CLUKES ELECTRIC HAIRCLIPPER

The Essential Instrument for: THE INSTANT AND
PAINLESS REMOVAL OF
HAIR BEFORE OPERATIONS

TIONS

This light-weight precision instrument is now being used with success in hospitals, for the instant and painless removal of hair from the head or any other part of the body before operations. The hollow-ground blade enables a very close cut to be made, and clipping at the very fast rate of 6,000 strokes per minute gives no discomfort to the patient.

The specially designed narrow blades are invaluable for the removal of hair from inaccessible parts of the head or body. It weighs only 14 ib. and is tapered and shaped to the hand, and thus is an easy instrument for fiandling by nurses.

A Hollow ground

A. Hollow ground bottom blade as illustrated gives a shaving effect a shaving effect for the rapid and painless re-moval of hair from the head or any other or any other part of the body before operations. B. Standard blade

Semolkot

STANDARDIZED SENN

"The safest and most physiological laxative of today"

From an added foreword to "The Treatment of Constipation", Pharm. J., 1958, 181, 337.

WESTMINSTER LABORATORIES

"For three years... I have found it unnecessary to prescribe any other laxative than standardized senna ('senokot')... The pregnant woman has a choice ... of chocolate granules or tablets. And she can go on taking it nightly without ill effect".

"A laxative must be entirely safe for both mother and baby and should not adversely affect nutrition or lactation performance or be excreted in breast milk. Standardized senna (Senokot) meets these requirements".

Extract of letter: British Medical Journal, 1957, 2, 1438

Semokot

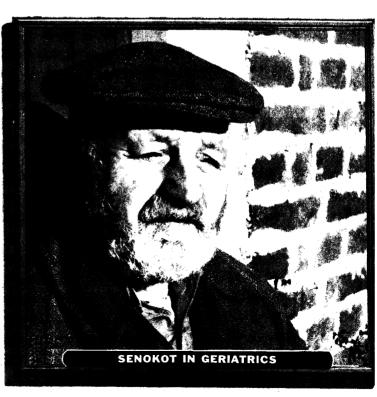

RANULES AND TABLETS

The most widely prescribed stimulant laxative under the N.H.S.

COT ROAD, LONDON, N.W.1.

"For some years we have used a standardized preparation of senna (Senokot) in the treatment of children with stubborn constipation. The usual dose is one teaspoonful nightly and this is gradually reduced and eventually discontinued".

