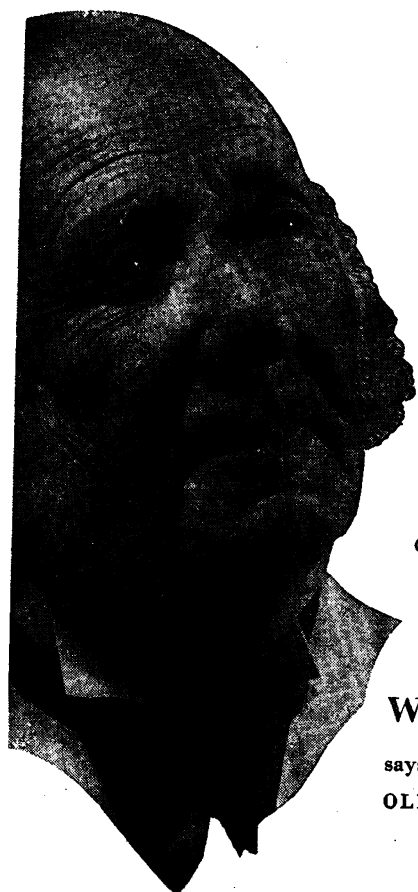

This Actal ambassador represents a very small country that is usually about to become part of a much larger country. The Government has changed at least six times during his 10 years of office, but the change usually means nothing more than a trip home and back, since the rebels never have an ambassador to replace him. He never gets called to a summit, and very rarely has the opportunity of tendering an ultimatum. The combination of too many cocktails, a surfeit of smoked salmon, and the trauma of carrying on

inane conversations in a foreign language tends to be bad for his stomach.

Fortunately for diplomatic relations, his dyspeptic pain is soon dispelled with Actal. He never has to sneak off from pompous occasions to use a bottle and spoon, because he knows that when he takes Actal he gets all the activity of a liquid antacid in tablet form. In fact, Actal is one of the few things he appreciates about being an ambassador.

His diplomatic immunity is obtained through the agency of his doctor and the makers of Actal, Bayer Products Ltd., of Kingston-upon-Thames, whose associated exporting company is Winthrop Products Ltd. To them, Actal is sodium polyhydroxyaluminium monocarbonate hexitol complex (360 mg.). They also know that the ingredient cost of a week's treatment (2 tablets t.d.s.) is only $1/10\frac{1}{2}$ d.

“Why
make
work?”

says
OLD HETHERS

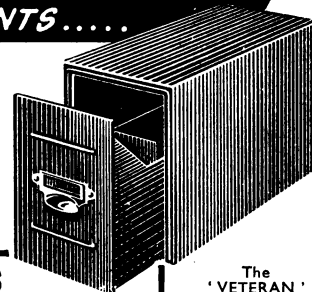

Yes, why indeed? You would think people in charge of invalids wouldn't want to make work. But so many do just that when they make barley water the old-fashioned way—with pearl barley. Introduce them to *my* way—with Robinson's 'patent' Barley. They'll bless you for it. Cheap too; a 1/7½d. pack makes forty-eight pints.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

is required by

UPJOHN OF ENGLAND LIMITED

This rapidly expanding pharmaceutical house has an important opening within its Medical Division for a qualified doctor.

Primary responsibility will be to initiate clinical studies relating to new compounds developed by the Research Division of the Company. This will be interesting work bringing frequent contact with leading clinicians and with the staff of major hospitals in this country and possibly abroad. The Company's chief interests lie in the field of steroids and antibiotics. There are, however, interesting developments in other fields of medicine.

The person selected would also be required to reply by correspondence to technical queries from practising physicians and to assist and advise management on new products and on various technical matters.

Candidates should be aged 30 to 40, and should have a strong interest in progressive pharmaceutical development. An ability to meet people readily is essential.

At a relatively early stage of employment a visit to our affiliated companies in the United States and Canada would be undertaken as part of a training programme.

Starting salary will depend on qualifications and experience. The Company operates insurance and pension plans.

Reply, with full particulars, in confidence, to the Managing Director, Upjohn of England Limited, Fleming Way, Crawley, Sussex.

Applications should be sent to Dr. Harper, Physician Superintendent, from whom further information may be obtained. (7671)

ASSISTANT DIRECTORSHIP OF RESEARCH or SENIOR ASSISTANTSHIP IN RESEARCH in the Department of Medicine

The Appointments Committee of the Faculty of Medicine hope soon to be in a position to appoint an Assistant Director of Research or a Senior Assistant in Research in the Department of Medicine from December 1, 1959, to work in the field of Medical Psychology. The appointment will be subject to the Statutes and Ordinances of the University, and will be for a period of not more than four years. The pensionable stipend of an Assistant Director of Research in this department is £1,200 a year, rising by annual increments of £100 to £1,700 a year, or, if the person appointed is ordinarily resident in College, £1,100 a year, rising by annual increments of £100 to £1,600 a year. The pensionable stipend of a Senior Assistant in Research in this department is £1,000, rising by annual increments of £50 to £1,300, or, if the person appointed is ordinarily resident in College, £900, rising by annual increments of £50 to £1,200 a year. In each case a non-pensionable allowance of £50 a year is paid for each dependent child who is under the age of 16 or is in receipt of full-time education. The pensionable stipend of an Assistant Director of Research or a Senior Assistant in Research who is a Fellow of a College with dividend is subject to a deduction of £300 a year, or, in a particular case, on the application of the officer to the Financial Board, of an amount £50 less than the actual dividend, whichever is the less. The stipend may also be subject to a deduction if the officer holds a substantial College administrative office. The General Board, if the Appointments Committee so recommend, may give an Assistant Director of Research or a Senior Assistant in Research a number of years' seniority for the purpose of determining his stipend. A limited contribution may be made towards the removal expenses of the person appointed, and towards travelling expenses if these are necessarily high. Further information may be obtained from the Secretary of the Appointments Committee. Candidates should send ten copies of their application, together with the names of not more than three referees, to Dr. G. A. Gresham, Secretary of the Appointments Committee of the Faculty of Medicine, the Medical School, Tennis Court Road, Cambridge, so as to reach him not later than October 19, 1959. (7594)