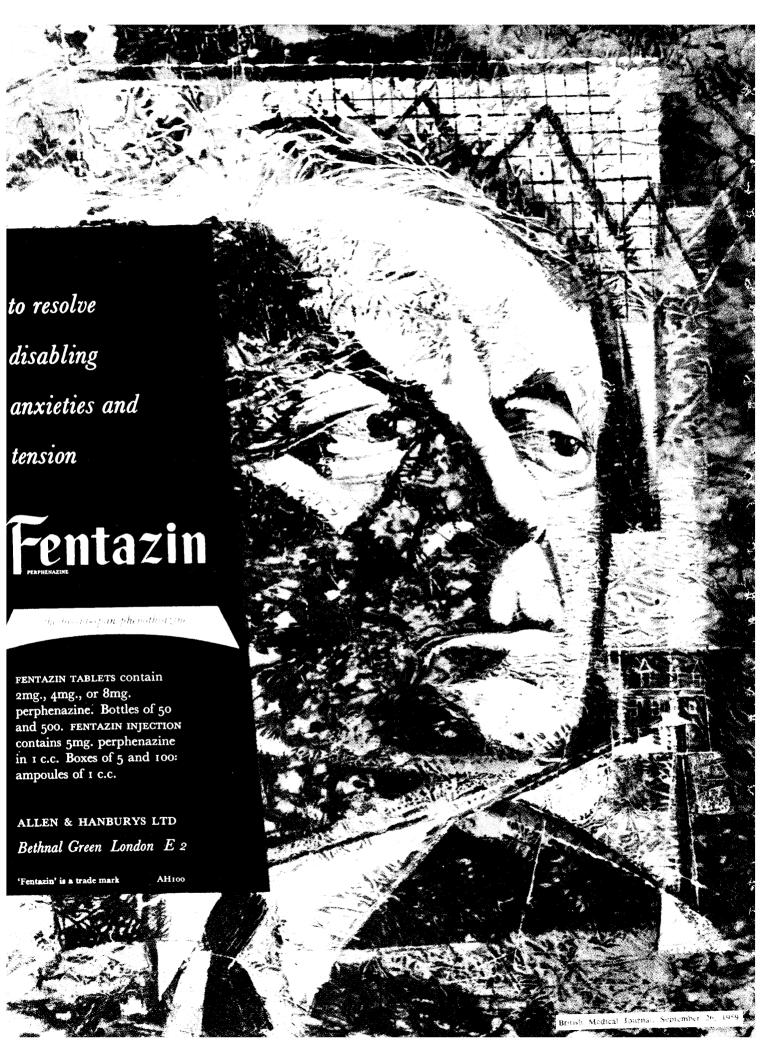

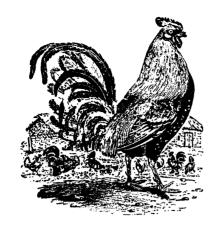

"The new standardized preparations of senna (Senokot)... do not cause pain or even abdominal discomfort, and there is never any incontinence.

The need for enemata is reduced—a great advantage when dealing with aged patients".

KENT INTRODUCE THE FIRST EVER

100% BACTERIA-PROOF FILTER

FITTED IN A HOSPITAL VACUUM

*The KENT

WHAT IS SO DIFFERENT ABOUT THE KENT FILTER?

Its remarkable 100% effectiveness. Kent research over the past three years has been towards the development of a filter that would allow free air flow yet be capable of filtering and retaining 100% of all bacteria drawn into the machine. Even 99% effectiveness could mean that a great number of micro-organisms are re-circulated in the atmosphere, but according to reliable reports the KENT MICROSTAT is 100% bacteria-proof and EXHAUSTS STERILE AIR.

WHO DEVELOPED IT?

The Kent Company of America. After an official enquiry into the problems of cross-infection, the U.S. Federal National Institute of Health invited the Kent Company to co-operate in the development of a suitable filter. Earlier this year the Kent Microstatic Impaction Filter was perfected, and exhaustive American tests by leading authorities in this field† have conclusively proved that it gives 100% retention of any bacteria which might be attached to dust particles.

 \dagger J.A.M.A. 170: 261, 1959 (and further research data to be published).

HAS IT BEEN TESTED IN THIS COUNTRY?

Yes. By various hospital bacteriologists who have reported on their findings to Hospital Management Committees. It has been offered for test to the Ministry of Health, and the Microstat machine is at present undergoing a mechanical test in the Ministry of Works. Kent will loan, entirely without obligation, a MICROSTAT to any hospital wishing to carry out their own tests.

WHAT IS THE LIFE OF THE FILTER?

The filter is a bacteria trap of an essential physical nature and as such does not quickly lose its effectiveness. Continuous tests have so far been unable to detect any reduction in efficiency whatsoever.

The Kent Microstat Model is a mobile hospital vacuum cleaner, powered by two § h.p. motors, but is nevertheless, for the power transmitted, exceptionally quiet in operation. Kent have been a leading supplier of hospital cleaning equipment for the past 50 years, and thousands of Kent machines are now in use in hospitals and institutions throughout the world.

Available for the first time in this country, Kent equipment is manufactured by a wholly British Company.

Write or ring NOW for full details.

Your patient will prefer

DECADRON

because unlike other steroids it promotes a natural sense of well-being

An unexpected but very acceptable finding during widespread experience with 'Decadron' is that in a great variety of disorders patients report that they feel better. This healthy sense of improvement is particularly felt by patients who have previously been treated with other steroids, and, as a result, their co-operation during a prolonged and difficult illness is much easier to obtain. Reduction in the incidence and severity of many of the side-effects associated with the older steroids (e.g. oedema and hypertension) has made possible the treatment of patients with cardiovascular disease, and the relative freedom from diabetogenic effect allows 'Decadron' to be given to diabetics when indicated. Thus, the discovery of 'Decadron' has increased still further the number of patients who may now be given the immense benefits of corticosteroid therapy.

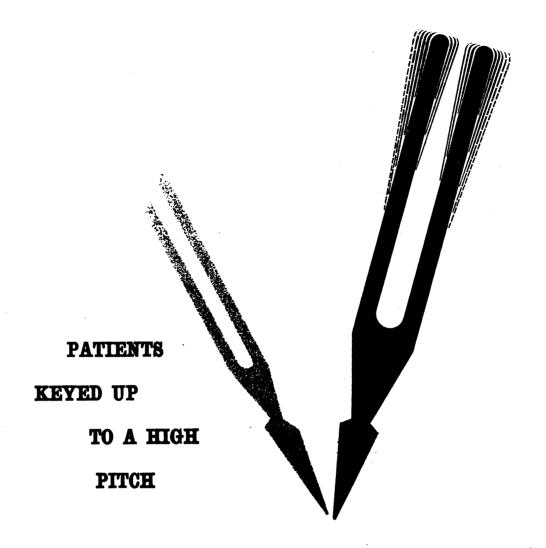

^{&#}x27;Decadron'-75 (0.75 mg.), green, half-scored tablets.

Something new for coughs

Thorpax syrup

a new non-narcotic antitussive

'Thorpax' is a palatable syrup for the relief of unproductive or exhausting coughs. The active constituents are dimethoxanate hydrochloride, a recently discovered potent antitussive, and 'Nilergex' — isothipendyl hydrochloride, the new highly effective non-sedative antihistamine.

A single dose of 'Thorpax' produces an almost immediate response and is effective for 3-5 hours. During this period voluntary clear-

ing of the airways remains adequate.

'Thorpax' is well tolerated by patients of all ages and does not cause sedation, respiratory depression, gastric disturbance or constipation.

Being non-narcotic and non-addictive it is eminently suitable for long-term treatment.

Thorpax syrup

In 3 fl. oz. bottles. Basic N.H.S. cost: 2/8d Dispensing packs of 40 fl. oz. also available.

Each teaspoonful (3.5 ml.) contains 25 mg. dimethoxanate hydrochloride and 1.25 mg. 'Nilergex' (isothipendyl hydrochloride) in a palatable syrup.

Threadworms can be eradicated in ONE WEEK

Roundworms can be eradicated in ONE DOSE

Treatment with 'ANTEPAR' is safely effective without fasting, purging, or other supporting measures. 'ANTEPAR' paralyses the worms, and they are then expelled by normal peristalsis.

'ANTEPAR' Elixir is supplied in bottles of 4 fl. oz. and 20 fl. oz. It contains the equivalent of 500 mgm. of piperazine hydrate per fl. dr. 'ANTEPAR' Tablets (for chewing) are issued in strip packs of 20 and bottles of 250. One tablet is equivalent in strength to 1 fl. dr. of Elixir.

'ANTEPAR'

Children like it . . . worms don't

1 OPTIMUM PARTICLE SIZE The Particle size is important. On it depends the amount of the drug that reaches the lower respiratory tract and remains there. The critical size for particles is from 2 to 5 microns diameter. over 80% (by weight) of The Particles Propelled Through The 'Medihaler' ARE OF THIS DIAMETER RANGE.

2 A POWDER AEROSOL Powder aerosols are superior to liquid sprays. They usually produce more rapid effects and they do not increase the fluid volume in the respiratory tract. 'Medihaler' particles are suspended in an inert, propellent ilquid. On projection the liquid vaporises instantaneously leaving the particles of *powder* fully suspended, their homogeneity unimpaired.

3 SIMPLICITY IN OPERATION The 'Medihaler' can be used at any time, anywhere, in any circumstances by any person, old or young.

4 NEUTRAL AEROSOL Many established nebuliser solutions have a strong acid reaction. These solutions on prolonged usage can cause damage to the bronchial mucosa. The 'Medihaler' powdered aerosols are quite neutral.

5 A MEASURED DOSE The special metering valve incorporated in the 'Medihaler' provides a measured dose at each operation—an important factor in the use of potent anti-asthmatic drugs—and one inhalation is usually all that is required.

6 CONTENTS UNCONTAMINATED AND STABLE The stainless steel container of the 'Medihaler' is sealed except when the spray is released.

7 ROBUSTNESS The 'Medihaler' cannot be broken with normal usage.

THE 'MEDIHALER' CAN BE CARRIED IN THE WAISTCOAT POCKET AND USED WITH PRESS-BUTTON SIMPLICITY.

For treating the Asthma patient the following 'Medihaler' products are available:
'Medihaler Epi' (Adrenaline Bitartrate B.P.)

10 unknown diabetics in every GP's care...

The diabetic population of Great Britain numbers almost 500,000—yet only about half of them are known and under treatment. Statistically this means that every general practitioner has more than ten undetected diabetics in his care.