UNIVERSITY OF GLASGOW AND ROYAL
FACULTY OF PHYSICIANS AND SURGEONS

Postgraduate Medical Education Committee

PRIMARY EXAMINATION FOR THE
SURGICAL FELLOWSHIPS
or for the F.F.A.R.C.S.

A Course of Instruction in Anatomy, Physiology, Biochemistry, Pathology, and Bacteriology, suitable for candidates preparing for the Primary Examination of the Fellowship *qua* Surgeon of the Royal Faculty of Physicians and Surgeons of Glasgow will be held from October 12 to December 11, 1959. (The Primary Examination conducted by the Glasgow Royal Faculty is accepted by the Royal Colleges of Surgeons of Edinburgh, of England, and in Ireland in lieu of the corresponding examinations of these Bodies.)

The course will comprise a total of approximately 180 hours' instruction given daily from Mondays to Fridays, between the hours of 12 noon and 5.30 p.m.

The course will be open to junior staff of hospitals in the Western Region of Scotland and also to other suitable applicants. Applicants not employed in the hospitals of the Western Region may, if they wish, be given an honorary clinical attachment to one of the surgical teaching units.

The fee for the course is £30.

A modified form of the course is available for

trainees in Anaesthetics. This modified course will provide nine weekly sessions on the Pharmacology of the Anaesthetic Drugs in place of the sessions on Embryology in the surgical course.

Trainees in Anaesthetics who are unable to take the complete course may enrol for the Pharmacology Course alone at a fee of £6.

For further details and syllabus of the course, application should be made to the Convener of the Postgraduate Medical Education Committee, The University, Glasgow, W.2.

FINAL EXAMINATION FOR THE SURGICAL
FELLOWSHIPS

A course of lectures and demonstrations in Surgery, Surgical Pathology, Bacteriology, and Radiology, designed for the Final Fellowship Examinations of the Royal Colleges of Surgeons and of the Royal Faculty of Physicians and Surgeons, will be held from September 28 to October 23, 1959.

The lectures and demonstrations will be held daily, except on Saturdays, from 12 noon until 5 p.m. The fee for the course is £15 15s.

A scheme of clinical attachments is available for those desiring clinical instruction. The fee for the clinical attachments is £5 per month.

Further particulars can be obtained from the Convener of the Postgraduate Medical Education Committee, The University, Glasgow, W.2.

REFRESHER COURSE FOR GENERAL
PRACTITIONERS

A Refresher Course of one week's duration, designed for General Practitioners, will be held at Stobhill General Hospital, Glasgow, N.1, from September 21 to 26, 1959. The course will consist, so far as possible, of bedside discussions and clinical conferences. Sessions will deal with General Medicine, including Cardiology and Haematology, General Surgery, Orthopaedics, Gynaecology, Ophthalmology, Dermatology, and Urology.

Lunch will be available at the hospital.

N.H.S. practitioners may, under certain conditions, be eligible for Government grant; for others the fee is £5 5s.

Since the number of places is limited, those wishing to attend should make early application to the Convener of the Postgraduate Medical Education Committee, The University, Glasgow, W.2, from whom further information may be obtained.

COURSE IN MENTAL DEFICIENCY

A short intensive Postgraduate Course in Mental Deficiency will be held from October 5 to October 23, 1959.

The course will comprise:

(a) Lectures and demonstrations in various aspects of mental handicap and mental deficiency;

(b) Instruction in mental testing;

(c) Visits to institutions.

Fee: £18.

The Course will be limited to 25 practitioners, places being allocated in order of return of application forms, which may be obtained from the Convener of the Postgraduate Medical Education Committee, The University, Glasgow, W.2. (7596)

Osmosis and a non-irritant aperient

THE USE of harsh purgatives is widely, and rightly, under criticism, and it is worth drawing attention to the fact that there is a generally used aperient that operates by an entirely different principle.

Andrews functions *osmotically*. The balanced mixture of salts in its formula draws water through the walls of the bowel, increasing the fluid content. It does *not* irritate the intestine, but produces easy evacuation without griping.

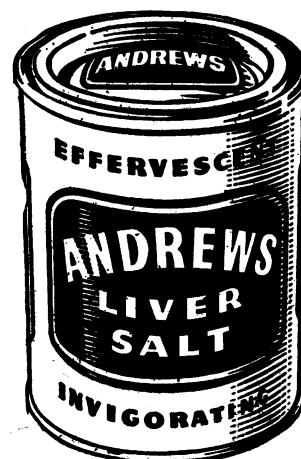

The action of Andrews is thus as simple and natural as any aperient can be. It has further advantages. It is mildly alkaline, improves the flow of bile and helps to check biliousness and sick headaches. And its pleasant taste makes it readily acceptable to patients of all ages.