These unknown diabetics are at risk. Many already show retinal changes and other vascular abnormalities at the time of diagnosis. These changes are often irreversible: their prognosis could only be improved by early diagnosis and treatment of diabetes. CLINISTIX* is the best aid to the diagnosis of diabetes. This simple dip-and-read test is specific for glucose: it takes only a few seconds, and has the correct sensitivity for significant results. Every patient whose urine is positive to CLINISTIX should be regarded as a potential diabetic.

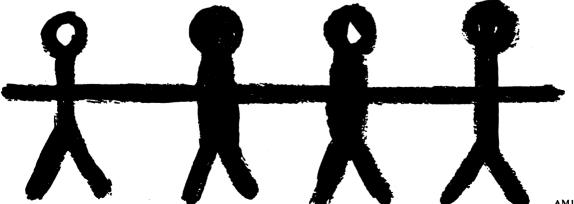

to detect diabetes simply dip-and-read Clinistix

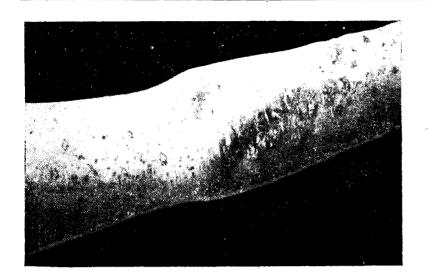

CLINISTIX Reagent Strips are available in bottles of 60 strips. U.K. Retail Price 6/-, less professional discount. From all chemists.

New approach to

PSORIASIS

Hitherto intractable—now good response to alphosyl

THOUGH modern medicaments have brought almost dramatic relief to many forms of skin affection, Psoriasis has so far remained intractable. Its aetiology continues to baffle investigation: many forms of tried therapy have yielded only partial or temporary results.

Now ALPHOSYL—after extensive clinical trials—shows promise of bringing total clearances in many cases of Psoriasis.

In ALPHOSYL, for the first time, are presented in combination two powerful and proved agents: allantoin and a specially refined coal tar extract. The synergistic effects of these medicaments result in rapid clearance of the condition itself and positive stimulation of the healing processes.

ALPHOSYL LOTION combines these two valuable agents in one preparation and has yielded good clinical results where other medications have failed.

Clinical Properties

ALPHOSYL LOTION

relieves the condition and promotes healing by breaking up the horny layer of psoriatic skin, removing non-viable tissue and combating both the scaling and underlaying erythema and induration.

has produced successful results in cases of psoriasis when the whole of the body has been affected from scalp to toe, in cases of many years' duration or when tender areas such as the anogenital and sub-mammary regions are affected.

is safe to use, and does not cause irritation even when applied to tender areas. There are no hazards such as are present when compounds of poisonous substances are employed.

does not produce tolerance, and even if after therapy is discontinued symptoms should re-occur, there is no "rebound"—that is, they are no worse than before medication—and on resuming ALPHOSYL the condition clears up as promptly as before.

is a welcome advance cosmetically, as it is pleasant to use, non-greasy, non-staining, and vanishes on application to the skin. It may be used freely on the scalp, and is ideal for day or night use.

The impressive successes obtained with ALPHOSYL indicate that it deserves a trial in all cases of Psoriasis—no matter how extensive the area of affection, how long the duration of the condition, or whatever the therapy previously used.

References: "Clinical Medicine," Vol. 5, No. 4, April, 1958; and "Ohio State Medical Journal," Vol. 55, No. 6, June, 1959.

liberation from the distress and misery of Psoriasis

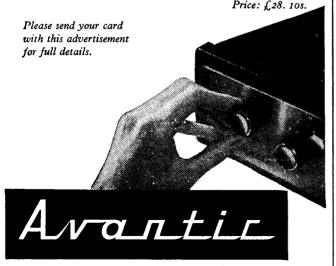

How well do you know the Concerto in Eb?

... or any other famous work? Do you know every grace note—every subtle change in harmony? If you do, you are either an expert score reader, a regular concert-goer or the owner of an Avantic DL7-35 Power Amplifier.

This amplifier has been acclaimed by the critics (see *The Gramophone*, October 1956 and *Gramophone Record Review*, April 1957) as being faultless in design, construction and performance. It has a peak power output of 54 watts and a distortion content of less than 0.05% at 20 watts sine wave output. The power response at this level is linear from 30 c/s. to 20 kc/s. With a damping factor of 50 and a rise time of only 5 microseconds, an excellent transient response is assured.

Price: £33

The Avantic SP21 Stereophonic Pre-amplifier Control Unit is now available for use with either one or two DL7-35 Amplifiers for monophonic or stereophonic reproduction. It has 6 separate inputs for each channel and 9 controls.

"G-SUIT" FOR LEG ULCERS

In principle, the technique embodied in the "G (gravity) suit" worn to prevent black-outs in tight turns has many resemblances to the application of Elastoplast elastic adhesive porous bandages in the treatment of gravitational ulcers. Both are supportive; both rely upon proper stretch and regain.

In certain cases where other procedures cannot be carried out on account of systemic disease or the patient's timidity, the veins can be assisted in their normal function by the pressure of an Elastoplast porous adhesive bandage. It is essential to have firm compression, but the usual crepe bandage or elastic stocking may not, in certain cases, afford sufficient support. The remarkable stretch and regain properties of Elastoplast ensure constant and correct compression.

Elastoplast elastic adhesive porous bandages are available in 3-yard lengths and 2", $2\frac{1}{2}$ " and 3" widths. Prescribable on form E.C. 10.

Limb should first be covered vertically, with overlapping strips of Elastoplast about 12" long. Small holes should be cut in strips covering the ulcer to permit drainage of discharge. An Elastoplast bandage is then applied from toes to knee, enclosing the heel. Holes are cut in the bandage overlapping the ulcer. An absorbent pad is held in place on the outside of the bandaged leg, so that it can be changed.

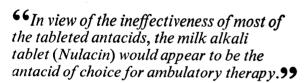

Elastoplast

Oral penicillin therapy makes another notable advance with the introduction of 'Distaquaine' V-K Suspension. This is the first and only ready-prepared suspension of potassium penicillin V—the highly efficient oral penicillin already widely prescribed in 'Distaquaine' V-K Tablets. Now, with the introduction of 'DQV-K' Suspension, the benefits of potassium penicillin V are made conveniently available to all your patients, from 'the youngest to the oldest. Smooth in consistency and particularly pleasant to take, 'DQV-K' Suspension is fully effective in teaspoon doses.

SUSPENSION

'Distaquaine' V-K Suspension is available in bottles of 60 ml. (approx. 2 fl. oz.). Each 5 ml. teaspoonful contains 125 mg. penicillin V, acid, as potassium salt. Basic Cost to N.H.S.—8s. 10d.

The long life of B.C.G. Vaccine Glaxo enables standardisation and safety tests to be completed on every batch before it is issued. When you receive the vaccine you can rely upon its potency for a full year—which gives great flexibility in arranging immunisation programmes. Made in this country by Glaxo, the vaccine is easy to obtain (available on Ministry contract) and simply prepared for intradermal use with Water for Injection. Freeze-dried B.C.G.Vaccine Glaxo produces a satisfactory Mantoux-conversion without undesirable reaction.

ANY QUESTIONS?

Second Series. • Third Series—with Cumulative Index

Price 7s. 6d. each (by post 8s. 3d.)

These pocket-size volumes each contain some 200 questions and expert answers from the "Any Questions?" pages of the *British Medical Journal*. Each answer has been chosen for its practical value to doctors in their day-to-day work. Many deal with subjects not covered in the standard textbooks.

The Third Volume has a cumulative index to all the answers appearing in the three books in the series.

Obtainable from booksellers or by post from Publishing

REFRESHER COURSE FOR GENERAL PRACTITIONERS

- Second Collection
- Third Collection, with Classified Contents list to volumes 1, 2 and 3

Price 25s. each (by post 26s. 9d.)

Each book contains a collection of sixty Refresher Course articles from the *British Medical Journal*. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what is old and well-established and to tell him about new developments.

They are invaluable to general practitioners and residents as practical reference books, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as up-to-date and reliable text-books.

The Third Collection has a cumulative classified contents list to the three volumes of "Refresher Course for General Practitioners."

From booksellers or by post from Publishing Manager

BRITISH MEDICAL ASSOCIATION

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in wriging from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

- (a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.
- (b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff. (ii) Fully registered medical practitioners: £600 12s. per annum for any post held:

provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable

- (b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.
- (c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsicility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

CITY OF BULAWAYO (Southern Rhodesia)

VACANCY FOR MEDICAL OFFICER (Tuberculosis)—Male

VACANCY FOR MEDICAL OFFICER
(Tuberculosis)—Male
City Health Department

Applications are invited from qualified experienced male medical practitioners for this full-time pensionable post. The commencing salary payable will be within the range £1.620 to £2.304 a year, and will depend on past experience and qualifications. Duties attached to the post will include responsibility for anti-tuberculosis work carried out by the City Council (principally among the African population), for the care and treatment of tuberculosis patients in the Council's Infectious Diseases Hospitals (at the present time this involves the care of 82 African patients), for the organization and control of the Council's programme of Mantoux testing, B.C.G, inoculations and contact tracing, including a possible Mass Miniature Radiography scheme, and for such other duties that may be allocated from time to time. A wide knowledge of tuberculosis, its control and treatment, is essential, and previous experience in Mass Miniature Radiography will be a recommendation. A transport allowance will be payable at standard rates to the successful applicant, who will be required to provide his own motor car for his official duties. Membership of the Southern Rhodesia Joint Pension Fund and the Council's Medical Aid Society is compulsory, and the successful applicant will be required to submit a satisfactory medical certificate of fitness. The successful applicant will be required to register with the Southern Rhodesia Medical Council at his own expense, and private practice will not be permitted. Applications, stating age, whether married or single, nationality, details of experience and qualifications, together with a recent passport-type photograph, the names and addresses of two referees and copies of testimonials, should be sent to the Medical Officer of Health, P.O. Box 1946, Bulawayo, Southern Rhodesia, with a copy to Davis and Soper Ltd., 52/54, St. Mary Axe, London, E.C.3. The closing date for the receipt of applications is October 16, 1959. Add

ST. ANDREW'S HOSPITAL, NORTHAMPTON FOR Nervous and Mental Disorders

President: The Earl Spencer, Medical Supt., Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.H. This registered hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided. MOULTON PARK.—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. MIk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and

fruit-growing.

WANTAGE HOUSE.—This is a reception hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department of Diathermy and high frequency treatment. It also contains laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-YNEUADD HALL.—The seaside house of

ment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short scaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

An effective pattern of protection..

The increasing use of inoculation against Poliomyelitis does not dispense with the necessity for using other proved methods of prevention.

On the contrary—such methods should be more widely and more thoroughly applied.

'In Poliomyelitis epidemics, where a large proportion of the virus hosts are symptomless carriers—a vigorous health education programme...directed at raising the standards of personal hygiene...coupled with measures to raise individual resistance to Poliomyelitis virus infection by strengthening active immunity, offers best hope of success.'

For inactivating Poliomyelitis virus, 'Oxidising agents seem to be the most active chemical disinfectants.' 2

'An oxidising agent of great potency is Domestos which, when used at concentration of from 1 to 2 ozs. per gallon, provides a level of available chlorine in the range 150 to 1,200 parts per million—sufficient to inactivate the Poliomyelitis virus.' 3

A pattern of protection against Polio is assured by using domestos, which destroys Poliomyelitis virus—

- (a) For Lavatories. Overnight contact will destroy heavy soiling and give a free residual chlorine content which will inactivate virus contaminants. The exterior of the bowl and the seat which frequently come into contact with the hands of children, should always be washed with a domestos solution.
- (b) For the disinfection and cleaning of dishes, floors, kitchen surfaces, sinks, etc.
- (c) For safeguarding against the infection of food by bluebottles, flies, vermin.
 - (d) For the disinfection of yards, paths, etc,
- (e) For the disinfection and cleaning of clogged drains.
- 'Topical Aspects of Poliomyelitis'; 'Journal of the Royal Society of Health' Dec. 1956.
- World Health Organisation Technical Report Series, No. 81, 'Expert Committee on Poliomyelitis'.
- 3. Domestos Technical Report D.R. 82A.

RIKER LABORATORIES LIMITED

Adjusted Formula

for the easy removal of ear wax

Since some sensitive individuals occasionally complain of a mild smarting in the ear when Cerumol is used, a slight adjustment has been made to the formula and base.

The efficacy of the product is unchanged but the possibility of producing any unpleasant sensation has been eliminated.

Pack for surgery use: 10 ml. Vial—separate dropper included—Basic N.H.S. Cost 2/8d.

Pack for hospital use: 2 oz. bottles.

The formula is now as follows: Active constituents per 100 ml.

p-dichlorobenzene B.P. 2 G.
Benzocaine B.P. 2.7 G.
Chlorbutol B.P. 5.0 G.
Ol. Terebinth B.P. 10 ml.

If you would like to test this slightly adjusted formula please write or telephone us for a sample.
